- Written medical authorization, signed by a licensed health practitioner, that states:
    - The name of the student;
    - Emergency contact information for the student's parent/guardian;
    - Contact information for the student's licensed health practitioner;
    - The name, purpose, and prescribed dosage of the medication and route of administration;
    - The frequency that the medication is to be administered;
    - The possible side effects of the medication as listed on the label;
    - The circumstances under which the medication may or must be administered;
    - Other medication the student may be receiving at home;
    - Special instructions or emergency procedures;
    - In the case of self-administered medication, confirmation that the student has been instructed in the proper technique for self-administration of the medication and has demonstrated the ability to self-administer the medication effectively.

- Written authorization, signed by the student's parent/guardian, that states:
    - That a trained employee or agent of the school may administer medication to the student in accordance with all applicable state laws and regulations; or
    - in the case of self-administration, the student may possess and self-administer the medication at Rocketship, at Rocketship-sponsored activities, and while on Rocketship-sponsored transportation; and

    - that the name of the student may be distributed to appropriate school officials, as determined by the Principal.

- Written acknowledgment that any person assisting in the self-administration of medications to students or performing health care procedures, including administration of medication, shall not be liable in any court of law for any injury resulting from the reasonable and prudent assistance in the self-administration of medication or the reasonable performance of health care procedures, including administration of medications, if performed pursuant to this Policy.

Immediately following any changes regarding the health or treatment of the student, the parent/guardian must submit an amended Medication Authorization Form to Rocketship. All Medication Authorization Forms must be updated at least annually.

A student who self-administers medication while at school, at a school-sponsored activity, or while on school-sponsored transportation for a purpose other than their own treatment will be subject to disciplinary action in accordance with Rocketship's Student Discipline Policy. Such disciplinary action shall not limit or restrict the access of a student to their prescribed medication. Rocketship will promptly notify the student's parent/guardian of any disciplinary action imposed.

IMMUNIZATIONS

To promote the health and well-being of all students, and to comply with state laws and regulations, Rocketship requires all students to present proof of certain immunizations prior to beginning school at a Rocketship campus.

Required Immunization Records and Reports
The Tennessee Department of Health requires that all students enrolling in Kindergarten, and new enrollees in a Tennessee school in grades other than Kindergarten, receive the following immunizations:

- Diphtheria-Tetanus-Pertussis
- Poliomyelitis: final dose on or after 4th birthday required
- Hepatitis B (HBV)
- Hepatitis A: total of two doses, spaced at least six months apart
- Measles, Mumps, Rubella (two doses of each, usually given together as MMR)
- Varicella (two doses, or history of disease)

The Tennessee Department of Health requires that all students enrolling in Kindergarten, and new enrollees in a Tennessee school in grades other than Kindergarten, receive the following immunizations:

- Diphtheria-Tetanus-Pertussis
- Poliomyelitis: final dose on or after 4th birthday required
- Hepatitis B (HBV)
- Hepatitis A: total of two doses, spaced at least six months apart
- Measles, Mumps, Rubella (two doses of each, usually given together as MMR)
- Varicella (two doses, or history of disease)

Certification
The certification of immunization must be submitted by either a private physician, their representative, or the public health authorities that the student is immunized. Certifications must be updated each year that a student enrolls in Rocketship.

A certification that is provided by a private healthcare professional, physician, or representative must be submitted electronically to the public health authorities. A certification that is provided by the public health authorities will be electronically transmitted directly to the school.

Exemptions
Under Tennessee law, a Rocketship student may be exempted from the certification of immunization requirements in Tennessee if:

- An authorized physician indicates that specific vaccines are medically exempt because of risk of harm. Other vaccines remain required. The medical reason for the exemption does not need to be provided.
- The student's parent/guardian provides a signed statement, affirmed under the penalties of perjury, that vaccination conflicts with the family's religious tenets or practices.

HEAD LICE

If a student is suspected of having head lice (i.e., constant itching or tickling feeling in the hair), the school nurse or other trained school employee may examine the hair of the suspected student for lice or nits (lice eggs). In certain circumstances, the employee may also examine other members of that student's household who are students at the school.

If a student is positive for live head lice, parents will be alerted and students may be sent home for appropriate treatment.

Exposure Notice
If there are two or more students affected in any class, Rocketship will send home an exposure notice with information about head lice to all parents/guardians in that class. Rocketship will maintain the privacy of students identified as having head lice and excluded from attendance.

Absences and Returning To School

Rocketship will provide parents/guardians of affected students with instructions on how to conduct post-treatment examinations on their children. Parents/guardians may send their child back to school when they believe that the child's hair is no longer infested with head lice. The school nurse or other trained staff members may reexamine the student's hair upon return. If the student shows no trace of live head lice, the student may return to school.

Any absences related to head lice will be documented and counted as an excused absence in accordance with Rocketship's Attendance and Truancy Policy. Parents should not withhold the child from school for any days longer than necessary; typically, no more than three days. Any absences longer than three days may require a doctor's note. If the family is unable to obtain a doctor's note, the family should arrange to have a meeting with the school to discuss the length of absence. The school has the discretion to excuse additional days if school staff determine this is necessary.

SAFETY PLANS

Safety is our first priority. To make sure our staff and students know what to do in case of an emergency, we follow a rigorous calendar of staff training, safety team meetings, campus walkthroughs, and safety drills. Every school is equipped with a detailed Health and Safety Plan that contains our emergency response plans, including plans for earthquakes, fire, severe weather, and lockdowns.

Please refer to your school's addendum for your school's detailed evacuation locations and directions.

Emergencies

In order for us to keep our campus safe during an emergency, we need our families to understand the following:

- In the event of an emergency, we will share information with families via our automated calling system. Please make sure your updated contact information is in our system.
- If there is an incident on or near our campus, please stay at home and wait for instructions from our school leaders. We need the public to stay away while we secure our campus and account for all students. When it is safe to come to the school, you will be contacted.
- After an emergency incident, we may need to change the way we dismiss students. You may be asked to present a photo ID in addition to your child's Walker/Rider card. Please wait for instructions from school leaders before coming to campus.

WEAPONS AND FIREARMS

Local law specifically prohibits the knowing possession or carrying of a firearm within 1,000 feet of the campus. Consistent with that law, Rocketship prohibits any weapons, imitation firearms or dangerous objects of any kind in school buildings, on school grounds or buses, or at off campus school-related or school sponsored activities, with the exception of weapons and/or firearms in the possession and/or control of law enforcement officers and security officers.

DRUGS, ALCOHOL, AND TOBACCO

Rocketship is committed to maintaining campuses free of alcohol, smoke, and illegal drugs. No one may smoke on campus and may not bring alcohol or illegal substances of any kind to our school.

If a student is suspected of being under the influence of drugs or alcohol, the school will immediately contact their parent/guardian and, when appropriate, seek medical attention. If a student is found in possession of drugs, alcohol, or tobacco products, they will be subject to discipline and possible suspension or expulsion under Rocketship's discipline policies.

CAMPUS SEARCHES AND SEIZURES

To protect the safety of all students, staff and the community, Rocketship reserves the right to search a student's person, personal property, and school property assigned to the student when there is reasonable suspicion that the student violated a Rocketship policy and/or state/federal law. All searches shall be authorized and conducted by a member of the school leadership team in the presence of an adult witness.

Student desks, cubbies and lockers, are school property and remain at all times under the control of the school. Student desks, cubbies, and lockers may not be used to store unauthorized, illegal, or contraband materials. The acceptance and use of school facilities and/or the presence on school campus by any student, shall constitute consent by the student to the search of such school facilities, student property, student use areas, by authorized school personnel and/or law enforcement.

Similarly, at their discretion and where they deem appropriate, Rocketship school leaders may confiscate a student's mobile/smartphone/ personal electronic device.

To ensure the safety of the school community, when there is reasonable suspicion, an individual is in violation of Rocketship's Campus Access and Visitors Policy and/or local or federal laws, Rocketship retains the right to require a property search as a condition to enter campus.

INTERNET SAFETY AND ACCEPTABLE USE

Rocketship uses advanced education technology to support personalized instruction for all students and facilitate comprehensive data analysis. Rocketship adheres to the federal requirements and guidelines set forth in the Children's Internet Protection Act (CIPA) (47 U.S.C. § 254(h)).

Visit http://www.ifea.net/cipa.html to view CIPA in its entirety.

Definitions

"Minor" means any individual under 18 years of age.

"Technology protection measure" means a specific technology that blocks or filters Internet access to visual depictions that are:

- Obscene, as that term is defined in 18 U.S.C. § 1460;
- Child Pornography, as that term is defined in 18 U.S.C. § 2256; or
- Harmful to minors, as that term is defined below.

"Harmful to minors" means any picture, image, graphic image file, or other visual depiction that:

- Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
- Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors. "Sexual act" and "sexual contact" have the meanings defined in 18 U.S.C. § 2246.

An authorized person must be able to disable the blocking or filtering measure during any use by an adult to enable access for bona fide research or other lawful purposes.

Educational Purpose

Rocketship's Internet system is limited to educational purposes. Acceptable activities include classroom activities and high-quality research. Rocketship computers are not to be used for entertainment purposes unless specifically authorized by a staff member in accordance with this policy.

Technology Protection Measures

To the extent practicable, Rocketship will use technology protection measures to block or filter Internet, or other forms of electronic communications, access to inappropriate information. Specifically, as required by CIPA, blocking shall be applied to visual depictions of material deemed obscene or child pornography,

or to any material deemed harmful to minors. The selected technological filter will be designed to prevent a user from sending, receiving, viewing, or downloading materials that are harmful to minors.

Subject to staff supervision, technology protection measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes.

Inappropriate Network Usage
In accordance with CIPA, the following uses of Rocketship Internet system are considered unacceptable:

- Unauthorized access, including "hacking." This includes logging in through another person's account and accessing another person's files; making deliberate attempts to disrupt the computer system; destroying data by spreading computer viruses; and downloading software without the explicit consent of a staff member. Rocketship students shall immediately notify a teacher if they have identified a possible security problem.
- Unauthorized disclosure, use, and dissemination of personal identification information regarding minors. This includes posting a student's personal contact information (i.e., name, email address, home address, telephone number, school address) through email or through websites that solicit personal information, social networking websites, and Internet chat rooms.
- Illegal activities. This includes using the Internet to engage in any illegal act, including, but not limited to, arranging for a drug sale or the purchase of alcohol, engaging in criminal gang activity, or threatening the safety of another person.
- Inappropriate online behavior. This includes using obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language while online; engaging in personal attacks or cyberbullying, including prejudicial or discriminatory attacks; and knowingly or recklessly posting false or defamatory information about a person or organization on any websites.
- Plagiarism.
- Accessing inappropriate material. This includes material that is designated for adults only or is profane or obscene (i.e., pornography), or harmful to minors, material that advocates illegal or dangerous acts, or material that advocates violence or discrimination.

Supervising and Monitoring
It shall be the responsibility of all members of the Rocketship Schools team to educate, supervise and monitor appropriate usage of the access to the Internet, including electronic mail by and within the Charter School. Procedures for disabling or otherwise modifying any technology protection measures shall be the responsibility of Rocketship's Executive Director or their designated representatives.

Staff shall monitor students while they are using Rocketship computers, laptops, or tablets to access the internet or online services on a Rocketship campus and may have teacher aides, student aides, and volunteers assist in this monitoring. Parents/guardians are required to supervise and monitor their child's use of Rocketship equipment including but not limited to their child's access to the internet and any online

services through such equipment any and all times during which any Charter School equipment is being used by their child outside school facilities or school hours to ensure compliance with this policy. Parents/Guardians are encouraged to discuss internet safety with their children.

Training

Rocketship will provide age- appropriate training for students and staff who use Rocketship computers and network. The training provided will be designed to promote Rocketship's commitment to:

- The standards and acceptable use of Internet services as set forth in this policy.
- Student safety with regard to Safety on the Internet; appropriate behavior while online, on social networking Web sites, and in chat rooms; and cyberbullying awareness and response.
- Appropriate communication between staff and students via the internet, social media, and text messages or phone calls.
- Compliance with the E-Rate requirements of the Children's Internet Protection Act ("CIPA").

Disciplinary Action

Students should expect only limited privacy in the contents of their personal files or record of web research activities. Record maintenance and network monitoring may lead to the discovery that a student has violated this Policy and/or the law. If there is reasonable suspicion of violation of law or school policy, Rocketship will conduct a search of the student's files and/or internet activities. A student's parent/guardian may request to see the content of a student's files or emails.

Student use of Charter School's computers, networks, and Internet services is a privilege, not a right. Compliance with the Charter School's policies and rules concerning computer use is mandatory. Students who are found to have violated this policy or any relevant laws will be disciplined in accordance with Rocketship's Discipline Policy.

Rocketship will cooperate fully with local or federal officials in any investigation related to any illegal activities conducted on the school computers or through the school internet network.

Copyright Law

Copyright law protects the ownership of a person's creative works. In an educational setting, students and staff are permitted to use others' works under the Fair Use Clause, if they meet the restrictions and cite the work.

Liability

Rocketship Public Schools is not responsible for any financial obligations arising through the unauthorized use of its computers and/or internet system. A student's parent/guardian can be held financially responsible for any harm to Rocketship's Internet system arising from a student's intentional misuse.

CHILD ABUSE AND NEGLECT

All school personnel are mandated reporters of suspected abuse and/or neglect. Mandated reporters are required to report when they know or suspect that a student has been or is in danger of being subjected to any of the following: mental injury; physical abuse; physical assault; neglect; sexual abuse; sexual exploitation; sexual assault; exposure to illegal drug-related activity, including ingestion of an illegal drug due to parent/guardian neglect; or exposure to domestic violence in the student's home. Additionally, mandated reporters must make a report when they suspect or know that a student has been injured by a bullet, knife, or other sharp object.

No one in the workplace, even a supervisor, is permitted to suppress, change, or edit a report of abuse. A mandated reporter who fails to report suspected incidents of child abuse or neglect is subject to punishment under state law. Reporters are not required to discuss their suspicions with families prior to reporting the matter to the appropriate authorities, nor are they required to investigate the cause of any suspicious marks, behavior or condition prior to making a report. Consistent with state law, the identity of Mandated Reporters cannot be disclosed to the family or anyone else not directly involved in the investigation of the case. Mandated Reporters will not be held liable for reports made which are determined to be unfounded provided the report was made in "good faith."

PARENT INVOLVEMENT

ROCKETSHIP'S COMMITMENT

Rocketship Commitment – At Rocketship, we fully commit to our families and students in the following ways:

- We will create a safe place to learn.
- We will respect the background, culture, and individuality of each child.
- We will communicate regularly with you about your child's progress and special needs during family conferences, progress reports and as needed or requested by the family.
- We will leverage small group instruction to realize our goal of 1.2 years of growth on the NWEA MAP assessment. In addition, 40% of all 3rd and 4th graders will be proficient on TNReady state assessments.
- We will hold high expectations for all students.
- We will leverage Social-emotional learning (SEL) and enrichment activities to support emotional well-being.
- We will work hard to help your child feel successful and increase their sense of self-worth.
- We will provide your child with the academic base and help them to establish the kind of moral compass they need to be successful in college, their career and for the rest of their lives.

- We will provide support to you and your child as you determine the best educational path upon graduating from Rocketship.
- We will provide reasonable access to staff, opportunities to volunteer and participate in their child's classroom, and observation of classroom activities.
- We will ensure regular two-way communication between family members and school staff, and, to the extent practicable, in a language that family members can understand.
- We will provide regular opportunities to attend school community meetings and other school-sponsored events that are meaningful and worthwhile. Including opportunities for parents to engage with one another and engage with vendors and specialized care providers.
- We will seek opportunities to improve the lives of our community outside of school.
- We will communicate a student's need for any specialized programs (i.e., English Language Learner, Integrated Special Education, etc.) in clear terms so parents understand the method for determination and the program plans.

PARENTS'/GUARDIANS' COMMITMENT

Parents'/Guardians' Commitment- We fully commit to Rocketship in the following ways:

- We will always help our child in the best way we know how, and we will do whatever it takes for him/her to learn and prepare for college and life by supporting him/her and encouraging him/her to adhere to his/her "commitment to excellence."
- We will make sure our child arrives at school on time every school day.
- We will make arrangements so our child can remain at school until the end of the school day each day and be picked up when school ends.
- We will follow all arrival and dismissal regulations and parking and busing procedures.
- We will make sure our child follows the Rocketship dress code.
- We will ensure that our child is reading or being read to every night and monitor television viewing.
- We will check our child's homework every night, sign his/her agenda, and we will carefully read and sign (if requested) all the papers our school sends home to us.
- We will meet regularly with teachers to discuss our child's progress and support their work to help our child excel.
- We will participate in as many school activities including parent/family meetings, exhibition nights, community meetings, open house nights, conferences, etc. as reasonably possible.
- We will strive to contribute as many partnership hours to the school community as reasonably possible.
- We, not the school, are responsible for the behavior of our child.
- We will care for school library books and return them within a week for others to use. We will pay for any lost book.

- We will participate, as appropriate, in decisions related to their children's education and the positive use of extracurricular time.

STUDENTS' COMMITMENT

Students' Commitment- We fully commit to our education in the following ways:

- I will work hard everyday
- I will follow the school's rules
- I will be respectful to ourselves, others, and our environment
- I will take responsibility for our learning, actions, and achievement
- I will be empathetic to our world
- I will attend school daily, be prepared for class, and complete assignments to the best of my ability.
- I will learn and obey school and bus rules and instructions given by the school principal and staff.
- I will bring only those materials to school or onto the bus that are allowed.
- Follow directions of the bus driver.
- I will remain properly seated, back against the seat, bottom against the bottom of the seat, and keep my hands to myself while on the bus.
- I will remain seated until it is time to get off the bus. The open door is the signal for me to get up from my bus seat.

PARENT PARTNERSHIP

Engaged parents are a core pillar of Rocketship's model and critical to our Rocketeers and their long-term success. By actively being included and involved in our schools and their Rocketeers' learning, parents become integrated into the fabric of the school community. An active partnership between families and Rocketship faculty and staff benefits our Rocketeers as they see their parents on campus, and families as they gain a deeper understanding of Rocketship's model and are positioned to reinforce Rocketship's core values at home.

Rocketship encourages families to participate in Parent Partnership Hours each year by supporting or engaging in various school activities. Participation is not required, and there are no consequences or penalties for families who are unable to complete the requested hours.

HOME VISITS

Studies have shown that meaningful parental involvement in the education of their children can have dramatic effects on student achievement. Home visits help parents and teachers come together as equal partners to form a trusting relationship centered on student learning, establish goals for the individual child and the parent-teacher relationship, and invest families in the Rocketship community.

Each Rocketship student will receive a home visit from their core classroom teachers during the beginning of each school year. Teachers will reach out to families to schedule the home visit in advance. Home visits typically last for about one hour.

What happens during home visits may vary according to both parent and teacher preference, but typically home visits include:

- Collaborative academic and personal goal-setting for the student
- Discussion of the student's (and the family's) hopes and dreams
- Discussion of the student's interests both inside and outside of the classroom
- Discussion about communication preferences during the school year
- Explanation about Rocketship's policies and procedures that parents have questions about
- Talking about the history of Rocketship and the mission of the network and school
- Conversations about why the family chose Rocketship, how long they have lived in their community, etc.
- Invitation to an upcoming event at the school (i.e., Back to School Night, community meeting)
- Conversation about the teacher's background

PARENT OPPORTUNITIES ON CAMPUS

We provide many different opportunities for you to stay involved with your child's education. These include (but are not limited to):

- **Family Orientation.** Before school begins each year, parents will receive an invitation to an Orientation. All parents must attend this event.
- **Conferences.** A parent/guardian must attend conferences to meet with teachers to go over a student's progress report and/or report card.
- **Community Meetings.** All parents/guardians are invited and strongly encouraged to attend the scheduled Community Meetings. These meetings will help you stay informed regarding your school procedures and policies and become actively involved in further developing the school's mission.
- **Parent/Family Meetings.** All parents/guardians are invited and strongly encouraged to attend the scheduled Parent/Family Meetings to maintain an active role in their child's learning. These meetings are open to the entire family and typically take place on the weekends or on a weeknight.

- **Leadership groups at the school.** This may include a Parent Leadership group or other parent groups organized at the school.

OPEN MEETING POLICY

All meetings of the Rocketship Education Tennessee Board of Trustees will comply with applicable open meetings law. Agendas will be posted publicly in advance and Rocketship shall also make meeting minutes publicly available upon approval.

NOTIFICATIONS OF RIGHTS AND ASSURANCES

NOTIFICATION OF RIGHTS UNDER FERPA

The Family Educational Rights and Privacy Act ("FERPA") affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 business days after the day the School receives a request for access.

   Parents/guardians or eligible students should submit to the School Principal or designee a written request that identifies the records they wish to inspect. The School Principal of designee will make arrangements for access and notify the parent/guardians or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent/guardian or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

   Parents/guardians or eligible students who wish to ask the School to amend a record should write to the School principal or designee, clearly identify the part of the record they want changed and specify why it should be changed. If the School decides not to amend the record as requested by the parent/guardian or eligible student, the School will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing. If the School decides to amend the record as requested by the parent/guardian or eligible student, the School Principal must order the correction or the

removal and destruction of the information and inform the parent or eligible student of the amendment in writing.

3. The right to provide written consent before the School discloses personally identifiable information ("PII") from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception, which permits disclosure without consent, is disclosure to School officials with legitimate educational interests. A School official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the School board. A School official also may include a volunteer or contractor outside of the School who performs an institutional service of function for which the School would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another School official in performing their tasks. A School official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

   Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

   Note that Rocketship will not release information to third parties for immigration-enforcement purposes, except as required by law or court order.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Rocketship to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

   Student Privacy Office
   U.S. Department of Education
   400 Maryland Avenue, SW Washington, DC 20202

5. The right to request that Rocketship not release student names, addresses and telephone listings to military recruiters or institutions of higher education without prior written parental consent.

See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, § 99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

1. To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(*1*) - (a)(1)(i)(B)(*3*) are met. (§ 99.31(a)(1))
2. To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))
3. To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency (SEA) in the parent or eligible student's State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)
4. In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
5. To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))
6. To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction, if applicable requirements are met. (§ 99.31(a)(6))
7. To accrediting organizations to carry out their accrediting functions. (§ 99.31(a)(7))

8. To parents of an eligible student if the student is a dependent for IRS tax purposes. (§ 99.31(a)(8))
9. To comply with a judicial order or lawfully issued subpoena if applicable requirements are met. (§ 99.31(a)(9))
10. To appropriate officials in connection with a health or safety emergency, subject to § 99.36. (§ 99.31(a)(10))
11. Information the school has designated as "directory information" if applicable requirements under § 99.37 are met. (§ 99.31(a)(11))
12. To an agency caseworker or other representative of a State or local child welfare agency or tribal organization who is authorized to access a student's case plan when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student in foster care placement. (20 U.S.C. § 1232g(b)(1)(L))
13. To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K)).

Notice for FERPA Directory Information

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that the School, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information ("PII") from your child's education records. However, the School may disclose certain elements of PII that are appropriately designated "directory information" without written consent, unless you have advised the School to the contrary in accordance with the School's procedures. The primary purpose of directory information is to allow the School to include information from your child's education records in certain school publications and in certain, limited circumstances that the School may determine as appropriate for disclosure. Examples may include:

- A playbill, showing your student's role in a drama production
- Annual yearbook
- Honor roll or other recognition lists
- Promotion or graduation programs
- Sports activity sheets

"Directory Information" is information that is generally not considered harmful or an invasion of privacy if released. Under certain circumstances, within the School's sole discretion, Rocketship may disclose the PII that it has designated as directory information without a parent's prior written consent. In such cases, "directory information," which is defined as set forth below, may be released to requestors in limited circumstances by Rocketship, without additional notice to parents/guardians, unless the parent/guardian timely "opts out" of such disclosures, in writing.

Directory Information at Rocketship includes:

- Student name
- Parent/guardian name, mailing address(es), telephone listing and email address
- Student birth date
- Dates of attendance, Grade Level, and Enrollment Status
- Honors and awards received

If you do not want the School to disclose directory information without your prior written consent, you must submit a completed Directory Information Opt-Out Form. A Directory Information Opt-Out Form is included in annual enrollment documentation or a copy is available upon request at the main office.

Contract for Digital Storage, Management, and Retrieval of Student Records

Rocketship may enter into a contract with a third party for the digital storage, management, and retrieval of student records and/or to authorize a third party provider of digital software to access, store, and use student records, provided that the contract meets the requirements of Education Code section 49073.1 and other applicable state and federal laws.

This complete policy, included within this handbook, serves as annual notice of the policy.

EDUCATION OF FOSTER YOUTH POLICY

The Governing Board of Rocketship recognizes that foster youth may face significant barriers to achieving academic success due to their family circumstances, disruption to their educational program, and their emotional, social, and other health needs. In accordance with Section 1112(c)(5)(B) of ESEA (20 U.S.C. §6312(c)(5)(B)), all LEAs, in collaboration with the state Child and Family Services Agency, must ensure the implementation of the foster care provisions under ESEA.

Rocketship Liaison

In order to help facilitate the enrollment, placement, and transfer of foster youth to Rocketship, the Governing Board shall designate a Rocketship foster youth liaison. The Governing Board designates the following position as Rocketship's liaison for foster youth:

Sara Escamilla -Guerra
2001 Gateway Place Ste. 230E
San Jose, CA 95110
sguerra@rsed.org
408-726-1999

Identification

The Tennessee Department of Education (TDOE) has identified the TDOE's Student Nutrition List as the most accurate listing of students in foster care placements available to schools. Rocketship will review the TDOE's Student Nutrition List through the Tennessee: Meals, Accounting, and Claiming (TMAC) portal to identify currently enrolled students who have been placed into foster care. In addition to reviewing the TDOE Student Nutrition List, Rocketship may also review additional information provided through the Rocketship registration process, and the Orion system to identify students who may qualify as foster youth.

Educational/School Stability Protections

Taking into account the child's best interest, a child in foster care should remain in the same school that they attended before placement (the "school of origin"). CFSA is tasked with making the best interest determination and will seek input from the school serving as the child's school of origin.

When a determination is made that it is NOT in the child's best interest to remain in the school of origin, the child must immediately be enrolled in the new school, regardless of whether the child's records or other documentation typically needed for school enrollment can be produced. The enrolling school must immediately contact the previous school to obtain academic and other records. When there is a discrepancy over the best interest, the decision will be made in consultation with Rocketship, the local child welfare agency, and the Commission.

Transportation

Rocketship and the CFSA shall complete a student-level transportation agreement for every foster child who requires school stability transportation services in order to get to and from their school of origin. The transportation agreement must identify all the resources, including no-cost and low-cost options such as public transportation; foster parent or other family members who may be willing and able to transport the student; special education services if the student is eligible; and any other public or private transportation resources either agency has at their disposal to provide transportation to the student. Upon identifying these resources, Rocketship and the CFSA POCs must weigh the options identified to determine which mode of transportation is most immediately available, cost-effective, and appropriate to meet the child's needs given their developmental age and individual capacity.

If additional costs are incurred in providing transportation, Rocketship shall provide such transportation if the local child welfare agency agrees to reimburse Rocketship for such costs; Rocketship agrees to pay for the cost; or Rocketship and the local child welfare agency agree to share the cost. In D.C., Local Education Agencies can use Title I funding to support additional costs of school stability transportation.

Effect of Absences on Grades

The grades of a student in foster care shall not be lowered for any absence from school that is due to either of the following circumstances:

- A decision by a court or placement agency to change the student's placement, in which case the student's grades shall be calculated as of the date they left school.
- A verified court appearance or related court-ordered activity.

Definitions
"Children awaiting foster placement" means children who have been removed from their homes by CFSA and who are in emergency or interim placement but for whom a decision to secure formal foster care placement has not been made. Usually, this is a very temporary (i.e., 24-48 hour) circumstance.

"Foster care" means 24-hour substitute care for children placed away from parents or guardians and for whom CFSA has placement and care responsibility. This includes, but is not limited to, placement in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, childcare institutions, and pre-adoptive homes.

"School of origin" means the school in which the child is enrolled at the time of placement in foster care. If a child's foster placement changes, the school of origin will be the school in which the child is enrolled at the time of the placement change.

This complete policy, included within this handbook, serves as annual notice of the policy.

EDUCATION OF HOMELESS CHILDREN AND YOUTH POLICY

The McKinney-Vento Homeless Assistance Act ("the McKinney-Vento Act") is a federal law that ensures educational rights and protections for children and youth experiencing homelessness. (42 U.S.C. 11431 et seq.) This policy is written in compliance with the requirements under the McKinney-Vento Act. It addresses relevant definitions; Rocketship's Designated Homeless Liaison; general assurances regarding the education of homeless children and youth; procedures for identification and reporting; school selection; enrollment and records; transportation rights; and the enrollment dispute resolution process.

Definitions
"Homeless children and youth" mean children and youth who lack a fixed, regular, and adequate nighttime residence, and includes children and youth who are:

- Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
- Living in a primary nighttime residence that is a private or public place not designed for or ordinarily used as a regular sleeping accommodation for human beings, such as cars, parks, public

spaces, abandoned buildings or substandard housing (for example, condemned buildings or garages), bus or train stations, or other similar settings. In determining whether a housing arrangement may be deemed "substandard, the school may consider whether the setting lacks one of the fundamental utilities such as water, electricity, or heat; is infested with vermin or mold; lacks a basic functional part such as a working kitchen or toilet; presents unreasonable dangers to adults, children, or persons with disabilities. or is otherwise defined as "substandard" under local housing codes.

- Living in motels, hotels, trailer parks (does not include trailers or mobile homes in a mobile home park) or camping grounds due to a lack of alternative adequate accommodations.
- Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason.
- Living in emergency or transitional shelters.
- Abandoned in hospitals.
- Migratory children who qualify as homeless because they are living in circumstances described above.
- Unaccompanied youth includes a youth not in the physical custody of a parent or guardian.
- A child or unaccompanied youth shall be considered homeless for as long as they are in a living situation described above.

Homeless status is determined in cooperation with the parent or guardian. In the case of unaccompanied youth, status is determined by Rocketship's Liaison.

Designated Homeless Liaisons

The Rocketship Homeless Liaison serves Rocketship students in the designated region(s) below.

Sara Escamilla -Guerra
2001 Gateway Place Ste. 230E
San Jose, CA 95110
sguerra@rsed.org
408-726-1999

The Homeless Liaison is required to:

- Ensure that homeless children and youth are identified by school personnel and through outreach and coordination with other entities and agencies.
- Ensure that homeless students enroll in, and have full and equal opportunity to succeed in, Rocketship schools.
- Ensure that homeless families, children, and youth have access to and receive educational services for which they are eligible.

- Ensure that homeless families, children, and youth receive referrals to health, dental, mental health, and substance abuse services, housing services, and other appropriate services.
- Ensure that parents and guardians are informed of educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
- Ensure that public notice of the educational rights of homeless students is disseminated where children and youth receive services under the McKinney-Vento Act.
- Ensure that enrollment disputes are mediated in accordance with the dispute resolution provisions.
- Ensure that the parent/guardian of a homeless child or youth, or any unaccompanied youth, is fully informed of all transportation services and is assisted in accessing transportation services, if available and feasible.
- Ensure that school personnel receive professional development and other support.
- Assist unaccompanied youth in placement/enrollment decisions.
- Ensure that unaccompanied youth are immediately enrolled in school pending resolution of disputes that might arise over school enrollment or placement.
- Assist homeless children and youth who do not have immunizations, or immunization or medical records, to obtain necessary immunizations, or immunization or medical records
- Collaborate and coordinate with state coordinators and community and school personnel. responsible for the provision of education and related services to homeless children and youth.

Rocketship provides the following general assurances:

- Homeless children and youth shall not be segregated into a separate school or program based on their status as homeless and shall not be stigmatized in any way.
- Homeless children and youth shall be provided services comparable to those received by other students in the school, including transportation services, and education programs for which students meet eligibility criteria, such as services provided under Title 1 or similar state and local programs; programs for students with disabilities; programs for students with limited English proficiency; vocational or technical programs; gifted and talented programs; and school nutrition programs.
- Homeless children and youth will have access to district administrative level reservation of funds (set-asides) for serving homeless students.
- Rocketship shall provide homeless students with access to education and other services necessary for these students to meet the same challenging academic standards as other students.
- Rocketship shall provide and post notices of the educational rights of homeless children and youth.

Identification and Reporting

Rocketship will include the identification of homeless students and their unique educational needs in its targeted work to raise achievement for all students. Homeless children and youth will be identified through:

- The application process for enrollment (self-identification)
- School personnel recommendations
- Coordinated activities with other entities and agencies

Rocketship will comply with all federal, state, county, and other data collections and reporting requirements regarding homeless children and youth. Materials will be provided for students and parents in a language easily understood by families and students. If students or families are unable to read, additional support should be provided to explain student rights.

School Selection

Homeless students have a right to select from the following schools:

- The school they attended when permanently housed (School of Origin)
- The school in which they was last enrolled (School of Origin)
- The school in the attendance area in which the student currently resides (School of Residency)

A homeless child or youth's right to attend their school of origin extends for the duration of homelessness. If a child or youth becomes permanently housed during the academic year, they are entitled to stay in the school of origin for the remainder of the academic year.

Enrollment and Records

Homeless students may be identified at the time of enrollment (through self-reports). As all Rocketship schools are independent charter schools, and therefore schools of choice rather than assigned district schools, placement decisions are based solely on parent request through the application process. In order to provide equal access to its schools, the Rocketship annual student recruitment plan shall include efforts to reach homeless families, children, and youth via free public events, community centers, and local homeless service providers.

Homeless youth will not be discriminated against in the application process. Homeless children and youth will be immediately enrolled, if the student otherwise be eligible to attend, and subject to Rocketship's capacity and pursuant to the procedures in the charter document and board policies, even if the parent/guardian is unable to provide the school with the records normally required for enrollment such as previous academic records, birth certificate, medical records, proof of residency, or other documentation. The Rocketship designee shall immediately contact the school last attended by the student to obtain the relevant records. If the student needs to obtain immunizations or does not possess immunization or other medical records, the designee shall refer the parent/guardian to the homeless liaison. The liaison shall assist the parent/guardian in obtaining the necessary immunizations or records for the student.

In the case of an unaccompanied youth, the Designated Homeless Liaison shall assist in the enrollment process. Unaccompanied youth shall be immediately enrolled if space is available even if unable to provide the school with the records normally required for enrollment (as above), and despite lack of parent or legal guardian's supervision or permissions, or "power of attorney" by supervising adults.

In accordance with current Rocketship enrollment policies and state regulations regarding charter schools, if the grade level for which a homeless child or youth has applied has more applicants than spaces available, a random public lottery will take place in order to determine enrollment for the following school year. An "in-district" or "in-county" (depending on the type of school the student has applied to) priority will apply during the lottery to homeless youth who self-identify as homeless during the application process so as to not discriminate against homeless children or youth due to lack of permanent housing. If a homeless child or youth applies for admission after the annual random public lottery, they will be placed on the waitlist in the order in which the application was received, even if the application is incomplete at the time of submission.

Any confidential record ordinarily kept by the school, including immunization or medical records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, of each homeless child or youth will be maintained so that the records are available, in a timely fashion, when a child or youth enters a new school or school district.

Information about a student's living situation that is maintained by Rocketship is part of the student's record, subject to the protections of the Family Educational Rights and Privacy Act (FERPA). In general, FERPA prohibits a school from disclosing personally identifiable information ("PII) from students' educational records without parental consent. One exception to this general consent rule is for information that the school has designated as "directory information," which is information that would not generally be considered harmful or an invasion of privacy if disclosed. However, information regarding a student's living situation is not considered directory information and must be provided the same protections as other non-directory PII.

Transportation

Per the McKinney-Vento Act, Rocketship must provide services to homeless children and youth that are comparable to those received by other students in the school selected, including transportation. In addition, schools must provide transportation for homeless students to and from their school of origin, if feasible.

Rocketship, where feasible, at the request of the parent/guardian and/or in the best interest of the homeless child or youth, shall provide transportation to students experiencing homelessness to ensure the students are able to stay at the Rocketship school of their choice for the duration of their

homelessness. Rocketship may work with the youth's district of residence or other agencies to provide transportation services.

Enrollment Dispute Resolution Process
As required by 42 USC § 11432(g)(1)(C), schools must develop and implement written procedures for the receipt and resolution of complaints alleging violations of law with regards to enrollment and school placement as covered by the McKinney-Vento Act. The State Coordinator for the Education for Homeless Children and Youth Program will provide technical assistance to interested parties as requested and as necessary.

If a dispute arises over enrollment or school placement:

- the child or youth must be immediately enrolled in the school requested by the individual or organization submitting the complaint;
- the parent/guardian of the affected student(s) must be provided a written explanation of the school's decision regarding school selection or enrollment, including the rights of the parent, guardian, or youth to appeal the decision;
- the child, youth, parent, or guardian must be referred to the McKinney-Vento Homeless Education Liaison for the corporation, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute; and
- in the case of an unaccompanied youth, the Homeless Education Liaison shall ensure that the youth is immediately enrolled in school pending resolution of the dispute.

Rocketship Dispute Resolution Process
Disputes may arise between a Rocketship school and a homeless student or homeless parent/guardian regarding, among other things, enrollment or transportation. At such a time, the Homeless Education Liaison immediately becomes involved, and Rocketship must follow a procedure that includes these steps:

- A student must be allowed to attend or enroll in the school that is challenging the student's right to attend until a final decision is made regarding the dispute. The challenging school must provide transportation and other school services as needed to the student until the dispute is resolved.
- The dispute resolution process begins at the time a school challenges the right of either a parent or guardian, or in the case of an unaccompanied youth, to enroll a child or youth in school, to continue enrollment in school, or to receive services such as transportation assistance.
- When Rocketship challenges the enrollment or services of the child or unaccompanied youth, Rocketship must:
    - Provide notice of the challenge to the parent, guardian, or unaccompanied youth, through the Homeless Education, on the day of the challenge.

    - Provide notice of the right to appeal the challenge to the parent, guardian, or unaccompanied youth. This notice must include a form to be completed by the parent, guardian, or unaccompanied youth should they decide to appeal Rocketship's decision.
- The Homeless Education Liaison will provide the parent, guardian, or unaccompanied youth with written notice in clear, easy-to-understand language detailing the dispute resolution process.
- Rocketship will have three working days to review its initial decision and make a final decision as to the position taken (i.e., whether it will continue to challenge the right of the student to be enrolled). The decision must state all factual information upon which it is based and the legal basis in support thereof.

Pregnant and Parenting Students

Rocketship recognizes that pregnant and parenting students are entitled to accommodations that provide them with the opportunity to succeed academically while protecting their health and the health of their children. A pregnant or parenting student is entitled to eight (8) weeks of parental leave, or more if deemed medically necessary by the student's physician, which the student may take before the birth of the student's infant if there is a medical necessity and after childbirth during the school year in which the birth takes place, inclusive of any mandatory summer instruction, in order to protect the health of the student who gives or expects to give birth and the infant, and to allow the pregnant or parenting student to care for and bond with the infant. Rocketship will ensure that absences from the student's regular school program are excused until the student is able to return to the regular school program.

Upon return to school after taking parental leave, a pregnant or parenting student will be able to make up work missed during the pregnant or parenting student's leave, including, but not limited to, makeup work plans and re enrollment in courses. Notwithstanding any other law, a pregnant or parenting student may remain enrolled for a fifth year of instruction in Rocketship if it is necessary in order for the student to be able to complete any graduation requirements, unless Rocketship determines that the student is reasonably able to complete the graduation requirements in time to graduate from high school by the end of the student's fourth year of high school.

Complaints of noncompliance with laws relating to pregnant or parenting students may be filed under the General Complaint Process.

This complete policy, included within this handbook, serves as annual notice of the policy.

EDUCATION OF MIGRANT YOUTH

A student's migratory status shall not preclude a student from enrolling in a Rocketship.

Rocketship shall screen all enrolled students annually using the Occupational Survey to identify any students that may qualify for services through the Tennessee Migrant Education Program. Rocketship will

also provide migratory children with the opportunity to meet the same statewide assessment standards that all students are expected to meet.

SCHOOL MEALS NON-DISCRIMINATION NOTICE

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, prohibit Rocketship Charter School from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity.

Program information may be made available in languages other than English. Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the state or local agency that administers the program or contact USDA through the Telecommunications Relay Service at 711 (voice and TTY). Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: https://www.usda.gov/sites/default/files/documents/ad-3027.pdf, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights
1400 Independence Avenue, SW
Washington, D.C. 20250-9410; or
fax: (833) 256-1665 or (202) 690-7442; or
email: Program.Intake@usda.gov

Rocketship is an equal opportunity provider of student meals.

All complaints of discrimination or harassment that do not involve allegations of Title IX violations should be made under the General Complaint Process described under the Notification of Rights and Assurances section of this Handbook. Rocketship will report complaints received about discrimination or harassment in the School Meal Programs to the appropriate state and federal agencies as required by law.

GENERAL COMPLAINT PROCESS

Rocketship values the concerns of our parents, staff, students, and community and takes all concerns and complaints seriously. The following General Complaint Process should be employed to ensure complaints receive full consideration.

Informal Complaints
Because most difficulties can be resolved by communicating a concern to someone, complainants are encouraged to discuss their concern or complaint promptly and candidly with their student's teacher, the school Principal or the school Principal's designee. However, a complainant is not required to discuss his/her complaint in any manner or for any reason prior to initiating a formal complaint.

Use of General Complaint Process
Rocketship's General Complaint Process should be used as follows:

- To deal with complaints and concerns pertaining to the educational environment or interpersonal student conflicts.
- To allege violations of state or federal law, or of the school's charter.

Who May File a Complaint
The procedures set forth below may be used by complainants who are students, parents, or visitors. Employees should refer to the Employee Handbook for procedures specific to filing employee complaints.

Confidentiality
All documentation and information related to an investigation conducted as a result of a complaint are considered confidential and are not revealed or discussed with persons not involved in the investigation of the complaint or decision-making process.

Filing a Complaint
Complainants may file complaints verbally or in writing, and complaints may be made in person, by phone, via email or in writing using the General Complaint Form.

Complainants should follow the process outlined below when they wish to file a formal written complaint regarding school policies, procedures and/or practices. The school will respond as outlined below.

1. Fill out a General Complaint Form available at the school's front office. The General Complaint Form should be submitted to the school Principal within ninety (90) calendar days of encountering the issue that is the subject of the complaint.

2. Upon receiving a completed General Complaint Form, the school Principal or his/her designee will notify the Title IX Compliance and Civil Rights Officer as applicable if the complaint falls under the purview of the Title IX complaint procedures. The Title IX Compliance and Civil Rights Officer, in

consultation with Legal, Compliance and others, will notify state authorities of the complaint, if appropriate and/or legally required.

3. If the complaint does not otherwise fall under the purview of Title IX procedures, the Principal, or his/her designee, will conduct an adequate, reliable, and impartial investigation of the complaint. This will include interviewing witnesses, obtaining any relevant documents, collecting any other pertinent evidence, and allowing parties to provide evidence. The investigation will aim to be concluded within twenty (20) school days of receiving the General Complaint Form unless exceptional circumstances justify a more extended period within which to complete the investigation. The amount of additional time granted for an exceptional circumstance will be determined on a case-by-case basis.

4. The person who conducted the investigation (either the Principal or his/her designee) will prepare a final written report with a recommendation for resolving the complaint and will provide the final report to the Title IX Compliance and Civil Rights Officer. The final report will name the party bringing the complaint, describe the nature of the complaint, summarize the investigation, recommend one or more resolutions, and provide reasons for the recommended resolutions.

5. The parties will be informed once the investigation is complete. If required by law, the parties will be provided a copy of the final written report. If the either party is not satisfied with the school's determination, that party may appeal to the Executive Director and/or may pursue any other appeals provided by law. Appeals to the Executive Director must be submitted in writing by either party within ten (10) school days of the parties' notification of the end of the investigation. The Executive Director will review the appeal under a preponderance of the evidence standard and render a written decision within forty-five (45) calendar days.

6. If either party is not satisfied with the Executive Director's decision, that party may appeal to the Governing Board and/or may pursue any other appeals provided by law. Appeals to the Governing Board must be made in writing by either party addressed to the Board Chair and submitted to Compliance@rsed.org within ten (10) school days of the Executive Director's decision. The Board will review the appeal under a preponderance of the evidence standard and render a written decision within ninety (90) calendar days.

Prohibition Against Retaliation

Rocketship will not retaliate against any person who files a complaint in accordance with this Policy or against any person who participates in proceedings related to this Policy. In addition, Rocketship will not tolerate any form of retaliation against any person who makes a good faith report or complaint about perceived acts of harassment, discrimination, bullying, intimidation or other concern, or who cooperates in an investigation of such a complaint. Any person who is found to be engaging in any kind of retaliation will be subject to appropriate disciplinary action.

Modification
Rocketship may approve modification of the foregoing procedures in a particular case if the modification is for good cause and does not violate the due process rights of the parties involved or any policies of Rocketship.

Contact Information
The contact information for the school Principal can be found in your school's addendum and on the school's website.

Other Remedies
This complaint process does not bar complainants from filing claims in other forums to the extent permitted by state and federal law.

TITLE IX COMPLAINT PROCESS

Rocketship values the concerns of our parents, staff, students, and community and takes all concerns and complaints seriously.

Rocketship's comprehensive Title IX Policy and Grievance Procedures which contains the rules and procedures for reporting sexual harassment and for pursuing available remedies may be found on Rocketship's website. The below offers a brief overview.

Complaints under Title IX
Inquiries about the application of Title IX and 34 C.F.R. Part 106 may be referred to Rocketship's Title IX Compliance and Civil Rights Officer, to the Assistant Secretary for Civil Rights of the U.S. Department of Education, or both.

All complaints and reports of sex discrimination or sexual harassment should be submitted to our Title IX Coordinator, who can be reached at:

Title IX Compliance and Civil Rights Officer
2001 Gateway Place, Ste. 230E
San Jose, CA 95110
rthukral@rsed.org

An investigation of those complaints is conducted promptly and impartially.

Supportive Measures
Once an allegation of Title IX discrimination, sexual harassment, or retaliation has been received, the school designee and/or Title IX Compliance and Civil Rights Officer/designee will offer individualized supportive measures to ensure the safety of the parties involved and the safety of the educational

environment, to restore or preserve equal access to Rocketship's education program or activity, and to provide support during the investigation and resolution process.

Examples of supportive measures include, but are not limited to, designating a staff member to serve as that complainant's "safe" person, altering the respondent/complainant's seating or schedule to reduce access between the respondent and the complainant, creating individual safety plans, and possible consultation with the school's professional mental health service providers.

Investigation, Determination of Responsibility and Remedies
The respondent is presumed not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process. The investigation will be conducted by the Title IX Compliance and Civil Rights Officer/designee in a prompt and equitable manner to remedy the alleged violation. Rocketship will use a preponderance of the evidence standard (i.e., more likely than not that harassment occurred) when resolving complaints. If the Title IX Compliance and Civil Rights Officer/ designee determines an incident of discrimination, sexual harassment or retaliation has occurred, prompt and effective steps will be taken to end the unlawful conduct, eliminate its effects, prevent recurrence of an incident, and restore the safety of the complainant.

For additional information, please see Rocketship's Title IX Policy and Grievance Procedures available on Rocketship's website.

TITLE I PARENT INVOLVEMENT

Parent involvement is one of the three pillars of Rocketship. We work directly with parents, helping them become leaders at home, in the school, and in their communities. Our commitment to parent engagement is reinforced through our Title I Parent Involvement Initiatives.

Development and Review of Policy
Rocketship will take the following actions to engage parents in the joint development and review of its Title I Parent Involvement Policy:

- Gather and disseminate to parents for review the following materials: the Title I Parental Involvement Policy and the Title I school-parent compact. These materials will be disseminated to parents during one of the school's fall community meetings or at fall parent/teacher conferences.
- Written and oral input from parents will be solicited through regularly scheduled community meetings, parent/teacher conference feedback and regular written communications with parents.

Schools will distribute the Title I policy through the Parent/Student Handbook and/or at community meetings throughout the school year.

Involvement of Parents in the Title I Program

To involve parents in the Title I program at Rocketship, the following practices have been established:

- All parents are invited to participate in the annual review of the school's Title I programs. All flyers and notices about the meetings are disseminated by classroom and school newsletters, email, calls and posted on the website. Each year the school holds at least two meetings to review, elaborate, edit, and add goals to school programs and plans. The plan may also be discussed at meetings of the School Site Council.
- Rocketship schools provide the necessary coordination, technical assistance, flexibility, and other support to assist Title I schools in planning and implementing effective parental involvement activities to improve student academic achievement and school Performance. The school will offer monthly community meetings, workshops, and additional activities for parents. The parents will vote at community meetings held either at the end of the school year (for the following year) or at the beginning of the year (for current year) to give input on the content of community meetings and any additional workshops they would like to have. Parents who cannot attend the meetings will be invited to give input through a survey, letter, email or call to their Title I teacher.
- If the schoolwide plan is not satisfactory to the parents of participating children, Rocketship shall submit any parent comments on the plan when the school makes the plan available.
- Rocketship schools involve parents of Title I students in an organized, ongoing, and timely way, in the planning, review, and improvement of the school's Title I programs and the Title I parental involvement policy using the measures described above.
- Rocketship schools provide parents of Title I students with timely information about Title I programs through school and classroom newsletters, parent-teacher home visits, parent- teacher conferences, family events and exhibition nights, and community meetings and leadership training.
- Rocketship schools build the capacity of parents/guardians for strong parent involvement. Each school provides parents of Title I students with an explanation of the curriculum used at the school, the assessments used to measure student progress, and the proficiency levels students are expected to meet. Schools will also provide parents/guardians with assistance on how to monitor their children's progress and work with educators to improve the achievement of their children. The school shall ensure that this information is communicated to parents/guardians in a format and, to the extent practicable, language that the parent/guardian can understand.
- Rocketship schools provide opportunities for regular meetings that allow the parents to participate in decisions relating to the education of their children. This happens through community meetings, parent-teacher conferences, home visits, and school and classroom newsletters.
- If requested by parents, and to the extent not covered by any of the above options, Rocketship will provide opportunities for regular meetings to formulate suggestions and to participate, as

appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible.

- Rocketship, with the assistance of its parents, will educate its teachers, school leaders and other school staff how to reach out to, communicate with and value parents as equal partners in their children's education. The school shall inform parents/guardians of the existence of parent resource centers in the state that provide training, information, and support to parent/guardians.

This policy will be updated periodically to meet changing needs of parents and the school.

School-Parent Compact

Rocketship distributes to parents of all students a school-parent compact. The compact, which has been jointly developed with parents, outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. It describes specific ways the school and families will partner to help children achieve the State's high academic standards.

The compact will permit parents to communicate obstacles to parental involvement and Rocketship will consider discussing available resources with parents as required and appropriate.

Building Capacity for Involvement

As described above, Rocketship schools engage Title I parents in meaningful interactions with the school. Our schools support a partnership among staff, parents, and the community to improve student academic achievement. To help reach these goals, the school has established the following practices which are undertaken during regular community meetings, home visits, parent-teacher conferences, and special school events.

- Rocketship provides Title I parents with assistance in understanding the State's academic content standards, assessments, and how to monitor and improve the achievement of their children.
- Rocketship provides Title I parents with materials and training to help them work with their children to improve their children's achievement.
- Rocketship educates staff members about the value of parent contributions, and how to work with parents as equal partners. Rocketship has a Parent Leadership team, which is tasked with building parental capacity for leadership and parent involvement.
- Rocketship involves parents of all backgrounds, including those with limited English proficiency, those with disabilities, and parents of migratory students.
- Rocketship coordinates and integrates the Title I parental involvement program with other programs, and conducts other activities, such as parent resource centers, to encourage and support parents in more fully participating in the education of their children.
- Rocketship distributes Information related to school and parent programs, meetings, and other activities to Title I parents in a format and language that the parents understand.
- Rocketship provides support for parental involvement activities requested by Title I parents.

In carrying out the parent and family engagement requirements of this policy, Rocketship shall provide opportunities for the informed participation of parents and family members, including parents and family members who have limited English proficiency, parents and families who have disabilities, and parents and family members of migratory children. This includes providing information and school reports required under section 1111 of the ESEA, as amended by ESSA, in a format and, to the extent practicable, in a language such parents understand.

SCHOOL-PARENT COMPACT

Rocketship has a responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables participating students to achieve the state's student academic achievement standards.

Parents/guardians will be responsible for supporting their children's learning in a variety of ways, including but not limited to the following:

- monitoring attendance, homework completion, and television viewing;
- volunteering in the classroom, at the school, or at a school-sponsored event (not required, but Rocketship strongly encourages the completion of 20 Parent Participation hours);
- attending school community meetings and other school events;
- participating, as appropriate, in decisions related to their children's education and the positive use of extracurricular time.

Rocketship believes in the importance of communication between teachers and parents/guardians on an ongoing basis. This shall be established by:

- Parent-teacher conferences, at least annually, during which the compact shall be discussed as it relates to the student's achievement.
- Frequent reports to parents/guardians on their children's progress.
- Reasonable access to staff, opportunities to volunteer and participate in their child's classroom, and observation of classroom activities.
- Ensuring regular two-way communication between family members and school staff, and, to the extent practicable, in a language that family members can understand.
- Regular opportunities to attend school community meetings and other school-sponsored events.

NOTIFICATION OF RIGHTS UNDER COPPA

Rocketship schools use several computer software applications and web-based services, operated not by schools in our network, but by third-party vendors. We use these tools to provide students with the most

effective software and web-based services for learning. In accordance with the Children's Online Privacy Protection Act (COPPA), Rocketship consents to the vendors' collection, use, and disclosure of information obtained directly from students. Rocketship gives this consent on behalf of parents.

Under COPPA, each software provider or website operator is bound to maintain the confidentiality of the information collected, and must provide parental notification and obtain parental consent before collecting personal information from children under the age of 13. The law permits schools such as ours to consent to the collection of personal information on behalf of all of its students, thereby eliminating the need for individual parental consent given directly to the website operator. For more information on COPPA, please visit https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions.

A list of the software and services used by RSED, with the privacy policy for each, can be found on our network website at: https://www.rocketshipschools.org.

Upon request from Rocketship, vendors must provide the school a description of the types of personal information collected; an opportunity to review a child's personal information and/or have the information deleted; and the opportunity to prevent further use or online collection of a child's personal information.

Parents retain the right to request review of their child's personal information and/or have information deleted. Parents also have the right to opt their child out of participating in educational activities that involve the collection, use, or disclosure of personal information collected from their child.

NOTIFICATION OF RIGHTS UNDER PPRA

The Pupil Rights Amendment (PPRA) affords parents of elementary and secondary students certain rights regarding the conduct of surveys, collection and use of information for marketing purposes, and certain physical exams.

These include, but are not limited to, the right to:

- Consent before students are required to submit to a survey that concerns one or more of the following protected areas ("Protected Information Survey") if the survey is funded in whole or in part by a program of the U.S. Department of Education (ED)–

    1. Political affiliations or beliefs of the student or student's parent;
    2. Mental or psychological problems of the student or student's family;
    3. Sex behavior or attitudes;
    4. Illegal, anti-social, self-incriminating, or demeaning behavior;
    5. Critical appraisals of others with whom respondents have close family relationships;

6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
7. Religious practices, affiliations, or beliefs of the student or student's parent; or
8. Income, other than as required by law to determine program eligibility.

- Receive notice and an opportunity to opt a student out of –
    1. Any other protected information survey, regardless of funding;
    2. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and
    3. Activities involving collection, disclosure, or use of personal information collected from students for marketing or to sell or otherwise distribute the information to others. (This does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions.)

- Inspect, upon request and before administration or use –

    1. Protected information surveys of students and surveys created by a third party;
    2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
    3. Instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

Rocketship Education has developed and adopted policies, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. Rocketship Education will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. Rocketship Education will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation in the specific activity or survey. Rocketship Education will make this notification to parents at the beginning of the school year if it has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this direct notification requirement:

- Collection, disclosure, or use of personal information collected from students for marketing, sales, or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.
- Any non-emergency, invasive physical examination or screening as described above.

Parents who believe their rights have been violated may file a complaint with:

Student Privacy Policy Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202

This policy is intended to also fulfill the requirements and obligations set forth under T.C.A. § 49-2-211.

NOTIFICATION UNDER THE ASBESTOS HAZARD EMERGENCY RESPONSE ACT

Rocketship Education complies with all relevant laws by maintaining an asbestos management plan for any buildings we occupy, whether owned or leased, that contain asbestos-containing materials. This plan includes routine inspections and proactive communication with families and staff regarding any asbestos-related activities within the school.

CLUBS AND ORGANIZATIONS

Rocketship Schools may provide a range of clubs and organizations and availability may vary throughout the year and from season to season.

At the time this handbook was approved and printed, there are no activities, clubs, or organizations confirmed for the 2025–26 school year.

Please note that this list is subject to change after the printing of this handbook. For the most current information, families should contact their school directly.

For information about school athletics, families should contact their school directly.

TENNESSEE CHARTER SCHOOL COMMISSION ADDENDUM

Rocketship Nashville Northeast Elementary (RNNE) and Rocketship Dream Community Prep are charter schools authorized by the Tennessee Public Charter School Commission (TPCSC), which serves as the overseeing school district. This notice provides important contact information for the school district as well as a link to school district resources and information for parents and students.

The Tennessee Public Charter School Commission has school district policies and procedures that apply to all of its schools. These policies and procedures, along with additional information about the school district and its schools are located on its website.

Tennessee Public Charter School Commission District Staff:

- Executive Director: Tess Stovall (Tess.Stovall@tn.gov)

- General Counsel: Ashley Thomas (Ashley.Thomas2@tn.gov)
- Director of External Affairs: Hayden Pendergrass (Hayden.Pendergrass@tn.gov)
- Director of Finance and Operations: Melanie Harrell (Melanie.Harrell@tn.gov)
- Director of School Programs and Supports: Maggie Stampley (Maggie.Stampley@tn.gov)
- Exceptional Education Coordinator: Katie Bridges (Katie.Bridges@tn.gov)
- District Migrant, Homeless, Foster Care Liaison: Claire Seguin (Claire.Seguin@tn.gov)
- English Learner Program Coordinator: John Bowyer (John.Bowyer@tn.gov)

- Gum
- Candy
- Fast Food
- Soda

Birthday Parties/Celebrations

Rocketship is committed to ensuring the safety of all of our students, staff, and families. As such, we are typically unable to allow homemade food on campus for birthday parties or other family requested on-campus celebrations. Parents/Guardians may contact their school Principal for approval to host any celebration during the school day.

ROCKETEER CORE VALUES AND CREED

Rocketship United Academy
Five Core Values: Responsibility, Respect, Empathy, Persistence, and Gratitude.
Creed:

I am a Rocketship Rocketeer
At home, at school, and in my community
I am respectful of myself, my neighbors, and the environment
I am responsible for my learning, and actions
I show empathy and gratitude for the world
We celebrate our similarities and differences
Together we're all Rocketship Rocketeers!

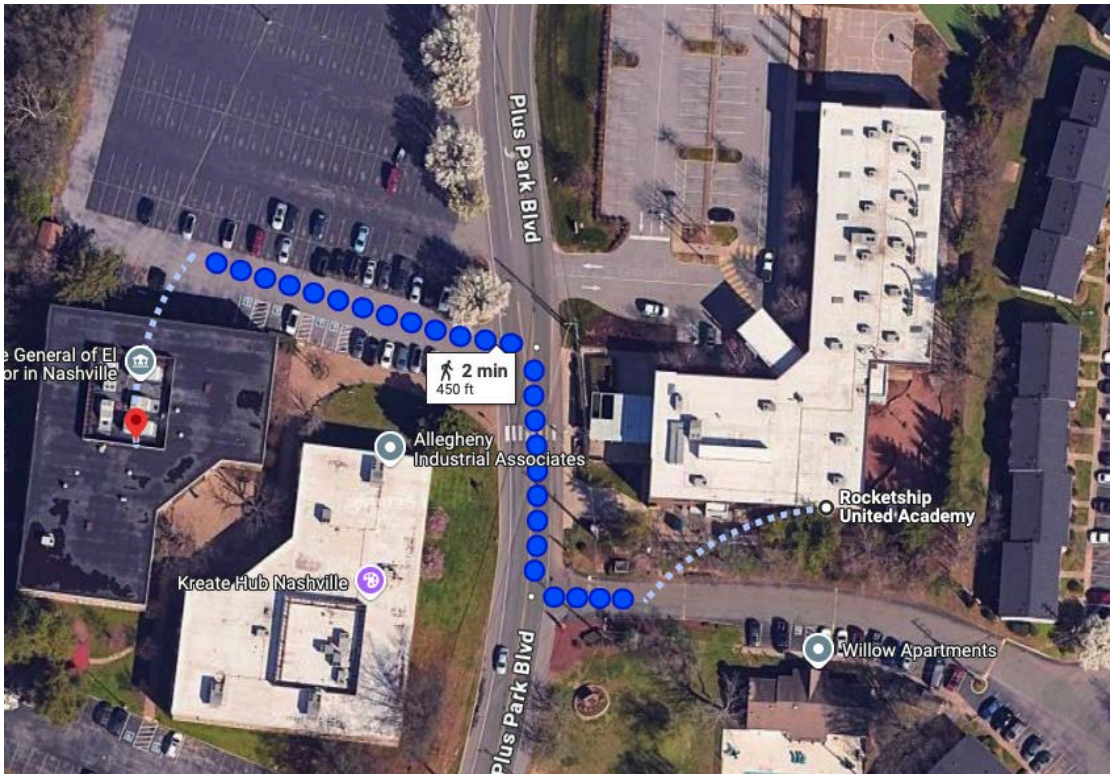
STUDENT DRESS CODE

The Rocketship United Academy uniform consists of:

- any appropriately sized khaki bottom including pants, shorts, dress, skirt, or skorts,
- a Rocketship uniform shirt or a dark purple shirt.
- any sweaters and jackets must be solid colored gray, black, or purple when worn inside the school building.
- comfortable closed toe shoes that do not restrict a student's ability to participate in physical education or other activities. Shoes without laces and/or sandals are not considered to be safe or appropriate for school.

Rocketship branded uniform shirts can be purchased from the school Office Manager. Families are not required to purchase this item as long as the student otherwise complies with the dress code by wearing a dark purple shirt (without the Rocketship logo).

SECTION 504



To support the coordination of services and compliance with Section 504, Rocketship designates a knowledgeable Rocketship staff member as the Section 504 Coordinator. Your school's Section 504 Coordinator is:

Ashley Love
RTI^2 Manager
ALove@rsed.org

SAFETY PLANS

Primary and Secondary Evacuation Sites

Rocketship United Academy's primary evacuation site is located at the Rocketship Regional Office- 311 Plus Park BLVD Nashville, TN 37217 .

Our secondary evacuation site is located off campus at Rocketship Nashville Northeast, 2526 Dickerson Pike Nashville, TN 37207. If there is a disaster at the school site or the campus is unsafe for some reason, we will evacuate to this site and parents/guardians will be notified via email/phone call providing additional information.

During an emergency dismissal, we may ask parents to meet us at this secondary evacuation site. Please be familiar with this location so you know where to go in case of an emergency dismissal.

ROCKETSHIP
PUBLIC SCHOOLS

Executive Summary
Rocketship Education
Board of Directors
June 11, 2025

Agenda Item: 7(C) **Subject:** Approve amended leases for Rocketship United Academy, Rocketship Nashville Northeast Elementary and Rocketship Dream Community Prep	X	**OPEN/ACTION**
		INFORMATION
		CONSENT

Recommendation(s):

The Asset Transfer Agreement ("ATA") between Rocketship Education ("RSED") and Rocketship Education Tennessee ("RSED-TN") contemplates the transfer of all leases related to the three RSED charter schools located in Tennessee ("Rocketship TN Schools"). The three (3) proposed Lease Amendments each change the definition of subtenant from RSED to RSED-TN ("Lease Amendments").

Regional and national leadership recommend that the RSED Board of Directors ("RSED Board") approve the attached Lease Amendments.

Background:

RSED is currently a party to three leasehold agreements that pertain to three different properties in Tennessee.

The first agreement is a lease agreement for 320 Plus Avenue, Nashville, TN, which is the site of Rocketship United Academy ("RUA Lease"). The RUA Lease is between RSED and Launchpad Development Two Nashville, LLC, a Delaware limited liability company. Under the Lease Amendment related to the RUA Lease, RSED assigns its leasehold interest to RSED-TN.

The second agreement is a lease agreement for 2526 Dickerson Pike, Nashville, TN, which is the site of Rocketship Nashville Northeast Elementary ("RNNE Lease"). The RNNE Lease is between RSED and Launchpad Development One Nashville, LLC, a Delaware limited liability company. Under the Lease Amendment related to the RNNE Lease, RSED assigns its leasehold interest to RSED-TN.

The third agreement is for 5400 Mount View Road, Antioch, TN, which is the site of Rocketship Dream Academy ("RDCP Lease"). This RDCP Lease is a sublease between RSED and Launchpad Development Nashville Three, LLC, a Delaware limited liability company. The underlying, primary lease between Launchpad Development Nashville Three, LLC as sublandlord, and TA Nashville MVR LLC, a Tennessee limited liability company, as landlord shall remain in effect until further notice. Under the Lease Amendment related to the RDCP Lease, RSED assigns its sublease interest to RSED-TN.

Summary of Previous Board Action by Board:
On August 28, 2024, the RSED Board approved material amendment applications for each of the three Rocketship Tennessee schools. The applications were submitted to the schools' respective authorizers and these sought approval to transfer governance and oversight from the RSED to RSED-TN.

On March 5, 2025, the RSED Board approved Memoranda of Understanding relating to each of the three Rocketship Tennessee schools. The MOUs codified the approved transfer of governance and oversight from RSED to RSED-TN effective July 1, 2025.

On June 5, 2025, the RSED-TN Board of Trustees approved the ATA and the Lease Amendments.

Approval of the above-referenced ATA and the Lease Amendments are on the agenda for this Board meeting.

Submitted by:
Leah Olson, Senior Legal Counsel
Ben Carson, Chief Financial Officer
Eric Dailey, Executive Director, Rocketship Education Tennessee

ASSIGNMENT AND ASSUMPTION OF LEASE

THIS ASSIGNMENT AND ASSUMPTION OF LEASE (this "***Assignment***") is dated as of June 1, 2025 (the "***Effective Date***"), by and between ROCKETSHIP EDUCATION, a California nonprofit public benefit corporation ("***Assignor***") and ROCKETSHIP EDUCATION TENNESSEE, a Tennessee nonprofit corporation ("***Assignee***").

WITNESSETH:

A. Assignor is the Tenant under that certain Lease Agreement-Rocketship United Academy effective May 31, 2019 ("***Lease***"), by and between Launchpad Development Two Nashville, LLC, a Delaware limited liability company ("***Landlord***"), as Landlord, and Assignor, as Lessee, pertaining to property located at 320 Plus Avenue, Nashville, Tennessee, as more fully described in the Lease ("***Property***").

B. Assignor desires to assign, transfer and convey Assignor's entire estate, right, title, interest, and obligations under the Lease and the Property to Assignee, and Assignee desires to acquire and assume all Assignor's entire estate, right, title, interest and obligations under the Lease and the Property.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

AGREEMENT

1. Assignor hereby assigns, transfers and conveys Assignor's entire estate, right, title, interest and obligations under the Lease to Assignee. Assignee hereby agrees to be expressly bound by the terms of the Lease and to assume all obligations of Assignor under the Lease.

2. Assignor hereby affirms and acknowledges that (a) the Lease is in full force and effect in accordance with its terms, (b) there is no default under the terms of the Lease, and (c) the Lease constitutes the valid and binding obligation of Assignor.

3. Each party agrees to perform any further acts and sign and deliver any further documents which may be reasonably necessary to carry into effect the provisions of this Assignment. Assignee shall indemnify and hold harmless Assignor from and against any and all liabilities arising under the Lease on or after the Effective Date.

4. This Assignment shall apply to and bind the parties hereto and their respective successors and assigns.

5. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have signed and delivered this Assignment as of the date first set forth above.

ASSIGNOR:

ROCKETSHIP EDUCATION, a California nonprofit public benefit corporation

By:_____

Name:_____
Title: _____

CONSENT OF LANDLORD

The Consent is made with reference to the foregoing Assumption and Assignment of Lease. Capitalized terms used in this Consent shall have the meanings set forth in the Assumption and Assignment of Lease.

The undersigned hereby (a) confirms (i) the Lease is in full force and effect in accordance with its terms, (ii) there is no default under the terms of the Lease, and (iii) the Lease constitutes the valid and binding obligation of Landlord, (b) waives the Assignor's performance of the provisions of Section 14.1.B. of the Lease, and (c) consents to Assignor's assignment of the Lease to Assignee and Assignee's assumption of the Lease as stated above. Assignor is hereby released from its obligations pursuant to the Lease.

_____,
Manager

FIRST AMENDMENT TO LEASE AGREEMENT-ROCKETSHIP UNITED ACADEMY

THIS FIRST AMENDMENT TO LEASE AGREEMENT-ROCKETSHIP UNITED ACADEMY (this "***Amendment***"), dated as of June 1, 2025, is entered into by and between LAUNCHPAD DEVELOPMENT TWO NASHVILLE, LLC, a Delaware limited liability company ("***Landlord***"), and ROCKETSHIP EDUCATION TENNESSEE, a Tennessee nonprofit corporation ("***Tenant***"), with reference to the following facts:

RECITALS

A. Landlord and Rocketship Education, a California nonprofit public benefit corporation ("***Initial Tenant***"), entered into that certain Lease Agreement-Rocketship United Academy effective May 31, 2019 (the **"*Lease*"**), for certain property commonly referred to as 320 Plus Avenue, Nashville, Tennessee (the "***Leased Premises***").

B. Effective June 1, 2025, Initial Tenant has assigned to Tenant its interest in the Lease pursuant to Section 14.1.A. of the Lease (the "***Assignment***").

C. Landlord has given its written consent to the Assignment.

D. Landlord and Tenant desire to amend the Lease to reflect the Assignment.

NOW THEREFORE, in consideration of the mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord and Tenant agree as follows:

1. **Capitalized Terms**. Unless otherwise expressly provided in this Amendment, capitalized terms used in this Amendment shall have the meanings assigned in the Lease.

2. **Definitions**. The definition of "Tenant" and of "Tenant's Address" in the Summary of Basic Lease Terms in the Lease is hereby amended to provide as follows:

Tenant:	Rocketship Education Tennessee, a Tennessee nonprofit corporation ("Tenant").
Tenant's Address:	311 Plus Park Blvd. Suite 130 Nashville, TN 37217

3. **Effect of Amendment**. This Amendment shall be effective as of June 1, 2025 (the "***Effective Date***").

5. **Counterparts/Facsimile Execution**. This Amendment may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument. Any party may transmit its signature to this Amendment by facsimile transmission or electronic mail, and such facsimile transmission or electronic mail shall be deemed an original ink signature for all purposes.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment effective as of the Effective Date.

LANDLORD:

LAUNCHPAD DEVELOPMENT TWO NASHVILLE, LLC,
a Delaware limited liability company

ASSIGNMENT AND ASSUMPTION OF LEASE

THIS ASSIGNMENT AND ASSUMPTION OF LEASE (this "***Assignment***") is dated as of June 1, 2025 (the "***Effective Date***"), by and between ROCKETSHIP EDUCATION, a California nonprofit public benefit corporation ("***Assignor***") and ROCKETSHIP EDUCATION TENNESSEE, a Tennessee nonprofit corporation ("***Assignee***").

WITNESSETH:

A. Assignor is the Tenant under that certain Lease Agreement-Nashville Northeast Elementary effective February 1, 2017 ("***Lease***"), by and between Launchpad Development One Nashville, LLC, a Delaware limited liability company ("***Landlord***"), as Landlord, and Assignor, as Lessee, pertaining to property located at 2526 Dickerson Pike, Nashville, Tennessee, as more fully described in the Lease ("***Property***").

B. Assignor desires to assign, transfer and convey Assignor's entire estate, right, title, interest, and obligations under the Lease and the Property to Assignee, and Assignee desires to acquire and assume all Assignor's entire estate, right, title, interest and obligations under the Lease and the Property.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

AGREEMENT

1. Assignor hereby assigns, transfers and conveys Assignor's entire estate, right, title, interest and obligations under the Lease to Assignee. Assignee hereby agrees to be expressly bound by the terms of the Lease and to assume all obligations of Assignor under the Lease.

2. Assignor hereby affirms and acknowledges that (a) the Lease is in full force and effect in accordance with its terms, (b) there is no default under the terms of the Lease, and (c) the Lease constitutes the valid and binding obligation of Assignor.

3. Each party agrees to perform any further acts and sign and deliver any further documents which may be reasonably necessary to carry into effect the provisions of this Assignment. Assignee shall indemnify and hold harmless Assignor from and against any and all liabilities arising under the Lease on or after the Effective Date.

4. This Assignment shall apply to and bind the parties hereto and their respective successors and assigns.

5. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument.

FIRST AMENDMENT TO LEASE AGREEMENT-
NASHVILLE NORTHEAST ELEMENTARY

THIS FIRST AMENDMENT TO LEASE AGREEMENT-NASHVILLE NORTHEAST ELEMENTARY (this "***Amendment***"), dated as of June 1, 2025, is entered into by and between LAUNCHPAD DEVELOPMENT ONE NASHVILLE, LLC, a Delaware limited liability company ("***Landlord***"), and ROCKETSHIP EDUCATION TENNESSEE, a Tennessee nonprofit corporation ("***Tenant***"), with reference to the following facts:

RECITALS

A. Landlord and Rocketship Education, a California nonprofit public benefit corporation ("***Initial Tenant***"), entered into that certain Lease Agreement-Nashville Northeast Elementary effective February 1, 2017 (the **"*Lease*"**), for certain property commonly referred to as 2526 Dickerson Pike, Nashville, Tennessee (the "***Leased Premises***").

B. Effective June 1, 2025, Initial Tenant has assigned to Tenant its interest in the Lease pursuant to Section 14.1.A. of the Lease (the "***Assignment***").

C. Landlord has given its written consent to the Assignment.

D. Landlord and Tenant desire to amend the Lease to reflect the Assignment.

NOW THEREFORE, in consideration of the mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord and Tenant agree as follows:

1. **Capitalized Terms**. Unless otherwise expressly provided in this Amendment, capitalized terms used in this Amendment shall have the meanings assigned in the Lease.

2. **Definitions**. The definition of "Tenant" and of "Tenant's Address" in the Summary of Basic Lease Terms in the Lease is hereby amended to provide as follows:

Tenant:	Rocketship Education Tennessee, a Tennessee nonprofit corporation ("Tenant").
Tenant's Address:	311 Plus Park Blvd. Suite 130 Nashville, TN 37217

3. **Effect of Amendment**. This Amendment shall be effective as of June 1, 2025 (the "***Effective Date***").

5. **Counterparts/Facsimile Execution**. This Amendment may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument. Any party may transmit its signature to this Amendment by facsimile transmission or electronic mail, and such facsimile transmission or electronic mail shall be deemed an original ink signature for all purposes.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment effective as of the Effective Date.

ASSIGNMENT AND ASSUMPTION OF LEASE

THIS ASSIGNMENT AND ASSUMPTION OF SUBLEASE (this "***Assignment***") is dated as of June 1, 2025 (the "***Effective Date***"), by and between ROCKETSHIP EDUCATION, a California nonprofit public benefit corporation ("***Assignor***") and ROCKETSHIP EDUCATION TENNESSEE, a Tennessee nonprofit corporation ("***Assignee***").

WITNESSETH:

A. Assignor is the Subtenant under that certain Sublease Agreement dated March 15, 2021 (the "***Sublease***"), by and between Launchpad Development Three Nashville, LLC, a Delaware limited liability company ("***Sublandlord***"), as Sublandlord, and Assignor, as Subtenant, pertaining to property located at 5400 Mount View Road, Antioch, Davidson County, Tennessee, as more fully described in the Sublease ("***Property***").

B. Assignor desires to assign, transfer and convey Assignor's entire estate, right, title, interest, and obligations under the Sublease and the Property to Assignee, and Assignee desires to acquire and assume all Assignor's entire estate, right, title, interest and obligations under the Sublease and the Property.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

AGREEMENT

1. Assignor hereby assigns, transfers and conveys Assignor's entire estate, right, title, interest and obligations under the Sublease to Assignee. Assignee hereby agrees to be expressly bound by the terms of the Sublease and to assume all obligations of Assignor under the Sublease.

2. Assignor hereby affirms and acknowledges that (a) the Sublease is in full force and effect in accordance with its terms, (b) there is no default under the terms of the Sublease, and (c) the Sublease constitutes the valid and binding obligation of Assignor.

3. Each party agrees to perform any further acts and sign and deliver any further documents which may be reasonably necessary to carry into effect the provisions of this Assignment. Assignee shall indemnify and hold harmless Assignor from and against any and all liabilities arising under the Sublease on or after the Effective Date.

4. This Assignment shall apply to and bind the parties hereto and their respective successors and assigns.

5. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have signed and delivered this Assignment as of the date first set forth above.

FIRST AMENDMENT TO SUBLEASE AGREEMENT

THIS FIRST AMENDMENT TO SUBLEASE AGREEMENT (this "***Amendment***"), dated as of June 1, 2025, is entered into by and between LAUNCHPAD DEVELOPMENT THREE NASHVILLE, LLC, a Delaware limited liability company ("***Sublandlord***"), and ROCKETSHIP EDUCATION TENNESSEE, a Tennessee nonprofit corporation ("***Successor Subtenant***"), with reference to the following facts:

RECITALS

A. Sublandlord and Rocketship Education, a California nonprofit public benefit corporation ("***Initial Subtenant***"), entered into that certain Sublease Agreement dated March 15, 2021 (the **"*Sublease*"**), for certain property commonly referred to as 5400 Mount View Road, Antioch, Davidson County, Tennessee (the "***Leased Premises***"), pursuant to that certain Lease Agreement dated as of March 15, 2021, (the "***Lease***") by and between Sublandlord and TA Nashville MVR LLC, a Tennessee limited liability company ("***Landlord***").

B. Effective June 1, 2025, Initial Subtenant has assigned to Successor Subtenant its interest in the Sublease pursuant to Section 11 of the Sublease (the "***Assignment***").

C. Landlord and Sublandlord have each given written consent to the Assignment.

D. Sublandlord and Successor Subtenant desire to amend the Sublease to reflect the Assignment.

NOW THEREFORE, in consideration of the mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Sublandlord and Successor Subtenant agree as follows:

1. **Capitalized Terms**. Unless otherwise expressly provided in this Amendment, capitalized terms used in this Amendment shall have the meanings assigned in the Sublease.

2. **Definition**. The definition of "Subtenant" in the Sublease is hereby amended to mean and refer to Rocketship Education Tennessee, a Tennessee nonprofit corporation.

3. **Notices**. Section 12 of the Sublease is hereby amended to provide that the address of Subtenant shall be 311 Plus Park Blvd. Suite 130, Nashville, TN 37217.

4. **Effect of Amendment**. This Amendment shall be effective as of June 1, 2025 (the "***Effective Date***").

5. **Counterparts/Facsimile Execution**. This Amendment may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument. Any party may transmit its signature to this Amendment by facsimile transmission or electronic mail, and such facsimile transmission or electronic mail shall be deemed an original ink signature for all purposes.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment effective as of the Effective Date.

ROCKETSHIP
PUBLIC SCHOOLS

Executive Summary
Rocketship Education
Board of Directors
June 11, 2025

Agenda Item: 8(A) **Subject:** Approve the Prop 28 Annual Report for Fiscal Year 2024-2025 for all thirteen California Rocketship schools	X	**OPEN/ACTION**
		INFORMATION
		CONSENT

Recommendation(s):

Staff members recommend that the Rocketship Education ("RSED") Board of Directors ("RSED-Board") approve the Prop 28 Annual Report for Fiscal Year 2024-2025 for all Rocketship CA schools.

This approval is a necessary step to continue receiving the Prop 28 funds.

Background:

On November 8, 2022, California voters approved Proposition 28: The Arts and Music in Schools (AMS) Funding Guarantee and Accountability Act. The measure required the state to establish a new, ongoing program supporting arts instruction in schools beginning in 2023-24.

Arts education can include (but is not limited to) instruction and training, supplies, materials, and arts educational partnership programs for instruction in dance, media arts, music, theatre, and visual arts including folk art, painting, sculpture, photography, craft arts, creative expression including graphic arts and design, computer coding, animation, music composition, ensembles, script writing, costume design, film, and video.

As a requirement of receiving these funds, LEAs must complete an annual report approved by their board in May of each year. In 2024-2025 Rocketship is projected to expend approximately $634K of the funds across 10 out of the 13 CA schools. Rocketship is planning to use the funds in all 13 CA schools in the 2025-2026 school year.

Summary of Previous Board Action by Board:
On May 29, 2024 the RSED-Board approved the Prop 28 Annual Report for Fiscal Year 2023-2024 for all thirteen California Rocketship schools.

Fiscal Impact:
Approximately $634K of the funds were expended across 10 out of the 13 CA schools.

		INFORMATION
		CONSENT

Recommendation(s):

Staff members recommend that the Rocketship Education ("RSED") Board of Directors ("RSED-Board") approve the 2025-26 Education Protection Account ("EPA") Fund Budget Spending Plans for all thirteen California Rocketship schools.

Approval of the EPA Budget Spending Plans will allow the schools to continue receiving this ongoing revenue stream in support of our students and staff.

Background:

California's Proposition 30, The Schools and Local Public Safety Protection Act of 2012, approved by the voters on November 6, 2012, temporarily increases the state's sales tax rate for all taxpayers and the personal income tax rates for upper-income taxpayers.

The revenues generated from Proposition 30 are deposited into a state account called the Education Protection Account (EPA). School districts, county offices of education, and charter schools (LEAs) will receive funds from the EPA based on their proportionate share of the statewide revenue limit amount. A corresponding reduction is made to an LEA's revenue limit EPA entitlement. LEAs will receive EPA payments quarterly during the 2025-26 Fiscal Year.

Proposition 30 provides that all K-12 local agencies have the sole authority to determine how the funds received from the EPA are spent, though prohibits the funds being spent on administrative costs. The LEA's spending plan must be approved by the governing board during a public meeting.

The plans put forth for approval today show how the EPA funds will be used for each of Rocketship's California schools. The funds are budgeted to be used to cover salary and benefits of non-administrative certificated staff, specifically Classroom Teachers.

Summary of Previous Board Action by Board:
On March 5, 2025 the RSED-Board approved the 2024-2025 Education Protection Account Fund Spending Plans for all Rocketship California schools.

Fiscal Impact:
The amount of EPA funds received for each school can be found in the accompanying attachment.

Submitted by:
Terry Holmes, Director, Finance

Rocketship Education
2025-2026 Education Protection Account (EPA) Budget Spending Plan

Proposition 30, *The Schools and Local Public Safety Protection Act of 2012,* approved by the voters on November 6, 2012, temporarily increases the states sales tax rate for all taxpayers and the personal income tax rates for upper-income taxpayers.

The revenues generated from Proposition 30 are deposited into a state account called the Education Protection Account (EPA). School districts, county offices of education, and charter schools (LEAs) will receive funds from the EPA based on their proportionate share of the statewide revenue limit amount. A corresponding reduction is made to an LEA's revenue limit EPA entitlement. LEAs will receive EPA payments quarterly during the 2025-26 Fiscal Year.

Proposition 30 provides that all K-14 local agencies have the sole authority to determine how the funds received from the EPA are spent, but with these provisions:

The spending plan must be approved by the governing board during a public meeting.

EPA funds cannot be used for the salaries or benefits of administrators or any other administrative costs.

Each year, the local agency must publish on its website an accounting of how much money was received from EPA and how the funds were expended.

Rocketship Education's estimate of 2025-2026 EPA Entitlement per estimated 2025-2026 ADA is $3,326,453.

This total is comprised of the following amounts by school:

Rocketship Mateo Sheedy Elementary (CDS # 43 10439 0113704)	$90,221
Rocketship Si Se Puede Academy (CDS # 43 10439 0119024)	$378,912
Rocketship Los Suenos Academy (CDS # 43 10439 0120642)	$463,451
Rocketship Mosaic Elementary (CDS # 43 69450 0123299)	$825,360
Rocketship Discovery Prep (CDS # 43 10439 0123281)	$113,367
Rocketship Brilliant Minds (CDS # 43 10439 0125781)	$760,863
Rocketship Alma Academy (CDS # 43 10439 0125799)	$100,500
Rocketship Spark Academy (CDS # 43 69450 0128108)	$101,071
Rocketship Fuerza Community Prep (CDS #43 10439 0131110)	$95,551
Rocketship Redwood City Community Prep (CDS #43 69005 0132076)	$54,574
Rocketship Rising Stars Academy (CDS #43 10439 0133496)	$115,727
Rocketship Futuro Academy (CDS #07 77024 0134072)	$127,462
Rocketship Delta Prep (CDS #07 61648 0137430)	$99,396

EPA funds are budgeted to be used to cover salary and benefits of non-administrative certificated staff, specifically Classroom Teachers.

Executive Summary
Rocketship Education
Board of Directors
June 11, 2025

Agenda Item: 8(C) **Subject:** Review and approve Amended Fiscal Policies	X	**OPEN/ACTION**
		INFORMATION
		CONSENT

Recommendation(s):

Staff members recommend that the Rocketship Education ("RSED") Board of Directors ("RSED-Board") approve the Amended Rocketship Public Schools Fiscal Policies.

Background:

As part of our annual cycle of policy revisions, staff members are recommending several substantive changes to the Rocketship Fiscal Policy manual:

1. Clarifying the included and excluded revenue for management fee calculations: This was previously approved (in 2015) as a separate policy and is incorporated here for clarity and simplicity.
2. Clarifying that "contracting authority" levels extend to purchase orders and other pre-approvals to facilitate the new RAMP procurement platform.
3. Adding language around "Title 1 comparability" - this is done following one of Rocketship's compliance reviews.

Summary of Previous Board Action by Board:
On August 28, 2024 the RSED-Board approved the Revised Rocketship Fiscal Policies.

Fiscal Impact:
None

Submitted by:
Ben Carson, Chief Financial Officer

ROCKETSHIP
PUBLIC SCHOOLS

Introduction

The Governing Board of Rocketship Education (also known as Rocketship Public Schools, and hereinafter the "RPS Board") has reviewed and adopted the following fiscal policies to ensure the most effective use of the funds of RPS to support its mission and to ensure that the funds are budgeted, accounted for, expended and maintained appropriately.

Purpose of the Policies

As stewards of funds, both public and private, intended to further students' education and achievement, all RPS personnel are responsible for adhering to and abiding by the outlined fiscal policies.

The fiscal policies shall document the financial operations of the Organization. Its primary purpose is to ensure that assets are safeguarded, that financial statements are in conformity with Generally Accepted Accounting Principles (GAAP), and that finances are managed with responsible stewardship.

Amending the Policies

This document contains the essential fiscal policies of RPS. From time to time, as additional matters require, or as changes to the policies are appropriate, management of RPS will propose amendments to the policies for review and approval by the RPS Board. The Board must approve any changes to the fiscal policies.

ROCKETSHIP
PUBLIC SCHOOLS

1.0 Accounting Standards

1.1 Basis of Accounting

Generally Accepted Accounting Principles
The accounting procedures used by the organization shall conform to Generally Accepted Accounting Principles (GAAP) to ensure accuracy of information and compliance with external standards.

Basis of Accounting
The organization will maintain financial reports throughout the fiscal year on an accrual-basis of accounting.

Fiscal Year
The RPS fiscal year is July 1-June 30.

1.2 Accounting Processes

1.21 Bank Reconciliations

Bank reconciliation and approval will occur on a monthly basis.

1.22 Stale Check Policy

Outstanding checks not cashed within 180 days are written off and a notice letter is sent to the payee.

Payees are encouraged to deposit or cash checks within 90 days of the issuance date. Payees will be contacted for any checks that have not yet been cashed after 90 days after the issuance date. Checks will be voided on or before 180 days after the issuance date.

1.23 Monthly Close

The Accounting team seeks to close all RPS books no later than 15 business days after the end of the month.

1.24 Financial Reporting

The Finance and Accounting teams prepare financial reports for the purpose of monitoring RPS's financial health, performance against budget, and adherence to fiscal policies. Financial statements and performance against budget reports will be reviewed by the CFO and/or CEO on a monthly basis. They will be reviewed by the Business Committee of the Board of Directors on a quarterly basis.

1.25 Audit

The RPS Board will contract with a qualified independent certified public accounting firm to conduct an audit of the organization's financial statements in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards* issued by the Comptroller General of the United States, and, if applicable, the *U.S Office of Management and Budget's Circular A-133.* The selected audit firm must be familiar with these standards, related State of California and Charter School regulations, and the *Standards and Procedures for Audits of California K-12 Local Education Agencies* Audit Guide (which can be found at http://eaap.ca.gov/audit-guide/current-audit-guide-booklet/), in order to properly conduct the audit engagement. Further, the auditor must be selected from the State Controller's list of approved auditors for Local Education Agencies.

The RPS Board will approve and appoint the independent auditor. RPS Board reviews auditing firms every three (3) years but is not required to make any changes. After six consecutive fiscal years, the organization will contract with a new audit firm or require a change/rotation in audit partners in the seventh year, unless a waiver is obtained from the Educational Audit Appeals Panel. (Education Code 41020).

Audit Committee

The RPS Board will appoint an Audit Committee of one or more persons. The Audit Committee may not include any members of the staff of the corporation, including the president or CEO or the treasurer or CFO. In addition, any person with expenditure authorization or recording responsibilities within the organization may not serve on the committee.

The Audit Committee will be responsible for reviewing the results of the annual audit and developing a corrective action plan to address all relevant weaknesses noted by the auditor. Further, the Audit Committee will evaluate the auditor relationship and make recommendations to the Board regarding auditor selection or renewal.

The RPS Board will review and approve the audit no later than December 15.

1.26 Tax Compliance

Exempt Organization Returns

The RPS Board will contract with an external party to conduct the annual financial audit will prepare the annual Federal Form 990 and the California Form 199. The tax forms are to be filed no later than May 15 of each year unless otherwise extended. Note that there are, at times, special circumstances which may extend the filing date past May 15.

2.0 Internal Controls

The Finance and Accounting teams safeguard RPS's assets, implement management's internal policies, comply with applicable state and federal laws and regulations, and produce timely and accurate financial information. Further, as a publicly supported entity, RPS has additional responsibilities to ensure the public's confidence in and the integrity of our schools' activities.

ROCKETSHIP
PUBLIC SCHOOLS

2.1 Conflict of Interest

RPS has implemented a Conflict of Interest Policy to protect RPS's interest when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an officer or Director of the Corporation. This policy is intended to supplement but not replace any applicable state laws governing conflicts of interest applicable to nonprofit and charitable corporations.

2.2 Lines of Authority

Board of Directors Authority

The board of directors shall have the sole authority to:

- Approve the fiscal policies and delegate administration of the policies to the Chief Executive Officer (CEO).
- Approve the opening and closing of bank accounts and the list of authorized signers and the organization address on record.
- Approve all third-party loans.
- Approve the annual budget.
- Review annual and quarterly financial statements, and budget-to-actual variance analysis.
- Conduct a review of the CEO's performance annually and establish their salary.
- Commission the annual financial audit by an independent third party auditor approved by the State of California.
- Approve the annual financial audit by December 15.
- Designate another officer to perform the duties of the CEO in the case of absence.

Financial Responsibilities and Accountability Summary:

Role	Responsibilities	Accountability
Governing Board	• Approve annual budget submitted by CFO • Review financials on a quarterly basis • Contract for audit annually • Approves intercompany and intracompany grants and loans, including management fee deferrals	• Hold CEO/CFO accountable for financial management and for staying within budget • Review CEO performance and set compensation
CEO/CFO	• Create annual organizational budget • Monitor to stay within approved budget • Fiscal management, training and oversight	• Hold budget owners accountable for staying within budget and for execution of fiscal policies

ROCKETSHIP
PUBLIC SCHOOLS

Role	Responsibilities	Accountability
CFO	● Responsible for all oversight of RPS's financial management and planning for its ongoing sustainability ● Develop the annual budget ● Oversee the Business Team and responsibility for all functions that fall within the department. ● Ensure adequate internal control and segregation of duties ● Cash flow management ● Structure and negotiate loans/bonds	● Oversees the adherence to all internal controls.
National Leadership Team	● Create departmental budgets ● Monitor to stay within approved budget	● Hold team accountable for staying within budget, and for execution of fiscal policies
EDs	● Create regional budgets	● Hold principals accountable for staying within budget, and for execution of fiscal policies
Principals	● Create school budget ● Monitor to stay within approved campus budget ● Fiscal management and oversight at a school level	● Hold team accountable for staying within budget, and for execution of fiscal policies

2.2 Segregation of Duties

The organization's financial duties shall be distributed among multiple people to help ensure protection from fraud and error. The distribution of duties aims for maximum protection of the organization's assets while also considering efficiency of operations.

To properly segregate duties, invoice approval, payment, check signing, and contracting authority is subject to the following thresholds:

2.3 Record Keeping

Financial records will be retained for a minimum of seven years or as outlined in tables below. This policy is designed to ensure compliance with federal and state laws and regulations, to eliminate inadvertent destruction of records and to facilitate RPS's operations.

Document Retention Schedule

The following types of documents will be retained for the following periods of time. At least one copy of each document will be retained according to the following schedule. Electronic copies suffice unless a hard copy is required by law.

Corporate Records

Article of Incorporation to apply for corporate status	Permanent
IRS Form 1023 (in the USA) to file for tax-	Permanent

exempt and/or charitable status:	
Bylaws	Permanent
State Application for Tax Exempt Status (Form 3500)	Permanent
Letter of Determination (for example, from the IRS in the USA or the state) granting tax exempt and/or charitable status	Permanent
Board Policies	Permanent
Resolutions	Permanent
Board and Committee Meeting agendas and minutes	Permanent
Sales Tax Exemption Documents	Permanent
Tax or employee ID Number Designation	Permanent
Annual Corporate Filings	Permanent

Financial Records

Chart of Accounts	Permanent
Fiscal Policies	Permanent
Audits	Permanent
Financial Statements	Permanent
General Ledger	Permanent
Check Registers/Books	7 years
Business Expenses Docs	7 years
Bank Deposit Slips (or equivalent retained by financial institutions)	7 years
Cancelled Checks (or equivalent retained by financial institutions)	7 years
Invoices	7 years
Investment Records (deposit, earning, withdrawals)	7 years
Property/asset inventories	7 years
Petty cash receipts /documents	7 years

Credit card receipts	7 years

Tax Records

Annual Tax Filing for the organization (IRS Form 990 in the USA)	Permanent
FTB Annual Form 199	Permanent
Payroll Registers	Permanent
Filings of fees paid to professionals (IRS Form 1099 in the USA)	7 years
Payroll tax withholdings	7 years
Earnings records	7 years
Payroll tax returns	7 years
W-2 statements	7 years

Personnel Records

Document	**Time Period**
Recruitment, Hiring and Job Placement Records ● Job applications ● Resumes ● Letters of recommendation ● Other job inquiries sent to the Charter School ● Job advertisements/postings ● Results of non-medical pre-employment tests ● Offers of employment ● Employment agreements ● Signed pre-employment disclosures (employee handbook acknowledgment, complaint procedures, etc.) ● Employee training (harassment prevention, mandated reporting, etc.) ● Employee certificates, credentials, licenses, and other evidence of qualifications ● Evidence of criminal background check	3 years after separation, or for the duration of any claim or litigation regarding hiring practices
Employee Performance and Other Personnel Records ● Job descriptions ● Training and testing ● Performance goals ● Performance evaluations ● Written feedback and commendations ● Promotions and demotions	3 years after separation

• Letters of reprimand and discipline • Performance Improvement Plans • Termination, resignation, lay-offs, etc. • Notices and letters	
Employee Medical Leave Records (PDL, FMLA, CFRA, etc.) * • Requests for leave • Health care provider notes • Leave calculations • Records of disputes regarding leave • Employee benefits related to leave • Leave policies	3 years after separation * Records that contain employee confidential medical information should be retained in a separate, secure file.
Employee Wage Records • Employment agreements • Wage rates and calculations • Shift schedules (hours and days) • Time cards • Individual calculations for absences, sick days, vacation days, etc. • Itemized wage statements/pay stubs	3 years after separation Note: If a record is both a wage record and a payroll record, follow the longer retention period.
Employee Payroll Records • Employee name, address, age, and occupation • Individual wage records • Regularly hourly rate • Hours worked (daily/weekly) • Weekly overtime earnings • Daily and weekly straight time earnings • Deductions from or additions to wages • Wages paid each pay period • Pay dates and pay periods • Unemployment Insurance Records	4 years, generally
Employment Eligibility (I-9 Forms)	The later of (a) 1 year after separation, or (b) 3 years from date of hire.
Employee Health Records* • First-aid records • Job injuries (causing loss of work time) • Drug and alcohol test records	5 years after separation * Records that contain employee confidential medical information should be retained in a separate, secure file.

Employee Workers' Compensation Records • Copies of claim forms • Reports of occupational injury or illness • Letters of denial of benefits • Reports to the Division of Workers' Compensation • Benefits paid • Estimates of future benefits • Applications to the Workers' Compensation Appeals Board • Orders and Awards of the Workers' Compensation Appeals Board	5 years after date of injury and 2 years after claim has been closed. * Records that contain employee confidential medical information should be retained in a separate, secure file.
Employee Benefit Records • Benefits elections • Beneficiary designations • Eligibility determinations • COBRA notices • Summary plan descriptions • Other welfare benefit plan information (life, health, disability, long-term care, post-retirement medical)	6 years after separation, but not less than 1 year following a plan termination. * Records required to determine retirement benefits, including 401(k) and similar plans, must be kept indefinitely.
Note: For simplicity, RPS may choose to keep the majority of an employee's personnel file and other records for the duration of employment plus seven (7) years. This time period covers nearly every law, with the exception of three (3) types of records, as outlined above, that must be removed from a file before it is disposed of and retained for a longer duration: Pension and welfare plan information (6 years) First aid records of job injuries causing loss of work time (5 years) Safety and toxic or chemical exposure records, including safety data sheets (30 years)	

Insurance Records

Property Insurance Policy	Permanent
Directors and Officers Insurance Policy	Permanent
Workers' Compensation Insurance Policy	Permanent
General Liability Insurance Policy	Permanent
Insurance Claims Applications	Permanent
Insurance Disbursements/ Denials	Permanent

Contracts

All insurance Contracts	Permanent
Employee Contracts	7 years after termination
Construction Contracts	Permanent
Legal Correspondence	Permanent
Loan/mortgage and Real Estate Documents	Permanent
Leases/Deeds	Permanent
Vendor Contracts	7 years from completion or conclusion of service
General and all other Contracts	7 years from completion or conclusion of service

Donor Tax Letters	7 years

Management Plans and Procedures

Strategic Plan	7 years
Staffing, programs, marketing, finance, fundraising and evaluation plans	7 years
Vendor Contracts	7 years
Disaster Recovery Plan	7 years

2.4 Gift Acceptance

Purpose

As a not-for-profit organization exempt as a public charity under Section 501(c)(3) of the Internal Revenue Code, Rocketship Public Schools encourages the solicitation and acceptance of gifts for purposes that will assist Rocketship Public Schools to further and fulfill its mission.

ROCKETSHIP
PUBLIC SCHOOLS

The purpose of this Policy is to govern the acceptance of gifts by Rocketship Public Schools and to provide guidance to the Board, the CEO, and prospective donors when making gifts to Rocketship Public Schools. The provisions of this Policy shall apply to all gifts received by Rocketship Public Schools for any of its schools, programs or services, and to the acceptance of gifts made to Rocketship Public Schools or for the benefit of any of its schools or programs.

Restrictions on Gifts

Rocketship Public Schools will accept unrestricted gifts, and gifts for specific schools, programs and purposes, provided that such gifts are consistent with Rocketship Public Schools' mission, purposes, and priorities. Rocketship Public Schools will not accept gifts that are too restrictive in purpose. Gifts that are too restrictive are those that violate the charitable and educational trust of Rocketship Public Schools, or that are accompanied by an improper economic benefit to the donor or vest the donor with inappropriate control or influence. When practicable, restricted monetary or other gifts should be accepted with formal caveat acknowledged by donor that it may be converted to unrestricted if the donor's intended restriction cannot be met or is no longer in best interest of RPS.

Use of Legal Counsel and Other Professional Assistance

Rocketship Public Schools shall seek the advice of legal counsel or other professional advisors (such as an accountant, financial advisor or professional money manager) when appropriate and as recommended in this Policy relating to the acceptance of certain types of gifts. Generally, Rocketship Public Schools shall seek the advice of legal counsel in all matters pertaining to the acceptance of any gift which may have adverse legal, ethical (including a potential conflict of interest), or other consequence of concern to Rocketship Public Schools.

All prospective donors shall be urged and encouraged by Rocketship Public Schools to seek and secure the assistance of independent legal, tax and financial advisors in matters relating to their gifts and the resulting tax and estate planning implications. Rocketship Public Schools shall not pay the legal fees or any professional fees of the donor in connection with a gift to Rocketship Public Schools. Rocketship Public Schools shall not provide any opinion, statement or recommendation to the donor as to the tax deductibility of the gift or as to any tax consequences or tax implications of the gift that may affect the donor.

It shall be the responsibility of the donor to secure an appraisal of property where required by RPS. The donor shall pay any fees associated with securing such appraisal.

Types of Gifts

The following types of gifts are generally acceptable:

1. Cash Donations
2. Testamentary Bequests
3. Charitable Remainder Trusts
4. Charitable Lead Trusts
5. Tangible Personal Property
6. Life Insurance/Life Insurance Beneficiary Designations
7. Retirement Plan Beneficiary Designations
8. Securities

9. Real Estate

The following types of gifts are generally not acceptable:

1. Charitable gift annuities
2. Pooled income funds

Valuation of Gifts

Rocketship Public Schools shall record a gift received by Rocketship Public Schools at its valuation for gift purposes on the date of gift and in accordance with Generally Accepted Accounting Principles (GAAP).

IRS Filing Upon Sale of Gift

Rocketship Public Schools is responsible for filing IRS Form 8282 upon the sale or disposition of any non-cash donated property sold by Rocketship Public Schools within three years of receipt where the charitable deduction value of the item was $5,000.00 or greater. Rocketship Public Schools must file such form within IRS-required timelines. The Chief Financial Officer shall be responsible for the recordation and filing of this form to the IRS.

Written Acknowledgment of Gifts and Contributions

Rocketship Public Schools will provide written acknowledgement of all gifts in compliance with the current IRS requirements. The Chief Financial Officer shall be responsible for ensuring compliance with IRS requirements regarding acknowledgments. Under no circumstance shall RPS accept a donation of any real property interest without advice of legal counsel and RPS Board approval. The RPS Board recognizes the risks associated with acceptance of real estate.

3.0 Financial Management

3.1 Budgeting Process

The CFO will prepare an annual budget and multi-year forecast each year for presentation to the board of directors. The preliminary annual budget is to be reviewed and approved by the RPS Board prior to the start of each fiscal year. During the first quarter of the fiscal year, the CFO will prepare updates to the budget based on the latest information on enrollment, funding sources, staffing, and operational costs. The RPS Board will review and approve this updated budget, which will be used for reporting purposes (e.g., tracking actual vs. budgeted CINA) for the remainder of the fiscal year.

The CFO will work together with national and regional leadership to ensure that the annual budget is an accurate reflection of RPS's strategic priorities, programmatic and infrastructure goals for the coming year. The CFO's budget proposal will include any significant capital expenditure projects (significant is defined as over $500K), as well as any proposed intercompany or intracompany grants or loans, including management fee deferrals.

As part of the budget, the CFO will propose a target change in net assets ("CINA") for the national office and each region to meet strategic goals and/or comply with existing loan covenants.

3.2 Borrowing and Loaning Funds

The assumption of debt, including lines of credit or loans from banks and other financial lenders, shall be approved by the Board of Directors. Board authorization for a line of credit provides management with the discretion to draw on the line as needed. Management may establish lines of credit with suppliers as needed, without board approval, within the purchasing and contract approval thresholds detailed above.

The extension of credit by Rocketship, including all intercompany loans (e.g., to Rocketship Texas) shall be approved by the Board of Directors. Any intracompany (e.g., to Rocketship Wisconsin) loans or management fee deferrals which remain in effect across fiscal years shall be approved by the Board of Directors.

3.3 Operating Cash Reserves

The organization will ensure adequate cash balances to meet annual cash flow needs. The CFO will monitor the organization's cash balance and will report the cash balance to the CEO on a monthly basis and to the Business Committee of the Board on a quarterly basis.

It is the responsibility of the CEO and the Governing Board to understand the organization's cash situation and it is the responsibility of the CFO to prioritize payments as necessary to manage cash flow.

The RPS Board may restrict a portion of the operating cash reserve fund for strategic goals.

The RPS Board may develop an additional Operating Cash Reserve Policy to specify use of the Operating Cash Reserves.

3.4 Insurance

The organization will maintain adequate insurance with high quality insurers at all times for:

- General Liability
- Property
- Workers' Compensation
- Employment Practices
- Professional Liability
- Directors' and Officers' Coverage
- Other coverages required by charter authorizers
- Umbrella and student accident policies are considered prudent add-ons.

4.0 Revenue & Accounts Receivable

RPS receives funding from numerous state and federal sources. Some of these funding sources have specific limitations on how the funds can be spent, as well as how these expenditures must be recorded and reported to the granting authority. Restricted funds are awarded to RPS on the basis of a unique award from the respective state or federal agency. RPS staff should always consult the requirements for a particular grant or award before expending restricted funds.

4.1 Cash Receipts

Cash receipts (including check or cash payments received via mail or in person and deposits received via Electronic Fund Transfer) shall be recorded completely and accurately to prevent the misappropriation of assets. Further, cash collection, reconciliation, and deposit duties should be segregated to provide proper financial controls. No one person will participate in all actions associated with cash receipts.

RPS schools regularly collect cash for meal bills, fundraisers, field trips, uniforms, and other purposes.

Cash collected at the school site is considered school revenue and must be accounted for accordingly. Cash may not be used as "petty cash" or otherwise spent before being reconciled and deposited.

Reconciliations and deposits must be completed per the instructions provided by the RPS Finance & Accounting Department.

Only Rocketship staff are permitted to handle cash and checks collected at a school site. Cash and checks must be kept at all times in a designated, secure, locked cabinet or safe. Only authorized school staff should have access to the locked cabinet or safe.

Schools must deposit cash and checks weekly. If no cash or checks have been collected that week, the school should submit a deposit form indicating that no cash/checks were collected. If for some reason a school cannot submit a weekly deposit, the school must inform the Regional Director of Operations.

Under no circumstances should cash remain at a school site for more than 10 school days. In TN, cash cannot remain at the school for more than 3 days.

5.0 Expense & Accounts Payable

5.1 Purchases & Procurement

RPS shall procure only those goods and services that are required to perform the mission and/or fill a bona fide need. Guiding the purchase of all goods and services will be: (a) price, (b) quality and (c) dependability. Particular vendors may be chosen for any one or any combination of

these factors In addition, RPS will take affirmative steps to assure that minority businesses and women's business enterprises, are used when possible. However, at all times, the selection of a particular good, service or vendor shall be with the intention of maintaining a top-quality school. When engaging in procurement activity, RPS staff shall aim to:

- Remain impartial in the selection process, focusing only on the merits of the supplier/contractor proposals and applicable related considerations such as delivery, quantity, etc.
- Make all purchases in the best interests of RPS and its funding sources.
- Obtain quality supplies and services needed for delivery at the time and place required.
- Buy from responsible, reputable, and dependable sources of supply.
- Obtain best value for all expenditures.
- Deal fairly and impartially with all vendors.
- Be above appearance of unethical behavior at all times; avoid any conflict of interest, related parties, or the appearance of a conflict of interest in school/supplier relationships.
- Follow the guiding principles of internal controls to minimize the risk of fraud, including appropriate segregation of duties and adherence to the school's policies covering authorization to enter into financial commitments.

Related Parties

All employees participating in the making of a contract and Board members must disclose relationships with known proposed or current vendors to determine whether the relationship should be considered a related party transaction. RPS applies the definition of "related party" used by the IRS regulation section 267(b), which includes immediate family members of and legal entities owned or controlled by the employee or board member. The CEO must review any potential related party transactions and has the right to request additional information (e.g., fair market value assessments) to determine whether the transaction is in the best interest of RPS. The CEO must disclose any related party transaction over $10,000 to the Board of Directors for review. If the related party transaction involves the CEO, the Board shall perform all pertinent due diligence procedures related to the transaction, including identification of alternatives to the transaction. The CEO should not participate in the Board's deliberation or action.

Contract Goods and Services

When and where possible, RPS will enter contracts for goods and services that specify in detail what is included and excluded from the scope of the contract, the agreed delivery, payment terms, and other standard contractual terms and legal protections. To the extent possible, contracts should provide for monthly payment, with at least 30 days from the date of the invoice to make payment. Contracts can be negotiated by a member of the Network Executive Team or their designee with the contracting amount thresholds described herein.

RPS requires completion of Form W-9 for all new vendors (except local, state or federal government entities) before payment can be initiated for the vendor. Information collected from the W-9 should include the vendor social security number or federal tax identification number, address and other pertinent contact information.

Competitive Contract Selection

When a product or service is to be purchased that is valued or priced at, or reasonably estimated

to be more than $25,000, the authorized decision maker shall make every reasonable effort to secure quotes and product specifications from at least two providers of the service or product or similar product or make other acceptable efforts to ensure that RPS is receiving the best value for the purchase. The authorized decision maker shall select from among these quotes and maintain evidence of the quotes and/or other information that informed the purchasing decision. Professional service contracts such as special education contracts are excluded from the requirement to seek multiple bids or proposals; however, nothing shall preclude RPS from seeking such multiple bids or proposals for these contracts. Additionally, furniture purchases may be excluded from the requirement to seek multiple bids when it is determined that a particular vendor offers a unique product that meets the quality and design specifications of RPS and the product price is judged to be reasonable based on comparisons of similar furniture from other vendors. In the event that bids are not obtained, the purchaser must provide a sole source justification. Notwithstanding the foregoing, adherence to local agency "piggyback" contract prices and procedures for goods contracts meets these requirements.

All procurement involving federal funds will be conducted in accordance with the Code of Federal Regulations, Title 34 (Education), Section 74, which states in part: "All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition", or other law applicable to the funding source. RPS shall be alert to organizational conflicts of interest as well as noncompetitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. For federally funded purchases, in order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, invitations for bids or requests for proposals shall be excluded from competing for procurements. Awards must be made to the bidder or offeror whose bid or offer is responsive to the solicitation and is the best value to RPS, price, quality and other factors considered. Solicitations shall clearly establish all requirements that the bidder or offeror shall fulfill in order for the bid or offer to be evaluated by RPS. Any and all bids or offers may be rejected when it is in RPS interest to do so.

Furthermore, RPS shall:

- Avoid purchasing unnecessary items
- Avoid making purchases categorized as "equipment" or other items that would be considered durable assets with federal funds;
- Where appropriate, analyze lease and purchase alternatives to determine which would be the most economical and practical procurement;
- Solicit for goods and services providing for all of the following, where applicable:
    - A clear and accurate description of the technical requirements for the material, product, or service to be procured. In competitive procurements, a description shall not contain features which unduly restrict competition
    - Requirements which the bidder/offeror must fulfill and all other factors to be used in evaluating bids or proposals
    - A description, whenever practicable, of technical requirements in terms of functions to be performed or performance required, including the range of acceptable characteristics or minimum acceptable standards

- The specific features of brand name or equal descriptions that bidders are required to meet when these items are included in the solicitation
- Make positive efforts to utilize small businesses, minority-owned firms, and women's business enterprises, whenever possible.

Purchases Using Federal Funds

Purchases made using federal grants will follow procurement methods stated in Uniform Guidance 2 CFR 200.320, where applicable, unless RPS's Policy is more restrictive. When using federal funds in this regard, RPS will to the extent applicable to the particular purchase:

- Maintain oversight to ensure contractors perform in accordance with terms/conditions/specifications of contracts
- Avoid acquisition of unnecessary or duplicative items
- Award contracts only to responsible contractors
- Maintain records to sufficiently detail the history of procurement
- Conduct transactions in a manner providing full and open competition
- Not preclude potential bidders from qualifying during the solicitation period
- Conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences, except in cases where federal statutes mandate or encourage it
- Prepare solicitations that incorporate a clear and accurate description of technical requirements for the material, product, or service, and identify all requirements which the offerors must fulfill, and all other factors used in evaluating bids or proposals
- Ensure that all prequalified lists of persons, firms, or products which are used are current and include enough qualified sources to ensure maximum open and free competition
- Take necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible
- Perform cost or price analysis in connection with every procurement action in excess of the simplified acquisition threshold, including contract modifications

Further, when using qualifying federal funds, RPS will use one of the five allowable methods of procurement:

Methodology & Threshold	Requirement
Micro-purchase $0-$10,000	● No bid or quote required if price is considered to be reasonable. Reasonableness could be determined by comparing the price to past purchases or other published prices and/or requesting prices from more than one vendor. ● Distributed equitably among a range of qualified vendors when practical
Small Purchase $10,001-$250,000	● Price or rate quotes must be obtained from adequate number of sources (at least two) ● Can be informal, e.g., phone call or web search ● All quotes, including phone calls, web searches, etc., must be documented and kept on file ● Price does not need to be deciding factor, but all quotes need to be kept in procurement records
Sealed Bid $250,000 and greater *Price is principal basis for selection*	● Bids must be solicited from an adequate number of known suppliers, providing sufficient response time ● Local and tribal governments must publicly advertise bids ● Invitation for bids must define the items or services in order for bidders to properly respond ● All bids will be opened at time and place prescribed in invitation. Local and tribal governments must be opened publicly. ● Firm fixed price contract made in writing to the lowest responsive and responsible bidder ● Any or all bids may be rejected if there is a sound documented reason
Competitive Proposal $250,000 and greater *Selection is based on what is most advantageous with price and other factors considered*	● Must be publicized and identify all evaluation factors and their relative importance ● Must be solicited from an adequate number of qualified sources ● Must have a written method for conducting technical evaluations of the proposals and selecting recipients ● Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered
Noncompetitive Proposal (sole source)	● May be used only when the item is available only from a single source, the public exigency or emergency will not permit a delay resulting from competitive solicitation, federal awarding agency or pass-through entity expressly authorizes its use in response to a written request, or after solicitation of a number of sources competition is determined inadequate by the CEO ● Justification of the use of noncompetitive proposal must be documented ● Any research on availability from multiple sources must be documented ● Documentation of authorization must be retained ● Any initial solicitations from multiple sources which are concluded to be inadequate, and such reasoning, must be documented

Note, the federal procurement policies do not supersede the Rocketship approval authorities established in this document.

Purchase and Contract Approval Authority

The table in Section 2.2 outlines approval for contracts and payments. Once a contract is approved, further approval for recurring charges or project expenses are not required. For example, when the Board approves a construction budget, each individual expenses covered by

that budget is approved with no further action required.

Approval authority can be delegated to another member of the RPS Leadership Team in the event that one of the approvers is out of the office.

Invoice Payment
All invoices will be paid in a timely manner to avoid any late fees.

5.2 Employee and Volunteer Expense Reimbursements

Rocketship Public Schools ("RSPS") employees are periodically required to incur business expenses on behalf of Rocketship in furtherance of its mission.

Eligibility

All Rocketship employees are eligible for expense reimbursement, provided that the expenses are consistent with this policy, documented with receipts, approved by his/her manager and represent a reasonable and appropriate use of Rocketship Public Schools funds.

Expenses must also be in compliance with IRS, state, and/or granting/ funding agency regulations.

This policy applies only to employees and may differ from those expenses that consultants may charge Rocketship. In the case of consultants, expense reimbursement will be dictated by the consulting agreement.

Please see the sections below for policy guidelines related to specific expenses. This list is not all-inclusive and is provided for guidance only.

Reimbursement for Expenses

The employee is responsible for requesting reimbursement in a timely fashion by submitting a completed expense report to the Rocketship Finance Department. Employees should make every effort to submit expense reports within 30 days of incurring such expenses. All expense reports for the previous quarter must be submitted within 30 days of the quarter's end.

All receipts, with the exception of mileage, must be attached to the expense reimbursement submission in order for the report to be approved. If a receipt is lost, a copy of the credit card bill or other documentation should be attached instead on an exception basis only. Credit card bills are not an alternative to retention of receipts.

Approval of Expenses

An employee's manager is required to review and approve every expense report request and

receipt submitted by the employee. The manager will be able to approve expenses up to his/her limit.

While it is the employee's responsibility to represent accurate information in the reimbursement claim (including account code), manager approval of an expense report implies that the manager agrees that all expenses listed are:

- reasonable in amount
- appropriate based on employees responsibilities
- supported by a receipt
- coded to correct expense accounts
- consistent with Rocketship expense policy

Guidelines for Reimbursable Expenses

Cell Phone

Full time employees may be eligible for up to $50 per month in cell phone reimbursement if their job requires the use of a cell phone to perform the duties of their role.

Air Travel

Each employee is responsible for securing his/her own flight arrangements. Reasonable effort should be made to take the lowest fare available unless a flight imposes an unreasonable inconvenience in terms of stops or layovers. Employees may purchase a regular economy fare in lieu of a basic economy fare. Employees are strongly encouraged to consider travel on airlines that may not be their preferred airline if that cost is less than their preferred airline's cost for a similar flight.

Employees should make reasonable efforts to book airline tickets as far in advance as possible in order to reduce cost. All airline travel will be in coach class unless prior approval is received in writing from the CFO for a different class of air travel.

All mileage earned through frequent traveler programs or airline incentive programs is the property of the employee. As such, no reimbursement will be made for upgrades or free flights redeemed by employees applied to business travel from these programs.

Bag Check fees may be reimbursed if traveler is staying overnight two or more nights. Additional fees for seat upgrades or preferred seats are not reimbursable.

Dues and/or initiation fees for airline clubs are not reimbursable by Rocketship Public Schools.

Hotels

Reasonable lodging costs incurred during business travel are reimbursable whenever a day trip is not appropriate. Rocketship employees are expected to stay in standard business class lodgings that charge a reasonable rate (for instance, a Marriott). Individuals will not be reimbursed for stays longer than is legitimately necessary for the intended business requirement. The actual hotel bill with the form of payment must be submitted with the expense form as documentation. A charge slip alone is not acceptable.

When work commitments require Friday and Monday trips to the same city, the traveler is ordinarily expected to return home for the weekend. However, if such travel would be more costly or time consuming than remaining at the distant location for the weekend, lodging and reasonable meal costs for the traveler are reimbursable. In order for these lodging and meal costs to be reimbursable, the total cost of the extended lodging and meal costs must not exceed what would have been the additional cost of the flight home and return trip.

Car Rentals

Car rentals should be used when needed in situations where alternate forms of road transportation (taxis, public transit, and personal vehicles) are not more feasible.

Rocketship staff should limit their car rental to small or economy models unless there is a compelling reason to do otherwise. Additional insurance should be declined, as Rocketship carries rental car insurance as part of its business policy.

Car rentals over a weekend or holiday period are generally not reimbursable, unless necessary and approved (in advance) by the Finance Department.

Whenever possible, employees should refuel at a gas station prior to returning the vehicle at the end of the rental period, instead of purchasing the refill directly from the car rental company.

Mileage will not be reimbursed for rentals cars, but gas may be reimbursed.

Private Vehicle/Mileage

Employees must have a valid driver's license and current personal automobile insurance coverage to use his or her own vehicle for Rocketship business. Rocketship will reimburse employees for mileage incurred while using their personal vehicle on behalf of Rocketship at the standard IRS mileage rate established annually and published on the IRS website.

Mileage from an employee's home to the employee's regular place of work (see below for examples) is considered commuting mileage and will not be reimbursed. "Regular place of work" can change daily depending on the employees' responsibilities. Regular place of work may also change over time. Mileage from the regular place of work to other locations, including

Rocketship schools or offices, is reimbursable. Mileage for "home visits" to a student's home is also reimbursable. School based employees' regular place of work is always their school.

Examples of Reimbursable Mileage for Network Support Employees

- If an employee's regular place of work is Redwood City (RWC) and the employee starts the day in the RWC office, then drives to a school, then returns to the RWC office, the mileage between the RWC office and back to the RWC office is considered reimbursable.
- If an employee's regular place of work is Redwood City (RWC) and the employee starts the day in the RWC office, then goes to a school, and then drives directly home without returning to Redwood City, the reimbursable mileage is the lesser of these two calculations: (A) the round trip mileage from the RWC office to the school and back, or (B) the mileage from RWC to the school and back to the employee's home.
- If an employee regularly visits schools every day or is asked to work from multiple RSPS locations, then his/her regular place of work may change on a daily basis. For the purposes of expense reimbursement, the employee's regular place of work may be determined on a daily basis to reflect the first school(or other RSPS location) visited on that day. For example, if an employee who regularly works at the school begins his/her day at RSPS, then drives to the San Jose Regional Office, then to RMS, and then home, the reimbursable mileage would be the mileage between RSPS and the San Jose Regional Office and the mileage between the San Jose Regional Office and RMS. The final mileage (from RMS to the employee's home) would be considered commuting mileage.

<u>Other Transportation</u>

Reimbursement will be made for reasonable expenditures for transportation including, but not limited to, taxi/Ride App or shuttle fares between office/home and airport, as well as between airport and hotel or other destinations. Public transportation should be considered when it is less expensive and not significantly more inconvenient. Travelers should also please consider their own personal safety and familiarity with local transportation routes when choosing the public transportation option.

<u>Meals</u>

Meals made necessary by travel are reimbursable. Every effort must be made to ensure that the cost of such meals is reasonable. Rocketship has set guidelines for reimbursement for Employee Meals. These amounts will vary by city, but employees are generally asked not to exceed $75 per day in meals, using the GSA's recommended per diem for the city they're travelling to as a guide.

Occasionally business travel will require incurring the cost of meals for business associates and

those occasions may justify a more expensive meal than the recommended amounts above. Employees should obtain approval from their manager ahead of time if such situations for additional clarification on appropriate spending guidelines.

Per IRS regulations, documentation is required for all deductible meals and Rocketship applies the same requirements for meals submitted for reimbursement. Receipts submitted for meal reimbursement must include the following information:

- Meal expenses must be listed separately on the expense report (including those that were paid as part of a hotel bill).
- The description must include the names of all persons attending, their titles and business relationship, if applicable, and business purpose of the meal.
- Tear-away stubs are not acceptable as receipts; the employee must submit a receipt or form of payment such as a credit card slip or cash register receipt.
- Rocketship does not reimburse for alcohol.

Parking & Tolls

Parking and tolls for travel are reimbursable, including parking related to summer PD and all staff events.

Entertainment

Entertainment expenses include the cost of amusement or recreational facilities, as well as attendance at the theater, sporting events, etc. Entertainment expenditures require pre-approval from an employee's manager.

Non-reimbursable Expense

Other items related to travel that are not reimbursable are as follows:

- Movies
- Items of clothing purchased while traveling. This includes replacement of lost or stolen items as well as clothing purchased as a result of an unanticipated extended stay.
- Hotel laundry or valet charges are reimbursable only in the case of an unanticipated extension of a previously planned trip.
- Parking tickets, fines or penalties

Travel Advance

For specific circumstances in which a staff member has limited funds available to initiate his/her own travel arrangements, Rocketship may issue a travel advance in an amount approximate to the necessary expenses. Any authorized advance must be reconciled with actual trip expenses on a completed, approved expense report form within two weeks of the employee's return.

Please contact the Finance Department to request a travel advance.

5.3 Governing Board Expenses

- The individual incurring authorized expenses while carrying out the duties of the RPS will complete and sign an expense report and attach original receipts.
- The CEO and/or another board member will approve and sign the expense report.

6.0 Asset Management

6.1 Fixed Assets Capitalization

All assets with a useful life of greater than one year and costing more than $5,000 will be capitalized and will be recorded in the fixed asset records. Any asset that does not meet these criteria will be expensed in the current period.

The cost basis of furniture and equipment assets will include all charges relating to the purchase of the assets including the purchase price, freight charges, and installation if applicable.

Leases within the capitalization thresholds will be accounted for in accordance with ASC 842 – lease accounting.

Leasehold improvements are to be capitalized if they relate to the renovation or improvement of an existing building. Expenditures incurred in connection with maintaining the existing building in good working order shall be expensed as a repair.

Depreciation

Depreciation methods/lives for assets shall be selected for consistent financial reporting purposes. The following depreciation methods and useful lives shall be used for the following asset classifications for financial reporting purposes.

Asset Class	Useful Life	Method
Computers	Three Years	Straight Line
Furniture and Equipment	Seven Years	Straight Line
Leasehold Improvements	Remaining Life of Lease	Straight Line

6.2 Inventory

RPS will maintain a detailed listing of each capital asset item with purchase price greater than $5,000 along with depreciation records which will include the description, date acquired, vendor, cost basis, assigned department or location, depreciation method/life,

accumulated depreciation, and net book value. A physical inventory of property and equipment will be performed annually and compared to the detailed fixed asset listing. Any variances will be investigated and corrected or adjusted in financial statements as necessary. Rocketship has security cameras at its schools to safeguard its assets. Rocketship also hires a security company to help monitor some of its higher-risk areas.

Computer equipment, office equipment and furniture are tagged and logged into our tracking system. This tracking system categorizes by school, type of equipment and whether Federal Funds were used. Any disposition of equipment with remaining useful life will require approval from director of operations and best effort to obtain market value of the asset is required.

Assets purchased with federal grants will follow the Office of Management and Budget's Uniform Guidance, Title 2, Code of Federal Regulations ("2 CFR") §200.310 to §200.316.

7.0 Investment Policy

The RPS CFO will oversee the investment of Rocketship cash balances, subject to oversight of the RPS Board and following guidelines that have been established by the RPS Board. The core objective of this investment policy is the protection of the principal amount while achieving modest yield. The strategy is rooted in an unwavering commitment to capital preservation and minimal risk exposure. Investments consistent with this approach include, government backed securities, cash and cash equivalents, money market funds, government bonds, certificates of deposit and others.

8.0 Time and Effort Policies and Procedures

Overview:
All employees who are paid in full or in part with federal funds must keep specific documents to demonstrate the amount of time they spent on grant activities.

Charges to federal awards for salaries and wages must be based on records that accurately reflect the work performed. These records must:

- Be supported by a system of internal controls which provides reasonable assurance that the charges are accurate, allowable, and properly allocated;
- This includes verification through (electronic) signatures and documentation from individuals with first-hand knowledge incorporated into official records;
- Be incorporated into official records;
- Reasonably reflect total activity for which the employee is compensated, not exceeding 100% of compensated activities;

    - Budgeted estimates do not qualify but may be used for interim accounting purposes if the estimates are reasonable, identified to related work in a timely manner, and after-the-fact review procedures are in place
- Encompass both federally assisted and all other activities compensated by Rocketship;
- Comply with Rocketship's established accounting policies and practices; and
- Support the distribution of the employee's salary or wages among specific activities or cost objectives.

Time and Effort Procedures
To meet the above requirements, all employees who must complete time and effort forms must submit either a semi-annual certification or a personnel activity report (PAR) as required below.

The type of form depends on the number of cost objectives that an employee works on. A cost objective is a program, function, activity, award, organizational subdivision, contract, or work unit of which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capital projects, etc.

Semi-annual certification - applies to employees who do one of the following:
- Work 100% of their time on a single grant program and/or single cost objective.
- Work 100% of their time in administering one program such as a Federal Programs Director who administers only one program.
- Work 100% of their time under a single cost objective funded from eligible multiple funding sources.

The semi-annual certification must be:
- Completed twice a year;
- Be signed by the employee or the supervisor with direct knowledge of the work being performed;
- Reflect an after-the-fact distribution of the actual activity; and
- Account for the total activity for which each employee is compensated.
- The semi-annual certifications will be maintained by the business department grants office.

PAR - applies to employees who do one of the following:
- Do not work 100% of their time on a single grant program and/or single cost objective
- Work under multiple grant programs or multiple cost objectives

The PAR provides a written record of an employee's work activities used to document that employee's time to grants or projects. It must be completed monthly and supported by a daily calendar of activities.

All employees who work on multiple cost objectives must complete PARs that support the distribution of their salaries /wages that meet the following standards:
- Reflect an after-the-fact distribution of the actual activity, not a budget estimate;

- Account for the total work activity for which each employee is compensated;
- Be prepared at least monthly (a separate PAR for each month) and coincide with one (1) or more pay periods; and
- Be signed by the employee.

Reconciliation Procedures

It is critical for payroll charges to match the actual distribution of time recorded on the monthly certification documents. Budget estimates or other distribution percentages determined before the services are performed do not qualify as support for charges to federal awards, but may be used for interim accounting purposes provided that the system for establishing the estimates produces reasonable approximations of the activity actually performed.

In order to reconcile actual costs to budgeted distributions, the business team grants office will conduct quarterly reconciliations of payroll changes to the actual time and effort reflected in employees' time and effort records. This will include review of form ratios versus budgeted distributions after each review.

All the time and effort certifications are collected by the business team grants office, reviewed for accuracy, appropriate signatures, dates and copied to the Grants Accounting Office.

Executive Summary
Rocketship Education
Board of Directors
June 11, 2025

Agenda Item: 8(D) **Subject:** Approve the 2025-05 Resolutions of the Board of Directors of Rocketship Education to Establish Authority to Reallocate State and Federal Special Education Funding and to Reallocate Income for Fiscal Year 24-25	X	**OPEN/ACTION**
		INFORMATION
		CONSENT

Recommendation(s):

Staff members recommend the Rocketship Education ("RSED") Board of Directors ("Board") approve the resolution #2025-05 to establish the authority to reallocate state and federal special education funding and to reallocate income for fiscal year 2024-2025.

Background:
Rocketship's use of Special Education Funds is regulated by the El Dorado County Charter Special Education Local Planning Area (the Charter "SELPA"). The SELPA authorizes CMOs to reallocate state and federal funds between LEAs within their network.

The intent is to recognize that charter networks may have varying needs among their schools and through reallocation of revenue, can better match income to special education expenditures.

We have conducted an analysis of the special education revenues and expenditures for all California schools and are recommending the following changes to better align state and federal special education revenue with special education expenses at seven of our schools:

School	Increase/(Decrease) in Special Education Revenue
Rocketship Discovery Prep	200,148
Rocketship Futuro Academy	(162,719)
Rocketship Fuerza Community Prep	(125,617)
Rocketship Los Suenos Academy	117,833
Rocketship Si Se Puede Academy	(55,124)
Rocketship Mateo Sheedy Academy	16,149
Rocketship Rising Stars	(115,476)
Rocketship Mosaic Elementary	258,203
Rocketship Brilliant Minds	114,809
Rocketship Alma Academy	(172,729)
Rocketship Spark Academy	55,865
Rocketship Redwood City	(23,136)
Rocketship Delta Prep	(108,207)

Summary of Previous Board Action:
On June 13, 2024 the RSED-Board approved the 2024-04 Resolution of the Board of Directors of Rocketship Education to Establish Authority to Reallocate State and Federal Special Education Funding and to Reallocate Income for Fiscal Year 23-24.

Fiscal Impact:
See above.

**RESOLUTION #2025-05 OF THE BOARD OF DIRECTORS
OF ROCKETSHIP EDUCATION
(TO ESTABLISH AUTHORITY TO REALLOCATE STATE AND FEDERAL SPECIAL EDUCATION FUNDING AND TO REALLOCATE INCOME FOR FISCAL YEAR 24-25)**

**Resolution To Establish Board Authority to Reallocate
State and Federal Special Education Funding**

WHEREAS, Rocketship Education is a nonprofit public benefit corporation organized under the California Nonprofit Public Benefit Corporate Law ("**Rocketship**") organized and operated exclusively for educational and charitable purposes as an operator of a charter school network; and,

WHEREAS, pursuant to Education Code Section 56836.05(b), El Dorado Charter SELPA (the "**SELPA**") has the authority to develop an allocation plan to define the distribution of special education funds to charters within the SELPA; and,

WHEREAS, the CEO Council of the SELPA has approved an allocation plan that provides for the distribution of funds to each Charter LEA in the SELPA, where a charter is defined as having a separate CDS code; and,

WHEREAS, the allocation plan further authorizes a CMO or Non-Profit Corporation operating more than one charter school within the SELPA to reallocate state and federal base special education funding among charter LEAs within their authority.

NOW, THEREFORE, BE IT RESOLVED, that at the close of any fiscal year, base special education funding may be reallocated among the SELPA members under the authority of the Rocketship Board ("**Board**"), and,

BE IT FURTHER RESOLVED that this authority shall remain in place until changed by further action of this Board; and that reallocation of specific dollar amounts under this authority will be brought to this Board for specific action each time the authority is exercised.

Resolution To Reallocate Income for Fiscal Year 24-25

WHEREAS, this Board has resolved to allow state and federal base special education funding to be reallocated among the charter schools within the SELPA and operated by Rocketship; and

ROCKETSHIP
PUBLIC SCHOOLS

info@rsed.org
2001 Gateway Place, Ste. 230E, San Jose, CA 95110

WHEREAS, it has been deemed appropriate at this time to reallocate special education income pursuant to this authority.

NOW, THEREFORE, **BE IT RESOLVED**, that by October 1, 2025, the income reallocation specified below shall occur.

SELPA Member Charter Schools	CDS #	Original State Income Allocation	Adjusted State Income Allocation	Original Federal Income Allocation	Adjusted Federal Income Allocation

General Resolutions

Each Authorized Officer is hereby authorized and directed, in the name and on behalf of Rocketship, to take such actions and to execute and deliver such other certificates, instruments, notices, agreements and other documents as may be required or as such officer may deem necessary, convenient, advisable or proper to carry out and perform the obligations of Rocketship pursuant to these resolutions. The performance or execution thereof by such Authorized Officer to be conclusive evidence of the approval thereof by such officer and by this Board.

All actions and deeds heretofore done or taken by any Authorized Officer, on behalf of Rocketship, in their capacity as such Authorized Officer, and all things done by their authority in entering into, executing, acknowledging or attesting any arrangements, agreements, instruments or documents in carrying out the terms and intentions of the foregoing recitals and resolutions and with respect to the reallocation of state and federal special education funds are hereby ratified, approved and confirmed in all respects. These Resolutions shall be in full force and effect immediately upon its adoption and the authorizations herein set forth shall remain in full force and effect until further action by the Board.

Rocketship Education
Board of Directors
June 11, 2025

Agenda Item: 9(A) **Subject:** Review and approve Lease Agreement for Rocketship Stellar Elementary (WI)	X	**OPEN/ACTION**
		INFORMATION
		CONSENT

Recommendation(s):

Staff members recommend that the Rocketship Education Board of Directors ("RSED-Board") approve the lease agreement ("Lease") between Rocketship Education Wisconsin, Inc. ("RSED-WI") and Launchpad Development Milwaukee Three, LLC ("Launchpad Milwaukee Three").

Background:

The Asset Purchase Agreement providing for the acquisition of Stellar by RSED-WI was fully executed by RSED-WI and Carmen on April 7, 2025 (the "APA"). The APA provided a closing condition that RSED-WI or one of its affiliates acquire the property at 2431 South 10th Street, Milwaukee, WI 53215 (the " Property") through a separate real estate transaction. The Property is currently owned by Carmen High School of Science and Technology, Inc. ("Carmen"). Carmen has operated Stellar Elementary School ("Stellar") at the Property.

Launchpad Milwaukee Three is in the process of finalizing its acquisition of the Property in a separate transaction between it and Carmen. Launchpad Milwaukee Three is the RSED-WI affiliate that will enter into a Purchase and Sale Agreement with Carmen, under which it will purchase all rights, title, and interest in and to the Property. Launchpad Milwaukee Three intends to lease the Property to RSED-WI pursuant to the Lease.

The Lease will be between RSED-WI as tenant and Launchpad Milwaukee Three as landlord, and it will mirror the format and structure of the current lease between RSED-WI and Launchpad Milwaukee Two, LLC for Rocketship Transformation Prep ("RTP"). The Lease will provide RSED-WI with the opportunity to operate Rocketship Stellar Elementary ("Rocketship Stellar", formerly known as Stellar) at the Property pursuant to the Lease.

Summary of Previous Board Action by Board:
The RSED-WI Board previously approved the APA between RSED-WI and Carmen to acquire Stellar Elementary. Likewise, the RSED-WI Board approved of the Lease at its board meeting on June 6, 2025.

Fiscal Impact:
No fiscal impact to RSED.

Fiscal impact to RSED-WI includes total rent over the 378 months of the lease term will be $5,022,511.98 unless otherwise amended. Rent is set as debt service plus an 8% administrative

cost to cover Launchpad costs. During the first 18 months, rent is set at $9,028.44 per month, based on the existing loan to be assumed. Starting in January 2027, rent increases to $13,500 per month, based on estimated cost of refinance. Rent will be adjusted up or down as necessary following final refinancing.

SUMMARY OF BASIC LEASE TERMS

Lease Reference Date:	_____, 2025 (the "Lease Reference Date")
Landlord:	Launchpad Development Milwaukee Three LLC, a Wisconsin limited liability company ("Landlord").
Tenant:	Rocketship Education Wisconsin, Inc., a Wisconsin non-stock corporation ("Tenant").
Premises:	Landlord's fee interest in the Property and structures located thereon at and generally known as 2431 South 10th Street, Milwaukee, Wisconsin 53215, and legally described and shown on Exhibit A.
Tenant's Share:	100%
Effective Date:	July 1, 2025 ("Effective Date")
Lease Term:	The Lease Term shall be the term set forth in Exhibit B, attached hereto and incorporated herein.
Basic Rent:	The Rent shall be the amount set forth in Exhibit B, attached hereto and incorporated herein.
Permitted Use:	Solely for the purpose of operating an elementary charter school in accordance with the school's charter, serving students in transitional kindergarten through fifth grade, that is exempt from federal income taxation under Section 501(a) of the Internal Revenue Code of 1986, as amended (the "Code") as an organization described in Code Section 501(c)(3) and that qualifies as an "educational organization" as described under Code Section 170(b)(1)(A)(ii), and for any other lawful related or incidental educational purposes (the "Permitted Use").
Permitted Tenant's Alterations Limit:	$2,500.00
Tenant's Liability Insurance Minimum:	$1,000,000.00
Landlord's Address:	c/o Launchpad Development Company 350 Twin Dolphin Drive, Suite 109 Redwood City, CA 94065 Attn: Laura Kozel, Vice President, Capital Finance

Tenant's Address:	c/o Rocketship Education 350 Twin Dolphin Drive, Suite 109 Redwood City, CA 94065 Attn: Chief Executive Officer and Legal Counsel
With a Copy to:	Rocketship Education 350 Twin Dolphin Drive, Suite 109 Redwood City, CA 94065 Attn: Chief Schools Officer
Lease:	This Lease includes the Summary of Basic Lease Terms, the Lease, and the following exhibits and addenda: **Exhibit A** (Site Plan/Legal Description of the Premises) **Exhibit B** (Additional Terms and Provisions) **Exhibit C** (Maintenance Services to be provided by Landlord)

The foregoing Summary is hereby incorporated into and made part of this Lease. Each reference in this Lease to any term of the Summary shall mean the respective information set forth above shall be construed to incorporate all of the terms provided under the particular paragraph pertaining to such information. In the event of any conflict between the Summary and the Lease, the Summary shall control.

LEASE AGREEMENT - ROCKETSHIP STELLAR ELEMENTARY

This Lease Agreement — Rocketship STELLAR ELEMENTARY (this "Lease") is dated as of the Lease Reference Date specified in the Summary and made between the Landlord and Tenant identified in the Summary with reference to the following:

RECITALS

A. Landlord desires, as the fee owner of that property commonly known as and referred to as 2431 South 10th Street, Milwaukee, Wisconsin 5325, which property is legally described in **Exhibit A** attached hereto and incorporated herein and certain facilities and improvements thereon (collectively, the "Property"), to lease the Property to Tenant in accordance with the terms of this Lease.

NOW, THEREFORE, in consideration of the mutual promises herein contained and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

ARTICLE 1
DEFINITIONS

1.1 General: Any initially capitalized term that is given a special meaning by this Article 1, the Summary, or by any other provision of this Lease (including the exhibits attached hereto) shall have such meaning when used in this Lease or any addendum or amendment unless otherwise clearly indicated by context.

1.2 Address for Notices: The term "Address for Notices" shall mean the addresses set forth in the Summary.

1.3 Additional Rent: The term "Additional Rent" shall have such meaning as is set forth in **Exhibit B**.

1.4 Agents: The term "Agents" shall mean the following: (i) with respect to Landlord or Tenant, the agents, employees, contractors, and invitees of such party; and (ii) in addition with respect to Tenant, Tenant's subtenants and their respective agents, employees, contractors, and invitees.

1.5 Agreed Interest Rate: The term "Agreed Interest Rate" shall mean that interest rate determined as of the time it is to be applied that is equal to the lesser of (i) 5% in excess of the discount rate established by the Federal Reserve Bank of San Francisco as it may be adjusted from time to time, or (ii) the maximum interest rate permitted by Law.

1.6 Base Rent: The term "Base Rent" shall have such meaning as is set forth in **Exhibit B**.

1.7 Bankruptcy Code: The term "Bankruptcy Code" shall have such meaning as is set forth in **Section 13.3**.

1.8 Effective Date: The term "Effective Date" shall have such meaning as is set forth in the recitals.

1.9 Estimate: The term "Estimate" shall have such meaning as is set forth in **Section 8.1**.

1.10 Event of Tenant's Default: The term "Event of Tenant's Default" shall have such meaning as is set forth in **Section 13.1**.

1.11 Facility Fee: The term "Facility Fee" shall have such meaning as is set forth in **Exhibit B**.

1.12 HVAC**:** The term "HVAC" shall have such meaning as is set forth in **Section 4.1**.

1.13 Hazardous Material: The term "Hazardous Material" shall have such meaning as is set forth in **Section 7.2**.

1.14 Initial Lease Term: The term "Initial Lease Term" shall have such meaning as is set forth in **Exhibit B**.

1.15 Insured Peril: The term "Insured Peril" shall have such meaning as is set forth in **Section 11.2**.

1.16 Landlord: The term "Landlord" shall have such meaning as is set forth in the Summary.

1.17 Landlord's Agents: The term "Landlord's Agents" shall have such meaning as is set forth in **Section 5.5**.

1.18 Law: The term "Law" shall mean any judicial decision, statute, constitution, ordinance, resolution, regulation, rule, administrative order, or other requirement of any municipal, county, state, federal or other government agency or authority having jurisdiction over the parties to this Lease or the Premises, or both, in at any time.

1.19 Launchpad: The term "Launchpad" shall have such meaning as is set forth in the recitals.

1.20 Lease: "Lease" shall mean this Lease Agreement – Rocketship STELLAR ELEMENTARY, as the same is amended, restated, modified and supplemented from time to time and all attachments or exhibits hereto.

1.21 Lease Reference Date: The term "Lease Reference Date" shall have such meaning as is set forth in the Summary.

1.22 Lease Term: The term "Lease Term" shall have such meaning as is set forth in **Exhibit B**.

1.23 Lender: The term "Lender" shall mean any beneficiary, mortgagee, bond holder, secured party, lessor, or other holder of any Security Instrument.

1.24 Monthly Expense Payment: The term "Monthly Expense Payment" shall have such meaning as is set forth in **Exhibit B**.

1.25 Operating Expenses: The term "Operating Expenses" shall have such meaning as is set forth in **Exhibit B**.

1.26 Permitted Use: The term "Permitted Use" shall have such meaning as is set forth in the Summary.

1.27 Private Restrictions: The term "Private Restrictions" shall mean all recorded covenants, conditions and restrictions, private agreements, reciprocal easement agreements, and any other recorded 2 instruments affecting the use of the Premises which (i) exist as of the Effective Date, or (ii) are recorded after the Effective Date and are approved by Tenant.

1.28 Property: The term "Property" shall have such meaning as is set forth in the recitals.

1.29 Property Management Fee: The term "Property Management Fee" shall have such meaning as is set forth in **Exhibit B**.

1.30 Proportionate Share: The term "Proportionate Share" shall have such meaning as is set forth in **Section 3.3**.

1.31 Real Property Taxes: The term "Real Property Taxes" shall have such meaning as is set forth in **Section 8.3**.

1.32 Renewal Option: The term "Renewal Option" shall have such meaning as is set forth in **Exhibit B**.

1.33 Renewal Term: The term "Renewal Term" shall have such meaning as is set forth in **Exhibit B**.

1.34 Rent: The term "Rent" shall have such meaning as is set forth in **Exhibit B**.

1.35 Rocketship STELLAR ELEMENTARY Charter: The term "Rocketship STELLAR ELEMENTARY Charter" shall have such meaning as is set forth in **Section 15.18**.

1.36 Security Instrument: The term "Security Instrument" shall mean any underlying lease, mortgage, deed of trust, or bond which now or hereafter affects the Premises, and any renewal, modification, consolidation, replacement or extension thereof.

1.37 Statement: The term "Statement" shall have such meaning as is set forth in **Section 8.1**.

1.38 Summary: The term "Summary" shall mean the Summary of Basic Lease Terms that is part of this Lease.

1.39 Tenant: The term "Tenant" shall have such meaning as is set forth in the Summary.

1.40 Tenant's Agents: The term "Tenant's Agents" shall have such meaning as is set forth in **Section 5.5**.

1.41 Tenant's Alterations: The term "Tenant's Alterations" shall mean all improvements, additions, alterations, and fixtures installed in the Premises by Tenant at its expense which are not Trade Fixtures.

1.42 Trade Fixtures: The term "Trade Fixtures" shall mean (i) Tenant's inventory, furniture, signs, and business equipment, and (ii) anything affixed to the Premises by Tenant at its expense for purposes of trade, manufacture, ornament or domestic use (except replacement of similar work or material originally installed by Landlord) which can be removed without material injury to the Premises unless such thing has, by the manner in which it is affixed, become an integral part of the Premises.

1.43 Transfer: The term "Transfer" shall have such meaning as is set forth in **Section 14.1**.

1.44 Uninsured Peril: The term "Uninsured Peril" shall have such meaning as is set forth in **Section 11.2**.

ARTICLE 2
DEMISE AND ACCEPTANCE

2.1 Demise of Premises: Landlord hereby leases to Tenant, and Tenant leases from Landlord, for the Lease Term upon the terms and conditions of this Lease, the Premises for Tenant's own use.

ARTICLE 3
RENT

3.1 Rent: Commencing on the Effective Date and continuing throughout the Lease Term, Tenant shall pay to Landlord the Rent as set forth in **Exhibit B.** To the extent that there is any inconsistency or distinction between the body of this Lease and the provisions of **Exhibit B**, the terms and provisions of **Exhibit B** shall control.

3.2 Rent Defined: As used herein, "Rent" is comprised of the following: (i) the Base Rent (as defined in **Exhibit B)**; (ii) the Monthly Expense Payment (as defined in **Exhibit B)**; (iii) the Property Management Fee (as defined in **Exhibit B)**; (iv) the Annual Adjusting Rent Payment (as defined in **Section** 8.1); and (v) Additional Rent (as defined in **Exhibit B)**. The term "Rent", as used herein, is also referenced as the "Facility Fee".

3.3 Payment of Rent: All Rent, required to be paid in monthly installments, shall be paid in advance on the twentieth (20th) day of each calendar month during the Lease Term. All Rent shall be paid in lawful money of the United States, without any abatement, deduction or offset whatsoever (except as specifically provided herein), and without any prior demand therefore. All Rent shall be paid to Landlord at such address as Landlord notifies Tenant, or at such other place as Landlord may designate from time to time. Tenant's obligation to pay Rent shall be prorated at the commencement and expiration of the Lease Term over any partial month.

3.4 Late Charge and Interest on Rent in Default: If any Rent is not received by or one behalf of Landlord from Tenant within ten (10) calendar days after Landlord has notified Tenant in writing that payment has not been received by Landlord, then Tenant shall immediately pay to Landlord a late charge equal to five percent (5%) of such delinquent rent as liquidated damages for Tenant's failure to make timely payment. In no event shall this provision for a late charge be deemed to grant to Tenant a grace period or extension of time within which to pay any rent or prevent Landlord from exercising any right or remedy available to Landlord upon Tenant's failure to pay any rent due under this Lease in a timely fashion. If any Rent remains delinquent for a period in excess of thirty (30) days then, in addition to such late charge, Tenant shall pay to Landlord interest on any rent that is not paid when due at the Agreed Interest Rate from the date such amount became due until paid.

ARTICLE 4
USE OF PREMISES

4.1 Limitation on Use: Tenant shall use the Premises solely for the Permitted Use. Tenant shall not do anything in or about the Premises which will: (a) cause structural injury to any building on the Premises, or (b) cause damage to any part of any building on the Premises except to the extent reasonably necessary for the installation of Tenant's Trade Fixtures and Tenant's

Alterations, and then only in a manner which has been first consented to by Landlord in writing, which consent shall not be unreasonably withheld, conditioned or delayed. Tenant shall not operate any equipment within the Premises which will: (i) materially damage any building on the Premises, (ii) overload existing electrical systems or other mechanical equipment servicing any building on the Premises, (iii) impair the efficient operation of the sprinkler system or the heating, ventilating or air conditioning ("HVAC") equipment within or servicing any building on the Premises, or (iv) damage, overload or corrode the sanitary sewer system. Any dust, fumes, or waste products generated by Tenant's use of the Premises shall be contained and disposed so that they do not (1) create an unreasonable fire or health hazard, (2) damage the Premises, or (3) result in the violation of any Law. Tenant shall not change the exterior of any building on the Premises or install any equipment or antennas on or make any penetrations of the exterior or roof of any building on the Premises, without Landlord's written consent, which shall not be unreasonably withheld. Tenant shall not commit any material physical waste in or about the Premises, and Tenant shall keep the Premises in a neat, clean, attractive and orderly condition, free of any nuisances.

4.2 Compliance with Regulations: Tenant shall not use the Premises in any manner which violates any Laws or Private Restrictions which affect the Premises. Tenant shall abide by and promptly observe and comply with all Laws and Private Restrictions. Tenant shall not use the Premises in any manner which will cause a cancellation of any insurance policy covering Tenant's Alterations or any improvements installed by Landlord at its expense or which poses an unreasonable risk of damage or injury to the Premises. Tenant shall not sell, or permit to be kept, used, or sold in or about the Premises any article which may be prohibited by the standard form of fire insurance policy. Tenant shall comply with all reasonable requirements of any insurance company, insurance underwriter, or Board of Fire Underwriters which are necessary to maintain the insurance coverage carried by either Landlord or Tenant pursuant to this Lease.

4.3 Signs: Tenant's signage, if any, shall conform to all Laws, be installed at the expense of Tenant, and be installed with such governmental permits as are required by Law. Tenant shall maintain such signs in good condition and repair.

ARTICLE 5
TRADE FIXTURES AND ALTERATIONS

5.1 Trade Fixtures: Throughout the Lease Term, Tenant may provide and install, and shall maintain in good condition, any Trade Fixtures required in connection with the operation of an elementary charter school in the Premises. All Trade Fixtures shall remain Tenant's property.

5.2 Tenant's Alterations: Construction by Tenant of Tenant's Alterations shall be governed by the following:

A. Tenant shall not construct any Tenant's Alterations or otherwise alter the Premises without Landlord's prior written approval. Tenant shall be entitled, without Landlord's prior approval, to make Tenant's Alterations (i) which do not affect the structural or exterior parts or water tight character of any building on the Premises, and (ii) the reasonably estimated cost of which, plus the original cost of any part of the Premises removed or materially altered in connection with such Tenant's Alterations, together do not exceed the Permitted Tenant Alterations Limit specified in the Summary per work of improvement. In the event Landlord's

approval for any Tenant's Alterations is required, Tenant shall not construct the leasehold improvement until Landlord has approved in writing the plans and specifications therefore, and such Tenant's Alterations shall be constructed substantially in compliance with such approved plans and specifications by a licensed contractor first approved by Landlord. All Tenant's Alterations constructed by Tenant shall be constructed by a licensed contractor in accordance with all Laws using new materials of good quality.

B. Tenant shall not commence construction of any Tenant's Alterations until (i) all required governmental approvals and permits have been obtained, (ii) all requirements regarding insurance imposed by this Lease have been satisfied, (iii) Tenant has given Landlord at least five days' prior written notice of its intention to commence such construction, and (iv) if reasonably requested by Landlord, Tenant has obtained contingent liability and broad form builders' risk insurance in an amount reasonably satisfactory to Landlord if there are any perils relating to the proposed construction not covered by insurance carried pursuant to **Article 9**.

C. All Tenant's Alterations shall remain the property of Tenant during the Lease Term but shall not be altered or removed from the Premises. At the expiration or sooner termination of the Lease Term, all Tenant's Alterations shall be surrendered to Landlord as part of the realty and shall then become Landlord's property, and Landlord shall have no obligation to reimburse Tenant for all or any portion of the value or cost thereof; provided, however, that if Landlord requires Tenant to remove any Tenant's Alterations, Tenant shall so remove such Tenant's Alterations prior to the expiration or sooner termination of the Lease Term. Notwithstanding the foregoing, Tenant shall not be obligated to remove any Tenant's Alterations with respect to which the following is true: (i) Tenant was required, or elected, to obtain the approval of Landlord to the installation of the leasehold improvement in question; (ii) at the time Tenant requested Landlord's approval, Tenant requested of Landlord in writing that Landlord inform Tenant of whether or not Landlord would require Tenant to remove such leasehold improvement at the expiration of the Lease Term; and (iii) at the time Landlord granted its approval, it did not inform Tenant that it would require Tenant to remove such leasehold improvement at the expiration of the Lease Term.

5.3 Alterations Required by Law: Tenant shall make any alteration, addition or change of any sort to the Premises that is required by any Law because of (i) Tenant's particular use or change of use of the Premises; (ii) Tenant's application for any permit or governmental approval; or (iii) Tenant's construction or installation of any Tenant's Alterations or Trade Fixtures. Any other alteration, addition, or change required by Law which is not the responsibility of Tenant pursuant to the foregoing shall be made by Landlord (subject to Landlord's right to reimbursement from Tenant specified in §5.4).

5.4 Amortization of Certain Capital Improvements: Tenant shall pay additional Rent (to be paid as part of the Monthly Expense Payment) in the event Landlord reasonably elects or is required to make any of the following kinds of capital improvements to the Premises and the cost thereof is not reimbursable as an Operating Expense: (i) capital improvements required to be constructed in order to comply with any Law (excluding any Hazardous Materials Law) not in effect or applicable to the Property as of the Effective Date; and (ii) modification of existing or construction of additional capital improvements or building service equipment for the purpose of reducing the consumption of utility services or Operating Expenses of the Premises (with approval

of Tenant). The increase in the Monthly Expense Payment to be paid with respect to each such capital improvement shall be determined as follows:

A. All costs paid by Landlord to construct such improvements (including financing costs) shall be amortized over the useful life of such improvement (as reasonably determined by Landlord in accordance with generally accepted accounting principles) in a series of equal monthly payments with interest on the unamortized balance at the market rate prevailing as of date of completion of the improvement if Landlord borrowed funds to construct such improvements from an institutional lender, bond holders or any other comparable entity. Landlord shall inform Tenant of the monthly amortization payment required to so amortize such costs, and shall also provide Tenant with the information upon which such determination is made.

B. As an addition to the expenses referenced above, beginning on the twentieth (20th) day of each month after the completion of such improvements and continuing on the twentieth (20th) day of each month thereafter, Tenant shall pay the monthly amortization payment for each month after such improvements are completed until the first to occur of (i) the expiration of the Lease Term (as it may be extended), or (ii) the end of the term over which such costs were amortized.

5.5 Mechanic's Liens: Tenant shall keep the Premises free from any liens and shall pay when due all bills arising out of any work performed, materials furnished, or obligations incurred by Tenant or Tenant's agents, employees, contractors, licensees and invitees (collectively "Tenant's Agents") relating to the Premises. If any claim of lien is recorded (except those caused by Landlord or Landlord's agents, employees, contractors, licensees and invitees (collectively "Landlord's Agents"), Tenant shall bond against or discharge the same within 10 days after the same has been recorded against the Premises. Should any lien be filed against the Premises or any action be commenced affecting title to the Premises, the party receiving notice of such lien or action shall immediately give the other party written notice thereof.

5.6 Taxes on Tenant's Property: Tenant shall pay before delinquency any and all taxes, assessments, license fees and public charges levied, assessed or imposed against Tenant or Tenant's estate in this Lease or the property of Tenant situated within the Premises which become due during the Lease Term. If any tax or other charge is assessed by any governmental agency because of the execution of this Lease, such tax shall be paid by Tenant. On demand by Landlord, Tenant shall furnish Landlord with satisfactory evidence of these payments.

ARTICLE 6
REPAIR AND MAINTENANCE

6.1 Tenant's Obligation to Maintain: Except as otherwise provided in **Section 6.2**, **Section 11.1**, and **Section 12.3**, Tenant shall be responsible for the following during the Lease Term:

A. Tenant shall clean and maintain in good order, condition, and repair the Premises and every part thereof (including external grounds and parking areas), through regular inspections and servicing, including, but not limited to: (i) all plumbing and sewage facilities (including all sinks, toilets, faucets and drains), and all ducts, pipes, vents or other parts of the

HVAC or plumbing system; (ii) all fixtures, interior walls, floors, carpets and ceilings; (iii) all windows, doors, entrances, plate glass, showcases and skylights (including cleaning both interior and exterior surfaces); (iv) all electrical facilities and all equipment (including all lighting fixtures, lamps, bulbs, tubes, fans, vents, exhaust equipment and systems); and (v) any automatic fire extinguisher equipment in the Premises.

B. Tenant shall be responsible for the maintenance and repair of all utility facilities serving the Premises (including electrical wiring and conduits, gas lines, water pipes, and plumbing and sewage fixtures and pipes). Tenant shall replace any damaged or broken glass in the Premises (including all interior and exterior doors and windows) with glass of the same kind, size and quality. Tenant shall repair any damage to the Premises (including exterior doors and windows) caused by vandalism or any unauthorized entry.

C. All repairs and replacements required of Tenant shall be promptly made with new materials of like kind and quality. If the work affects the structural parts of the Building or if the estimated cost of any item of repair or replacement is in excess of the Permitted Tenant's Alterations Limit, then Tenant shall first obtain Landlord's written approval of the scope of the work, plans therefore, materials to be used, and the contractor.

6.2 Landlord's Obligation to Maintain: Landlord shall maintain, repair', and operate all HVAC equipment which services the Premises, and shall keep the same in good condition through regular inspection and servicing, with expenses passed through to Tenant through payment of Operating Expenses as required by **Article 8** hereof. Landlord will also replace (when necessary in Landlord's reasonable judgment) at its own cost, without reimbursement by Tenant, the roof, HVAC system, parking lot, and any other capital items (other than those listed in **Section** 5.4) which are capital expenses under generally accepted accounting principles as applied in Landlord's reasonable judgment. Landlord shall not be responsible for repairs required by an accident, fire or other peril or for damage caused to any part of the Premises by any act or omission of Tenant or Tenant's Agents except as otherwise required by **Article 11**. Landlord may engage contractors of its choice to perform the obligations required of it by this Article, and the necessity of any expenditure to perform such obligations shall be at the sole discretion of Landlord.

6.3 Landlord's Services and Replacement Obligations: Landlord shall provide Tenant with those certain maintenance services described in **Exhibit C**, attached hereto and incorporated herein. All such maintenance services shall be deemed Operating Expenses under the Lease. In addition, provided that Tenant has maintained the major mechanical systems and roof as set forth above, Landlord shall be responsible for replacement of the major mechanical systems and roof if that should prove necessary, in Landlord's reasonable judgment.

ARTICLE 7
WASTE DISPOSAL AND UTILITIES

7.1 Waste Disposal: Tenant shall store its waste either inside the Premises or within outside trash enclosures that are fully fenced and screened in compliance with all Private Restrictions, and designed for such purpose. All entrances to such outside trash enclosures shall be kept closed, and waste shall be stored in such manner as not to be visible from the exterior of such outside enclosures. Tenant shall cause all of its waste to be regularly removed from the

Premises at Tenant's sole cost. Tenant shall keep all fire corridors and mechanical equipment rooms in the Premises free and clear of all obstructions at all times.

7.2 Hazardous Materials: Landlord and Tenant agree as follows with respect to the existence or use of Hazardous Materials on the Premises:

A. Any handling, transportation, storage, treatment, disposal or use of Hazardous Materials by Tenant and Tenant's Agents after the Effective Date in or about the Premises shall strictly comply with all applicable Hazardous Materials Laws. Tenant shall indemnify, defend upon demand with counsel reasonably acceptable to Landlord, and hold harmless Landlord from and against any liabilities, losses, claims, damages, lost profits, consequential damages, interest, penalties, fines, monetary sanctions, attorneys' fees, experts' fees, court costs, remediation costs, investigation costs, and other expenses which result from or arise in any manner whatsoever out of the use, storage, treatment, transportation, release, or disposal of Hazardous Materials on or about the Premises by Tenant or Tenant's Agents after the Effective Date.

B. If the presence of Hazardous Materials on the Premises caused by Tenant or Tenant's Agents after the Effective Date results in contamination or deterioration of water or soil resulting in a level of contamination greater than the levels established as acceptable by any governmental agency having jurisdiction over such contamination, then Tenant shall promptly take any and all action necessary to investigate and remediate such contamination if required by Law or as a condition to the issuance or continuing effectiveness of any governmental approval which relates to the use of the Premises or any part thereof. Tenant shall further be solely responsible for, and shall defend, indemnify and hold Landlord and its agents harmless from and against, all claims, costs and liabilities, including attorneys' fees and costs, arising out of or in connection with any investigation and remediation required hereunder to return the Premises to its condition existing prior to the appearance of such Hazardous Materials.

C. Landlord and Tenant shall each give written notice to the other as soon as reasonably practicable of (i) any communication received from any governmental authority concerning Hazardous Materials which relates to the Premises, and (ii) any contamination of the Premises by Hazardous Materials which constitutes a violation of any Hazardous Materials Law. Tenant may use small quantities of household chemicals such as adhesives, lubricants, and cleaning fluids in order to conduct its business at the Premises and such other Hazardous Materials as are necessary for the operation of Tenant's business of which Landlord receives notice prior to such Hazardous Materials being brought onto the Premises and which Landlord consents in writing may be brought onto the Premises. At any time during the Lease Term, Tenant shall, within five days after written request therefore received from Landlord, disclose in writing all Hazardous Materials that are being used by Tenant on the Premises, the nature of such use, and the manner of storage and disposal.

D. Landlord may cause testing wells to be installed on the Premises, and may cause the ground water to be tested to detect the presence of Hazardous Material by the use of such tests as are then customarily used for such purposes. If Tenant so requests, Landlord shall supply Tenant with copies of such test results. The cost of such tests and of the installation, maintenance, repair and replacement of such wells shall be paid by Tenant if such tests disclose the existence of

facts which give rise to liability of Tenant pursuant to its indemnity given in **Section 7.2A** or **Section 7.2B**.

E. As used herein, the term "Hazardous Material," means any hazardous or toxic substance, material or waste which is or becomes regulated by any local governmental authority, the State of Wisconsin or the United States Government. The term "Hazardous Material," includes, without limitation, petroleum products, asbestos, PCB's, and any material or substance which is (i) defined as a "hazardous waste" pursuant to Section 1004 of the Federal Resource Conservation and Recovery Act, 42 U.S.C. 6901 et seq. (42 U.S.C. 6903), or (ii) defined as a "hazardous substance" pursuant to Section 101 of the Comprehensive Environmental Response; Compensation and Liability Act, 42 U.S.C. 9601 et seq. (42 U.S.C. 9601). As used herein, the term "Hazardous Material Law" shall mean any statute, law, ordinance, or regulation of any governmental body or agency (including the U.S. Environmental Protection Agency and the Wisconsin Department of Natural Resources) which regulates the use, storage, release or disposal of any Hazardous Material.

F. The obligations of Landlord and Tenant under this **Section 7.2** shall survive the expiration or earlier termination of the Lease Term. The rights and obligations of Landlord and Tenant with respect to issues relating to Hazardous Materials are exclusively established by this **Section 7.2**. In the event of any inconsistency between any other part of this Lease and this **Section 7.2**, the terms of this **Section 7.2** shall control.

G. All contamination of the Property with Hazardous Materials other than that described in **Section 7.2A** and **Section 7.2B** shall be the responsibility of Landlord, which shall indemnify, defend upon demand with counsel reasonably acceptable to Tenant, and hold harmless Tenant from and against any liabilities, losses, claims, damages, lost profits, consequential damages, interest, penalties, fines, monetary sanctions, attorneys' fees, experts' fees, court costs, remediation costs, investigation costs, and other expenses which result from or arise in any manner whatsoever out of the same.

7.3 Utilities: Tenant shall promptly pay, as the same become due, all charges for water, gas, electricity, telephone, sewer service, waste pick up and any other utilities, materials or services furnished directly to or used by Tenant on or about the Premises during the Lease Term, including, without limitation, (i) meter, use and/or connection fees, hook up fees, or standby fee (excluding any connection fees or hook up fees which relate to making the existing electrical, gas, and water service available to the Premises as of the Effective Date), and (ii) penalties for discontinued or interrupted service.

7.4 Compliance with Governmental Regulations: Tenant shall comply with all rules, regulations and requirements promulgated by national, state or local governmental agencies or utility suppliers concerning the use of utility services, including any rationing, limitation or other control. Tenant shall not be entitled to terminate this Lease nor to any abatement in rent by reason of such compliance.

ARTICLE 8
OPERATING EXPENSES

8.1 Tenant's Obligation to Reimburse: As a part of the Rent, on the twentieth (20th) day of each calendar month, Tenant shall reimburse Operating Expenses by paying a Monthly Expense Payment as set forth in **Exhibit B**. Tenant shall pay the Monthly Expense Payment as follows: (a) Landlord shall deliver Landlord's reasonable estimate of the Operating Expenses it anticipates will be paid or incurred for the Landlord's fiscal year in question (the "Estimate") at least sixty (60) days prior to the commencement of each Lease Year following the first Lease Year; (b) during such Lease Year, Tenant shall pay the Monthly Estimated Expense Payment as per the Estimate in advance in monthly installments; and (c) within 90 days after the end of each Lease Year, Landlord shall furnish to Tenant a statement of the actual Operating Expenses paid or incurred by Landlord during the preceding Lease Year ("Statement") and thereupon there shall be an adjustment between Landlord and Tenant, with payment to Landlord or credit by Landlord against the next Rent, as the case may require, within 10 days after delivery by Landlord to Tenant of said statement, so that Landlord shall receive the entire amount of the annual operating expenses shown on the Statement and no more. Tenant shall have the right at its expense, exercisable upon reasonable prior written notice to Landlord, to inspect at Landlord's office during normal business hours Landlord's books and records as they relate to Operating Expenses. Such inspection must be within a reasonable time period after Tenant's receipt of the Statement. Tenant may not withhold payment of such bill pending completion of such inspection, and prior payment of the amount shown by the Statement is a pre condition to inspection.

8.2 Operating Expenses Defined: The term "Operating Expenses" shall mean the following:

A. All costs and expenses paid or incurred by Landlord in carrying out the Landlord's maintenance responsibility under **Section** 6.3, except that Landlord will not be entitled to reimbursement of capital expenses except under the circumstances set forth in **Section 5.4**. As used herein, "capital expenses" means and includes replacement of the roof and/or the HVAC system and any other matter which would be considered a capital expenditure pursuant to generally accepted accounting principles as consistently applied by Landlord in its reasonable discretion.

B. All costs and expenses paid or incurred by Landlord in regard to the following: (i) maintenance of the liability, fire and property damage insurance covering the Premises carried by Landlord pursuant to **Section 9.2** (including the prepayment of premiums for coverage of up to one year); (ii) non capital repairs, inspection, and servicing of the roof if performed by Landlord; (iii) maintaining, repairing, inspecting, and operating the HVAC equipment, utility facilities and other building service equipment (but not including capital expense); (iv) complying with all applicable Laws and Private Restrictions; (vi) operating, maintaining, repairing, cleaning, painting, restriping and resurfacing (but not replacing) the parking area; (vii) replacement or installation of lighting fixtures, directional or other signs and signals, irrigation systems, trees, shrubs, ground cover and other plant materials, and all landscaping in the outside area.

C. The following costs: (i) Real Property Taxes as defined in **Section 8.3**; (ii) the amount of any "deductible" paid by Landlord with respect to damage caused by any Insured

Peril; (iii) the cost to repair damage caused by an Uninsured Peril up to a maximum amount in any 12 month period equal to 2% of the replacement cost of the buildings or other improvements damaged; and (iv) that portion of all compensation (including benefits and premiums for workers' compensation and other insurance) paid to or on behalf of employees of Landlord but only to the extent they are involved in the performance of the work described by **Section 8.2A** and **Section 8.2B**. Landlord and Tenant shall cooperate to reduce or eliminate any Real Estate Taxes to the greatest extent feasible based on their non profit and charitable status.

D. All additional costs and expenses incurred by Landlord with respect to the operation, protection, maintenance, repair and replacement of the Premises which would be considered a current expense (and not a capital expenditure) pursuant to generally accepted accounting principles; provided, however, that Operating Expenses shall not include any of the following: (i) payments on any loans affecting the Premises; (ii) depreciation of any buildings or any major systems of building service equipment within the Premises; (iii) any cost incurred in complying with Hazardous Materials Laws, which subject is governed exclusively by **Section 7.2**; and (iv) any fees for management services, which are part of the Base Rent.

8.3 Real Property Taxes Defined: The term "Real Property Taxes" shall mean all taxes, assessments, levies, and other charges of any kind or nature whatsoever, general and special, foreseen and unforeseen (including all installments of principal and interest required to pay any existing or future general or special assessments for public improvements, services or benefits, and any increases resulting from reassessments resulting from a change in ownership, new construction, or any other cause), now or hereafter imposed by any governmental or quasi governmental authority or special district having the direct or indirect power to tax or levy assessments, which are levied or assessed against, or with respect to the value, occupancy or use of all or any portion of the Premises (as now constructed or as may at any time hereafter be constructed, altered, or otherwise changed) or Landlord's interest therein, the fixtures, equipment and other property of Landlord, real or personal, that are an integral part of and located on the Premises, the gross receipts, income, or rentals from the Premises, or the use of parking areas, public utilities, or energy within the Premises, or Landlord's business of leasing the Premises. If at any time during the Lease Term the method of taxation or assessment of the Premises prevailing as of the Effective Date shall be altered so that in lieu of or in addition to any Real Property Tax described above there shall be levied, assessed or imposed (whether by reason of a change in the method of taxation or assessment, creation of a new tax or charge, or any other cause) an alternate or additional tax or charge (i) on the value, use or occupancy of the Premises or Landlord's interest therein, or (ii) on or measured by the gross receipts, income or rentals from the Premises, on Landlord's business of leasing the Premises, or computed in any manner with respect to the operation of the Premises, then any such tax or charge, however designated, shall be included within the meaning of the term "Real Property Taxes" for purposes of this Lease. If any Real Property Tax is based upon property or rents unrelated to the Premises, then only that part of such Real Property Tax that is fairly allocable to the Premises shall be included within the meaning of the term "Real Property Taxes". Notwithstanding the foregoing, the term "Real Property Taxes" shall not include estate, inheritance, transfer, gift or franchise taxes of Landlord or any federal or state net income tax imposed on Landlord's income from all sources.

ARTICLE 9
INSURANCE

9.1 Tenant's Insurance: Tenant shall maintain insurance complying with all of the following:

A. Tenant shall procure, pay for and keep in full force and effect the following:

(1) Commercial general liability insurance, including property damage, against liability for personal injury, bodily injury, death and damage to property occurring in or about, or resulting from an occurrence in or about, the Premises with combined single limit coverage of not less than the amount of Tenant's Liability Insurance Minimum specified in the Summary, which insurance shall contain a "contractual liability" endorsement insuring Tenant's performance of Tenant's obligation to indemnify Landlord contained in **Section 10.3**;

(2) Fire and property damage insurance in so called "all risk" form insuring Tenant's Trade Fixtures and Tenant's Alterations for the full actual replacement cost thereof;

(3) Such other insurance that is either (i) required by any Lender, or (ii) reasonably required by Landlord and customarily carried by tenants of similar property in similar businesses.

B. Where applicable and required by Landlord, each policy of insurance required to be carried by Tenant pursuant to this **Section 9.1**: (i) shall name Landlord and such other parties in interest as Landlord reasonably designates as additional insured; (ii) shall be primary insurance which provides that the insurer shall be liable for the full amount of the loss up to and including the total amount of liability set forth in the declarations without the right of contribution from any other insurance coverage of Landlord; (iii) shall be in a form satisfactory to Landlord; (iv) shall be carried with companies reasonably acceptable to Landlord; (v) shall provide that such policy shall not be subject to cancellation, lapse or change except after at least 30 days prior written notice to Landlord so long as such provision of 30 days notice is reasonably obtainable, but in any event not less than 10 days prior written notice; (vi) shall not have a "deductible" in excess of such amount as is approved by Landlord; (vii) shall contain a cross liability endorsement; and (viii) shall contain a "severability" clause. If Tenant has in full force and effect a blanket policy of liability insurance with the same coverage for the Premises as described above, as well as other coverage of other premises and properties of Tenant, or in which Tenant has some interest, such blanket insurance shall satisfy the requirements of this **Section 9.1.**

C. A copy of each paid up policy evidencing the insurance required to be carried by Tenant pursuant to this **Section 9.1** (appropriately authenticated by the insurer) or a certificate of the insurer, certifying that such policy has been issued, providing the coverage required by this **Section 9.1**, and containing the provisions specified herein, shall be delivered to Landlord prior to the time Tenant or any of its Agents enters the Premises and upon renewal of such policies, but prior to the expiration of the term of such coverage. Landlord may, at any time, and from time to time, inspect and/or copy any and all insurance policies required to be procured by Tenant pursuant to this **Section 9.1**. If any Lender or insurance advisor reasonably determines

at any time that the amount of coverage required for any policy of insurance Tenant is to obtain pursuant to this **Section 9.1** is not adequate, then Tenant shall increase such coverage for such insurance to such amount as such Lender or insurance advisor reasonably deems adequate, not to exceed the level of coverage for such insurance commonly carried by comparable businesses similarly situated.

9.2 Landlord's Insurance: Landlord shall have the following obligations and options regarding insurance:

A. Landlord shall maintain a policy or policies of fire and property damage insurance in so called "all risk" form insuring Landlord (and such others as Landlord may designate) against loss of Rents for a period of not less than 12 months and from physical damage to the Premises with coverage of not less than the full replacement cost thereof. Landlord may so insure the Premises separately, or may insure the Premises with other property owned by Landlord which Landlord elects to insure together under the same policy or policies. Landlord shall not be required to cause such insurance to cover any Trade Fixtures or Tenant's Alterations of Tenant.

B. Landlord may maintain a policy or policies of commercial general liability insurance insuring Landlord (and such others as are designated by Landlord) against liability for personal injury, bodily injury, death and damage to property occurring or resulting from an occurrence in, on or about the Premises, with combined single limit coverage in such amount as Landlord from time to time determines is reasonably necessary for its protection.

C. Landlord shall maintain such insurance as is required by its Lender. To the extent that any of the insurance requirements herein conflict with the insurance requirements of Landlord's Lender, the insurance requirements of the Lender shall control.

9.3 Tenant's Obligation to Reimburse: If Landlord's insurance rates for the Building are increased at any time during the Lease Term as a result of the nature of Tenant's use of the Premises, Tenant shall reimburse Landlord for the full amount of such increase immediately upon receipt of a bill from Landlord therefore.

9.4 Release and Waiver of Subrogation: The parties hereto release each other, and their respective agents and employees, from any liability for injury to any person or damage to property that is caused by or results from any risk insured against under any valid and collectible insurance policy carried by either of the parties which contains a waiver of subrogation by the insurer and is in force at the time of such injury or damage; subject to the following limitations: (i) the foregoing provision shall not apply to the commercial general liability insurance described by subparagraphs **Section 9.1A** and **Section 9.2B**; (ii) such release shall apply to liability resulting from any risk insured against or covered by self insurance maintained or provided by Tenant to satisfy the requirements of §9.1 to the extent permitted by this Lease; and (iii) Tenant shall not be released from any such liability to the extent any damages resulting from such injury or damage are not covered by the recovery obtained by Landlord from such insurance, but only if the insurance in question permits such partial release in connection with obtaining a waiver of subrogation from the insurer. This release shall be in effect only so long as the applicable insurance policy contains a clause to the effect that this release shall not affect the right of the insured to recover under such policy. Each party shall use reasonable efforts to cause each insurance policy obtained by it to

provide that the insurer waives all right of recovery by way of subrogation against the other party and its agents and employees in connection with any injury or damage covered by such policy. However, if any insurance policy cannot be obtained with such a waiver of subrogation, or if such waiver of subrogation is only available at additional cost and the party for whose benefit the waiver is to be obtained does not pay such additional cost, then the party obtaining such insurance shall notify the other party of that fact and thereupon shall be relieved of the obligation to obtain such waiver of subrogation rights from the insurer with respect to the particular insurance involved.

ARTICLE 10
LIMITATION ON LANDLORD'S LIABILITY AND INDEMNITY

10.1 Limitation on Landlord's Liability: Landlord shall not be liable to Tenant, nor shall Tenant be entitled to terminate this Lease or to any abatement of rent (except as expressly provided otherwise herein), for any injury to Tenant or Tenant's Agents, damage to the property of Tenant or Tenant's Agents, or loss to Tenant's business resulting from any cause, including without limitation any: (a) failure, interruption or installation of any HVAC or other utility system or service; (b) failure to furnish or delay in furnishing any utilities or services when such failure or delay is caused by fire or other peril, the elements, labor disturbances of any character, or any other accidents or other conditions beyond the reasonable control of Landlord; (c) limitation, curtailment, rationing or restriction on the use of water or electricity, gas or any other form of energy or any services or utility serving the Premises; (d) vandalism or forcible entry by unauthorized persons or the criminal act of any person; or (e) penetration of water into or onto any portion of the Premises or the Building through roof leaks or otherwise. Notwithstanding the foregoing but subject to **Section 9.4**, Landlord shall be liable for any such injury, damage or loss which is proximately caused by Landlord's willful misconduct or gross negligence of which Landlord has actual notice and a reasonable opportunity to cure but which it fails to so cure.

10.2 Limitation on Tenant's Recourse: The obligations of Landlord shall not constitute personal obligations of the officers, directors, trustees, partners, joint venturers, members, owners, stockholders, or other principals or representatives of such business entity; and (ii) Tenant shall not have recourse to the assets of such officers, directors, trustees, partners, joint venturers, members, owners, stockholders, principals or representatives except to the extent of their interest in the Premises. Tenant shall have recourse only to the interest of Landlord in the Premises for the satisfaction of the obligations of Landlord and shall not have recourse to any other assets of Landlord for the satisfaction of such obligations.

10.3 Indemnification of Landlord: Tenant shall hold harmless, indemnify and defend Landlord, and its employees, agents and contractors, with competent counsel reasonably satisfactory to Landlord (and Landlord agrees to accept counsel that any insurer requires be used), from all liability, penalties, losses, damages, costs, expenses, causes of action, claims and/or judgments arising by reason of any death, bodily injury, personal injury or property damage resulting from (i) any cause or causes whatsoever occurring in or about or resulting from an occurrence in or about the Premises during the Lease Term, other than such cause or causes arising out of the gross negligence or willful misconduct of Landlord, its agents, employees and contractors; or (ii) the grossly negligent or willful misconduct of Tenant or its agents, employees and contractors, wherever the same may occur. The provisions of this **Section 10.3** shall survive the expiration or sooner termination of this Lease.

10.4 Indemnification of Tenant: Landlord shall hold harmless, indemnify and defend Tenant, and its employees, agents and contractors, with competent counsel reasonably satisfactory to Tenant (and Tenant agrees to accept counsel that any insurer requires be used), from all liability, penalties, losses, damages, costs, expenses, causes of action, claims and/or judgments arising by reason of any death, bodily injury, personal injury or property damage resulting from: (i) Landlord or its agents, employees and contractors acts or omissions, or (ii) Tenant's acts or omissions but only if and to the extent that Tenant is not required under **Section 10.3** to indemnify and defend Landlord. The provisions of this **Section 10.4** shall survive the expiration or sooner termination of this Lease.

ARTICLE 11
DAMAGE TO PREMISES

11.1 Landlord's Duty to Restore: If the Premises are damaged by any peril after the Effective Date, Landlord shall restore the Premises unless the Lease is terminated by Landlord pursuant to **Section 11.2** or by Tenant pursuant to **Section 11.3**. If this Lease is terminated pursuant to either **Section 11.2** or **Section 11.3**, then all insurance proceeds available from insurance carried by Tenant which covers loss to property that is Landlord's property or would become Landlord's property on termination of this Lease shall be paid to and become the property of Landlord. If this Lease is not so terminated, then upon receipt of the insurance proceeds (if the loss is covered by insurance) and the issuance of all necessary governmental permits, Landlord shall commence and diligently prosecute to completion the restoration of the Premises, to the extent then allowed by Law, to substantially the same condition in which the Premises were immediately prior to such damage. Landlord's obligation to restore shall be limited to the Premises and interior improvements constructed by Landlord as they existed as of the Effective Date, excluding any Tenant's Alterations, Trade Fixtures and/or personal property constructed or installed by Tenant in the Premises. Tenant shall forthwith replace or fully repair all Tenant's Alterations and Trade Fixtures installed by Tenant and existing at the time of such damage or destruction, and all insurance proceeds received by Tenant from the insurance carried by it pursuant to **Section 9.1.A(2)** shall be used for such purpose.

11.2 Landlord's Right to Terminate: Landlord shall have the right to terminate this Lease in the event any of the following occurs, which right may be exercised only by delivery to Tenant of a written notice of election to terminate within 30 days after the date of such damage:

A. Either the Premises or the Building is damaged by an Insured Peril to such an extent that the estimated cost to restore exceeds twenty five percent (25%) of the then actual replacement cost thereof;

B. Either the Premises or the building where the school is located is damaged by an Uninsured Peril, except that that Landlord may not terminate this Lease pursuant to this **Section 11.2B** if one or more tenants of the Premises agree in writing to pay the amount by which the cost to restore the damage exceeds the net insurance proceeds and subsequently deposits such amount with Landlord within 30 days after Landlord has notified Tenant of its election to terminate this Lease;

C. The Premises are damaged by any peril within 12 months of the last day of the Lease Term to such an extent that the estimated cost to restore equals or exceeds an amount equal to six times the Base Rent then due; or

D. Either the Premises or the building where the school is located is damaged by any peril and, because of the Laws then in force, (i) cannot be restored at reasonable cost to substantially the same condition in which it was prior to such damage, or (ii) cannot be used for the same use being made thereof before such damage if restored as required by this Article.

E. As used herein, the following terms shall have the following meanings: (i) the term "Insured Peril" shall mean a peril actually insured against for which the insurance proceeds actually received by Landlord are sufficient to restore the Premises under then existing building codes to the condition existing immediately prior to the damage; and (ii) the term "Uninsured Peril" shall mean any peril which is not an Insured Peril. Notwithstanding the foregoing, if the "deductible" for earthquake or flood insurance exceeds 2% of the replacement cost of the improvements insured, such peril shall be deemed an "Uninsured Peril".

11.3 Tenant's Right to Terminate: If the Premises are damaged by any peril and Landlord does not elect to terminate this Lease or is not entitled to terminate this Lease pursuant to Section **11.2**, then as soon as reasonably practicable, Landlord shall furnish Tenant with the written opinion of Landlord's architect or construction consultant as to when the restoration work required of Landlord may be completed. Tenant shall have the right to terminate this Lease in the event any of the following occurs, which right may be exercised only by delivery to Landlord of a written notice of election to terminate within 7 days after Tenant receives from Landlord the estimate of the time needed to complete such restoration.

A. The Premises are damaged by any peril and, in the reasonable opinion of Landlord's architect or construction consultant, the restoration of the Premises cannot be substantially completed within 270 days after the date of such damage; or

B. The Premises are damaged by any peril within 12 months of the last day of the Lease Term and, in the reasonable opinion of Landlord's architect or construction consultant, the restoration of the Premises cannot be substantially completed within 90 days after the date of such damage and such damage renders unusable more than 30% of the Premises.

11.4 Abatement of Rent: In the event of damage to the Premises which does not result in the termination of this Lease, the Base Rent, the Monthly Expense Payment and the Additional Rent shall be temporarily abated during the period of restoration in proportion to the degree to which Tenant's use of the Premises is impaired by such damage. Tenant shall not be entitled to any compensation or damages from Landlord for loss of Tenant's business or property or for any inconvenience or annoyance caused by such damage or restoration.

11.5 Exception for Lender: Notwithstanding any terms or provisions herein to the contrary, the provisions of this **Article 11** shall be subject and subordinate to the applicable casualty provisions in the Security Instrument. In the event the holder of any indebtedness secured by any Security Instrument covering the Premises requires, after a casualty, that the insurance proceeds be applied to such indebtedness, then Landlord shall have the right to terminate this Lease

by delivering written notice of termination to Tenant within fifteen (15) days after such requirement is made by any such holder, whereupon all rights and obligations hereunder shall cease and terminate.

ARTICLE 12
CONDEMNATION

12.1 Landlord's Termination Right: Landlord shall have the right to terminate this Lease if, as a result of a taking by means of the exercise of the power of eminent domain (including a voluntary sale or transfer by Landlord to a condemnor under threat of condemnation), (a) all or any part of the Premises is so taken, or (b) more than 10% of the leasable area of the building where the school is located is so taken. Any such right to terminate by Landlord must be exercised within a reasonable period of time, to be effective as of the date possession is taken by the condemnor.

12.2 Tenant's Termination Right: Tenant shall have the right to terminate this Lease if, as a result of any taking by means of the exercise of the power of eminent domain (including any voluntary sale or transfer by Landlord to any condemnor under threat of condemnation), 10% or more of the Premises is so taken and that part of the Premises that remains cannot be restored within a reasonable period of time and thereby made reasonably suitable for the continued operation of the Tenant's business. Tenant must exercise such right within a reasonable period of time, to be effective on the date that possession of that portion of the Premises that is condemned is taken by the condemnor.

12.3 Restoration and Abatement of Rent: If any part of the Premises is taken by condemnation and this Lease is not terminated, then Landlord shall restore the remaining portion of the Premises and interior improvements constructed by Landlord as they existed as of the Effective Date, excluding any Tenant's Alterations, Trade Fixtures and/or personal property constructed or installed by Tenant. Thereafter, except in the case of a temporary taking, as of the date possession is taken the Base Rent and Monthly Expense Payment shall be reduced in the same proportion that the floor area of that part of the Premises so taken (less any addition thereto by reason of any reconstruction) bears to the original floor area of the Premises.

12.4 Temporary Taking: If any portion of the Premises is temporarily taken for one year or less, this Lease shall remain in effect. If any portion of the Premises is temporarily taken by condemnation for a period which exceeds one year or which extends beyond the natural expiration of the Lease Term, and such taking materially and adversely affects Tenant's ability to use the Premises for the Permitted Use, then Tenant shall have the right to terminate this Lease, effective on the date possession is taken by the condemnor.

12.5 Division of Condemnation Award: Any award made as a result of any condemnation of the Premises shall belong to and be paid to Landlord, and Tenant hereby assigns to Landlord all of its right, title and interest in any such award; provided, however, that Tenant shall be entitled to receive any condemnation award that is made directly to Tenant for the following so long as the award made to Landlord is not thereby reduced: (a) for the taking of personal property or Trade Fixtures belonging to Tenant; (b) for the interruption of Tenant's business or its moving costs; (c) for loss of Tenant's goodwill; or (d) for any temporary taking

where this Lease is not terminated as a result of such taking. The rights of Landlord and Tenant regarding any condemnation shall be determined as provided in this Article.

12.6 Exception for Lender: Notwithstanding any contrary provisions hereof, this Section is subject and subordinate to the applicable condemnation provisions in any applicable Security Instrument. If the holder of any indebtedness secured by a Security Instrument on the Premises requires, after a condemnation, that the insurance proceeds be applied to such indebtedness, then Landlord shall have the right to terminate this Lease by delivering written notice of termination to Tenant within fifteen (15) days after Lender's notice, whereupon all rights and obligations hereunder shall cease and terminate.

ARTICLE 13
DEFAULT AND REMEDIES

13.1 Events of Tenant's Default: Tenant shall be in default of its obligations under this Lease if any of the following events occurs (an "Event of Tenant's Default"):

A. Tenant fails to pay Rent when due, and the failure continues after Landlord gives Tenant five (5) business days written notice specifying the default; or

B. Tenant fails to perform any term, covenant, or condition of this Lease except those requiring the payment of Rent, and Tenant fails to cure such breach within (1) in the case of failures which are defined herein as a breach and have a specified amount of time to cure, within the time specified; or (b) in all other cases, within thirty (30) days after written notice from Landlord specifying the nature of such breach (except that such time shall be extended a reasonable period of time if the default is such that more than thirty days are reasonably required to effectuate a cure.

C. Tenant fails to deliver documents required of it pursuant to **Section 15.4** or **Section 15.6** within the time periods specified therein.

D. Tenant becomes bankrupt, insolvent or files any debtor proceeding, takes or has taken against Tenant any petition of bankruptcy; takes action or has taken action against Tenant for the appointment of a receiver for all or a portion of Tenant's assets; files a petition for a corporate reorganization; makes an assignment for the benefit of creditors, or if in any other manner Tenant's interest hereunder shall pass to another by operation of law.

13.2 Landlord's Remedies: If an Event of Tenant's Default occurs, Landlord shall have the following remedies, in addition to all other rights and remedies provided by any Law or otherwise provided in this Lease, to which Landlord may resort cumulatively or in the alternative:

A. Landlord may keep this Lease in effect and enforce by an action at law or in equity all of its rights and remedies under this Lease, including (i) the right to recover the rent and other sums as they become due by appropriate legal action; (ii) the right to make payments required of Tenant or perform Tenant's obligations and be reimbursed by Tenant for the cost thereof with interest at the Agreed Interest Rate from the date the sum is paid by Landlord until Landlord is reimbursed by Tenant; and (iii) the remedies of injunctive relief and specific performance to compel Tenant to perform its obligations under this Lease. Notwithstanding

anything contained in this Lease, in the event of a breach of an obligation by Tenant which results in a condition which poses an imminent danger to safety of persons or damage to property, an unsightly condition visible from the exterior of the Building, or a threat to insurance coverage, then if Tenant does not cure such breach within 3 days after delivery to it of written notice from Landlord identifying the breach, Landlord may cure the breach of Tenant and be reimbursed by Tenant for the cost thereof with interest at the Agreed Interest Rate from the date the sum is paid by Landlord until Landlord is reimbursed by Tenant.

B. Landlord may enter the Premises and release them to third parties for Tenant's account for any period, whether shorter or longer than the remaining Lease Term. Tenant shall be liable immediately to Landlord for all costs Landlord incurs in releasing the Premises, including brokers' commissions, expenses of altering and preparing the Premises required by the releasing. Tenant shall pay to Landlord the rent and other sums due under this Lease on the date the rent is due, less the rent and other sums Landlord received from any releasing. No act by Landlord allowed by this subparagraph shall terminate this Lease unless Landlord notifies Tenant in writing that Landlord elects to terminate this Lease. Notwithstanding any releasing without termination, Landlord may later elect to terminate this Lease because of the default by Tenant.

C. Landlord may terminate this Lease by giving Tenant written notice of termination, in which event this Lease shall terminate on the date set forth for termination in such notice. Any termination under this **Section 13.2C** shall not relieve Tenant from its obligation to pay sums then due Landlord or from any claim against Tenant for damages or rent previously accrued or then accruing. In no event shall any one or more of the following actions by Landlord, in the absence of a written election by Landlord to terminate this Lease, constitute a termination of this Lease: (i) appointment of a receiver or keeper in order to protect Landlord's interest hereunder; (ii) consent to any subletting of the Premises or assignment of this Lease by Tenant, whether pursuant to the provisions hereof or otherwise; or (iii) any other action by Landlord or Landlord's Agents intended to mitigate the adverse effects of any breach of this Lease by Tenant, including without limitation any action taken to maintain and preserve the Premises or any action taken to relet the Premises or any portions thereof to the extent such actions do not affect a termination of Tenant's right to possession of the Premises.

D. In the event Tenant breaches this Lease and abandons the Premises, this Lease shall not terminate unless Landlord gives Tenant written notice of its election to so terminate this Lease. No act by or on behalf of Landlord intended to mitigate the adverse effect of such breach, including those described by **Section 13.2C**, shall constitute a termination of Tenant's right to possession unless Landlord gives Tenant written notice of termination. Should Landlord not terminate this Lease by giving Tenant written notice, Landlord may enforce all its rights and remedies under this Lease.

E. In the event Landlord terminates this Lease, Landlord shall be entitled, at Landlord's election, to damages. For purposes of computing damages, (i) an interest rate equal to the Agreed Interest Rate shall be used where permitted, and (ii) the term "rent" includes the Base Rent, the Monthly Expense Payment and Additional Rent. Such damages shall include:

(1) The worth at the time of award of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of such rental loss that

Tenant proves could be reasonably avoided, computed by discounting such amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of award plus one percent (1%); and

(2) Any other amount necessary to compensate Landlord for all detriment proximately caused by Tenant's failure to perform Tenant's obligations under this Lease, or which in the ordinary course of things would be likely to result therefrom, including the following: (i) expenses for cleaning, repairing or restoring the Premises; (ii) expenses for altering, remodeling or otherwise improving the Premises for the purpose of reletting, including installation of leasehold improvements (whether such installation be funded by a reduction of rent, direct payment or allowance to a new tenant, or otherwise); (iii) broker's fees, advertising costs and other expenses of reletting the Premises; (iv) costs of carrying the Premises, such as taxes, insurance premiums, utilities and security precautions; (v) expenses in retaking possession of the Premises; and (vi) attorneys' fees and court costs incurred by Landlord in retaking possession of the Premises and in releasing the Premises or otherwise incurred as a result of Tenant's default.

F. Nothing in this **Section 13.2** shall limit Landlord's right to indemnification from Tenant as provided herein.

13.3 Bankruptcy Provisions: In the event of any bankruptcy, the following shall apply:

A. If Landlord shall not be permitted to terminate this Lease as hereinabove provided because of the provisions of Title 11 of the United States Code relating to Bankruptcy, as amended ("Bankruptcy Code"), then Tenant as a debtor in possession or any trustee for Tenant agrees promptly, within no more than thirty (30) days upon request by Landlord to the Bankruptcy Court, to assume or reject this Lease and Tenant on behalf of itself, and any trustee agrees not to seek or request any extension or adjournment of any application to assume or reject this Lease by Landlord with such court. In such event, Tenant or any trustee for Tenant may only assume this Lease if (a) it cures or provides adequate assurances that the trustees will promptly cure any default hereunder, (b) compensates or provides adequate assurance that Tenant will promptly compensate Landlord for any actual pecuniary loss to Landlord resulting from Tenant's default, and (c) provides adequate assurance of performance during the fully stated term hereof of all of the terms, covenants, and provisions of this Lease to be performed by Tenant. In no event after the assumption of this Lease shall any then existing default remain uncured for a period in excess of the earlier of ten (10) days or the time period set forth herein. Adequate assurance of performance of this Lease, as set forth hereinabove, shall include, without limitation, adequate assurance (1) of the source of rent reserved hereunder, and (2) the assumption of this Lease will not breach any provision hereunder.

B. If Tenant assumes this Lease and proposes to assign the same pursuant to the provisions of the Bankruptcy Code to any person or entity who shall have made a bona fide offer to accept an assignment of this Lease on terms acceptable to Tenant, then notice of such proposed assignment, setting forth (i) the name and address of such person, (ii) all of the terms and conditions of such offer, and (iii) the adequate assurance to be provided Landlord to assure such person's future performance under the Lease, including, without limitation, the assurance referred to in section 365(b)(3) of the Bankruptcy Code, shall be given to Landlord by the Tenant no later than twenty (20) days after receipt by the Tenant but in any event no later than ten (10) days prior to the date that the Tenant shall make application to a court of competent jurisdiction for authority

and approval to enter into such assignment and assumption, and Landlord shall thereupon have the prior right and option, to be exercised by notice to the Tenant given at any time prior to the effective date of such proposed assignment, to accept an assignment of this Lease upon the same terms and conditions and for the same consideration, if any, as the bona fide offer made by such person, less any brokerage commissions which may be payable out of the consideration to be paid by such person for the assignment of this Lease.

C. If this Lease is assigned to any person or entity pursuant to the provisions of the Bankruptcy Code any and all monies or other considerations payable or otherwise to be delivered to Landlord, shall be and remain the exclusive property of Landlord and shall not constitute property of Tenant or of the estate of the Tenant within the meaning of the Bankruptcy Code. Any and all monies or other considerations constituting the Landlord's property under the preceding sentence not paid or delivered to the Landlord shall be held in trust for the benefit of Landlord and shall be promptly paid to the Landlord.

D. Any person or entity to which this Lease is assigned pursuant to the provisions of the Bankruptcy Code shall be deemed without further act or deed to have assumed all of the obligations arising under this Lease on and after the date of such assignment. Any such assignee shall upon demand execute and deliver to Landlord an instrument confirming such assumption. Nothing contained in this section shall, in any way, constitute a waiver of the provisions of this Lease relating to assignment. Tenant shall not, by virtue of this section, have any further rights relating to assignment other than those granted in the Bankruptcy Code. Notwithstanding anything in this Lease to the contrary, all amounts payable by Tenant to or on behalf of Landlord under this Lease, whether or not expressly denominated as rent, shall constitute rent for the purpose of Section 502(b)(6) of the Bankruptcy Code. In the event of a filing of a petition under the Bankruptcy Code, Landlord shall have no obligation to provide Tenant with any services or utilities as herein required, unless Tenant shall have paid and be current in all payments of Operating Expenses, utilities or other charges therefor.

13.4 Waiver: One party's consent to or approval of any act by the other party requiring the first party's consent or approval shall not be deemed to waive or render unnecessary the first party's consent to or approval of any subsequent similar act by the other party. The receipt by Landlord of any rent or payment with or without knowledge of the breach of any other provision hereof shall not be deemed a waiver of any such breach unless such waiver is in writing and signed by Landlord. No delay or omission in the exercise of any right or remedy accruing to either party upon any breach by the other party under this Lease shall impair such right or remedy or be construed as a waiver of any such breach theretofore or thereafter occurring. The waiver by either party of any breach of any provision of this Lease shall not be deemed to be a waiver of any subsequent breach of the same or of any other provisions herein contained.

13.5 Limitation On Exercise of Rights: At any time that an Event of Tenant's Default has occurred and remains uncured, (i) it shall not be unreasonable for Landlord to deny or withhold any consent or approval requested of it by Tenant which Landlord would otherwise be obligated to give, and (ii) Tenant may not exercise any option to extend, right to terminate this Lease, or other right granted to it by this Lease which would otherwise be available to it.

ARTICLE 14
ASSIGNMENT AND SUBLETTING

14.1 Transfer By Tenant: The following provisions shall apply to any assignment, subletting or other transfer by Tenant or any subtenant or assignee or other successor in interest of the original Tenant (collectively referred to in this **Section 14.1** as "Tenant"):

A. Tenant shall not do any of the following (collectively referred to herein as a "Transfer"), whether voluntarily, involuntarily or by operation of law, without the prior written consent of Landlord, which consent shall not be unreasonably withheld or delayed: (i) sublet all or any part of the Premises or allow it to be sublet, occupied or used by any person or entity other than Tenant; (ii) assign its interest in this Lease; (iii) mortgage or encumber the Lease (or otherwise use the Lease as a security device) in any manner; or (iv) materially amend or modify an assignment, sublease or other transfer that has been previously approved by Landlord. Tenant acknowledges that (a) Landlord's consent to any sublease or assignment may be reasonably conditioned upon Landlord obtaining approval from its Lender, which approval may be granted or denied in the Lender's sole discretion, and that the failure to obtain such consent shall constitute a reasonable ground for the Landlord to withhold consent to any sublease or assignment; and (b) if any request for a sublease or assignment requires a change in the Permitted Use hereunder, Landlord may deny such permission in its sole discretion and such denial shall constitute a reasonable ground for withholding consent. Tenant shall reimburse Landlord for all reasonable costs and attorneys' fees incurred by Landlord in connection with the evaluation, processing, and/or documentation of any requested Transfer, whether or not Landlord's consent is granted. Landlord's reasonable costs shall include the cost of any review or investigation performed by Landlord or consultant acting on Landlord's behalf of (i) Hazardous Materials (as defined in **Section 7.2E** of this Lease) used, stored, released, or disposed of by the potential Subtenant or Assignee, and/or (ii) violations of Hazardous Materials Law (as defined in **Section 7.2E** of this lease) by the Tenant or the proposed Subtenant or Assignee. Any Transfer so approved by Landlord shall not be effective until Tenant has delivered to Landlord an executed counterpart of the document evidencing the Transfer which (i) is in a form reasonably approved by Landlord; (ii) contains the same terms and conditions as stated in Tenant's notice given to Landlord pursuant to **Section 14.1B**; and (iii) in the case of an assignment of the Lease, contains the agreement of the proposed transferee to assume all obligations of Tenant under this Lease arising after the effective date of such Transfer and to remain jointly and severally liable therefore with Tenant. Any attempted Transfer without Landlord's consent shall constitute an Event of Tenant's Default and shall be voidable at Landlord's option. Landlord's consent to any one Transfer shall not constitute a waiver of the provisions of this **Section 14.1** as to any subsequent Transfer or a consent to any subsequent Transfer. No Transfer, even with the consent of Landlord, shall relieve Tenant of its personal and primary obligation to pay the rent and to perform all of the other obligations to be performed by Tenant hereunder. The acceptance of rent by Landlord from any person shall not be deemed to be a waiver by Landlord of any provision of this Lease nor to be a consent to any Transfer.

B. Prior to the effective date of a proposed Transfer, Tenant shall give Landlord written notice of the proposed terms of such Transfer and request Landlord's approval, which notice shall include the following: (i) the name and legal composition of the proposed transferee; (ii) a current financial statement of the transferee, financial statements of the transferee

covering the preceding three years if and to the extent that they exist, and (if available) an audited financial statement of the transferee for a period ending not more than one year prior to the proposed effective date of the Transfer, all of which statements are prepared in accordance with generally accepted accounting principles; (iii) the nature of the proposed transferee's business; (iv) all consideration to be paid for the Transfer; and (v) a current financial statement of Tenant. Tenant shall provide such other information as may be reasonably requested by Landlord within seven (7) days after Landlord's receipt of notice from Tenant. Landlord shall respond in writing to Tenant's request for Landlord's consent to a Transfer within the later of (i) ten (10) days of receipt of such request together with the required accompanying documentation, or (ii) seven (7) days after Landlord's receipt of all information which Landlord reasonably requests within seven (7) days after it receives Tenant's first notice regarding the Transfer in question. If Landlord fails to respond in writing within said period, Landlord will be deemed to have withheld consent to such Transfer. Tenant shall immediately notify Landlord of any material modification to the proposed terms of such Transfer.

C. If Tenant is a corporation, the following shall be deemed a voluntary assignment of Tenant's interest in this Lease: (i) any dissolution, merger, consolidation, or other reorganization of or affecting Tenant, whether or not Tenant is the surviving corporation; and (ii) if the capital stock of Tenant is not publicly traded, the sale or transfer to one person or entity (or to any group of related persons or entities) stock possessing more than 50% of the total combined voting power of all classes of Tenant's capital stock issued, outstanding and entitled to vote for the election of directors. If Tenant is a partnership, any withdrawal or substitution (whether voluntary, involuntary or by operation of law, and whether occurring at one time or over a period of time) of any partner owning 25% or more (cumulatively) of any interest in the capital or profits of the partnership, or the dissolution of the partnership, shall be deemed a voluntary assignment of Tenant's interest in this Lease.

14.2 Transfer By Landlord: Landlord and its successors in interest shall have the right to transfer their interest in this Lease and the Premises at any time and to any person or entity. In the event of any such transfer, the Landlord originally named herein (and, in the case of any subsequent transfer, the transferor) from the date of such transfer, shall be automatically relieved, without any further act by any person or entity, of all liability for the performance of the obligations of the Landlord hereunder which may accrue after the date of such transfer. After the date of any such transfer, the term "Landlord" as used herein shall mean the transferee of such interest in the Premises.

ARTICLE 15
GENERAL PROVISIONS

15.1 Landlord's Right to Enter: Landlord and its agents may enter the Premises at any reasonable time after giving at least 24 hours' prior notice (and immediately in the case of emergency) to inspect, post notices, supply services, access in wall, floor or ceiling utility runs, or show the Premises. Landlord shall have the right to use any and all means Landlord may deem necessary and proper to enter the Premises in an emergency. Any entry into the Premises obtained by Landlord in accordance with this Section shall not be a forcible or unlawful entry into, or a detainer of, the Premises, or an eviction, actual or constructive, of Tenant from the Premises.

15.2 Surrender of the Premises: Upon the expiration or sooner termination of this Lease, Tenant shall vacate and surrender the Premises to Landlord in the same condition as existed at the Effective Date, except for (i) reasonable wear and tear which could not be avoided by the application of "best practices" for maintenance and preservation, (ii) damage caused by any peril or condemnation, and (iii) contamination by Hazardous Materials. Prior to the expiration or sooner termination of the Lease, Tenant shall (i) remove any Tenant's Alterations which Tenant is required to remove and repair all damage caused by such removal, and (ii) return the Premises or any part thereof to its original configuration existing as of the time the Premises were delivered to Tenant, except for tenant improvements installed by Landlord, if any.

15.3 Holding Over: This Lease shall terminate without further notice at the expiration of the Lease Term. Any holding over by Tenant after expiration of the Lease Term shall not constitute a renewal or extension of the Lease or give Tenant any rights in or to the Premises except as expressly provided in this Lease. Any holding over after such expiration with the written consent of Landlord shall be construed to be a tenancy from month to month on the same terms and conditions herein specified insofar as applicable except that the Base Rent shall be increased to an amount equal to 150% of the Base Rent payable during the last full calendar month of the Lease Term.

15.4 Subordination: The following provisions shall govern the relationship of this Lease to any Security Instrument:

A. The Lease is subject and subordinate to all Security Instruments existing as of the Effective Date. However, if any Lender so requires, this Lease shall become prior and superior to any such Security Instrument.

B. At Landlord's election, this Lease shall become subject and subordinate to any Security Instrument created after the Effective Date. Notwithstanding such subordination, Tenant's right to quiet possession of the Premises shall not be disturbed so long as Tenant is not in default and performs all of its obligations under this Lease, unless this Lease is otherwise terminated pursuant to its terms.

C. Tenant shall upon request execute any document or instrument reasonably required by any Lender to make this Lease either prior and superior or subordinate to a Security Instrument, which may include such other matters as the Lender customarily and reasonably requires in connection with such agreements.

15.5 Mortgagee Protection and Attornment: In the event of any default on the part of the Landlord, Tenant will give notice by registered mail to any Lender whose name has been provided to Tenant and shall offer such Lender a reasonable opportunity to cure the default, including time to obtain possession of the Premises by power of sale or judicial foreclosure or other appropriate legal proceedings, if such should prove necessary to effect a cure. Tenant shall attorn to any purchaser of the Premises at any foreclosure sale or private sale conducted pursuant to any Security Instrument encumbering the Premises, or to any grantee or transferee designated in any deed given in lieu of foreclosure. If any Lender or proposed Lender on the Premises shall require that this Lease be amended or supplemented in any manner, other than description of the Premises, Term, purpose, use, or Basic Rent, and so long as the change is not materially adverse to the interests of

Tenant, as determined by Landlord in its good faith and reasonable discretion, Tenant shall execute such Lease Amendment or Supplement as Landlord shall reasonably propose to set forth such modification or supplementation, within ten (10) days of notice, and failure to do so timely shall be an Event of Default hereunder without further notice.

15.6 Estoppel Certificates and Financial Statements: Each party agrees, following any request by the other party, to execute and deliver to the requesting party within fifteen (15) days an estoppel certificate: (i) certifying that this Lease is unmodified and in full force and effect or, if modified, stating the nature of such modification and certifying that this Lease, as so modified, is in full force and effect, (ii) stating the date to which the rent and other charges are paid in advance, if any, (iii) acknowledging that there are not, to the certifying party's knowledge, any uncured defaults on the part of any party hereunder or, if there are uncured defaults, specifying the nature of such defaults, and (iv) certifying such other information about the Lease as may be reasonably required by the requesting party. Failure to timely deliver a certificate shall be a conclusive admission that, as of the date of the request (i) this Lease is unmodified except as may be represented by the requesting party in said request and is in full force and effect, (ii) there are no uncured defaults in the requesting party's performance, and (iii) no rent has been paid more than 30 days in advance. At any time during the Lease Term Tenant shall, upon 15 days' prior written notice from Landlord, provide Tenant's most recent financial statement and financial statements covering the 24 month period prior to the date of such most recent financial statement to any existing Lender or to any potential Lender or buyer of the Premises.

15.7 Reasonable Consent: Whenever any party's approval or consent is required by this Lease before an action may be taken by the other party, such approval or consent shall not be unreasonably withheld, conditioned, or delayed, except as otherwise specified herein.

15.8 Notices: Any notice required or desired to be given regarding this Lease shall be in writing and may be given by personal delivery, by facsimile telecopy, by courier service, or by mail. A notice shall be deemed to have been given (i) on the third business day after mailing if such notice was deposited in the United States mail, certified or registered, postage prepaid, addressed to the party to be served at its Address for Notices specified in the Summary, (ii) when delivered if given by personal delivery, and (iii) in all other cases when actually received at the party's Address for Notices. Either party may change its address by giving notice of the same in accordance with this Section.

15.9 Attorneys' Fees: In the event either Landlord or Tenant shall bring any action or legal proceeding for an alleged breach of any provision of this Lease, to recover rent, to terminate this Lease or otherwise to enforce, protect or establish any term or covenant of this Lease, the prevailing party shall be entitled to recover as a part of such action or proceeding, or in a separate action brought for that purpose, reasonable attorneys' fees, court costs, and experts' fees as may be fixed by the court.

15.10 Miscellaneous: Should any provision of this Lease prove to be invalid or illegal, such invalidity or illegality shall in no way affect, impair or invalidate any other provision hereof, and such remaining provisions shall remain in full force and effect. Time is of the essence with respect to the performance of every provision of this Lease in which time of performance is a factor. This Lease shall, subject to the provisions regarding assignment, apply to and bind the

respective heirs, successors, executors, administrators and assigns of Landlord and Tenant. This Lease shall be construed and enforced in accordance with the laws of the State of Wisconsin. The language in all parts of this Lease shall in all cases be construed as a whole according to its fair meaning, and not strictly for or against either Landlord or Tenant. Tenant agree that it has had an opportunity to determine the actual area of the Premises, and all measurements of area contained in this Lease are conclusively agreed to be correct and binding upon the parties, even if a subsequent measurement of any one of these areas determines that it is more or less than the amount of area reflected in this Lease, and no subsequent remeasurement shall result in a change in any of the computations of rent, improvement allowances, or other matters described in this Lease.

15.11 Brokerage Commissions: Each party hereto (i) represents and warrants to the other that it has not had any dealings with any real estate brokers, leasing agents or salesmen, or incurred any obligations for the payment of real estate brokerage commissions or finder's fees which would be earned or due and payable by reason of the execution of this Lease, and (ii) agrees to indemnify, defend, and hold harmless the other party from any claim for any such commission or fees which result from the actions of the indemnifying party.

15.12 Force Majeure: Any prevention, delay or stoppage due to strikes, lock outs, inclement weather, labor disputes, inability to obtain labor, materials, fuels or reasonable substitutes therefore, governmental restrictions, regulations, controls, action or inaction, civil commotion, fire or other acts of God, and other causes beyond the reasonable control of the party obligated to perform (except financial inability) shall excuse the performance, for a period equal to the period of any said prevention, delay or stoppage, of any obligation hereunder except the obligation of Tenant to pay rent or any other sums due hereunder.

15.13 Entire Agreement and Amendment of this Lease: This Lease constitutes the entire agreement between the parties, and there are no binding agreements or representations between the parties except as expressed herein. Tenant acknowledges that neither Landlord nor Landlord's Agents has made any legally binding representation or warranty as to any matter except those expressly set forth herein. There are no oral agreements between Landlord and Tenant affecting this Lease, and this Lease supersedes and cancels any and all previous negotiations, arrangements, brochures, agreements and understandings, if any, between Landlord and Tenant or displayed by Landlord to Tenant with respect to the subject matter of this Lease. No subsequent change or addition to this Lease shall be binding unless in writing and signed by Landlord and Tenant.

15.14 Time of Essence: Time is of the essence of this Lease, and all provisions herein relating thereto shall be strictly construed.

15.15 Authority: The authorized signatory of Tenant executing this Lease on Tenant's behalf hereby make the following warranties and representations upon which Landlord is relying in agreeing to lease the Premises to Tenant in accordance with the terms of this Lease: (a) this Lease has been duly executed and delivered by Tenant and constitutes a legal, valid and binding obligation of Tenant enforceable in accordance with its terms; (b) the signatory of Tenant has been duly authorized by all necessary company action to execute the same, and that upon the execution hereof this Lease shall be the valid and binding obligation of Tenant; (c) no consent of any other party is required to be obtained by Tenant in connection with the execution, delivery or

performance of this Lease; (d) the execution, delivery and performance of this Lease will not violate any provision of any agreement to which Tenant is a party or which purports to be binding upon Tenant; and (e) Tenant has been duly organized, is validly existing and is in good standing in the state of its formation. These representations and warranties shall survive the termination of this Lease. The authorized signatory of Landlord executing this Lease on Landlord's behalf hereby make the following warranties and representations upon which Tenant is relying in agreeing to lease the Premises from Landlord in accordance with the terms of this Lease: (i) this Lease has been duly executed and delivered by Landlord and constitutes a legal, valid and binding obligation of Landlord enforceable in accordance with its terms; (ii) the signatory of Landlord has been duly authorized by all necessary company action to execute the same, and that upon the execution hereof this Lease shall be the valid and binding obligation of Landlord; (iii) no consent of any other party is required to be obtained by Landlord in connection with the execution, delivery or performance of this Lease; (iv) the execution, delivery and performance of this Lease will not violate any provision of any agreement to which Landlord is a party or which purports to be binding upon Landlord; and (v) Landlord has been duly organized, is validly existing and is in good standing in the state of its formation. These representations and warranties shall survive the termination of this Lease.

15.16 Counterparts: This Lease may be executed by facsimile and/or simultaneously in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. The exchange of copies of this Lease and of signature pages by PDF e-mail shall constitute effective execution and delivery of this Lease as to the parties and may be used in lieu of the original Lease for all purposes. Signatures of the parties transmitted by PDF shall be deemed to be their original signatures for all purposes. No party hereto shall raise the use of a facsimile machine or PDF email to deliver a signature hereto or to any notice delivered hereunder, or the fact that any signature or agreement or instrument was transmitted or communicated through the use of a facsimile machine or PDF email, as a defense to the formation of a contract, and each such party forever waives any such defense.

15.17 JURY WAIVER: LANDLORD AND TENANT HEREBY IRREVOCABLY WAIVE ANY RIGHT TO TRIAL BY JURY IN ANY ACTION, SUIT, OR PROCEEDING ARISING OUT OF OR IN CONNECTION WITH THIS LEASE AND AGREE THAT ANY SUCH ACTION, SUIT, OR PROCEEDING SHALL BE TRIED BEFORE A COURT.

15.18 LIMITED LIABILITY OF TENANT: THE SOURCE OF PAYMENT FOR THE OBLIGATIONS OF THE TENANT UNDER THIS LEASE WILL BE LIMITED SOLELY AND EXCLUSIVELY TO ASSETS AND REVENUES DERIVED FROM OPERATIONS PURSUANT TO THE ROCKETSHIP STELLAR ELEMENTARY CHARTER AND ANY OTHER CHARTER SCHOOL OPERATED BY TENANT IN THE PREMISES. AS USED HEREIN, THE "ROCKETSHIP STELLAR ELEMENTARY CHARTER" MEANS THE CHARTER CONSENTED TO BY THE CITY OF MILWAUKEE ACTING BY ITS COMMON COUNCIL ON OR ABOUT [] PURSUANT TO THAT CERTAIN CHARTER SCHOOL CONTRACT, TOGETHER WITH ANY SUBSEQUENT RENEWAL, EXTENSION OR MODIFICATION THEREOF AND ANY ALTERNATIVE CHARTER SCHOOL AUTHORITY APPROVED WITH RESPECT THERETO, AS ASSIGNED BY THE CITY OF MILWAUKEE OR THE STATE OF WISCONSIN. THE LANDLORD ACKNOWLEDGES AND AGREES THAT EXCEPT AS EXPRESSLY SET FORTH IN THIS LEASE, NO OTHER ASSETS OR

REVENUES OF ROCKETSHIP EDUCATION OR OF ROCKETSHIP EDUCATION WISCONSIN, INC. SHALL BE AVAILABLE TO SATISFY THE TENANT'S OBLIGATIONS UNDER THIS LEASE.

IN ANY ACTION OR PROCEEDING BROUGHT BY THE LANDLORD, ANY CREDITOR OF THE LANDLORD OR THEIR ASSIGNEES TO ENFORCE RIGHTS UNDER THIS LEASE WITH RESPECT TO THE SECURITY INSTRUMENT OR OTHERWISE, THE LANDLORD, ANY CREDITOR OF LANDLORD OR THEIR RESPECTIVE ASSIGNEES EXPRESSLY WAIVE OR ARE DEEMED TO WAIVE ALL RIGHTS WHATSOEVER TO SEEK TO OBTAIN OR OBTAIN ANY DEFICIENCY JUDGMENT OR OTHER JUDICIAL OR INTERIM RELIEF OR REMEDIES, AT LAW OR IN EQUITY, AGAINST ROCKETSHIP EDUCATION, ROCKETSHIP EDUCATION WISCONSIN, INC. OR ANY OF THEIR RESPECTIVE AFFILIATES EXCEPT AS SET FORTH IN THE PRECEDING PARAGRAPH.

[SIGNATURES ARE ON THE FOLLOWING PAGE]

EXHIBIT B
ADDITIONAL TERMS AND PROVISIONS

1. **Term:** Unless otherwise extended as set forth below or terminated as provided in the Lease, the lease term shall begin on the Effective Date and continue through and including December 31, 2036 (the "Initial Lease Term"). In addition, Tenant has two (2) options (each a "Renewal Option") to extend the Initial Lease Term for a period of ten (10) years each (each a "Renewal Term") (collectively, the Initial Lease Term and each Renewal Term are referenced herein as the "Lease Term"). If Tenant shall fail to give any such notice, Tenant's right to exercise its option shall nevertheless continue until thirty (30) days after Landlord shall have given Tenant notice of such failure to exercise its option. It is the intention of the parties to avoid forfeiture of Tenant's rights to extend the Initial Lease Term or any Renewal Term under the option set forth hereunder through inadvertent failure to give notice.

2. **Rent.** "Rent" or the "Facility Fee" under the Lease shall be comprised of the each of the categories of payments set forth below. All such Rent shall be paid at such time and to the Landlord as provided in **Article 3** of the Lease.

A. Base Rent shall mean the amount set forth on **Schedule 1** attached hereto and incorporated herein (referenced herein as "Base Rent").

B. A Monthly Expense Payment to be paid on the twentieth (20th) day of each month. As used herein "Monthly Expense Payment" shall mean an estimated payment equal to one twelfth (1/12) of the annual Operating Expenses payable by Tenant, subject to reconciliation and adjustment to actual annual Operating Expenses as set forth in **Section 8.1.**

C. The Property Management Fee. As used herein "Property Management Fee" means a property management fee to be paid by Tenant to Landlord in an amount equal to the sum of the Base Rent multiplied by eight percent (8%) or as otherwise provided in **Schedule 1.** Notwithstanding anything herein to the contrary, the payment of the Property Management Fee shall be subordinated to the payment of the Base Rent and the Monthly Expense Payment.

D. An Annual Adjusting Rent Payment, if any. As used herein "Annual Adjusting Rent Payment" shall mean the amount calculated by Landlord as provided in **Section 8.1** of the Lease.

E. All other sums which are due hereunder, for late charges, interest, attorney's fees, or any other matters, as billed to Tenant from time to time, including the Landlord's share of any subrent received by Tenant upon certain assignments and sublettings (collectively referenced herein as "Additional Rent").

All such sums are included in the Rent payable by Tenant in return for the occupancy of the Premises and the other rights and privileges set forth herein.

Exhibit B, Schedule 1, RSCP

Lease Schedule – RTP
Beginning 7/12025

Date	Base Rent	Property Management Fee	Total Monthly Payment
7/1/2025	$ 8,359.67	$ 668.77	$ 9,028.44

For which ESSA programs will your LEA apply?

Choose from:

TITLE I, PART A

Improving Basic Programs Operated by State and Local Educational Agencies

TITLE I, PART D

Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk

TITLE II, PART A

Supporting Effective Instruction

TITLE III, PART A

Language Instruction for English Learners and Immigrant Students

TITLE IV, PART A

Student Support and Academic Enrichment Grants

*(**NOTE:** This list only includes ESSA programs with LEA plan requirements; not all ESSA programs.)*

Title I, Part A
Title II, Part A
Title III, Part A
Title IV, Part A (Funding will be rolled over to Title I, Part A)

In the following pages, ONLY complete the sections for the corresponding programs.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Brilliant Minds include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Brilliant Minds makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Brilliant Minds based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities is posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Brilliant Minds has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Brilliant Minds dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Brilliant Minds where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Brilliant Minds builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Brilliant Minds (RBM). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RBM will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Brilliant Minds teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Brilliant Minds has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Brilliant Minds. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Brilliant Minds teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Brilliant Minds provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social

emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Brilliant Minds developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Brilliant Minds is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Brilliant Minds looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Brilliant Minds core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In addition to the classroom-level

community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

In the following pages, ONLY complete the sections for the corresponding programs.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Delta Prep include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Delta Prep makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Delta Prep based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be Successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Delta Prep has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Delta Prep dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Delta Prep where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Delta Prep builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Delta Prep (RDL). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RDL will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Delta Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our newest teachers or others who

need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Delta Prep has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Delta Prep. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Delta Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Delta Prep provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social

emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Delta Prep developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Delta Prep is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Delta Prep looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Delta Prep core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In addition to the classroom-level

community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Discovery Prep include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Discovery Prep makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Discovery Prep based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be Successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Discovery Prep has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Discovery Prep dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Discovery Prep where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Discovery Prep builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Discovery Prep (RDP). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RDP will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Discovery Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Discovery Prep has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Discovery Prep. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Discovery Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Discovery Prep provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students

engage in lessons that address not only their English language acquisition needs, but also their social emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Discovery Prep developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Discovery Prep is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Discovery Prep looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Discovery Prep core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In addition to the classroom-level

community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Futuro Academy include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Futuro Academy makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Futuro Academybased on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Futuro Academy has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Futuro Academy dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Futuro Academy where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Futuro Academy builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Futuro Academy (RFA). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RFA will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Futuro Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Futuro Academy has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Futuro Academy. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap's Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Futuro Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Futuro Academy provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social

emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Futuro Academy developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Futuro Academy is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Futuro Academy looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Futuro Academy core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In addition to the classroom-level

community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Fuerza Community Prep include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Fuerza Community Prep makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Fuerza Community Prep based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4)

Rocketship students will have access to opportunities that support them to become well-rounded, self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be Successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Fuerza Community Prep has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Fuerza Community Prep dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Fuerza Community Prep where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Fuerza Community Prep builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Fuerza Community Prep (RFZ). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RFZ will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Fuerza Community Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for

our newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Fuerza Community Prep has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Fuerza Community Prep. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through

campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Fuerza Community Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Fuerza Community Prep provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are

amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Fuerza Community Prep developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Fuerza Community Prep is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Fuerza Community Prep looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Fuerza Community Prep core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In

addition to the classroom-level community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

For which ESSA programs will your LEA apply?

Choose from:

TITLE I, PART A

Improving Basic Programs Operated by State and Local Educational Agencies

TITLE I, PART D

Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk

TITLE II, PART A

Supporting Effective Instruction

TITLE III, PART A

Language Instruction for English Learners and Immigrant Students

TITLE IV, PART A

Student Support and Academic Enrichment Grants

*(**NOTE:** This list only includes ESSA programs with LEA plan requirements; not all ESSA programs.)*

Title I, Part A
Title II, Part A
Title III, Part A
Title IV, Part A (Funding will be rolled over to Title I, Part A)

In the following pages, ONLY complete the sections for the corresponding programs.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Los Sueños Academy include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Los Sueños Academy makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Los Sueños Academy based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4)

Rocketship students will have access to opportunities that support them to become well-rounded, self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Los Sueños Academy has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Los Sueños Academy dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Los Sueños Academy where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Los Sueños Academy builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Los Sueños Academy (RLS). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RLS will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Los Sueños Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Los Sueños Academy has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Los Sueños Academy. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Los Sueños Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Los Sueños Academy provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students,

where students engage in lessons that address not only their English language acquisition needs, but also their social emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Los Sueños Academy developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Los Sueños Academy is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Los Sueños Academy looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Los Sueños Academy core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In

addition to the classroom-level community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Local Control and Accountability Plan (LCAP)
Every Student Succeeds Act (ESSA)
Federal Addendum

Choose from:

TITLE I, PART A

Improving Basic Programs Operated by State and Local Educational Agencies

TITLE I, PART D

Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk

TITLE II, PART A

Supporting Effective Instruction

TITLE III, PART A

Language Instruction for English Learners and Immigrant Students

TITLE IV, PART A

Student Support and Academic Enrichment Grants

*(**NOTE:** This list only includes ESSA programs with LEA plan requirements; not all ESSA programs.)*

Title I, Part A
Title II, Part A
Title III, Part A
Title IV, Part A (Funding will be rolled over to Title I, Part A)

In the following pages, ONLY complete the sections for the corresponding programs.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Mateo Sheedy Elementary include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Mateo Sheedy Elementary makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Mateo Sheedy Elementary based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4)

Rocketship students will have access to opportunities that support them to become well-rounded, self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Mateo Sheedy Elementary has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Mateo Sheedy Elementary dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Mateo Sheedy Elementary where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Mateo Sheedy Elementary builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Mateo Sheedy Elementary (RMS). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RMS will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Mateo Sheedy Elementary teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for

our newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Mateo Sheedy Elementary has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Mateo Sheedy Elementary. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through

campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Mateo Sheedy Elementary teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Mateo Sheedy Elementary provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are

amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mateo Sheedy Elementary developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Mateo Sheedy Elementary is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Mateo Sheedy Elementary looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Mateo Sheedy Elementary core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In

addition to the classroom-level community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Local Control and Accountability Plan (LCAP)

Title III, Part A
Title IV, Part A (Funding will be rolled over to Title I, Part A)

In the following pages, ONLY complete the sections for the corresponding programs.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Mosaic Elementary include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Mosaic Elementary makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Mosaic Elementary based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Mosaic Elementary has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Mosaic Elementary dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Mosaic Elementary where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Mosaic Elementary builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Mosaic Elementary (ROMO). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at ROMO will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Mosaic Elementary teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Mosaic Elementary has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Mosaic Elementary. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Mosaic Elementary teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies,Rocketship Mosaic Elementary provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social

emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Mosaic Elementary developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Mosaic Elementary is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Mosaic Elementary looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Mosaic Elementary core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In

addition to the classroom-level community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Rising Stars include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Rising Stars makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Rising Stars based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Rising Stars has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Rising Stars dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Rising Stars where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Rising Stars builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Rising Stars (RRS). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RRS will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Rising Stars teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our newest

teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Rising Stars has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Rising Stars. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Rising Stars teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Rising Stars provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social

emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Rising Stars developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Rising Stars is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Rising Stars looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Rising Stars core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In addition to the classroom-level

community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Redwood City Prep include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Redwood City Prep makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Redwood City Prep based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be Successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City Prep provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City Prep has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Redwood City Prep has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City Prep supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Redwood City dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Redwood City where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Redwood City builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Redwood City Prep. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RRWC will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Redwood City Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Redwood City Prep has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Redwood City Prep. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City Prep will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Redwood City Prep teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City Prep serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Redwood City Prep provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students,

where students engage in lessons that address not only their English language acquisition needs, but also their social emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City Prep makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Redwood City Prep developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Redwood City Prep is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Redwood City Prep looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Redwood City Prep core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In

addition to the classroom-level community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Alma Academy include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Alma Academy makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Alma Academy based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be Successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Alma Academy has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Alma Academy dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Alma Academy where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Alma Academy builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Alma Academy (RSA). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RSA will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Alma Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Alma Academy has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Alma Academy. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Alma Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Alma Academy provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social

emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Alma Academy developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Alma Academy is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Alma Academy looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Alma Academy core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In addition to the classroom-level

community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Local Control and Accountability Plan (LCAP)

Title I, Part A
Title II, Part A
Title III, Part A
Title IV, Part A (Funding will be rolled over to Title I, Part A)

In the following pages, ONLY complete the sections for the corresponding programs.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Spark Academy include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Spark Academy makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Spark Academy based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4) Rocketship students will have access to opportunities that support them to become well-rounded,

self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be Successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Spark Academy has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Spark Academy dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Spark Academy where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Spark Academy builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Spark Academy (RSK). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Spark Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our newest teachers or

others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Spark Academy has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Spark Academy. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Spark Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Spark Academy provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students, where students engage in lessons that address not only their English language acquisition needs, but also their social

emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Spark Academy developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Spark Academy is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Spark Academy looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Spark Academy core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In addition to the classroom-level

community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

Title III, Part A
Title IV, Part A (Funding will be rolled over to Title I, Part A)

In the following pages, ONLY complete the sections for the corresponding programs.

Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed, unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

The major priority areas for Rocketship Si Se Puede Academy include providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors or working on an adaptive online learning program for Literacy and STEM skills. Since the majority of the student population is socioeconomically disadvantaged and English Learners, Rocketship Si Se Puede Academy makes it a priority to develop major actions in the LCAP to support all students, but especially students who are socioeconomically disadvantaged and/or English Learners.

The decisions made about the use of supplemental federal funds are discussed at the school level through the School Site Council and English Learner Advisory Council. The councils discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the LCAP conversations at the first meeting in the fall and at the final meeting in the spring. The parents also participate in an annual survey that provides feedback on the goals and services. The teachers and staff actively participate in the decision-making process throughout the year. The decisions take into account the needs of Rocketship Si Se Puede Academy based on student achievement data to include SBAC, ELPAC, NWEA, and cumulative assessments as well as student demographic data to include the significant subgroups of Latinx, socioeconomically disadvantaged, students with disabilities, and English Learners. Student achievement data and student demographic data are used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

The activities supported with federal funds will be evidenced by achievement data for all students, English Learners, foster youth, socioeconomically disadvantaged students and low-achieving students. The LCAP goals were designed for all students and are 1) Improve proficiency in key content areas, overall and for key subgroups; 2) Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum 3) School environment will be safe, welcoming, joyful, and efficient for all students and families; 4)

Rocketship students will have access to opportunities that support them to become well-rounded, self-motivated, engaged community members; 5) Rocketship families are engaged in their students' education and advocate for their communities.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

The processes that are in place to ensure funds from state and federal funds are used in a coherent manner to support the achievement of the Charter School's vision and mission and the goals for all students are to remain transparent regarding all fiscal expenditures, especially state and federal funds. The School Site Council and English Learner Advisory Council will review and approve the LCAP prior to board approval. During quarterly meetings, the School Site Council and English Learner Advisory Council will review assessment data for all students and significant subgroups to ensure that progress is being made and the achievement gap is being closed. The teachers and staff will meet monthly to review the progress of the students in their classes.

The student group data drives decision-making about the use of state and federal sources because the students with the greatest need in addition to the students who are identified as at-risk are the students who generate these funds. As the educational partners meet to determine the schoolwide goals, it is the review of student achievement data that determines the types of activities that should be provided to increase student achievement. The annual achievement results of student group data help the educational partners to determine which activities were effective in the prior year, and which activities need to be expanded, changed, or omitted. This is a powerful process of continuous improvement. It is imperative to utilize these funds to supplement and enhance the core program so there are instances when the core program has evolved to better provide the basic program.

The processes in place to ensure that activities funded from various state and federal sources are not duplicative and support common outcomes are designed to enhance the basic program. The core program has been developed to provide high quality, standards-aligned curriculum to all students. The School Site Council, English Learner Advisory Council, teachers, staff, and parents provide input on the core program, then make decisions based on the differentiated needs of the students based on student achievement data and student demographic data. This ensures that the activities are not duplicative yet support the common outcomes.

The information about the school and organization priorities are communicated to educational partners by posting on the website, notifying parents of Title I programs in the Parent/Student Handbook, reviewing and approving the LCAP at School Site Council and English Learner Advisory Council, discussing the LCAP goals a minimum of quarterly with teachers and staff as they begin to review student achievement data, posting the annual LCAP with the Federal Addendum on the website, reviewing the monthly financial reports at a regularly scheduled Board meeting, and listing it in the Annual Report.

There is a collaborative process to make decisions about federal district-level funds. Based on the needs assessment, the leadership team works with the teachers and staff to aggregate achievement data and work collaboratively to prioritize activities. The use of Title funds to supplement the English Learner program is also discussed with the School Site Council and English Learner Advisory Council.

The Charter School ensures that school plans are aligned with the goals and priorities by reviewing the LCAP and the Federal Addendum with the School Site Council and English Learner Advisory Council. Parents serve executive offices on the committee and receive annual training on their duty to develop the LCAP, approve the federal restricted funds, approve the LCAP and Federal Addendum, and allow the parents to propose suggestions and questions.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals, and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.

TITLE I, PART A

Monitoring Student Progress Towards Meeting Challenging State Academic Standards

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(1) (A–D)	1, 2, 4, 7, 8 *(as applicable)*

Describe how the LEA will monitor students' progress in meeting the challenging state academic standards by:

(A) developing and implementing a well-rounded program of instruction to meet the academic needs of all students;

(B) identifying students who may be at risk for academic failure;

(C) providing additional educational assistance to individual students the LEA or school determines need help in meeting the challenging State academic standards; and

(D) identifying and implementing instructional and other strategies intended to strengthen academic programs and improve school conditions for student learning.

Overuse in Discipline Practices that Remove Students from the Classroom

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(11)	6 *(as applicable)*

Describe how the LEA will support efforts to reduce the overuse of discipline practices that remove students from the classroom, which may include identifying and supporting schools with high rates of discipline, disaggregated by each of the student groups, as defined in Section 1111(c)(2).

Career Technical and Work-based Opportunities

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(12)(A–B)	2, 4, 7 *(as applicable)*

If determined appropriate by the LEA, describe how such agency will support programs that coordinate and integrate:

(A) academic and career and technical education content through coordinated instructional strategies, that may incorporate experiential learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and

(B) work-based learning opportunities that provide students in-depth interaction with industry professionals and, if appropriate, academic credit.

TITLE II, PART A

Title II, Part A Activities

ESSA SECTION	STATE PRIORITY ALIGNMENT
2102(b)(2)(A)	1, 2, 4 *(as applicable)*

Provide a description of the activities to be carried out by the LEA under this Section and how these activities will be aligned with challenging State academic standards.

TITLE III, PART A

Parent, Family, and Community Engagement

ESSA SECTION	STATE PRIORITY ALIGNMENT
3116(b)(3)	3, 6 *(as applicable)*

Describe how the eligible entity will promote parent, family, and community engagement in the education of English learners.

ESSA Provisions Addressed in the Consolidated Application and Reporting System

An LEA addresses the following ESSA provision as part of completing annual reporting through the Consolidated Application and Reporting System (CARS).

TITLE I, PART A

Poverty Criteria

ESSA SECTION	STATE PRIORITY ALIGNMENT
1112(b)(4)	N/A

Describe the poverty criteria that will be used to select school attendance areas under Section 1113.

ESSA Provisions Not Addressed in the LCAP

For the majority of LEAs the ESSA provisions on the following pages do not align with state priorities. **Each provision for each program provided on the following pages must be addressed**, unless the provision is not applicable to the LEA. In addressing these provisions, LEAs must provide a narrative that addresses the provision **within this addendum**.

As previously stated, the CDE emphasizes that the LCAP Federal Addendum should not drive LCAP development. ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources; however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

TITLE I, PART A

Educator Equity

ESSA SECTION 1112(b)(2)

Describe how the LEA will identify and address, as required under State plans as described in Section 1111(g)(1)(B), any disparities that result in low-income students and minority students being taught at higher rates than other students by ineffective, inexperienced, or out-of-field teachers.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A – Not Applicable for Charter Schools

APPROVED BY CDE

Parent and Family Engagement

ESSA SECTIONS 1112(b)(3) and 1112(b)(7)

Describe how the LEA will carry out its responsibility under Section 1111(d).

Describe the strategy the LEA will use to implement effective parent and family engagement under Section 1116.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The Charter School develops and evaluates the Title I Parent Engagement Policy by engaging with the parents during Cafécitos (monthly coffee chats) and community meetings. Developing the Parent Engagement Policy aligns to the process with the LCAP educational partner involvement process as evidenced by frequent meetings with parents, and sharing the development of the policy and the LCAP with the School Site Council and English Learner Advisory Council. The Parent Engagement Policy is available on the school website and will be distributed in the Parent Handbook. The Charter School provides parent workshops on Understanding State Standards and assessments including SBAC and ELPAC, Title I Parent Rights Meetings, How to Help your Child be Successful, and how to

prepare for parent conferences. The Charter School provides materials during parent workshops in English and Spanish. The Charter School also engages parents by honoring the academic success of each student's individual goals and celebrations of academic achievements, academic growth, regular attendance, and student of the month at monthly award ceremonies and during the morning launch.

The Charter School provides meaningful professional development to administrators, teachers, and staff on building parent relationships and valuing parents as partners. This has included working with staff to develop meaningful opportunities at the school for parents to include reading in the classroom, volunteering for events, chaperoning field trips, and serving as parent leaders.

The Charter School partners and co-creates pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship in order to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include the School Site Council (SSC) and English Learner Advisory Committee (ELAC), the Regional Advisory Board, and the California Leadership Organizing Committee (CLOC). The Charter School also hosts Los Dichos, a parent, family, and community engagement activity where family members read stories that represent the cultural and linguistic diversity of students.

All information about parent workshops, programs, meetings, and activities are posted on the Charter School's website, schoolwide emails, text messages, phone calls, newsletters, and reminders in English and Spanish. The Charter School will add another language as the need arises. The Charter School makes accommodations for parents with disabilities and parents of migrant students so that they can actively participate in the school. Each student will receive a home visit from their core classroom teacher at the beginning of the school year to focus on student learning, individual goals for the student, and investing in families, especially parents with disabilities and parents of migrant students. The process of addressing requests from parents of Title I students for additional supports includes a parent conference to review the supports currently being provided to the student, what additional supports are necessary to address the student's specific needs, and developing a plan to support the student if necessary.

Schoolwide Programs, Targeted Support Programs, and Programs for Neglected or Delinquent Children

ESSA SECTIONS 1112(b)(5) and 1112(b)(9)

Describe, in general, the nature of the programs to be conducted by the LEA's schools under sections 1114 and 1115 and, where appropriate, educational services outside such schools for children living in local institutions for neglected or delinquent children, and for neglected and delinquent children in community day school programs.

Describe how teachers and school leaders, in consultation with parents, administrators, paraprofessionals, and specialized instructional support personnel, in schools operating a targeted assistance school program under Section 1115, will identify the eligible children most in need of services under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy provides programs and services to the students including providing a personalized education model to the students including whole group instruction and differentiated instruction for the students at their instructional level. Differentiated instruction may include the students working with tutors and working on an adaptive online learning program. These schoolwide services support academically at-risk students by increasing literacy and numeracy skills by increasing ELPAC scores to 3 or 4 for English Learners, SBAC ELA scores, and SBAC Math scores. Increasing these scores ensures that students are meeting or exceeding grade-level mastery which helps close achievement gaps. Title I funds used for Intervention curriculum and tutors support students who are at risk of not meeting state standards by working diligently on specific strategies like phonics instruction, close reading, thematic understanding, guided reading, specific literacy instruction, utilizing Learning Lab materials to ensure students have consumables which will connect learning to the real world, and Classroom Libraries to increase the literacy skills of the students and move them closer to grade level.

The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services like math teacher classroom coaching for all students, ensuring the Principal monitors the implementation of math curriculum scope and sequence, and differentiated math groups to provide small group instruction. The School Site Council and English Learner Advisory Council complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. If a strategy like close reading is showing improvement on the SBAC ELA, the initiative continues for the following year.

Homeless Children and Youth Services

ESSA SECTION 1112(b)(6)

Describe the services the LEA will provide homeless children and youths, including services provided with funds reserved under Section 1113(c)(3)(A), to support the enrollment, attendance, and success of homeless children and youths, in coordination with the services the LEA is providing under the McKinney-Vento Homeless Assistance Act (42 United States Code 11301 et seq.).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy has a Homeless Liaison who provides outreach to families and coordinates services between the family and other agencies. The school is committed to providing a high-quality education with all supports necessary to ensure that homeless youth have the opportunity to succeed. In order to help homeless youth, the Homeless Liaison will assist in procuring referrals to health, dental, mental health, substance abuse services, housing services, and any other appropriate services. The Homeless Liaison will assist the parents in enrolling the student and obtaining necessary immunizations or immunization records. If transportation is an issue, the Homeless Liaison will inform the parents of all transportation services available. The Homeless Liaison will encourage parents to be involved in their child’s education and ensure that parents are informed of educational and related opportunities to assist their child to be academically successful.

Rocketship Si Se Puede Academy has made a reservation of funds to support homeless students. These funds will be used to cover bus passes and/or uniforms if there are homeless students with these needs.

Student Transitions

ESSA SECTIONS 1112(b)(8) and 1112(b)(10) (A–B)

Describe, if applicable, how the LEA will support, coordinate, and integrate services provided under this part with early childhood education programs at the LEA or individual school level, including plans for the transition of participants in such programs to local elementary school programs.

Describe, if applicable, how the LEA will implement strategies to facilitate effective transitions for students from middle grades to high school and from high school to postsecondary education including:

(A) through coordination with institutions of higher education, employers, and other local partners; and

(B) through increased student access to early college high school or dual or concurrent enrollment opportunities, or career counseling to identify student interests and skills.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy supports transitions to include preschool to elementary school or home/daycare to elementary school and elementary school to middle school. The goal is to have a smooth transition by empowering and recognizing that the parents are the child's first teachers. The school recognizes parents as partners and encourages parents to be leaders. The Charter School recognizes that children learn attitudes about school from the parents; therefore, as parents are excited, positive, and supported by the Charter School, the child's transition to school will be smooth. The Charter School hosts a New Family Spring Welcome Party, Family Orientation, Back to School BBQ, Family Conferences, Home Visits, and multiple events throughout the year to support families.

Additional Information Regarding Use of Funds Under this Part

ESSA SECTION 1112(b)(13) (A–B)

Provide any other information on how the LEA proposes to use funds to meet the purposes of this part, and that the LEA determines appropriate to provide, which may include how the LEA will:

(A) assist schools in identifying and serving gifted and talented students; and

(B) assist schools in developing effective school library programs to provide students an opportunity to develop digital literacy skills and improve academic achievement.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

TITLE II, PART A

Professional Growth and Improvement

ESSA SECTION 2102(b)(2)(B)

Provide a description of the LEA's systems of professional growth and improvement, such as induction for teachers, principals, or other school leaders and opportunities for building the capacity of teachers and opportunities to develop meaningful teacher leadership.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy provides a strategic system of professional growth and improvement for new teachers, administrators, and school leaders. For all teachers, activities include providing an intensive three-week summer training that emphasizes foundational knowledge in culture and the classroom. The Charter School provides training in classroom management and effective planning, including daily lessons, units, and yearlong plans. In addition, the program in the summer introduces foundational components of the Rocketship program, which is especially helpful for new teachers, including the use of data, instructional techniques, the scope and sequence of curricula, and family engagement. The professional development sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time.

Rocketship Si Se Puede Academy dedicates at least 200 hours throughout the school year to staff professional development. The Charter School dismisses students two and a half hours early one day a week to allow for an afternoon of purposeful and customized professional development and culture building for staff. The Principal or Assistant Principal facilitates these sessions targeting the needs of the teachers in response to the data analysis, evidence from classroom observations, and personalized trainings based on the school and classroom goals. The Principal ensures participation by verifying sign-in sheets, reviewing professional development session evaluation forms, and most importantly, observing strategies in the classroom, analyzing data, and determining that professional growth is occurring and improvements in teacher capacity and student achievement are realized. The Principal will make adjustments to the professional development sessions to ensure continuous improvement.

In order to provide ongoing professional growth and development for teachers throughout their careers, Rocketship has established a professional development fund to provide additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship Si Se Puede Academy where their development is made a priority. Students benefit from this higher-level professional development that their teachers receive.

Rocketship Si Se Puede Academy builds the leadership capacity of teachers, principals, and school leaders by providing opportunities for teachers to facilitate professional development sessions for other teachers, mentoring new teachers and teacher leaders who are interested in administration, and providing additional professional development previously mentioned beyond the sessions provided by the Charter School. The Principals, Assistant Principals, Business Operations Managers, and Office Managers participate in Leadership Labs for at least twelve hours focusing on topics like "Effectiveness through Understanding," "Communication and Collaborative Problem Solving," and "Staff Motivation and Development." Also, the assistant principals and principals attend an intensive series of workshops on topics like instructional coaching including observation and feedback, data-driven instruction, and providing meaningful professional development.

We expect to see teacher growth and improvement from training as demonstrated by improved student outcomes, observations from our teacher coaches, and direct feedback from teachers as they reflect on their practices. Annually, our professional development team assesses the effectiveness of our professional development, considering educational partner input, data indicating gaps in achievement, ongoing research in the field, and changing policies. They then update professional development for the coming year to address any gaps or emerging needs. This includes changes to the summer professional development program and adjusted resources and supports for professional development offered in the school. Additionally, the Principal adjusts professional development on an ongoing basis to ensure that it is addressing the staff's most pressing needs.

Prioritizing Funding

ESSA SECTION 2102(b)(2)(C)

Provide a description of how the LEA will prioritize funds to schools served by the agency that are implementing comprehensive support and improvement activities and targeted support and improvement activities under Section 1111(d) and have the highest percentage of children counted under Section 1124(c).

THIS ESSA PROVISION IS ADDRESSED BELOW:

Not applicable. The LEA is a charter school.

APPROVED BY CDE

Data and Ongoing Consultation to Support Continuous Improvement

ESSA SECTION 2102(b)(2)(D)

Provide a description of how the LEA will use data and ongoing consultation described in Section 2102(b)(3) to continually update and improve activities supported under this part.

THIS ESSA PROVISION IS ADDRESSED BELOW:

The use of data and ongoing consultation is a cornerstone of Rocketship Si Se Puede Academy (RSSP). Learning how to better utilize data enables teachers to improve instructional practices and better serve all students. Following the administration of each round of end-of-unit assessments, the teachers, Assistant Principal, and Principal at RSSP will have a full day analyzing assessment data. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. These assessments include NWEA three times per year and the annual CAASPP assessments. During Data Days, the Principal and Network staff help teachers analyze their students' assessment data to identify areas of common areas of opportunities. Finally, the teachers then revise lesson plans to focus on the areas of opportunities. The Principal and Assistant Principal assess the impact of these Data Days by conducting frequent classroom walk-throughs and classroom observations. Since these Data Days are scheduled a minimum of four times per year, the progress is measured frequently. The foundational piece of the ongoing professional development is customized, targeted one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Si Se Puede Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal. This typically includes about three hours per week of support for our

newest teachers or others who need extra support. This helps teachers better instruct all students, including English Learners and Students with Disabilities. Moreover, Rocketship Si Se Puede Academy has developed structured common planning time for content and grade level collaboration including teacher leaders and administrators in order to make rapid movement based on recent data to achieve academic goals and address school culture needs. This process ensures that the uses of Title II funds are based on data-driven decisions that work in coordination with other funding and programs supporting students' academics, social-emotional wellness, and personal success.

Included in data analysis about the effectiveness of professional development is input gathered from key educational partners, including teachers, school leaders, paraprofessionals (including organizations representing such individuals), specialized instructional support personnel, parents, community partners, and expert partners. Quantitative data is gathered through annual surveys for all staff and parents. Qualitative data is gathered through coaching sessions, community meetings, and reflections on programs with partners. These strong feedback processes also ensure that Title II programs are linked to other strategies, programs, and activities at Rocketship Si Se Puede Academy. Professional development is adjusted to meet demonstrated needs as well as to adapt to changing programs and approaches at each school. Educational Partner feedback is a key input into many other ways that the school evolves strategies, programs, and activities, so applying this feedback to professional development ensures that professional development evolves in parallel with other school improvements.

TITLE III, PART A

Title III Professional Development

ESSA SECTION 3115(c)(2)

Describe how the eligible entity will provide effective professional development to classroom teachers, principals and other school leaders, administrators, and other school or community-based organizational personnel.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy will provide professional development to teachers, principals, and staff focusing on the implementation of the CA ELA/ELD Framework and the principles articulated in the EL Roadmap. The work is grounded in the EL Roadmap Principle One: Assets-Oriented and Needs-Responsive Schools and ensures that the professional development provided is responsive to the needs of the specific English learner profiles that are enrolled each year, recognizing that these student profiles can change from year to year. Implementation of Principle Two: Intellectual Quality of Instruction and Meaningful Access involves professional development for teachers on embedding English language development (ELD) principles into curriculum and instruction, as well as explicitly teaching ELD during a portion of the day. The EL Framework helps identify opportunities to elevate practices and innovate in service of educational equity. To amplify the implementation of Integrated ELD, 'Universal Strategies' or Guided Language Acquisition Design (GLAD) strategies are utilized to provide access to content. Designated ELD focuses on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. To respond to the diverse linguistic profiles in our communities, our designated ELD lessons are differentiated for newcomers. Teachers increase their knowledge of newcomer strategies through campus-held professional development and online modules. The foundational piece of the ongoing professional development is customized, targeted

one-on-one coaching provided by the Principal or Assistant Principal to teachers. Rocketship Si Se Puede Academy teachers receive ongoing coaching and support from the Principal or Assistant Principal.

It is important for the teachers to be trained and understand how to implement the English Language Development Framework in lessons. The focus is for students to practice English skills and develop academic English in all core content areas throughout the school day. The Charter School provided ongoing professional development sessions throughout the year to help teachers master English Language Development strategies and/ or Guided Language Acquisition Design strategies.

Enhanced Instructional Opportunities

ESSA SECTIONS 3115(e)(1) and 3116

Describe how the eligible entity will provide enhanced instructional opportunities for immigrant children and youth.

THIS ESSA PROVISION IS ADDRESSED BELOW:

N/A

APPROVED BY CDE

Title III Programs and Activities

ESSA SECTION 3116(b)(1)

Describe the effective programs and activities, including language instruction educational programs, proposed to be developed, implemented, and administered under the subgrant that will help English learners increase their English language proficiency and meet the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy serves many English Learners, the majority of whom speak Spanish. The Charter School offers high-quality language instruction through Structured English Immersion with both daily integrated English Language Development in all core content areas, as well as daily designated English Language Development.

In addition to high-quality teaching utilizing English Language Development principles and Universal Strategies or Guided Language Acquisition Design (GLAD) strategies, Rocketship Si Se Puede Academy provides a curriculum designed to meet the needs of English Learners in order to provide greater accessibility to core content for all English Learners. In doing so, the instructional opportunities are enhanced. The goal is to support English Learners to make rapid progress out of Levels 1 and 2 and into Level 3 by focusing on oral language development, grammatical constructs, and academic vocabulary in English. This is paired with specific literacy instruction in Tier II and Tier III settings including small-group instruction or one-on-one instruction. Newcomer supports are amplified through Multilingual Learner Specialists who provide additional direct services to students,

where students engage in lessons that address not only their English language acquisition needs, but also their social emotional needs. Students also receive foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students receive home language supports to accelerate English language acquisition.

The Principal or Assistant Principal monitors the use of English Language Development strategies through classroom walk-throughs, classroom observations, and monitoring the progress of English Learners toward language proficiency. The incorporation of Universal Strategies or GLAD strategies enhances the existing language instruction of the school through Structured English Immersion including Specially Designed for Academic Instruction in English by upgrading the language instruction and core content instruction.

The charter school continues to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports.

English Proficiency and Academic Achievement

ESSA SECTION 3116(b)(2)(A-B)

Describe how the eligible entity will ensure that elementary schools and secondary schools receiving funds under Subpart 1 assist English learners in:

(A) achieving English proficiency based on the State's English language proficiency assessment under Section 1111(b)(2)(G), consistent with the State's long-term goals, as described in Section 1111(c)(4)(A)(ii); and

(B) meeting the challenging State academic standards.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy makes it a priority to assist English Learners in achieving English proficiency and meeting the challenging state academic standards. The priority of Title III funds supports the use of English Language Development strategies. These strategies supplement the core program by using these strategies to teach the core curriculum. These are strategies that support the English Learners to access the core curriculum in a manner that makes the core content accessible, meaningful, and engaging. The Principal holds the teachers accountable for utilizing these strategies through classroom walk-throughs, classroom observations, frequent and meaningful feedback, and monitoring the growth of the English Learners through quarterly assessments offered through English Language Development cumulative assessments. The Principal ensures consistency of the use of English Language Development and Guided Language Acquisition Design strategies by providing ongoing professional development sessions throughout the school year. As the teachers analyze the progress English Learners are making toward language acquisition during Data Days and/or professional development sessions, the English Learners who are not making adequate progress are provided more intensive support through Tier II and Tier III settings including small group instruction or one-on-one instruction.

Multilingual Learner Specialists will provide additional support to English Learner newcomers during content area classes to ensure all English learners have access to meeting the adopted California content standards.

TITLE IV, PART A

Title IV, Part A Activities and Programs

ESSA SECTION 4106(e)(1)

Describe the activities and programming that the LEA, or consortium of such agencies, will carry out under Subpart 1, including a description of:

(A) any partnership with an institution of higher education, business, nonprofit organization, community-based organization, or other public or private entity with a demonstrated record of success in implementing activities under this subpart;

(B) if applicable, how funds will be used for activities related to supporting well-rounded education under Section 4107;

(C) if applicable, how funds will be used for activities related to supporting safe and healthy students under Section 4108;

(D) if applicable, how funds will be used for activities related to supporting the effective use of technology in schools under Section 4109; and

(E) the program objectives and intended outcomes for activities under Subpart 1, and how the LEA, or consortium of such agencies, will periodically evaluate the effectiveness of the activities carried out under this section based on such objectives and outcomes.

THIS ESSA PROVISION IS ADDRESSED BELOW:

Rocketship Si Se Puede Academy developed this Federal Addendum in consultation with parent leaders during School Site Council and English Learner Advisory Council meetings, teachers during professional development sessions, and at the Principal level reviewing the most common strategies or obstacles to success. The educational partners including teachers, parents, staff, and the Principal complete an annual needs assessment in the development of the annual LCAP and review the effectiveness of the prior year's plan in order to determine which services should continue, change, or be replaced. One benefit that the Charter School experiences is being part of the Charter Management Organization of Rocketship Public Schools which allows the individual schools to collaborate on supports and resources needed.

Rocketship Si Se Puede Academy is committed to safe, healthy supportive drug-free environments that support academic achievement through prevention, education, and structured discipline policies. The Charter School follows a rigorous calendar of staff training, safety team meetings, and professional development.

Rocketship Si Se Puede Academy looks to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe the intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. The daily schedule reflects the value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with a SEL lesson that includes prosocial skills instruction and highlights the Rocketship Si Se Puede Academy core values: respect, responsibility, persistence, empathy, and curiosity. The Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, the Rocketship core values, and culturally responsive pedagogy. The SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with the SEL lessons, the school has developed a community meeting framework for teachers to ensure there are relationship-building opportunities for students to connect, disengage from stress, make commitments, and unite as a community. In

addition to the classroom-level community meeting, each Rocketship campus begins the school day with Launch, which is a period for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a “core value of the month”). During Launch, the school may also promote a successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom’s recent accomplishment.

Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. The school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and provide small group support working with the SEL curriculum and other evidence-based and trauma-informed curricula. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) to meet the expected increased needs of our students. The long-term benefits of this support will include drug and violence prevention, suicide prevention, conflict resolution, and fewer mental health issues caused by trauma.

The school incorporates Chromebooks and online platforms to supplement the core curriculum and more importantly to provide Online Learning Programs for the students. The benefit of using technology like this supports each student and his/her level. It provides another format to ensure the core curriculum is differentiated in a way that supports the students’ interests, allows them to interact with the platform individually at his/her own level and provides digital texts that can define words, allow students to take notes or refer to the text. The goal of using technology to supplement the core program ensures that personalized instruction is provided.

The Charter School will utilize the available flexibility to transfer Title IV, Part A funds to meet the needs of students under the Title I, Part A program. The School Site Council and English Learner Advisory Council work diligently to review student achievement and make recommendations for services by completing an annual needs assessment to inform the development of the annual LCAP and review the effectiveness of the prior year plan in order to determine which services should continue, change, or be replaced. If a strategy like tutoring is showing improvement on the SBAC, the initiative continues for the following year. The flexibility to transfer Title IV, Part A funds allows the funding to be used in a manner that will best meet the needs of students based on current data.

24-25 Local Indicators Report

What are local indicators?

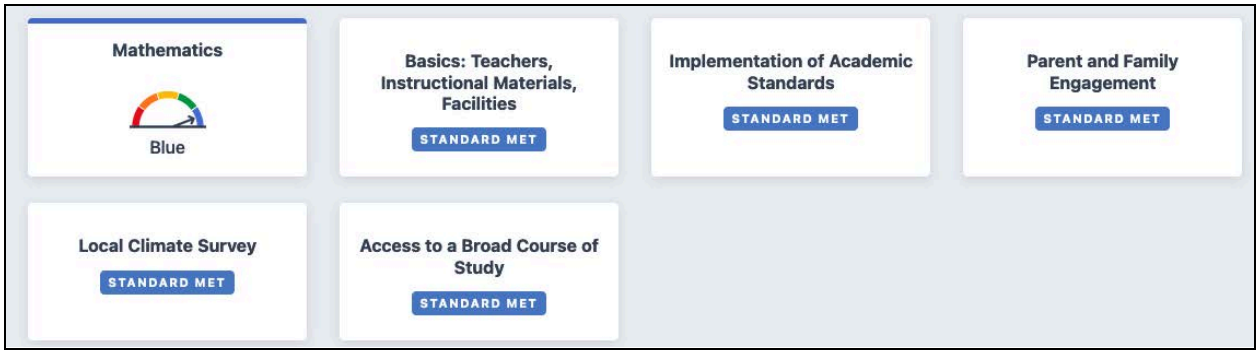
For Local Control Funding Formula (LCFF) priorities where data is not collected at the state level, charters or districts are required to measure and report their progress to be displayed on the California School Dashboard. The indicators themselves are reported in a variety of formats, including data, self-ratings, and narratives. These will be reviewed by the state and published on the Dashboard with an indication of whether the standards have been “met” or “not met”.

The priorities that have local indicators that are applicable to Rocketship schools are:

- Priority 1: *Basics: Teachers, Instructional Materials, Facilities*
- Priority 2: *Implementation of Academic Standards*
- Priority 3: *Parent and Family Engagement*
- Priority 6: *Local Climate Survey*
- Priority 7: *Access to a Broad Course of Study*

The state requires that local indicators be approved in conjunction with the school Local Control and Accountability Plans (LCAPs). The indicators will be uploaded to the dashboard in the Fall of 2025.

Why do local indicators matter?



Dashboards (see below) are important ways for the public (e.g., parents, community members) to learn about schools. By presenting strong local indicators to complement our state scores we are able to share publicly about the work done in Rocketship Schools as well as illustrate our quantitative data with a narrative of the progress on initiatives our schools are achieving.

Additionally, under AB 1505, charters with consistently high scores across their Dashboard will be considered “high performing” and eligible for a differentiated renewal process.

info@rsed.org
2001 Gateway Place, Ste. 230E, San Jose, CA 95110

As in previous years, all local indicators will be reported as met, with additional details available for each indicator. Below we've included some of the details, including some of the variance between schools that will be seen on the Dashboard.

Basic conditions of the school
In this category, we will first report that all of our students had access to curriculum aligned instructional materials and that our facilities at no point failed to meet the "good repair" standards.

Additionally, we will reflect that we had no teacher mis-assignments (i.e., teachers instructing in a subject that they are not credentialed to teach) as well as no teacher vacancies over the course of the school year.

Implementation of Academic State Standards
This category gives us the opportunity to reflect on our work to implement academic standards, including vis-a-vis instructional materials and professional learning for staff. Given Rocketship's deep and enduring work to develop teachers, both through central and school based professional development sessions and ongoing observation and coaching, we plan to report we are at full implementation and sustainability (stage five of five) or full implementation (stage four of five) for most categories and subjects on several questions related to professional learning, supporting staff on identifying areas to improve, and engaging staff on their PD needs.. We are excited to report full implementation and sustainability for all content areas when it comes to making instructional materials available in all classrooms that are aligned to the recently adopted academic standards. We will also report full implementation or full implementation and sustainability for all content areas in regards to our progress implementing policies and programs that support staff in identifying areas where they can improve delivering instruction aligned to recently adopted academic standards. Lastly, we will continue to focus on our enrichments as we report initial-to-full implementation on progress to date on implementing health, physical education, and visual/performing arts standards and are looking forward to expanding our arts programming with additional state funding.

Parent Engagement
In this category we are asked to report the phase of implementation for different aspects of parent engagement. We plan to report that all aspects are either at full implementation (one third of parent engagement metrics) or full implementation and sustainability (two thirds of parent engagement metrics). Aspects at full implementation (stage four of five) include providing opportunities to have families, teachers, principals and admins work together to plan and

info@rsed.org
2001 Gateway Place, Ste. 230E, San Jose, CA 95110

implement family engagement activities, providing information and resources to support student learning and development in the home, and supporting parent advocacy and engagement in advisory groups. We plan to report that we are at full implementation and sustainability (stage five of five) for programs which allow teachers to meet with students and families since we believe that these programs are strong and have been strong for multiple years. Additionally, we will also report full implementation and sustainability when it comes to supporting families in understanding and exercising their legal rights and advocating for their own and all students as well as supporting staff in learning about each family's strengths, cultures, languages and goals for their children.

We are excited to report that all four categories in the building relationships between school staff and families category are at the full implementation and sustainability stage. This can be attributed to the successful rollout of a new two way communication platform, which has been fully implemented and well received by families.

Additionally, we will reflect on ways to continue to foster increased family ownership in all phases of planning, communication, and execution of school activities. With these activities, we also plan to engage families to ensure the consistency, quantity and quality of events meets their needs and are meaningful to their school experience. We will also describe the positive impact our CareCorps program is having on our ability to form strong relationships, seek input for decision making and help families understand their rights, particularly for our underrepresented students. We will highlight the success brought by the full implementation of CLOC (CA Leadership Organizing Committee), to train families at each school on their rights and civic engagement. Lastly, we will report on the activities of the campus family advisory boards, regional advisory board and School Site Councils (SSC) and their inputs on decision making at the school site and regional level.

Local Climate Survey
In this category, we will reflect on the students' experience, sharing portions of the parent survey. We will focus on questions about school safety in particular and the overall student experience.

These scores vary by school but we will share one to two reasons why the school has excelled in building a safe climate, such as strong dismissal, great teacher relationships, high parent involvement, and a few ways that each school will seek to improve.

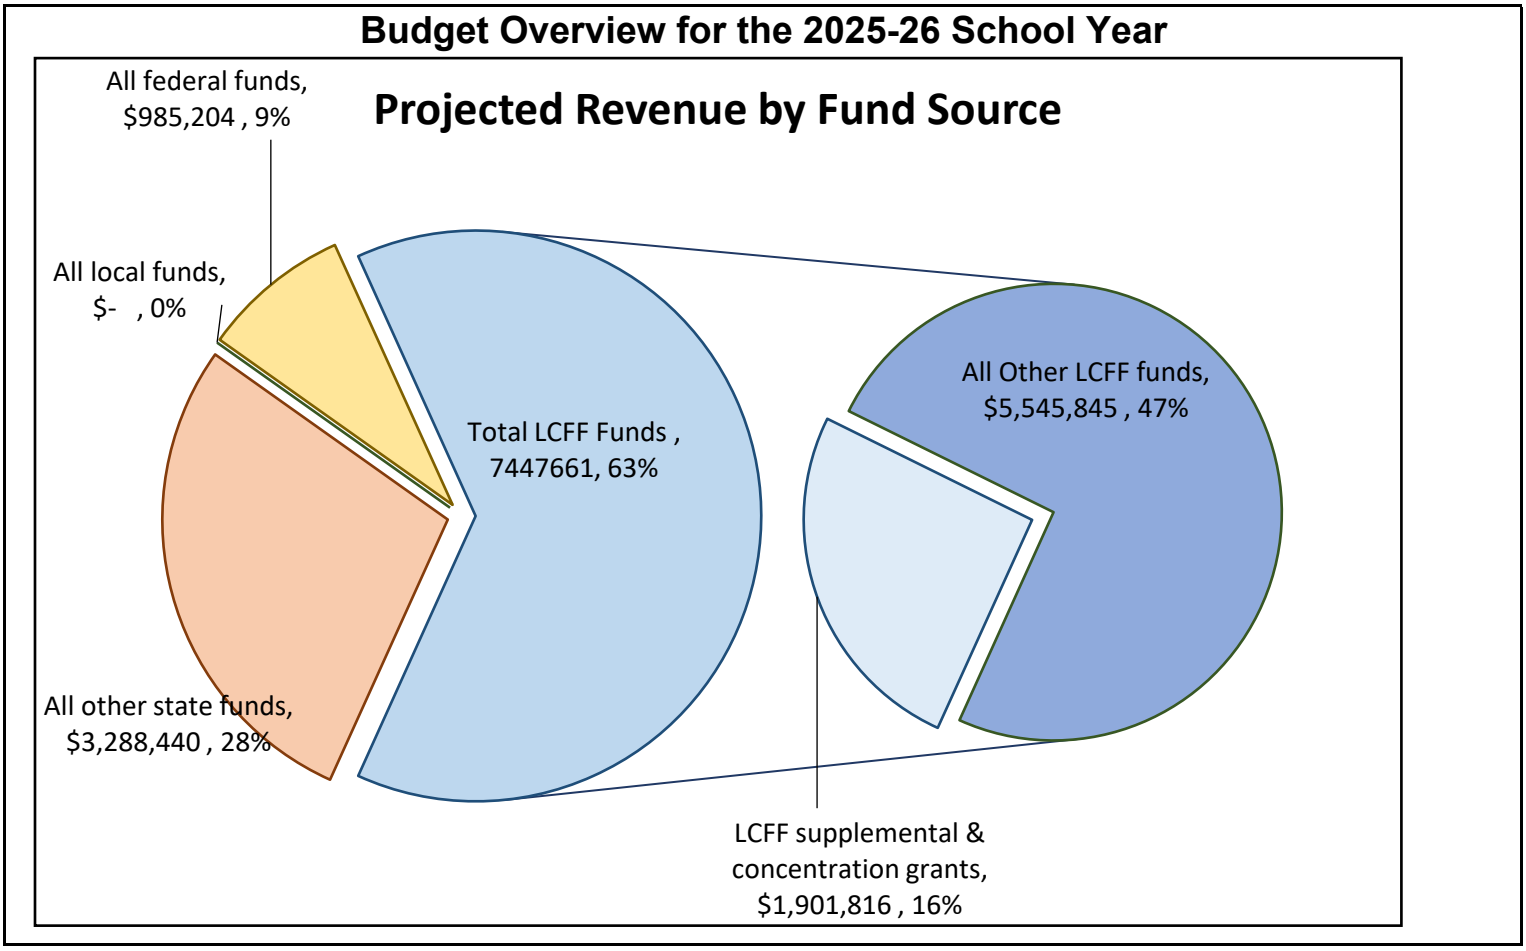
Access to a Broad Course of Study

ROCKETSHIP
PUBLIC SCHOOLS

info@rsed.org
2001 Gateway Place, Ste. 230E, San Jose, CA 95110

This category gives us the opportunity to provide narratives describing how we ensure all students -- regardless of demographics or special education status -- have access to a “broad course of study” across subject areas. We will report that all students have access to a broad course of study, which is successfully achieved through Rocketship’s inclusion model, robust data tracking processes, structures such as “check in check out” and extension work.

LCFF Budget Overview for Parents



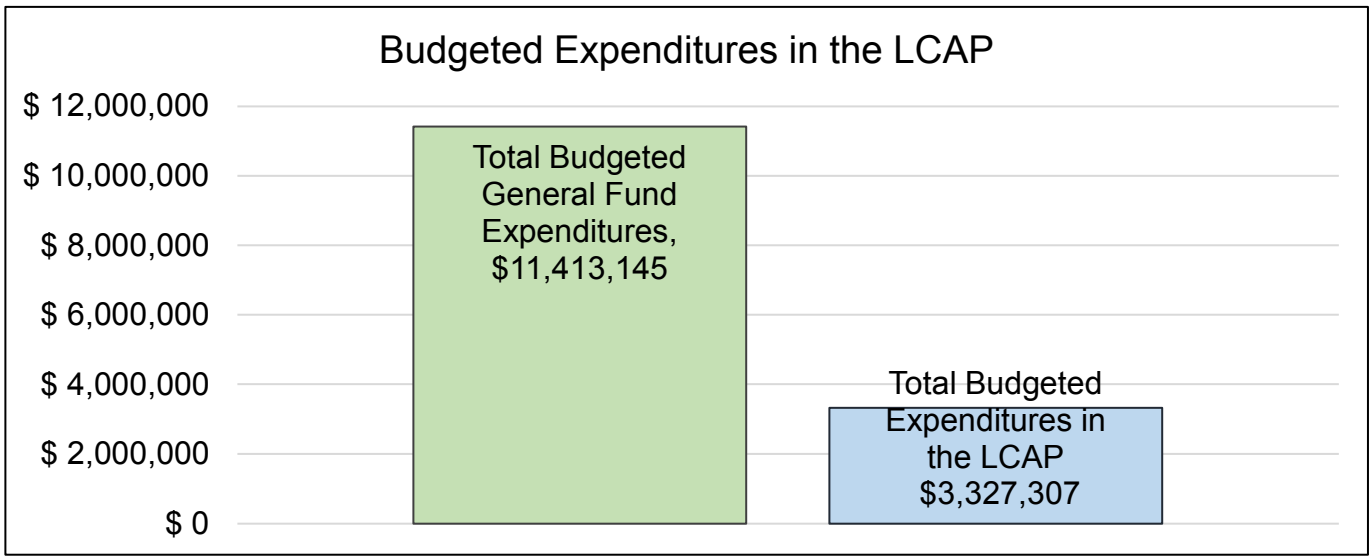
Local Educational Agency (LEA) Name: Rocketship Academy Brilliant Minds

CDS Code: 43-10439-0125781

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Academy Brilliant Minds expects to receive in the coming year from all sources.

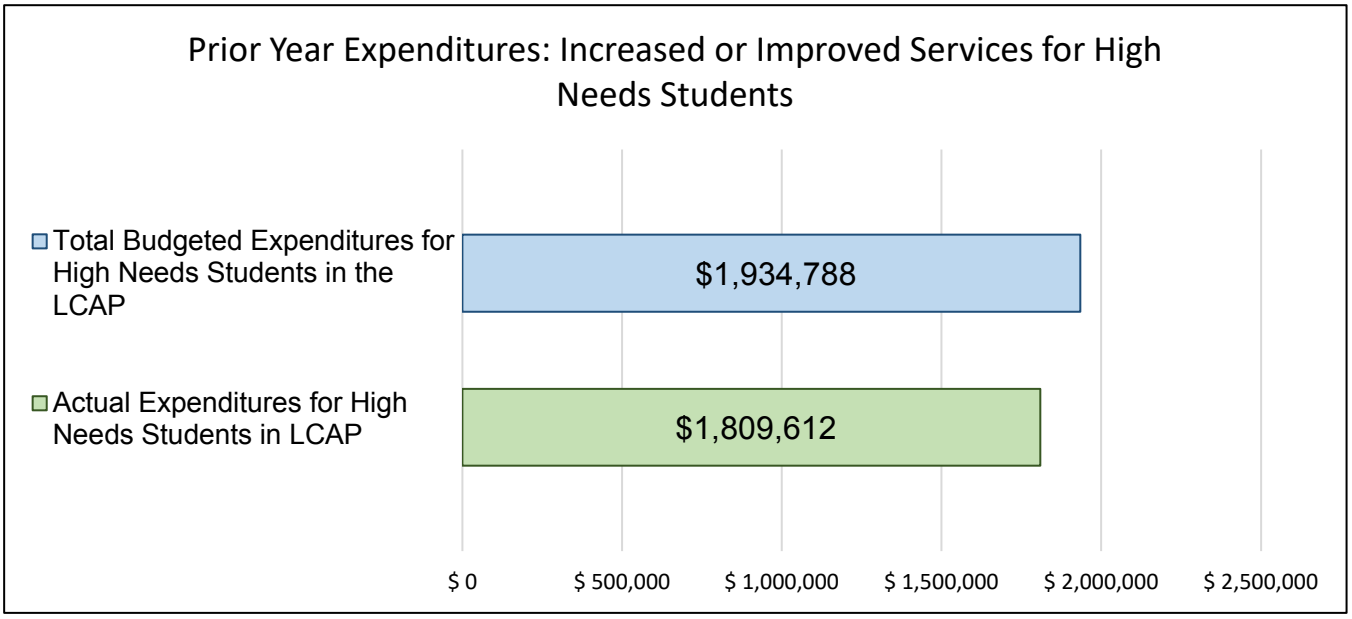
The text description for the above chart is as follows: The total revenue projected for Rocketship Academy Brilliant Minds is $11,721,304.91, of which $7,447,661.00 is Local Control Funding Formula (LCFF), $3,288,439.57 is other state funds, $0.00 is local funds, and $985,204.34 is federal funds. Of the $7,447,661.00 in LCFF Funds, $1,901,816.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Academy Brilliant Minds plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Academy Brilliant Minds plans to spend $11,413,145.33 for the 2025-26 school year. Of that amount, $3,327,306.53 is tied to actions/services in the LCAP and $8,085,838.80 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Academy Brilliant Minds is projecting it will receive $1,901,816.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Academy Brilliant Minds must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Academy Brilliant Minds plans to spend $1,935,287.74 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Academy Brilliant Minds budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Academy Brilliant Minds estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Academy Brilliant Minds's LCAP budgeted $1,934,788.13 for planned actions to increase or improve services for high needs students. Rocketship Academy Brilliant Minds actually spent $1,809,612.38 for actions to increase or improve services for high needs students in 2024-25. The difference between the budgeted and actual expenditures of $125,175.74 had the following impact on Rocketship Academy Brilliant Minds's ability to increase or improve services for high needs students:

We received less than projected in supplemental/concentration funds (1,768,485), and we spent $1,809,612. The actions were implemented as planned.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Academy Brilliant Minds	Lisa Greene, Principal	brilliantminds@rsed.org; 408-708-5650

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Academy Brilliant Minds opened in August 2012, the sixth Rocketship campus to open in San Jose. The campus serves 486 students in grades TK-5. Approximately 76.1% of the students are socioeconomically disadvantaged, 53.7% are English learners, 74.9% are Hispanic/Latinx and 19.5% are Asian. Additionally, Rocketship Academy Brilliant Minds has approximately 12.3% of students who qualify for special education services.

Rocketship Academy Brilliant Minds operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Academy Brilliant Minds instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Academy Brilliant Minds also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values-- respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At Rocketship Academy Brilliant Minds this fifth core value is initiative. Students at Rocketship Brilliant Minds take initiative, operating with ownership over their academic and personal growth. Our talented team of educators works collaboratively with our dedicated parent community to ensure every Rocketeer on our campus receives an individualized educational experience tailored to his or her learning needs.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Academy Brilliant Minds which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting parents, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Brilliant Minds based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflection

Successes

Based on the 2023 Dashboard, RBM has identified a success in Mathematics (Green, -19.3). We will build on this success by implementing action 1.1 Personalized Learning.

RBM has identified a success in English Learner Progress (Green, 50.5%). We will build on this success by implementing action 1.3 Services to Support Multilingual Students.

RBM has identified a success in Suspension Rate (Blue, 0%). We plan to continue this success by implementing 4.3 Social Emotional Learning.

2024 Dashboard Reflection

Successes

RBM has identified a success in Mathematics (Green, -7.1). We will build on this success by implementing action 1.1 Personalized Learning.

RBM has identified a success in Suspension Rate (Blue, 0%). We plan to continue this success by implementing 4.3 Social Emotional Learning.

Needs

RBM has identified a need in English Learner Progress (Red, 39.8%). We will address this need by implementing 1.3 Services to Support Multilingual Students.

RBM has identified a need in Chronic Absenteeism for the Homeless student group (Red, 34%). We will address this need by implementing 5.5 Attendance Initiatives and 4.4 Care Corps.

RBM has identified a need in Chronic Absenteeism for the Students with Disabilities (Red, 25.3%) student group. We will address this need by implementing 1.2 Special Education Supports.

Additional Successes & Needs

Teacher retention is a highlight for 2025. We are also so proud to have been re-authorized for 5 years. We are continuing to elevate the Rocketship Reads program. We've been more purposeful about our intervention efforts, ensuring we are providing small group instruction not just to students below grade level but also at and above.

Learning Recovery Emergency Block Grant (LREBG)

RSSP has $18,097 in unexpended LREBG funds for the 2025-26 school year.

The LREBG funded action may be found in Goal 1, Action 2, Special Education Supports.

The RBM needs assessment substantiated findings from the 2024 Dashboard related to student academic needs in Chronic Absenteeism. RBM students need tailored supports to remove barriers to success.

Although RBM runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.

This falls under the allowable uses of the LREBG funding by integrating evidence-based pupil supports to address other barriers to learning, such as chronic absenteeism. The metric that will be used to track the effectiveness of this action is Chronic Absence rate.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Academy Brilliant Minds is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Academy Brilliant Minds is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Academy Brilliant Minds is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RBM based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 10/29/24, 1/21/25, 3/5/25, 4/29/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (8/20/24, 8/21/24, 9/17/24, 9/18/24, 10/15/24, 10/16/24, 11/19/24, 12/10/24, 12/11/24, 2/25/25, 5/13/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4/25-3/21/25).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (8/30/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18-December 6, 2024).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will

provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders that they appreciated the work done to differentiate p.d. and honor experience, and on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 3, the family survey shows families are confident our operations systems are smooth, efficient, and safe, supporting the continued implementation of Goal 3. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs. In Goal 5, family feedback shows that they feel respected and welcome, supporting the effectiveness and continuation of our Goal 5 actions.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. In grades 3 and 4, we piloted a new grade level structure with a whole group teacher and small group teacher for Humanities, and students rotate to both in their school day. We did intentional planning of those times. This structure provides additional academic support in small group no matter the student's achievement level. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. In 1.2 Special Education Supports,This year we had an AP of student services, partic charged with supporting MTSS and ISE practices, making sure we are keeping close eyes on students who may be underperforming. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. In 1.4 Rocketship Reads, a success is that we were more intentional in teaching students the skill of book shopping in the beginning of the year. We also incentivized reading through various initiatives, including the use of Accelerated Reader in grades 2-5 to encourage reading. We still have some challenges ensuring we have accurate reading levels for kids, but we are getting as close as possible.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.1 we spent more than budgeted ($71,595) because three tutors were included in the budget, and four tutors are currently on staff. An additional tutor was hired due to a greater need for instructional support. In 1.2 we spent more than budgeted ($140,649) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($13,304) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students. In 1.4 we spent more than budgeted ($14,273) to provide Humanities teachers to support with reading. There were a larger number of Humanities teachers hired than initially estimated in the budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we approached our target in Math (1.16 Years) and Reading (.94 Years); CAASPP Science (34%), where we approached our target, and CAASPP ELA (52%) and Math (55%), where we met our overall target in ELA and approached our target in Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24.

The 1.3 Services to Support Multilingual Students action has been somewhat effective as well. In 2024, we had 39.8% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 5.5%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted metrics targets based on year 1 results. CAASPP ELA (52.1%-> 52%), Math (46%->55%), Science (30%->34%), ELPI (55%->45%), Reclassification (15%->8%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RBM's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$671,323 (Title I $177,540)	Yes

1.2	Special Education Supports (LREBG)	Although RBM runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$358,730	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$61,247	No

1.4	Rocketship Reads	Rocketship Academy Brilliant Minds will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores and fostering a love of learning and constant growth. This will include working with our entire school staff on modeling reading as an everyday activity. Our Humanities teachers will also own and implement “book shopping” within their classrooms to ensure students always have a “just right” book they are ready to enjoy at home or in spare moments at school.	$97,432	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2024-25
2.2	Number/% of total and EL teachers credentialed & properly assigned Data Source: Internal Staffing Data Tracker	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading.We are also pleased to see there is increased traction with CKLA skills and Eureka in year two of implementation. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited about plans to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.3, we broadened our approach from just using mClass to a menu of resources to best address the needs of students. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($28,089) because Core curriculum expenses were higher than anticipated. In 2.4 we spent less than budgeted (-$22,351). Instructional coaching is primarily conducted by Assistant Principals. This school had fewer AP's on staff this year vs. budget, resulting in lower instructional coaching expenses. In 2.5 we spent less than budgeted ($16,461). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards (100%),

combined with excellent instructional materials provided to all students (100%), and by our assessment results (see Goal 1) which show growth and progress toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RBM curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RBM operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RBM utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$44,856	No

2.2	Professional Development	Professional Development is a critical component of the RBM program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RBM hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RBM has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RBM will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$231,200	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$71,521	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RBM teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$9,056	No
2.6	Culturally Responsive Pedagogy	RBM is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we achieved a nearly full Operations staff with one opening of Ops Specialists. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. The whole community is pleased to have a more secure building. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.3 a challenge was that we discovered that our security system was not working properly. We therefore changed out our security system for one that provides 24/7 monitoring. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.1 we spent less than budgeted ($52,111) because of fewer Operations Specialists hired due to challenges hiring and retaining staff. In 3.2 we spent less than budgeted (-$61,235) because custodial services expenses have been lower than expected. In 3.3 we spent less than budgeted (-$1,675) because the cost of safety materials was lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard:100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 78% and % of families feel campus is safe: 93%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$536,920	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$260,886	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$16,034	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 5-Student Engagement, 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, we successfully piloted a science curriculum connected to Eureka and taught by 3-5 grade teachers throughout the year. We were pleased to be able to provide art class for Tk-2nd grade. In grades 3-5, we had a very successful enrichment offering, a virtual reality coding class called Hello World. We were fortunate to be able to send six students to a Google demo to highlight their work. Another success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted (-$81,266) because we had fewer enrichment center coordinators due to shifts in staffing.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning and Care Corps actions were effective, as evidenced by % of student feel connected at school (As measured by student survey) (84%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$194,340	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$57,696	Yes

4.3	Social Emotional Learning	At Rocketship Academy Brilliant Minds, we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Academy Brilliant Minds core values: respect, responsibility, persistence, empathy, and initiative. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$168,635	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$117,327	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve

52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. We also had many family members advocate for their school during the fall renewal process. In 5.3 School-Family Partnership, a we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$12,174) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (parents on track to complete participation hours) (83%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (97%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (89%) and % of parents connected (87%), and % of parents with input on decision making (92%). 5.6 Attendance Initiatives was effective Average Daily Attendance (94%), by Chronic Absenteeism rate for all students and all significant subgroups (20% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted the metrics targets in response to year one data: ADA (95%->94%) Chronic Absenteeism (10%-> 20%), Parent Involvement (76%->88%), Parent Satisfaction (88%->90%), Parent Connectedness (85%->90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than Englishs. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$108,612	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$26,293	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are at orange level (EL -24.7 and SED -22.8). In 2024 Math performance, we find that both groups are at green level (EL -13.9 and SED -15.9). We had red level performance in 2024 on the English Learner Progress Indicator, with 39.8% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 5.5% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 78% of students feel safe on campus and 84% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 89% of parents were satisfied with their school, 83% of parents were involved in their school, 97% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Brilliant Minds is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RBM does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

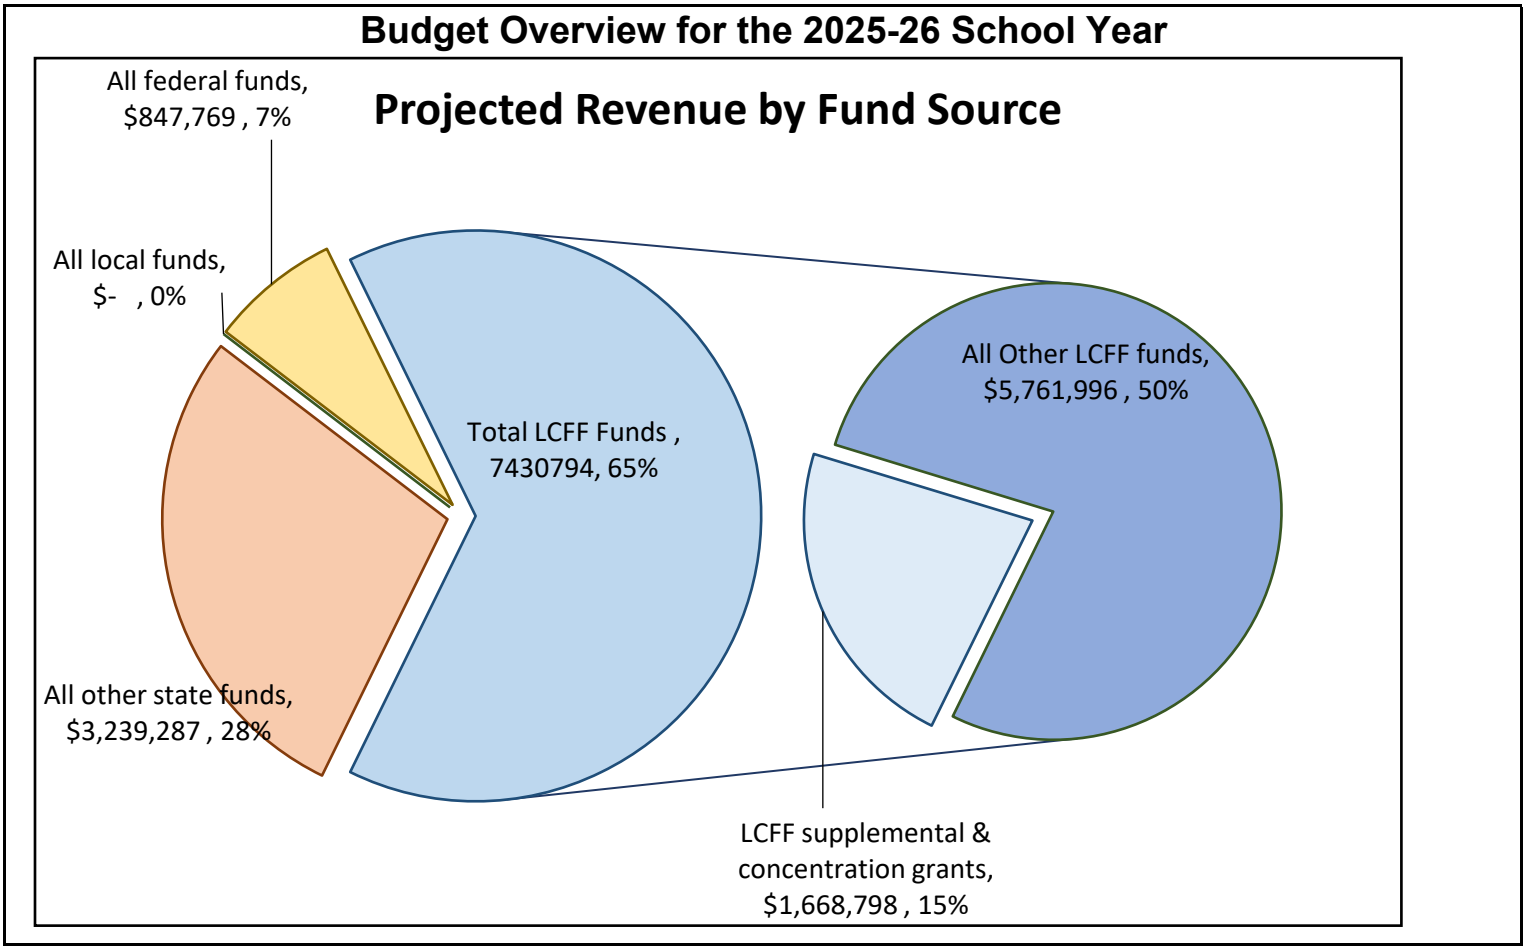
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



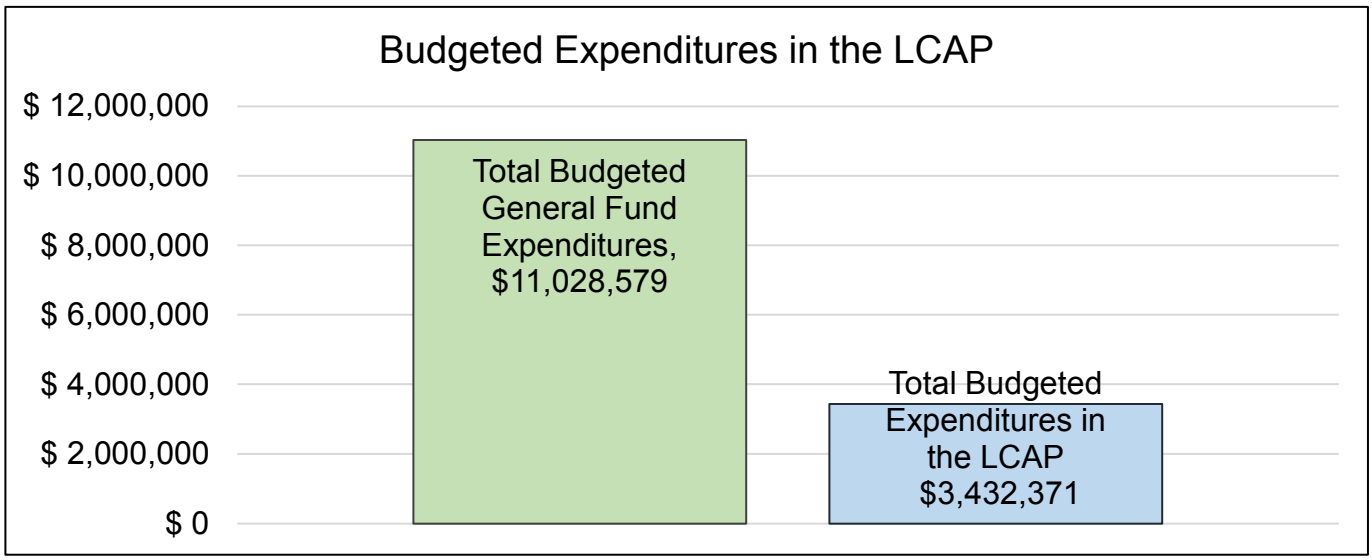
Local Educational Agency (LEA) Name: Rocketship Delta Prep

CDS Code: 07-61648-0137430

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Delta Prep expects to receive in the coming year from all sources.

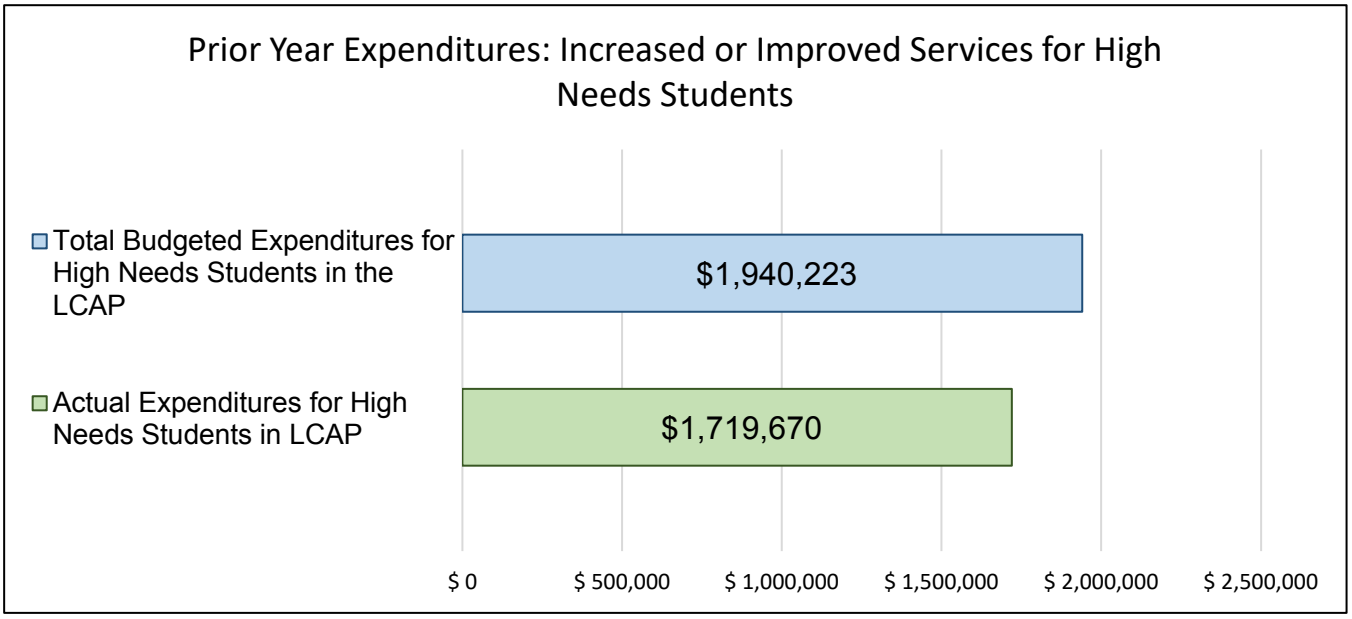
The text description for the above chart is as follows: The total revenue projected for Rocketship Delta Prep is $11,517,850.02, of which $7,430,794.00 is Local Control Funding Formula (LCFF), $3,239,287.03 is other state funds, $0.00 is local funds, and $847,768.99 is federal funds. Of the $7,430,794.00 in LCFF Funds, $1,668,798.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Delta Prep plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Delta Prep plans to spend $11,028,579.48 for the 2025-26 school year. Of that amount, $3,432,370.75 is tied to actions/services in the LCAP and $7,596,208.73 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Delta Prep is projecting it will receive $1,668,798.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Delta Prep must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Delta Prep plans to spend $1,811,429.39 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Delta Prep budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Delta Prep estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Delta Prep's LCAP budgeted $1,940,222.86 for planned actions to increase or improve services for high needs students. Rocketship Delta Prep actually spent $1,719,669.84 for actions to increase or improve services for high needs students in 2024-25. The difference between the budgeted and actual expenditures of $220,553.02 had the following impact on Rocketship Delta Prep's ability to increase or improve services for high needs students:

We received less than projected in supplemental/concentration funds ($1,581,534), and we spent $1,719,690,. The actions were implemented as planned.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Delta Prep	Nia Belvin, Principal	rdl@rsed.org; (925) 951-6800

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Delta Prep (RDL) opened in August 2018 in Antioch, CA; it is the 13th Rocketship school to open in the Bay Area. The campus served TK-4 students in its inaugural year and grew in 2019-2020 to serve TK-5. The school now serves 604 students in grades TK-5. Approximately 72.5% of the students are socioeconomically disadvantaged, 5.3% are homeless, 25.7% are English learners, 55.5% are Hispanic/Latinx and 36.8% are African American. Additionally, 7.1% of students qualify for special education services.

Rocketship Delta Prep operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Delta Prep's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Delta Prep also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values-- respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At RDL this fifth core value is courage.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Delta Prep which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these

requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data and local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include families of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Family members, classified staff, certificated staff and an administrator will make up the council. The number of family members will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and family members also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Delta Prep based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RDL has identified a success in Suspension Rate Overall (Blue, 0%). We will build on this success by implementing 4.3 Social Emotional Learning.

RDL has identified a need in Chronic Absenteeism Overall (Red, 48.9%) and for English Learners (Red, 54%), Socioeconomically Disadvantaged (Red, 50.5%), African American (Red, 47.5%), and Hispanic (Red, 48.6%) student groups). We will address this need by implementing required action 5.5 Attendance Initiatives.

RDL has identified a need in ELA for the African American student group (Red, -76). We will address this need by implementing required action 1.1 Personalized Learning.

2024 Dashboard Reflections

RDL has identified a success in English Learner Progress (Blue, 60.4%). We will build on this success by implementing action 1.3 Services to Support Multilingual Students.

We are pleased to note that we improved in all indicators except Suspension rate from 2023. We are working to achieve a similar movement in 2025.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Delta Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Delta Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Delta Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RDL based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met regularly for LCAP consultation (10/3/24, 12/12/24, 4/24/25, 5/24/25, 5,29/25). Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (9/17/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (9/4/24, 10/2/24, 11/6/24, 12/4/24, 1/8/25, 2/5/25, 3/5/25, 4/2/25, 5/7/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML

Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. Our teachers also indicated that they appreciate the in-the-moment coaching and the overall consistency of coaching, supporting our continuing these practices. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs. In Goal 5, family feedback shows that families appreciate the accessibility of school leaders as well as the frequency and transparency of communication, supporting the effectiveness and continuation of Goal 5 actions.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	2022-23 All Students: 35.0% English Learners: 20.0% Low Income: 33.2% Students with Disabilities: 5.0% Black or African American: 29.3% Hispanic/Latinx: 33.6%	2023-24 All Students: 35.3% English Learners: 13.4% Low Income: 34.1% Students with Disabilities: 5.6% Black or African American: 28.9% Hispanic/Latinx: 33.8%	[Insert outcome here]	40% Data Year: 2025-26	2023-24 All Students: +0.3 English Learners: -6.6 Low Income: +0.9 Students with Disabilities: +0.6 Black or African American: -0.4 Hispanic/Latinx: +0.2

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we adopted the notion that “everybody is an interventionist,” and we began using IXL for math. We also successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. The small group instruction has helped promote growth in math and reading for all student groups. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. We also piloted high dosage virtual tutoring through Ignite Reading. In In 1.2, our current schedule offers opportunities to maximize inclusion and also increases our ability to do co-teaching. A challenge in 1.2 is that we had some staffing needs and had to rely on contractors to fill gaps to meet student needs, making it harder both financially and relationally. 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of

our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. Finally, we have an Assistant Principal who primarily oversees this area and provides weekly coaching for designated ELD instruction to ensure we are meeting student needs. A challenge in 1.3 is helping families to understand how and why a student is considered multilingual and also how to support at home. In 1.4, a success is that students and teachers engage in reading daily. A challenge is that we are not always able to reserve time and space for casual everyday reading. We were less consistent this year in make sure that every student goes home with a book and getting to exchange those weekly.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.2 we spent more than budgeted ($291,709) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($14,812)) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students. In 1.4 we spent less than budgeted (-$23,800) for Humanities teachers to support with reading. There were slightly fewer Humanities teachers hired than initially estimated in the budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we met/approached our target in Math (1.25 Years) and Reading (1.14 Years); CAASPP Science (21%), where we approached our target, and CAASPP ELA (35%) and Math (24%), where we met our overall target in ELA and approached our target in Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address.

The 1.3 Services to Support Multilingual Students action has been somewhat effective as well. In 2024, we had 60% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 6.8%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted targets for some metrics in response to year one data: CAASPP ELA (40%->35%), Math (29%->31%), Science (20%->26%), ELPI (55%->65%), Reclassification (15% ->9%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Personalized Learning	RDL's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$779,042 ($150,801 Title I)	Yes

1.2	Special Education Supports	Although RDL runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$369,897	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$59,591	No
1.4	Rocketship Reads	Rocketship Rocketship Delta Prep will implement a Rocketship campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity.	$105,054	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. Another challenge has been in getting started more quickly on data analysis practices. We did a lot of culture focus in p.d. in the beginning of the year. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. A challenge is that coaching sometimes gets impacted by student behavior/culture needs. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability. It has been a challenge with teachers struggling to pass the necessary credentialing tests and balancing the workload of their coursework and their teaching.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($20,955) because Core curriculum expenses were higher than anticipated. In 2.2 we spent less than budgeted (-$31,841) because fewer staff members than budgeted resulted in slightly lower professional development expenses. In 2.4 we spent less than budgeted (-$47,491). Instructional coaching is primarily conducted by Assistant Principals. This school had fewer AP's on staff this year vs. budget, resulting in lower instructional coaching expenses

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined

with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RDL curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RDL operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RDL utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$40,000	No

2.2	Professional Development	Professional Development is a critical component of the RDL program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RDL hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RDL has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RDL will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$241,711	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$74,427	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RDL teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$9,338	No
2.6	Culturally Responsive Pedagogy	RDL is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were largely successful in fully staffing for Operations roles–we had a mid-year vacancy in the Business Operations Manager position in late February and we anticipate filling this by end of April. Another facilities success was that we completely repainted our indoors. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.3 A challenge is that we need a consistent crosswalk and lights added on it for safety. We struggle with parking capacity, particularly during events.In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice. Our families internalized our systems and know them well.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were somewhat effective as evidenced by the facilities meet the “good repair” standard: 100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were somewhat effective overall as evidenced by family and student survey results: % of students feel safe on campus: 77% and % of families feel campus is safe: 69%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations. We took steps this year to enhance safety and operations, and we hope to see growth in survey results next year. We also received positive feedback from families on our arrival and dismissal structures and our partnership with the city to minimize traffic and congestion at school

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$468,170	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$283,814	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$16,329	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	81% Data Year: 2023-24	80% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	-1 Data Year: 2024-25
4.2	Suspension rate for all students and all significant subgroups Data Source: SIS Discipline Reports	All Students: 0.6% Data Year: 2023-24 (as of 3/29/24)	All Students: 0.2% Data Year: 2024-25 (as of 4/4/25)		All Students: 0% Data Year: 2026-27	–0.4 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1, under a creative arts grant, we were able to offer a virtual learning curriculum, Hello World, for grades 3-5. We were also pleased to offer some campus clubs– Newspaper, and Girls on the Run. Also in 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4, we feel that Care Corps is a shining star at RDL. We are really proud of our pop-up community closet where families can “thrift shop” monthly from shared resources from our community. Also in 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted ($63,241) because we had fewer enrichment center coordinators due to shifts in staffing. In 4.2 we spent more than budgeted ($17,836) because Science camp expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning and Care Corps actions were effective, as evidenced by % of student feel connected to the school community (As measured by student survey) (80%), by Suspension rate for all students and all significant subgroups (0.2%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$194,340	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$59,492	Yes

4.3	Social Emotional Learning	At Rocketship Delta Prep we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Delta Prep core values: respect, responsibility, persistence, empathy, and courage. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$173,885	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$120,979	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Average Daily Attendance Data Source: SIS Attendance Reports	90.4% Data Year: 2023-24 (as of 3/29/24)	90.8% Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	94% Data Year: 2026-27	+0.4 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. Our Cafecitos attendance doubled in size this year. We attribute this increased engagement to the intentional efforts of leaders to be very present and more proactive in communications. We were also pleased to see families being vocal in getting other families on board. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around

family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5, we had 490 parent volunteers across the year at RDL! That is up from 290 last year. We feel this speaks to our strong family engagement. In 5.5 Los Dichos, another success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. In Chronic Absenteeism, we are celebrating student attendance weekly instead of monthly. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools. Also in attendance, we moved from monthly to weekly recognition and implemented weekly golden tickets for students which lead up to various incentives.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$16,657)due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were somewhat effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (66%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (93%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (67%). 5.6 Attendance Initiatives was effective Average Daily Attendance (91%), by Chronic Absenteeism rate for all students and all significant subgroups (32.6% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted the targets of some metrics in response to year one data: ADA (95%->94%), Chronic Absenteeism (10%->20%), Parent Involvement (75%->71%),

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$113,992	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$27,112	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

28.962%	0%	$0	28.962%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that the EL group is at orange level for ELA and Math (ELA EL -62.7, Math EL -69.7) and the SED group is at yellow level for ELA and Math (ELA SED -44.7, Math SED-67.4). We had blue level performance in 2024 on the English Learner Progress Indicator, with 60.4% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 6.8% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	

3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students had a 1.1% suspension rate and English Learners had a 0% suspension rate. 2025 survey results showed that 77% of students feel safe on campus and 81% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 67% of parents were satisfied with their school, 66% of parents were involved in their school, 93% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Delta Prep is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RDL does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

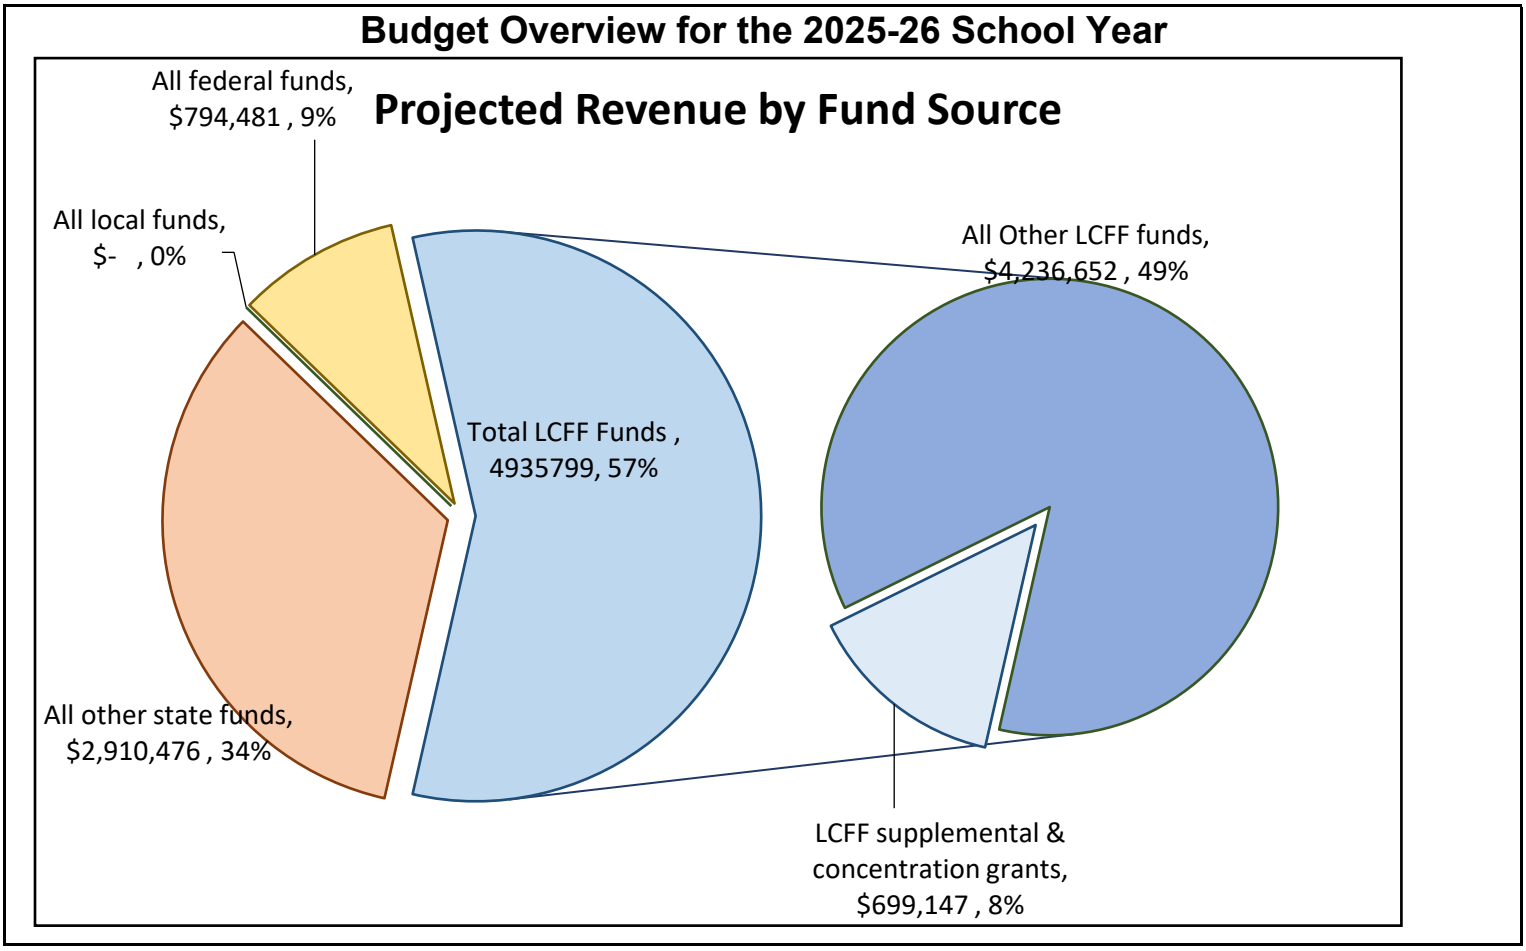
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



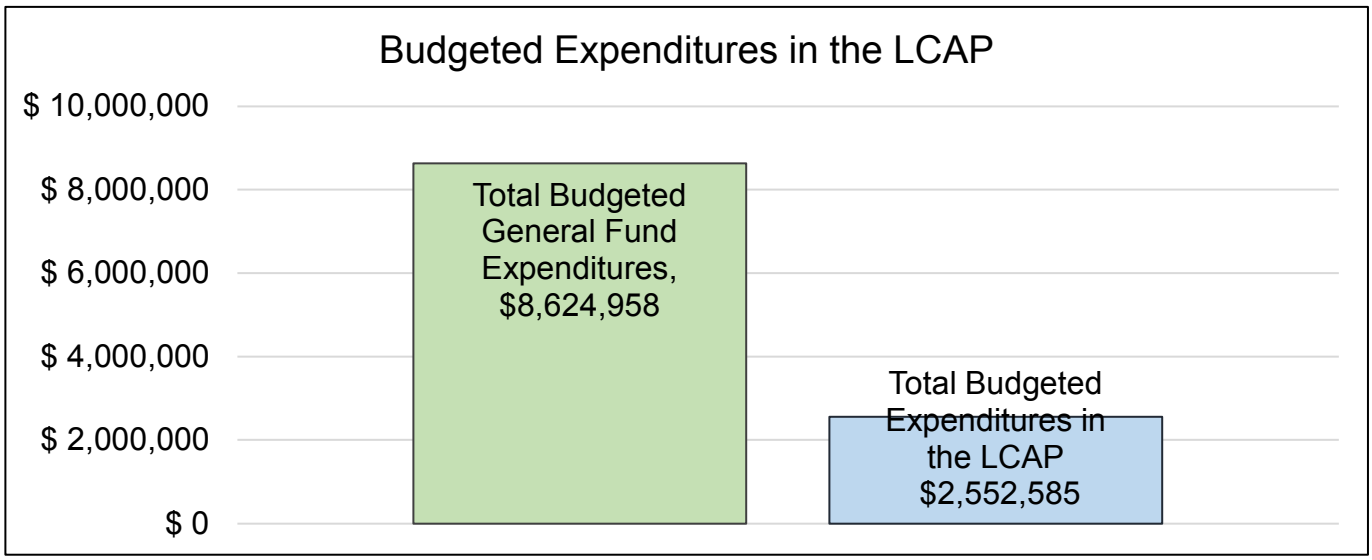
Local Educational Agency (LEA) Name: Rocketship Discovery Prep

CDS Code: 43-10439-0123281

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Discovery Prep expects to receive in the coming year from all sources.

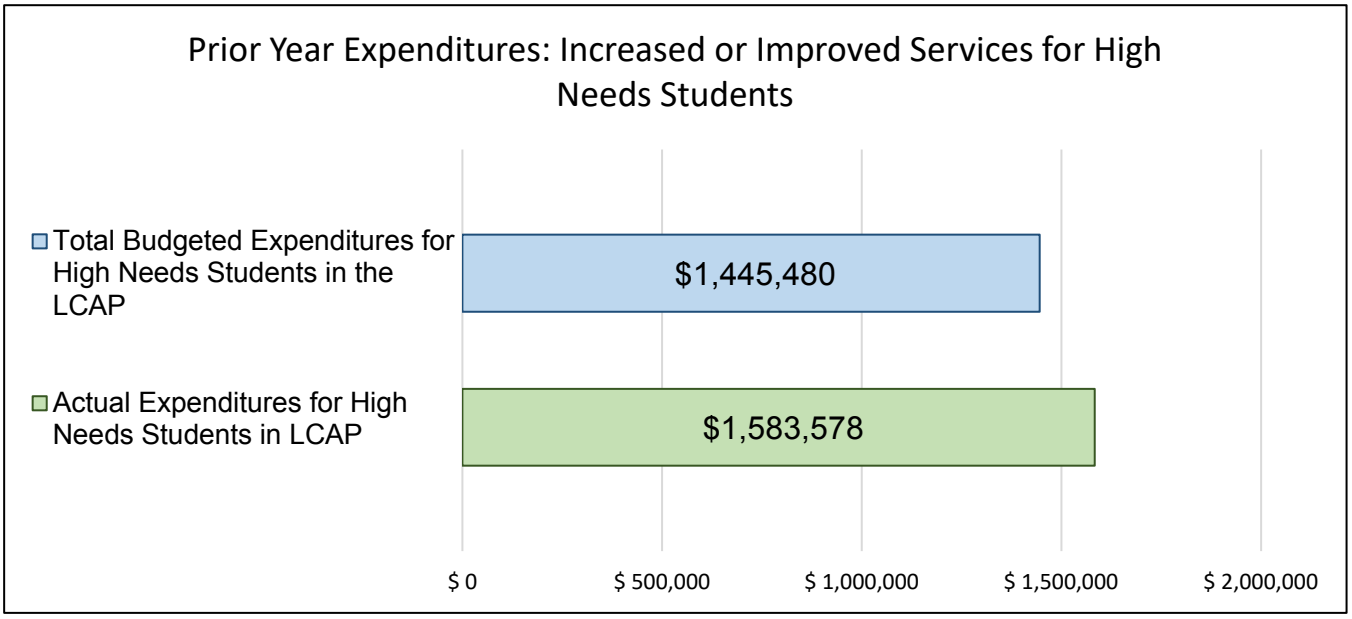
The text description for the above chart is as follows: The total revenue projected for Rocketship Discovery Prep is $8,640,755.91, of which $4,935,799.00 is Local Control Funding Formula (LCFF), $2,910,476.13 is other state funds, $0.00 is local funds, and $794,480.78 is federal funds. Of the $4,935,799.00 in LCFF Funds, $699,147.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Discovery Prep plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Discovery Prep plans to spend $8,624,958.18 for the 2025-26 school year. Of that amount, $2,552,585.41 is tied to actions/services in the LCAP and $6,072,372.78 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Discovery Prep is projecting it will receive $699,147.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Discovery Prep must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Discovery Prep plans to spend $1,348,389.42 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Discovery Prep budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Discovery Prep estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Discovery Prep's LCAP budgeted $1,445,480.06 for planned actions to increase or improve services for high needs students. Rocketship Discovery Prep actually spent $1,583,577.87 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Discovery Prep	Ayesha Doster, Principal	discoveryprep@rsed.org; 408-217-8951

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Discovery Prep opened in August 2011, the fifth Rocketship campus to open in San Jose. The campus serves 401 TK-5 students. Approximately 71.1% of the students are socioeconomically disadvantaged, and 8% are homeless. Additionally, 59.6% are English learners, and 10.2% of students qualify for special education services. Approximately 84.5% of students identify as being Hispanic or Latino and 8.7% as Asian.

Rocketship Discovery Prep operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Discovery Prep's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Discovery Prep also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values-- respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At RDP this fifth core value is creative expression. The RDP community believes that teaching students creative forms of expressing themselves can have a profound impact on students' social, emotional and academic development. As a result, the campus places emphasis on early exposure to visual art, musical foundations, and basic dance movements to help shape children's values, perspectives, and understandings of themselves and the diversity of varied expression in the world around them.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Discovery Prep which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data and local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting parents, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Discovery Prep based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RDP has identified a success in English Learner Progress (Green, 45%). We will build on this success by implementing action 1.3 Services to Support Multilingual Students.

RDP has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

2024 Dashboard Reflections

RDP has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Discovery Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Discovery Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Discovery Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RDP based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 10/1/24, 2/11/25, 4/29/25, 5/20/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (10/23/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (9/11/24, 10/9/24, 11/13/24, 1/21/25, 3/12/25, 4/16/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML

Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All students: 34.4% English Learners: 17.9% SED: 28.2% Students with Disabilities: 0.0% Asian: 70.4% Hispanic/Latinx: 27.3% Data Year: 2022-23	All students: 41.1% English Learners: 25.7% SED: 34.9% Students with Disabilities: 5.3% Asian: 65.0% Hispanic/Latinx: 37.7% Data Year: 2023-24	[Insert outcome here]	46% Data Year: 2025-26	All students: +6.7 English Learners: +7.8 SED: +6.7 Students with Disabilities: +5.3 Asian: -4.6 Hispanic/Latinx: +10.4 Data Year: 2023-24
1.2	CAASPP Math: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All students: 30.7% English Learners: 12.4% SED: 24.7% Students with Disabilities: 11.8% Asian: 70.4% Hispanic/Latinx: 23.2% Data Year: 2022-23	All students: 39.6% English Learners: 22.0% SED: 35.9% Students with Disabilities: 15.8% Asian: 80.0% Hispanic/Latinx: 34.7% Data Year: 2023-24	[Insert outcome here]	45% Data Year: 2025-26	All students: +8.9 English Learners: +9.6 SED: +10.2 Students with Disabilities: +4.0 Asian: +9.6 Hispanic/Latinx: +11.5 Data Year: 2023-24

1.3	CAASPP Science: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All students: 13.0% English Learners: 3.7% SED: 12.5% Hispanic/Latinx: 5.3% Data Year: 2022-23	All students: 25.0% English Learners: 11.8% SED: 22.0% Hispanic/Latinx: 23.9% Data Year: 2023-24	[Insert outcome here]	30% Data Year: 2025-26	All students: +12.0 English Learners: +8.1 SED: +9.5 Hispanic/Latinx: +18.6 Data Year: 2023-24
1.4	Avg Growth Years for Reading on NWEA (K-2) Data Source: NWEA MAP	1.34 Years Data Year: 2023-24	1.41 Years Data Year: 2024-25		1.2 Years Data Year: 2026-27	+0.7 2024-25
1.5	Avg Growth Years for Math on NWEA (K-2) Data Source: NWEA MAP	1.38 Years Data Year: 2023-24	1.54 Years Data Year: 2024-25		1.2 Years Data Year: 2026-27	+0.16 2024-25
1.6	English Learner Progress Indicator (% of EL students increased at least one ELPI level or maintained the ELP criterion (Level 4)) Data Source: CA Dashboard	45% Data Year: 2022-23	46.3% Data Year: 2023-24		51% Data Year: 2025-26	+1.3 Data Year: 2023-24

1.7	EL Reclassification Rate Data Source: SIS Demographics	4.6% Data Year: 2023-24 (as of 3/29/24)	9.3% Data Year: 2024-25 (as of 4/4/25)		11% Data Year: 2026-27	+4.7 2024-25

Insert or delete rows, as necessary.

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned except, in 1.3 Services to Support Multilingual Students, our supports for newcomers increased by adding a new role, Multilingual Learner Specialists, that provided additional direct services to newcomer students. We are pleased to see that this is going well, and that students are enjoying the sessions. Multilingual Learner Specialists used a Newcomer curriculum to not only support with English language acquisition, but to also address the social emotional needs of students entering a new country and learning environment. Upper grade students received foundational skills instruction and practice to increase their reading skills. Specialists were also able to use students' home language (L1) to support learning the English language (L2) by providing instructions in the students home language and explicitly teaching any cross language connections. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. In 1.4 Rocketship Reads, a success is that we brought in a book vending machine, an innovation that has been successful at some of our network campuses. It adds another layer to our initiative through incentivized reading. Students can earn opportunities for new books by reading during lunch, earning core value tokens, demonstrating skills in the test prep unit during reading block, and during lunch spotlight. A challenge in 1.4 is making sure that students take home and bring back books, engaging parent support in the returning of books and logging reading, and for teachers finding the time to help students switch out their leveled books weekly.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.3 we spent more than budgeted ($5,486) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we met our target in Math and Reading; CAASPP Science, where we met our target, and CAASPP ELA and Math, where we met our overall target in ELA and approached our target in Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24.

The action 1.3 Services to Support Multilingual Students was somewhat effective. In 2024, we had 46% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 9.3%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer. In 1.4 we added our new book vending machine to the action description.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets for some metrics in response to year one data: CAASPP ELA (39%->46%), Math (36%->45%), Science (18%->30%), ELPI (55%->51%), Reclassification (15%->11%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RDP's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$607,827 ($138,226 Title I)	Yes

1.2	Special Education Supports	Although RDP runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$273,584	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$51,503	No

1.4	Rocketship Reads	Rocketship Discovery Prep will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. At school, this will include working with our humanities teachers on modeling reading as an everyday activity and celebrating students. At home, this will include daily reading of a book of interest. We will continue to acknowledge and celebrate student achievement by awarding books to students through our book vending machine.	$60,666	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements.We were also able to help fund their credentialing programs. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability. Another challenge is that it was hard for our teachers to balance their daily work with the demands of their schooling.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($34,176) because Core curriculum expenses were higher than anticipated. In 2.4 we spent more than budgeted ($83.646). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RDP curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RDP operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RDP utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$34,209	No

2.2	Professional Development	Professional Development is a critical component of the RDP program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RDP hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RDP has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RDP will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$153,430	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$49,849	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RDP teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$112,124	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$6,907	No
2.6	Culturally Responsive Pedagogy	RDP is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	% of facilities meeting the “good repair” standard iAuditor Internal Data	100% Data Year: 2022-23 Data Source:	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.2 Facilities Maintenance, we successfully completed a new coat on our parking lot and added more cameras to our security system. Another facilities success was that we completely repainted our indoors. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.3 a challenge was that we discovered that our security system was not working properly. We therefore changed out our security system for one that provides 24/7 monitoring. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.3 we spent less than budgeted (-$1,320) because the cost of safety materials was lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 78% and % of families feel campus is safe: 93%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$439,570	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$190,146	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$13,790	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent more than budgeted ($25,818) because of additional enrichment center coordinators hired due to shifts in staffing.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (84%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 90% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–90%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$129,560	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$44,002	Yes

4.3	Social Emotional Learning	At Rocketship Discovery Prep we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Discovery Prep core values: respect, responsibility, persistence, empathy, and creative expression. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$128,609	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$89,479	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Average Daily Attendance Data Source: SIS Attendance Reports	93.3% Data Year: 2023-24 (as of 3/29/24)	92.0% Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	94% Data Year: 2026-27	-1.3 Data Year: 2024-25

5.2	Chronic Absenteeism rate for all students and all significant subgroups Data Source: SIS Attendance Reports	All Students: 20.3% English Learners: 19.5% Low Income: 20.3% Students with Disabilities: 20.0% Homeless: 51.4% Asian: 13.2% Black: 41.7% Hispanic/Latinx: 20.1% White: 28.6% Data Year: 2023-24 (as of 3/29/24)	All Students: 27.8% English Learners: 27.8% Low Income: 29.2% Students with Disabilities: 26.9% Homeless: 36.1% Asian: 12.5% Black: 35.0% Hispanic/Latinx: 29.2% White n<10 Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	All Students: 20% Data Year: 2026-27	+7.5 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, a we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the

appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$15,358) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (81%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (100%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (96%). 5.6 Attendance Initiatives was effective Average Daily Attendance (92%), by Chronic Absenteeism rate for all students and all significant subgroups (28% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted the targets in some metrics in response to year one data: ADA (95%->94%), Chronic Absenteeism (10%->20%), Parent Involvement (90%->86%), Parent Connectedness (85%->90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$76,329	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$20,053	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are at yellow level for ELA (EL -46.7, SED -40.4) and orange in Math (EL -45.1, SED -43.8). We had yellow level performance in 2024 on the English Learner Progress Indicator, with 46.3% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 9.3% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 78% of students feel safe on campus and 84% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 96% of parents were satisfied with their school, 81% of parents were involved in their school, 100% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

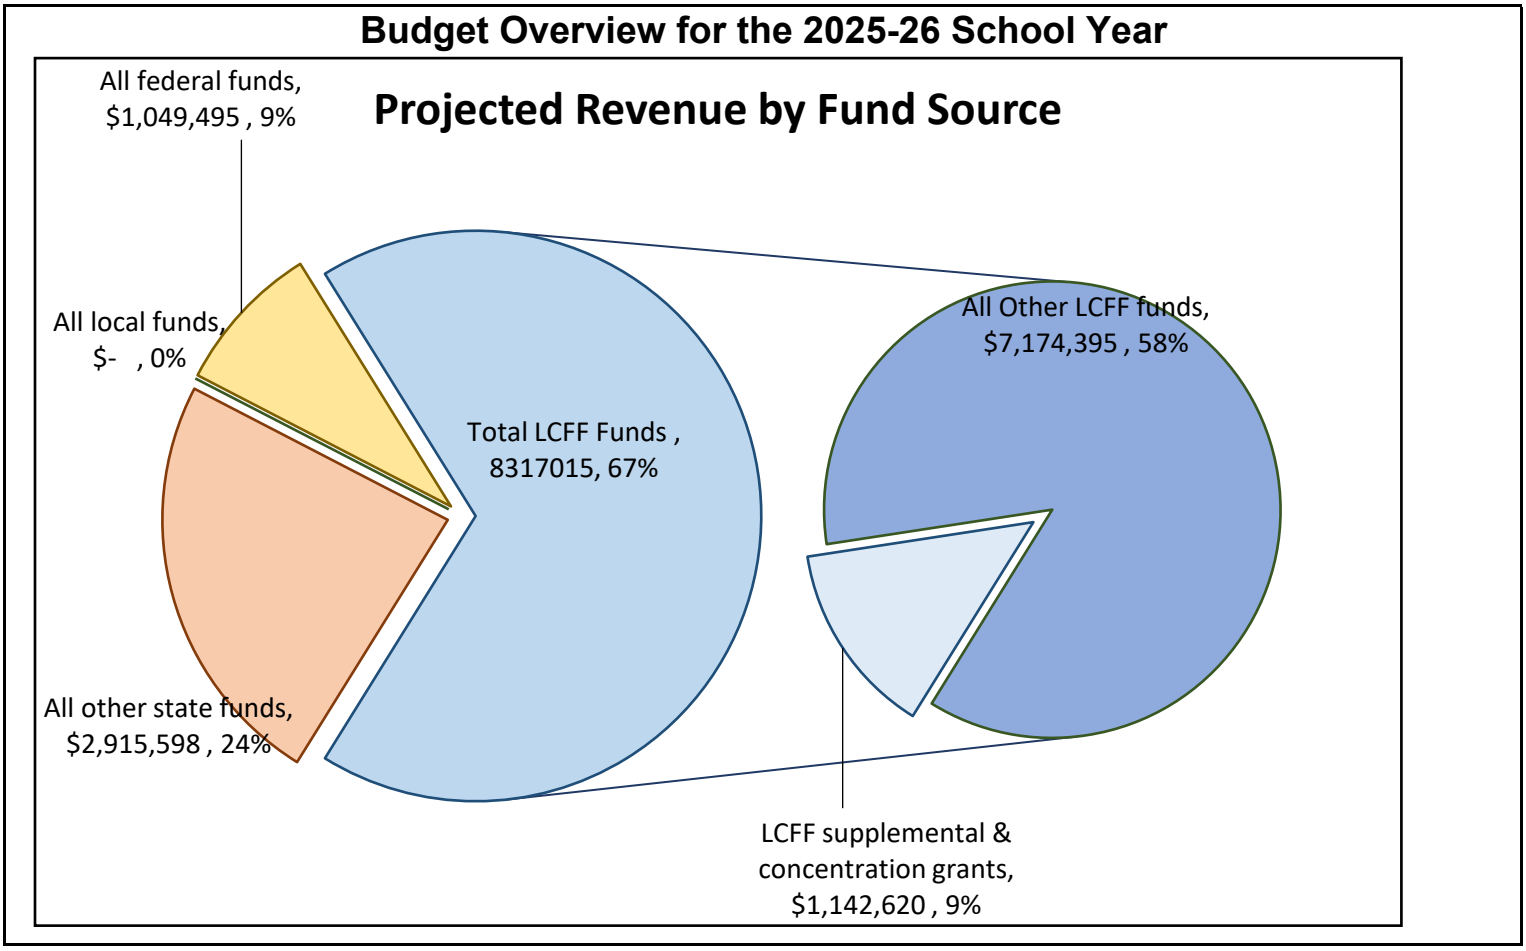
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



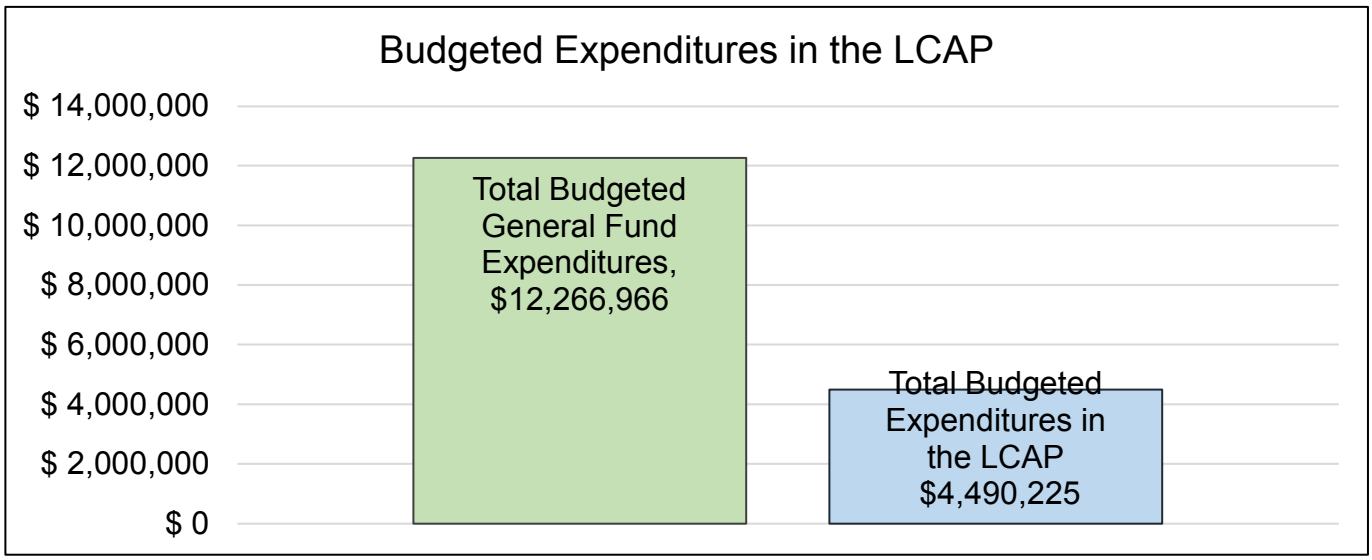
Local Educational Agency (LEA) Name: Rocketship Futuro Academy

CDS Code: 07-77024-0134072

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Futuro Academy expects to receive in the coming year from all sources.

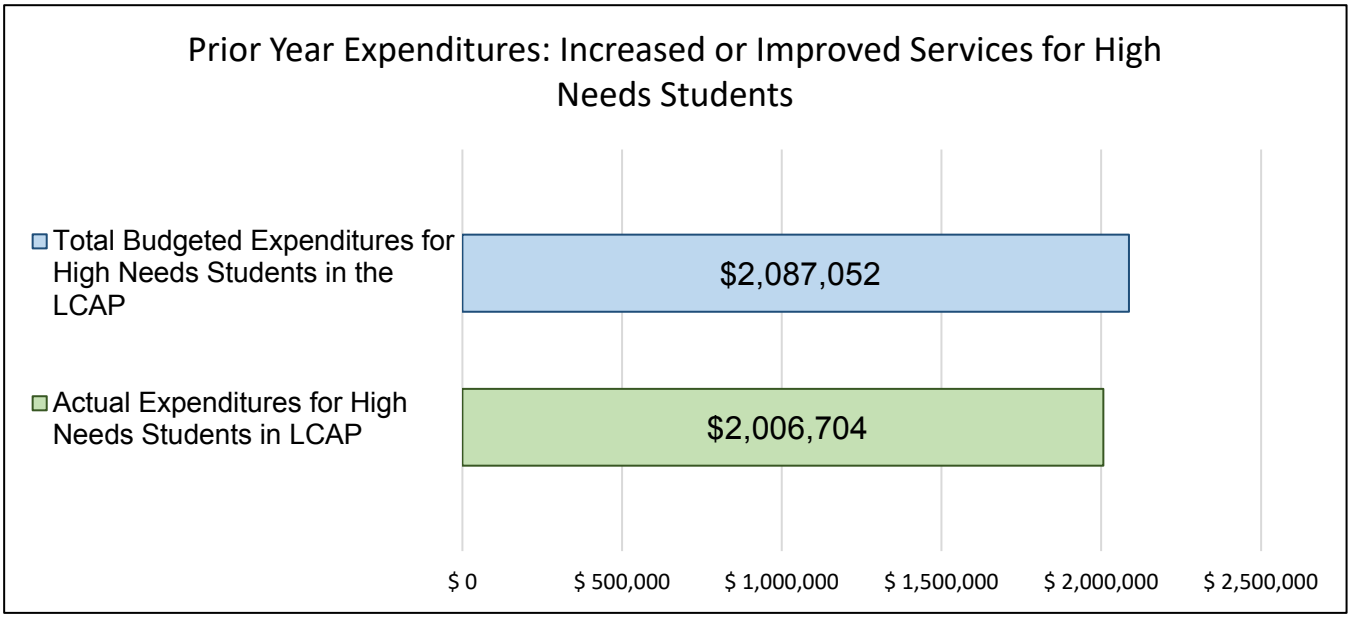
The text description for the above chart is as follows: The total revenue projected for Rocketship Futuro Academy is $12,282,107.38, of which $8,317,015.00 is Local Control Funding Formula (LCFF), $2,915,597.57 is other state funds, $0.00 is local funds, and $1,049,494.81 is federal funds. Of the $8,317,015.00 in LCFF Funds, $1,142,620.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Futuro Academy plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Futuro Academy plans to spend $12,266,966.12 for the 2025-26 school year. Of that amount, $4,490,225.17 is tied to actions/services in the LCAP and $7,776,740.95 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Futuro Academy is projecting it will receive $1,142,620.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Futuro Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Futuro Academy plans to spend $2,552,443.17 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Futuro Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Futuro Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Futuro Academy's LCAP budgeted $2,087,051.53 for planned actions to increase or improve services for high needs students. Rocketship Futuro Academy actually spent $2,006,704.39 for actions to increase or improve services for high needs students in 2024-25. The difference between the budgeted and actual expenditures of $80,347.14 had the following impact on Rocketship Futuro Academy's ability to increase or improve services for high needs students:

We received less than projected in supplemental/concentration funds ($1,100,624), and we spent $2,006,704. The actions were implemented as planned.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Futuro Academy	Joelle Daguilh, Principal	info_rfa@rsed.org; 925-246-5537

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Futuro Academy opened in August 2016 in Concord as a K-2 grade campus, the first East Bay Rocketship campus and the 12th Bay Area Rocketship campus. The school has now expanded to serve 654 students in grades TK-5. Approximately 72% of the students are socioeconomically disadvantaged, 52.8% are English learners, 7% are Homeless Youth, and 80% are Hispanic/Latinx, 5.7% are African American and 5.8% Asian. Additionally, 9.3% of students qualify for special education services.

Rocketship Futuro Academy operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Futuro Academy's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Futuro Academy also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values-- respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At Rocketship Futuro this fifth core value is purpose.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Futuro Academy which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these

requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data and local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting parents, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Futuro based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RFA has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing 4.3 Social Emotional Learning.

RFA has identified a need in Math for Students with Disabilities (Red, -98.3). We will address this need by implementing Required Action 1.3 Special Education Supports and 1.1 Personalized Learning.

2024 Dashboard Reflections

RFA has identified a success in Mathematics (Green, -7.4). We will build on this success by implementing action 1.1 Personalized Learning.

RFA has identified a success in English Learner Progress (Blue, 60.7%). We will build on this success by implementing action 1.3 Services to Support Multilingual Students.

RFA has identified a success in Suspension Rate (Blue, 0%). We plan to continue this success by implementing 4.3 Social Emotional Learning.

RFA has identified a need in English Language Arts for the Students with Disabilities student group (Red, -101.3). We will address this need by implementing 1.2 Special Education Supports and 1.1 Personalized Learning.

RFA has identified a need in Chronic Absenteeism for the African American student group (Red, 21.6%). We will address this need by implementing 5.5 Attendance Initiatives and 4.4 Care Corps.

RFA has identified a need in Chronic Absenteeism for the Asian student group (Red, 23.1%). We will address this need by implementing 5.5 Attendance Initiatives and 4.4 Care Corps.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Futuro Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Futuro Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Futuro Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RFA based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 11/18/24, 1/28/25, 4/21/25, May TBD. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (9/3/24, 10/8/24, 11/19/24, 1/14/25, 2/5/25, 3/11/25, May - TBD), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (11/13/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will

provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: CA Dashboard	All students: 43.7% English Learners: 22.8% Low Income: 41.9% Hispanic/Latinx: 42.0% Students with Disabilities: 7.0% Data Year: 2022-23	All students: 43.4% English Learners: 26.6% Low Income: 40.1% Hispanic/Latinx: 40.9% Asian: 64.3% Black or African American: 53.3% Students with Disabilities: 8.3% Data Year: 2023-24	[Insert outcome here]	48% Data Year: 2025-26	All students: -0.3 English Learners: +3.8 Low Income: -1.8 Hispanic/Latinx: -1.1 Asian: n/a Black or African American: n/a Students with Disabilities: +1.3 Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. We saw strong growth in NWEA Reading correlated to strong intervention practices. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of

multilingual learner programs at their campuses. A challenge in 1.3 was that this year we piloted an ELA content curriculum, Wit & Wisdom . While we had planned for opportunities to embed integrated supports, the implementation needed to be differentiated for the different curricula which required schools to balance the fidelity of the curricula with the supports needed for multilingual learners to access the content. In 1.4, every Wednesday we celebrate kids who meet word millionaire benchmarks with a token to our book vending machine. We have a “caught in the act of reading” initiative, where teachers take photos, we upload them, and we celebrate with cute bookmarks. Then we also have a raffle for all of them, so one earns a book token. Additionally, we adjusted our guided reading, particularly in upper grades, so topics are more aligned to promote the love of reading through compelling and popular book choices. We select a teacher to read an excerpt of their favorite book “book commercials” during our morning Launch assemblies. Finally, alll students go home daily with 1-2 books (upper grades) and 5 for lower grades.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.2 we spent more than budgeted ($289,852) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($9,639) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students. In 1.4 we spent more than budgeted ($26,200) to purchase additional books needed to replenish the classroom library.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we approached our target in Math (1.13) and Reading (1.11); CAASPP Science, where we approached our target (27%), and CAASPP ELA and Math, where we approached our overall target in ELA (43%) and met our target in Math (46%). Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address.

In 1.3 Services to Support Multilingual Students, in 2024, we had 61% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 7.9%. Data showing the full impact of this year’s LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We made some adjustments to metrics targets in response to year one data: CAASPP ELA (49%->48%), Math (42%->51%), Science (39%->32%), ELPI (55%->66%), Reclassification (15%->10%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RFA's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$1,020,653 ($175,744 Title I)	Yes

1.2	Special Education Supports	Although RFA runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology. This action will support Math growth and achievement of our Students with Disabilities by providing supports personalized to their needs.	$461,140	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$72,710	No
1.4	Rocketship Reads	Rocketship Futuro Academy will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity.	$110,559	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. We are very proud that all school leaders have been actively coaching for a majority of the day, and of how we have been able to individualize our p.d. and supports for teachers. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent less than budgeted (-$18,369) because Core curriculum expenses were lower than anticipated; the school had the curriculum that was needed on hand at the start of the year. In 2.5 we spent less than budgeted (-$18,604). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RFA curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RFA operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RFA utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$50,000	No

2.2	Professional Development	Professional Development is a critical component of the RFA program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RFA hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RFA has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RFA will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$303,284	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$92,870	Yes
2.3	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RFA teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$448,496	Yes

2.4	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$11,523	No
2.5	Culturally Responsive Pedagogy	RFA is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	% of facilities meeting the “good repair” standard Data Source: iAuditor Internal Data	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
3.2	% of students feel safe on campus (As measured by student survey) Data Source: Internal Survey	80% Data Year: 2023-24	78% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	-2 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were successful in fully staffing for Operations roles. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems and achieved higher scores than ever before. We strengthened our systems overall–perfecting our arrival/dismissal routines and also our recess procedures. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.2 we spent less than budgeted (-$98,650) because custodial services expenses have been lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100%. The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 78% and % of families feel campus is safe: 86%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$639,770	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$321,502	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$17,077	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	83% Data Year: 2023-24	83% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	Maintained Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted (-$66,672) because we had fewer enrichment center coordinators due to shifts in staffing.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (83%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 80% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–100%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$259,120	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$73,411	Yes

4.3	Social Emotional Learning	At Rocketship Futuro Academy we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Futuro Academy core values: respect, responsibility, persistence, empathy, and purpose. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$219,816	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$152,936	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Average Daily Attendance Data Source: SIS Attendance Reports	92.8% Data Year: 2023-24 (as of 3/29/24)	92.9% Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	94% Data Year: 2026-27	+0.1 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. We are proud of the many and various family engagement events held this year, from parent education to cultural celebrations and school spirit competitions. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect

them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$15,460) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (90%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (100%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (84%). 5.6 Attendance Initiatives was effective Average Daily Attendance (93%), by Chronic Absenteeism rate for all students and all significant subgroups (27% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We updated the targets for some metrics based on year one data: ADA (95%->94%), Chronic Absenteeism (10%->20%), Parent Connectedness (85%->90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$130,134	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$34,273	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are at orange level (EL --31.7, SED -27.7). In Math, both groups were at green level (EL, -17, SED -14). We had blue level performance in 2024 on the English Learner Progress Indicator, with 60.7% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 7.9% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 78% of students feel safe on campus and 83% of student feel a sense of connectedness at school.Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 84% of parents were satisfied with their school, 90% of parents were involved in their school, 100% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

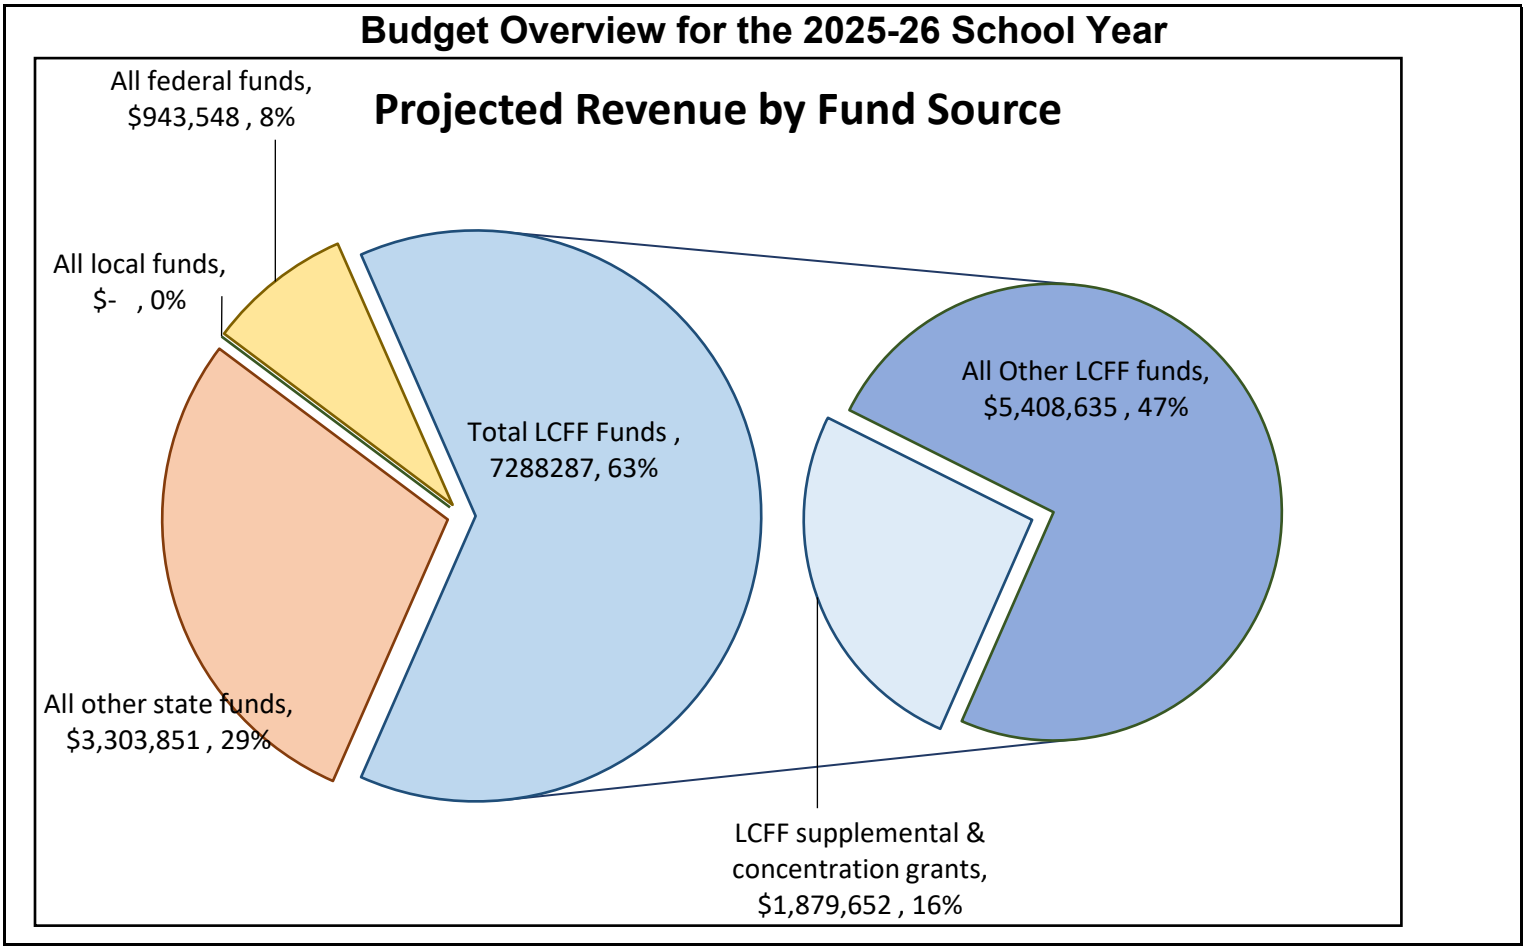
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



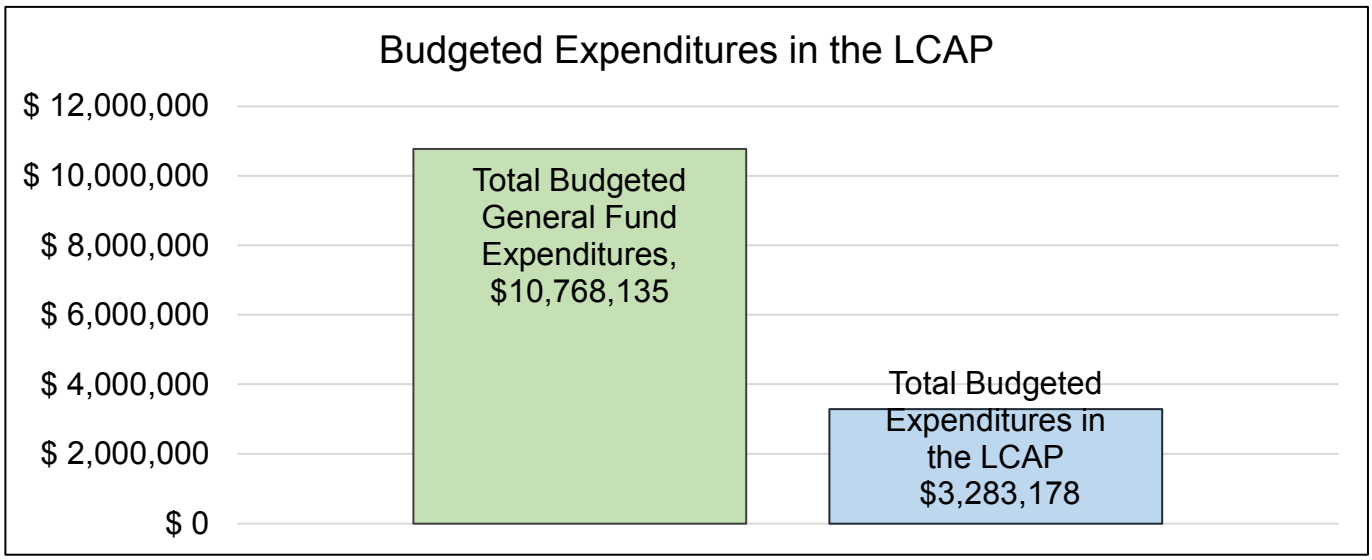
Local Educational Agency (LEA) Name: Rocketship Fuerza Community Prep

CDS Code: 43-10439-0131110

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Fuerza Community Prep expects to receive in the coming year from all sources.

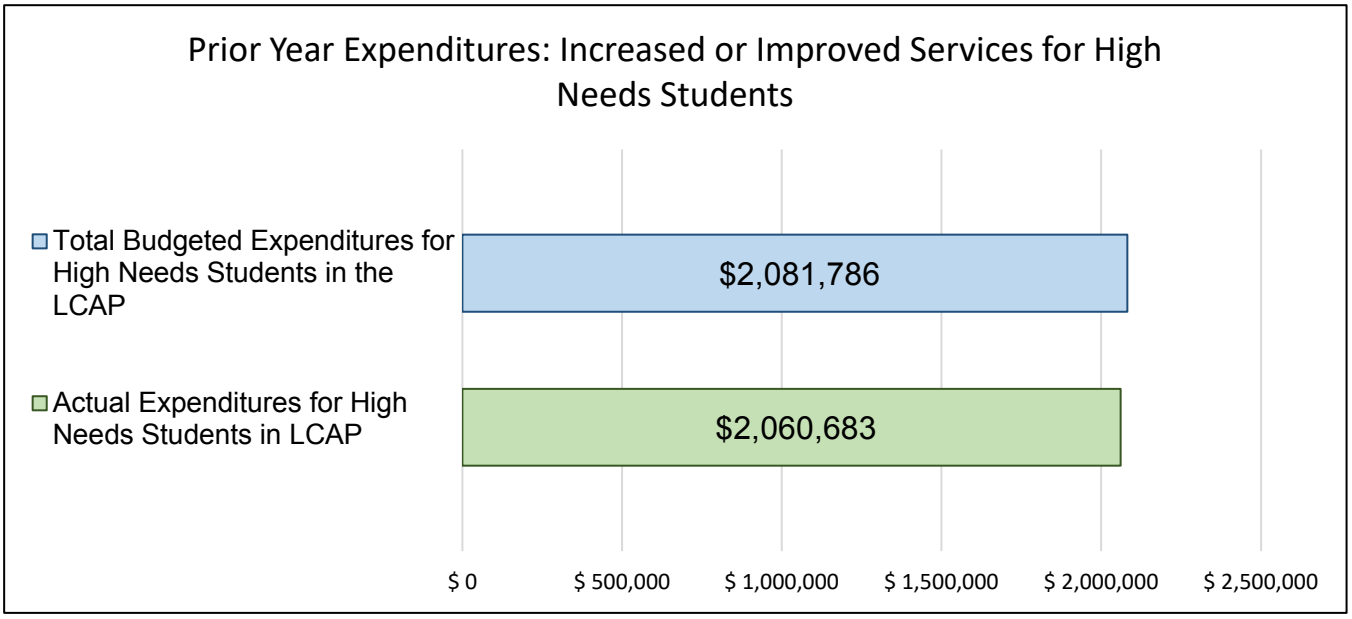
The text description for the above chart is as follows: The total revenue projected for Rocketship Fuerza Community Prep is $11,535,686.01, of which $7,288,287.00 is Local Control Funding Formula (LCFF), $3,303,850.98 is other state funds, $0.00 is local funds, and $943,548.03 is federal funds. Of the $7,288,287.00 in LCFF Funds, $1,879,652.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Fuerza Community Prep plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Fuerza Community Prep plans to spend $10,768,134.60 for the 2025-26 school year. Of that amount, $3,283,178.12 is tied to actions/services in the LCAP and $7,484,956.47 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Fuerza Community Prep is projecting it will receive $1,879,652.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Fuerza Community Prep must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Fuerza Community Prep plans to spend $1,911,673.33 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Fuerza Community Prep budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Fuerza Community Prep estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Fuerza Community Prep's LCAP budgeted $2,081,785.92 for planned actions to increase or improve services for high needs students. Rocketship Fuerza Community Prep actually spent $2,060,683.44 for actions to increase or improve services for high needs students in 2024-25. The difference between the budgeted and actual expenditures of $21,102.48 had the following impact on Rocketship Fuerza Community Prep's ability to increase or improve services for high needs students:

We received less than projected in supplemental/concentration funds ($1,816,394), and we spent $2,060,683. The actions were implemented as planned.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Fuerza Community Prep	Riley St. Marie, Principal	fuerza@rsed.org; 408-708-5744

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Fuerza Community Prep (RFZ) opened in August 2014 as TK-4th grade campus, the ninth Rocketship campus to open in San Jose. The campus now serves approximately 540 TK-5th grade students. Approximately 79.1% of the students are socioeconomically disadvantaged, 61.1% are English learners, 80% are Hispanic/Latinx and 12% are Asian. Additionally, 9.1% of students qualify to receive special education services.

Rocktship Fuerza operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Fuerza's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Fuerza also operates under the principles that excellent teachers and leaders create transformational schools and engaged parents are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship parents are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values-- respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At Rocketship Fuerza this fifth core value is ganas. Ganas is the fuel that makes the core values of respect, persistence, empathy, and responsibility come to life and ignites students' desires and zest to achieve their best. Cultivating ganas means that students will find joy and meaning in a challenge and push themselves to overcome it. It means that students will not just work persistently towards achievement but deeply desire it. Students with ganas will also encourage and motivate their peers to be better students, friends, sons, daughters, and community members. Rocketeers fueled by ganas are expected to face challenges head on with intelligence, resolve, and pride. They will create solutions instead of making excuses and push beyond expectations of themselves and their community. This core

value reminds our Rocketeers that success comes not only through hard work but also through a deep desire to reach one's goals and help others achieve theirs.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Fuerza Community Prep which is the Schoolwide Program; herein referred to as the LCAP. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting parents, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Fuerza Community Prep based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RFZ has identified a success in Suspension Rate Overall (Blue, 0%) and for all student groups (Blue, 0%). We will build on this success by implementing Action 4.3 Social Emotional Learning.

RFZ has identified a need in ELPI (Red, 27.7%). We will address this need by implementing Action 1.4 Services to Support Multilingual Students Required Action. We began in 23-24 to have specific P.D. for Designated ELD in the classroom. We hope to have all our teachers certified in GLAD training to ensure they know the strategies for Integrated ELD.

2024 Dashboard Reflections

RFZ has identified a success in Suspension Rate Overall (Blue, 0%). We really worked on our restorative practices and providing students the opportunity to reflect on actions and fix the situation instead of excluding them. We will build on this success by implementing Action 4.3 Social Emotional Learning.

RFZ has identified a success in ELPI (Green, 51.6%). We prioritized our Designated English Language Development, providing p.d. for teachers and analyzing data regularly so we knew what we needed to address in the instruction. We will build on this success by implementing action 1.4 Services to Support Multilingual Students.

We are also very proud of our growth in ELA and Math overall and for most groups. This was accomplished through a lot of data analysis, and strong teacher understanding of data and analysis. We focused on finding out where gaps were and addressing them, not just moving on.

RFZ has identified a need in Chronic Absenteeism for the Students with Disabilities (Red, 24.2%) student group. We have been focused on chronic absenteeism overall and for student groups. We implemented a few attendance incentives for individuals and classrooms. We honed our communication with families, reaching out at home as soon as a student is absent. We especially focused on students close to becoming chronically absent. For our Students with Disabilities, we conducted focused outreach through our education specialists team. We will continue to address this need by implementing 1.2 Special Education Supports.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Fuerza Community Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Fuerza Community Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Fuerza Community Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RFZ based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 10/9/24, 11/14/24, 2/5/25, 4/16/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (9/10/24, 10/15/24, 11/12/24, 12/10/24, 1/15/25, 2/11/25, 3/11/25, 4/15/25, 5/14/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (11/6/24, 11/19/24, and 12/4/24), monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys such as our weekly feedback survey that goes out in the launcher.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML

Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of 5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: CA Dashboard	All students: 38.7% English Learners: 20.7% SED: 34.8% Students with Disabilities: 0.0 % Asian:81.6 % Hispanic/Latinx: 29.9% Data Year: 2022-23	All students: 43.8% English Learners: 23.3% SED: 38.8% Students with Disabilities: 13.8% Asian: 82.5% Hispanic/Latinx: 33.5% Filipino: 81.8% Data Year: 2023-24	[Insert outcome here]	48% Data Year: 2025-26	All students: +5.1 English Learners: +2.6 SED: +4.0 Students with Disabilities: +13.8 Asian: +0.9 Hispanic/Latinx: +3.6 Filipino: n/a Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned except, in 1.3 Services to Support Multilingual Students, our supports for newcomers increased by adding a new role, Multilingual Learner Specialists, that provided additional direct services to newcomer students. Multilingual Learner Specialists used a Newcomer curriculum to not only support with English language acquisition, but to also address the social emotional needs of students entering a new country and learning environment. Upper grade students received foundational skills instruction and practice to increase their reading skills. Specialists were also able to use students' home language (L1) to support learning the English language (L2) by providing instructions in the students home language and explicitly teaching any cross language connections. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. A challenge in 1.3 was that this year we piloted an ELA content curriculum, Wit & Wisdom . While we had planned for opportunities to embed integrated supports, the implementation needed to be differentiated for the different curricula which required schools to balance the fidelity of the curricula with the supports needed for multilingual learners to access the content. In 1.4 Rocketship Reads, we had numerous fun incentives for students, such as bookmarks where students could earn signatures when caught reading, with prizes associated, including a chance to go to our book vending machine. It was challenging making sure that students always had books on them at the level needed, and creating strong systems so they could book shop during class.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.2 we spent more than budgeted ($198,132) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($8,102) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students. In 1.4 we spent more than budgeted ($30,754) to purchase additional books needed to replenish classroom library.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we met our target in Math and approached it in Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we met our overall target in ELA (44%) and approached our target in Math (40%). Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24. Students also provided feedback that that we actively refill the book vending machine.

The 1.3 Services to Support Multilingual Students action was somewhat effective. In 2024, we had 52% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 4.3%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets for some metrics based on year one data: CAASPP ELA(44%->48%), Math (37%->51%), Science (28% -> 29%), ELPI (55%->57%), and Reclassification (15%->6%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RFZ's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$585,092 ($163,415 Title I)	Yes

1.2	Special Education Supports	Although RFZ runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$358,876	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$63,118	No

1.4	Rocketship Reads	Rocketship Fuerza Community Prep will implement a love of reading campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers and families on modeling reading as an everyday activity. We will continue to acknowledge and celebrate student achievement by awarding books to students through our book vending machine.	$113,452	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5) foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. Also in 2.1, we were pleased with how our pilot of Wit & Wisdom curriculum allowed students to learn through inquiry, increasing their curiosity and desire to share their thoughts instead of just getting the right answer. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($9,827)because Core curriculum expenses were higher than anticipated. In 2.5 we spent less than budgeted (-$3,143). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress

toward our targets. Students also shared that they enjoy the reading selections accompanying the Wit and Wisdom curriculum. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RFZ curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RFZ operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RFZ utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$43,808	No

2.2	Professional Development	Professional Development is a critical component of the RFZ program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RFZ hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RFZ has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RFZ will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$240,971	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$72,963	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RFZ teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$8,845	No
2.6	Culturally Responsive Pedagogy	RFZ is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were successful in fully staffing for Operations roles. In 3.2 Facilities Maintenance, a success was that we completely repainted our indoors. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.3 a challenge was that we discovered that our security system was not working properly. We therefore changed out our security system for one that provides 24/7 monitoring. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.3 we spent less than budgeted (-$3,143) because the cost of safety materials was lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 76% and % of families feel campus is safe: 92%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety trainings for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$568,270	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$231,242	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$14,077	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. Also in Enrichment, we were pleased to be able to offer a STEAM program with art curriculum for 3-5 grades and dance for all grades. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (79%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. Students shared that they love the dance class offering. The Care Corps action was effective as evidenced by 84% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–100%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$194,340	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$56,349	Yes

4.3	Social Emotional Learning	At Rocketship Fuerza Community Prep we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Fuerza Community Prep core values: respect, responsibility, persistence, empathy, and ganas. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$174,213	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$121,207	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building

for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. Family engagement overall has been a strength for us. We are proud of the engaging community events we have held, many led by our dance teacher with family input and support to bring them to life. We prioritized celebrating all cultures and all celebrations–Dia de los Muertos, Black History month, and Lunar New Year are some examples. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$22,716) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (85%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (99%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (89%). Parents also shared that the events calendar shared at beginning of the year was helpful. They love our use of Parentsquare plus physical papers/stickers. 5.6 Attendance Initiatives was effective Average Daily Attendance (93%), by Chronic Absenteeism rate for all students and all significant subgroups (29% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted some targets for metrics in response to year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%), Parent Satisfaction (88% to 90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$113,992	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$27,163	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students for 2025-26

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant
$1,879,652	$219,993

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
34.753%	0%	$0	34.753%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are at yellow level for ELA and Math (ELA EL -36.9, SED -32.1; Math EL -44.7, SED -38.4). We had green level performance in 2024 on the English Learner Progress Indicator, with 51.6% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 4.3% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 76% of students feel safe on campus and 79% of student feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 89% of parents were satisfied with their school, 85% of parents were involved in their school, 99% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Fuerza Community Prep is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RFZ does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
