**Staff information:** Principal: James Robinson; AP: Jaclyn Wolff; AP: tygima Steele; BOM: David Mitchell; OM: Lisa Jimenez.

**Instructional strategies:** Rocketship uses an enhanced rotational school model where students rotate between literacy and integrated mathematics classrooms and a Learning Lab, which is a larger room with computers where students learn by using online programs in math and literacy and also focus on key technology literacy skills like typing. Tutors are present in the Learning Lab to track students' online learning progress and work with small groups of students who are behind grade level..

**Curriculum:** Students are exposed to a well-rounded curriculum that includes reading, writing, English language development, mathematics, science and technology, and social studies. The Rocketship curriculum follows all required state performance standards for what students should know and be able to do at each grade level. This includes the Common Core State Standards for English/Language Arts, English Language Development, and Mathematics.
