

Number Story

Name: _____

Question:

Two sisters, Divya and Danya, are playing a game where they try to throw a ball at a target.

If the center of the target is exactly 20 feet from where they were throwing, who got closer to the target and how much closer did they get?

Type the calculations/math you did here

My Answer is:

Write a number sentence that matches your work below:

Explain why your answer makes sense:
