

Join a New PK-3 Community School that Supports the Whole Family

Rocketship Public Schools Texas is a **tuition-free elementary public charter school** that prepares today's dreamers to become tomorrow's leaders. Our PK-3rd grade school is more than just a place to get a great education, we identify families' needs and partner with local organizations to help eliminate issues that might become barriers to learning.

One key way we do this is through our CareCorps Program.

See back for more details →

CareCorps Supports Parent In & Outside of the Classroom

Rocketship partners with other organizations in the community to **provide families with access to local resources** such as:

- Housing, rental, and utility services
- Mental health services
- Community centers that offer extracurriculars, tutoring, and more

We connect families to these organizations and support them from the application stage to when they're receiving the services. We also check in with them to make sure they're getting what they need and answer any questions along the way.

Connect with our CareCorps Team

Interested in enrolling in our free CareCorps program?

Contact Angela McCutcheon-Jones, Rocketship's CareCorps Manager, at **amccutcheon-jones@rsed.org** or scan the code to fill out the application form.
