Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

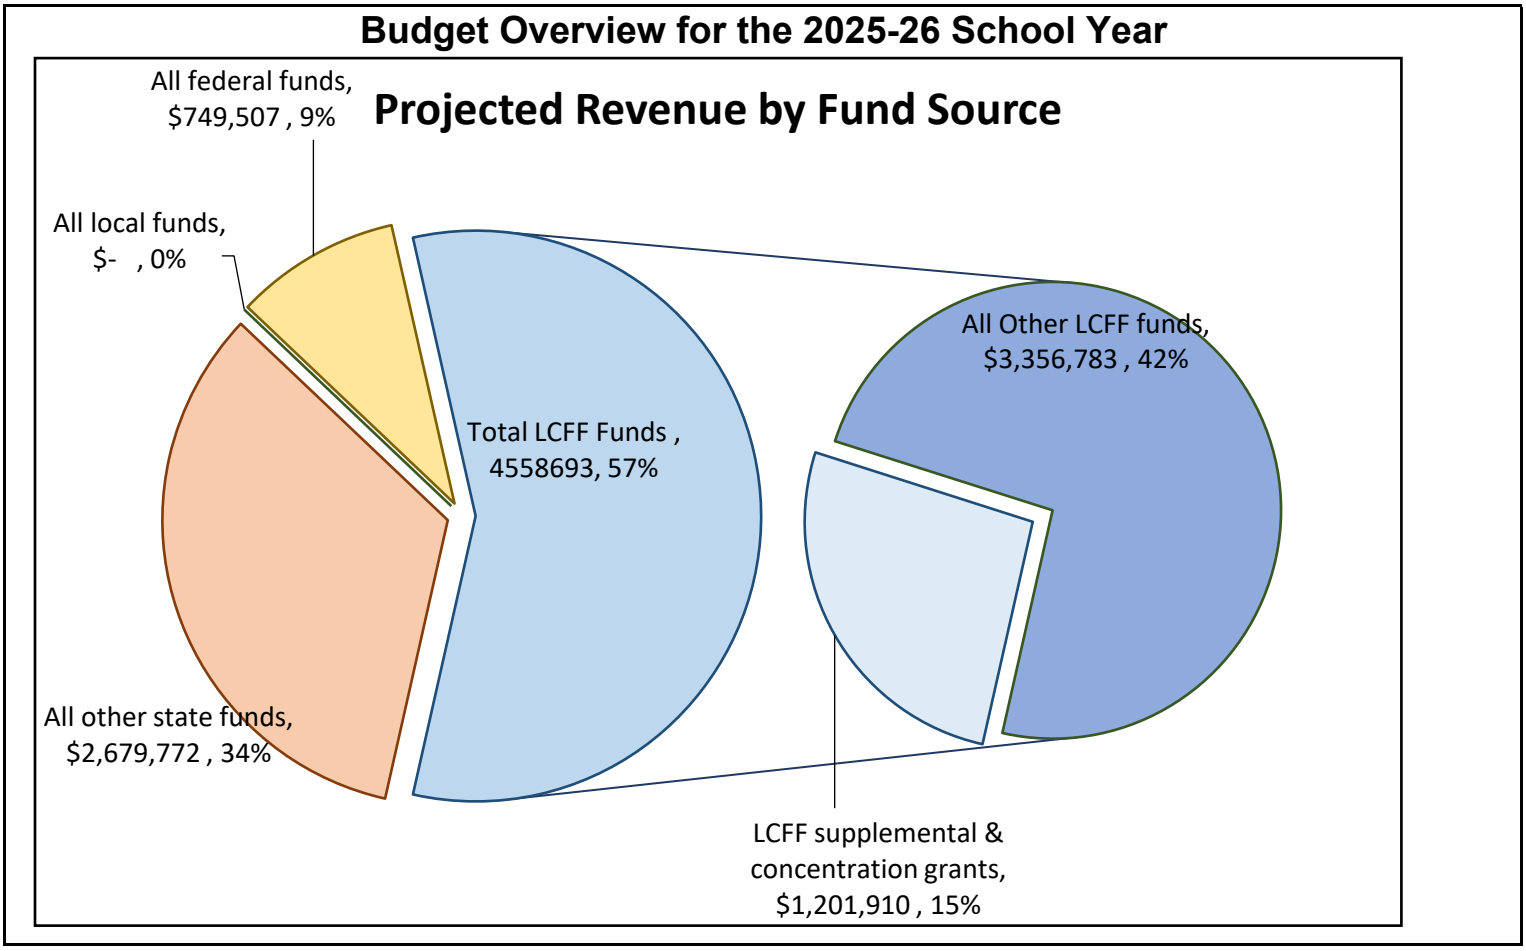
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



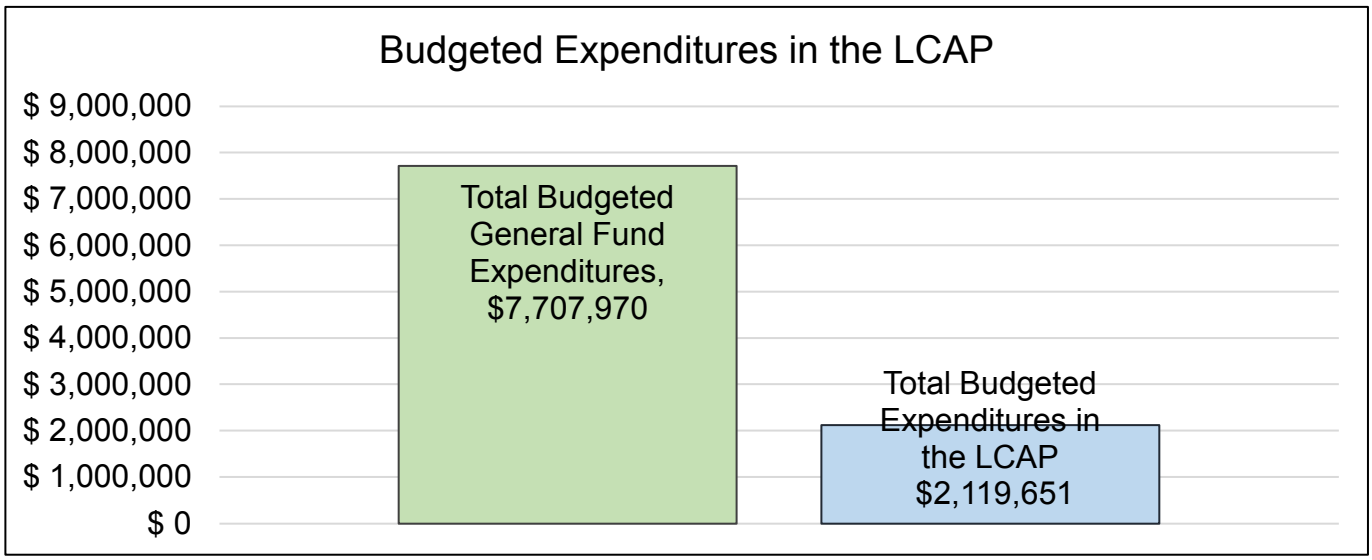
Local Educational Agency (LEA) Name: Rocketship Los Suenos Academy

CDS Code: 43-10439-0120642

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Los Suenos Academy expects to receive in the coming year from all sources.

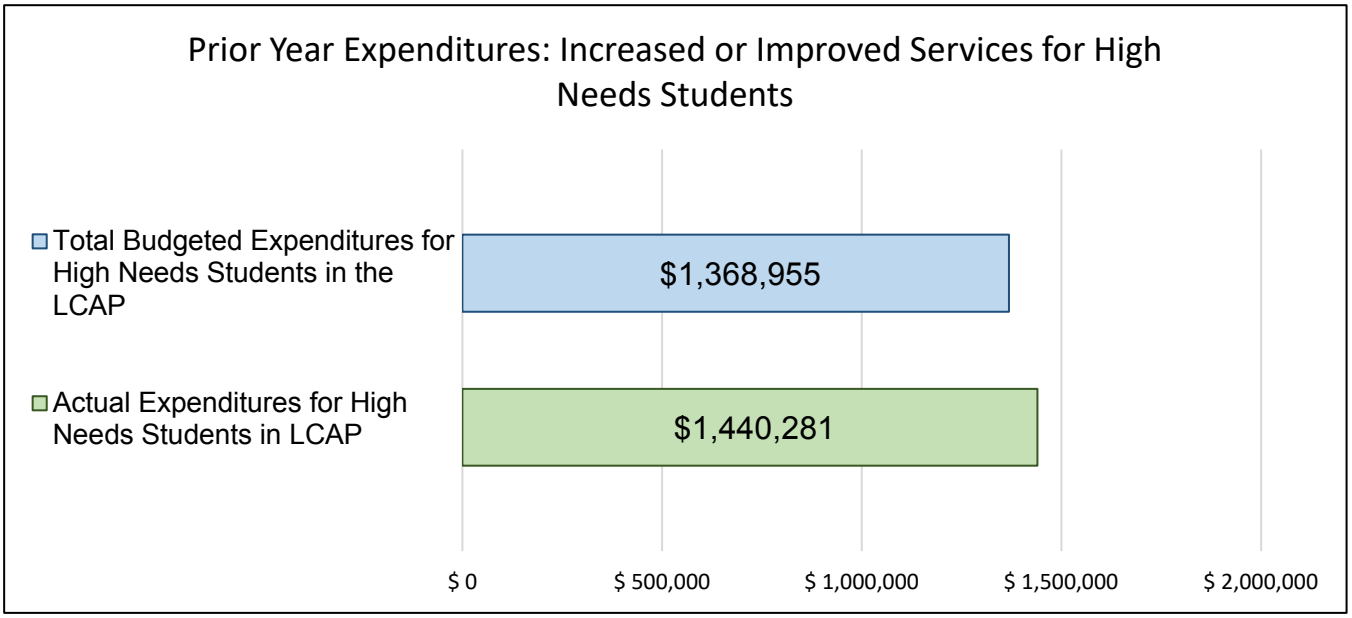
The text description for the above chart is as follows: The total revenue projected for Rocketship Los Suenos Academy is $7,987,972.10, of which $4,558,693.00 is Local Control Funding Formula (LCFF), $2,679,772.16 is other state funds, $0.00 is local funds, and $749,506.94 is federal funds. Of the $4,558,693.00 in LCFF Funds, $1,201,910.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Los Suenos Academy plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Los Suenos Academy plans to spend $7,707,969.94 for the 2025-26 school year. Of that amount, $2,119,651.17 is tied to actions/services in the LCAP and $5,588,318.78 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Los Suenos Academy is projecting it will receive $1,201,910.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Los Suenos Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Los Suenos Academy plans to spend $1,330,259.35 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Los Suenos Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Los Suenos Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Los Suenos Academy's LCAP budgeted $1,368,955.29 for planned actions to increase or improve services for high needs students. Rocketship Los Suenos Academy actually spent $1,440,281.02 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Los Sueños Academy	Gabriela Gordon, Principal	lossuenos@rsed.org; 408-684-4028

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Los Sueños opened in August 2010, the third Rocketship campus to open in San Jose. The campus serves approximately 355 TK-5 students. Approximately 87.3% of the students are socioeconomically disadvantaged, 18.6% are homeless, 63.1% are English learners, 92.4% are Hispanic/Latinx and 5.1% are Asian. Additionally, 14.4% of students qualify for special education services.

Rocketship Los Sueños operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Los Sueños' instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Los Sueños also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values -- respect, responsibility, empathy and persistence — and develop a fifth core value as a community. At RLS this fifth core value is community. At Rocketship Los Suenos, our students and their families are committed to making healthy choices for their bodies and minds. We supplement our students' learning by exposing them to concepts of food system sustainability, various forms of physical exercise, growing plants, and visiting the nearby community garden.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Los Sueños which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA

Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Los Sueños based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RLS has identified a success in Mathematics (Green, -20.6). We will build on this success by implementing action 1.1 Personalized Learning.

RLS has identified a success in English Learner Progress Indicator (Blue, 63.3%). We plan to build on this success by implementing action 1.3 Services to Support Multilingual Students..

RLS has identified a success in Suspension Rate Overall (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

2024 Dashboard Reflections

RLS has identified a success in Mathematics (Green, -8.8). We will build on this success by implementing action 1.1 Personalized Learning.

RLS has identified a success in Suspension Rate Overall (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RLS has identified a need in English Learner Progress (Red, 42.9%). We will address this need by implementing 1.3 Services to Support Multilingual Students.

RLS has identified a need in Chronic Absenteeism for the Homeless student group (Red, 36%). We will address this need by implementing 5.5 Attendance Initiatives and 4.4 Care Corps.

Learning Recovery Emergency Block Grant (LREBG)

RSSP has $181,404 in unexpended LREBG funds for the 2025-26 school year.

The LREBG funded action may be found in Goal 1, Action 2, Special Education Supports.

The RLS needs assessment substantiated findings from the 2024 Dashboard related to student academic needs in Chronic Absenteeism. RLSstudents need tailored supports to remove barriers to success.

Although RLS runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.

This falls under the allowable uses of the LREBG funding by integrating evidence-based pupil supports to address other barriers to learning, such as chronic absenteeism. The metric that will be used to track the effectiveness of this action is Chronic Absence rate.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Los Sueños Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Los Sueños Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Los Sueños Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RLS based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 10/30/24, 1/8/25, 5/20/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos 8/21/24, 10/1/24, 2/12/25. 3/11/25, 5/13/25, community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (10/16/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML

Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers’ proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: CA Dashboard	All Students: 33.3% English Learners: 18.6% Low Income: 31.5% Students with Disabilities: 4.8% Asian: 56.3% Hispanic/Latinx: 30.7% Data Year: 2022-23	All Students: 34.9% English Learners: 19.4% Low Income: 33.6% Students with Disabilities: 0.0% Asian: 66.7% Hispanic/Latinx: 32.7% Data Year: 2023-24	[Insert outcome here]	40% Data Year: 2025-26	All Students: +1.6 English Learners: +.8 Low Income: +2.1 Students with Disabilities: -4.8 Asian: +0.4 Hispanic/Latinx: +2.0 Data Year: 2023-24
1.2	CAASPP Math: % Met or Exceeded Standard for all students and all significant subgroups Data Source: CA Dashboard	All Students: 41.1% English Learners: 23.5% Low Income: 39.0% Students with Disabilities: 9.5% Asian: 75.0 % Hispanic/Latinx: 36.7% Data Year: 2022-23	All Students: 43.0% English Learners: 29.8% Low Income: 43.1% Students with Disabilities: 5.9% Asian: 75.0% Hispanic/Latinx: 41.0% Data Year: 2023-24	[Insert outcome here]	48% Data Year: 2025-26	All Students: +1.9 English Learners: +6.3 Low Income: +4.1 Students with Disabilities: -3.6 Asian: Maintained Hispanic/Latinx: +4.3 Data Year: 2023-24

1.3	CAASPP Science: % Met or Exceeded Standard for all students and all significant subgroups Data Source: CA Dashboard	All Students: 13.8% Low Income: 15.4% Hispanic/Latinx: 14.8% Data Year: 2022-23	All Students: 10.3% Low Income: 7.7% Hispanic/Latinx: 7.4% Data Year: 2023-24	[Insert outcome here]	15% Data Year: 2025-26	All Students: -3.5 Low Income: -7.7 Hispanic/Latinx:-7.4 Data Year: 2023-24
1.4	Avg Growth Years for Reading on NWEA (K-2) Data Source: NWEA MAP	1.04 Years Data Year: 2022-23	1.17 Years Data Year: 2023-24		1.2 Years Data Year: 2026-27	+.13 Data Year: 2023-24
1.5	Avg Growth Years for Math on NWEA (K-2) Data Source: NWEA MAP	1.15 Years Data Year: 2023-24	1.18 Years Data Year: 2023-24		1.2 Years Data Year: 2026-27	+.03 Data Year: 2023-24
1.6	English Learner Progress Indicator (% of EL students increased at least one ELPI level or maintained the ELP criterion (Level 4)) Data Source: CA Dashboard	2022-23: 63%	2023-24: 42.9%		48% Data Year: 2025-26	-20.1 Data Year: 2023-24

Insert or delete rows, as necessary.

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. A challenge in 1.3 was that this year we piloted an ELA content curriculum, Amplify CKLA Integrated. While we had planned for opportunities to embed integrated supports, the implementation needed to be differentiated for the different curricula which required schools to balance the fidelity of the curricula with the supports needed for multilingual learners to access the content.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we approached our target in Math and Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we met our overall target in ELA and approached our target in Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24.

Action 1.3 Services to Support Multilingual Students was somewhat effective. In 2024, we had 43% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 8.1%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets of some metrics in response to year one data: CAASPP ELA (38% to 40%), Math (46% to 48%), Science (19% to 15%), ELPI (55% to 48%), Reclassification (15% to 10%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RLS's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$310,243 ($132,431 Title I)	Yes

1.2	Special Education Supports (LREBG)	Although RLS runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$217,751	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$43,981	No

1.4	Rocketship Reads	Rocketship Los Suenos will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity. For our emerging readers, we focus on Tier Two reading intervention and Guided Reading to build strong reading fluency and comprehension. For our more advanced readers, this includes engaging them in novel study and book clubs to build transferability and further conceptual understanding of genres. We will focus on developing students' growth mindsets and celebrating student growth.	$55,309	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
2.2	Number/% of total and EL teachers credentialed & properly assigned Data Source: Internal Staffing Data Tracker	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($9,491) because Core curriculum expenses were higher than anticipated. In 2.3 we spent less than budgeted (-$13,393) because the school was able to utilize internal staff for testing resulting in fewer expenses for external testing substitutes. In 2.4 we spent more than budgeted ($98,224). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses. In 2.5 we spent less than budgeted (-$38,822). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress

toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RLS curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RLS operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RLS utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$27,227	No

2.2	Professional Development	Professional Development is a critical component of the RLS program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RLS hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RLS has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RLS will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$161,404	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$47,734	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RLS teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$160,347	No

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$5,497	No
2.6	Culturally Responsive Pedagogy	RLS is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	% of facilities meeting the “good repair” standard Data Source: iAuditor Internal Data	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were successful in fully staffing for Operations roles. We successfully completed a new coat on our parking lot. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.2 we spent less than budgeted (-$29,419) because custodial services expenses have been lower than expected. In 3.3 we spent less than budgeted (-$2,388) because the cost of safety materials was lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 79% and % of families feel campus is safe: 94%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$410,970	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$160,088	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$12,318	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	83% Data Year: 2023-24	83% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	Maintained Data Year: 2024-25
4.2	Suspension rate for all students and all significant subgroups Data Source: SIS Discipline Reports	All Students: 0% Data Year: 2023-24 (as of 3/29/24)	All Students: 0% Data Year: 2024-25 (as of 4/4/25)		All Students: 0% Data Year: 2026-27	Maintained Data Year: 2024-25
4.3	Expulsion rate for all students and all significant subgroups Data Source: SIS Discipline Reports	0% Data Year: 2023-24 (as of 3/29/24)	0% Data Year: 2024-25 (as of 4/4/25)		All Students: 0% Data Year: 2026-27	Maintained Data Year: 2024-25

4.4	% of students with access to a broad course of study, including unduplicated students and students with exceptional needs Data Source: SIS Schedule Data	100% Data Year: 2022-23	100% Data Year: 2023-24		100% Data Year: 2025-26	Maintained Data Year: 2023-24

Insert or delete rows, as necessary.

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted (-$28,210) because we had fewer enrichment center coordinators due to shifts in staffing. In 4.2 we spent more than budgeted ($5,637) because Science camp expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (83%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 87% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–100%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$129,560	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$35,022	Yes

4.3	Social Emotional Learning	At Rocketship Los Sueños we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Los Sueños core values: respect, responsibility, persistence, empathy, and leadership. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$102,362	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$71,218	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Average Daily Attendance Data Source: SIS Attendance Reports	93.2% Data Year: 2023-24 (as of 3/29/24)	92.7% Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	94% Data Year: 2026-27	-.5 Data Year: 2024-25
5.2	Chronic Absenteeism rate for all students and all significant subgroups Data Source: SIS Attendance Reports	All Students: 26.1% English Learners: 27.8% Low Income: 25.7% Students with Disabilities:16.4 % Homeless: 34.5% Asian: 0.0% Hispanic/Latinx: 27.2% Data Year: 2023-24	All Students: 24.2% English Learners: 25.1% Low Income: 24.1% Students with Disabilities: 14.6% Homeless: 38.1% Asian: 0.0% Hispanic/Latinx: 25.4% Black: n<10 White: n<10 Data Year: 2024-25	[Insert outcome here]	All Students: 20% Data Year: 2026-27	-1.9 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$14,885) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (75%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (88%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (94%). 5.6 Attendance Initiatives was effective Average Daily Attendance (93%), by Chronic Absenteeism rate for all students and all significant subgroups (24% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted the targets for some metrics in response to year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%), Parent involvement (90% to 80%), Parent Connectedness (85% to 90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$81,710	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$15,960	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are at orange level for ELA (EL -57.6, SED -40) and at green level in Math (EL -24.2, SED --11.6). We had red level performance in 2024 on the English Learner Progress Indicator, with 42.9% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 8.1% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 79% of students feel safe on campus and 83% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 94% of parents were satisfied with their school, 75% of parents were involved in their school, 88% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Los Sueños Academy is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RLS does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

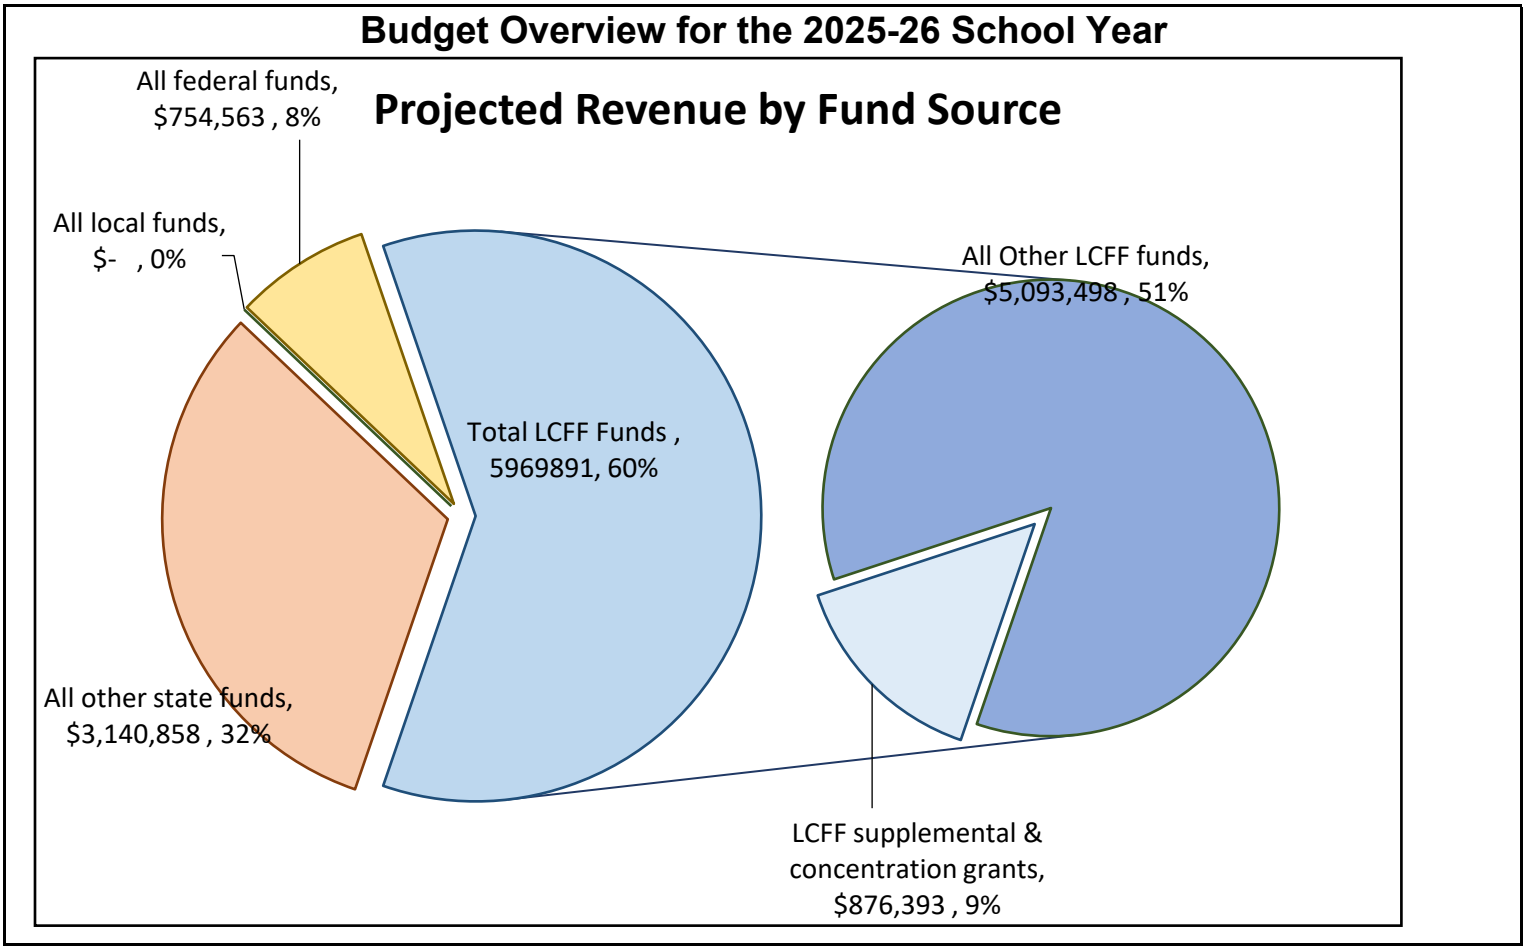
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



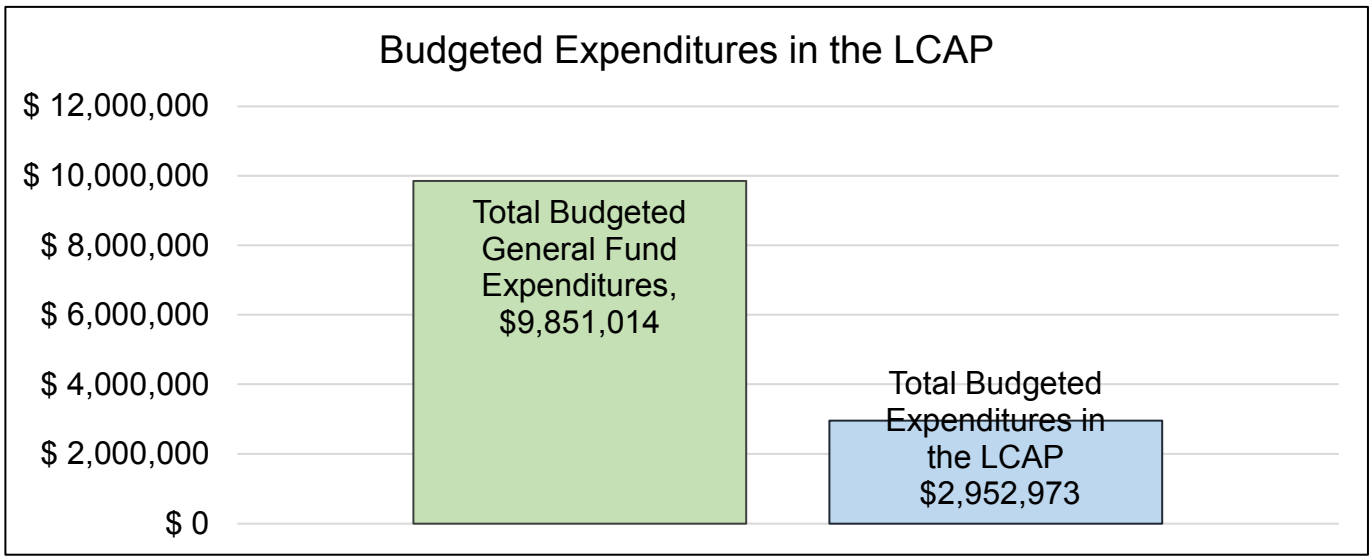
Local Educational Agency (LEA) Name: Rocketship Mateo Sheedy Elementary

CDS Code: 43-10439-0113704

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Mateo Sheedy Elementary expects to receive in the coming year from all sources.

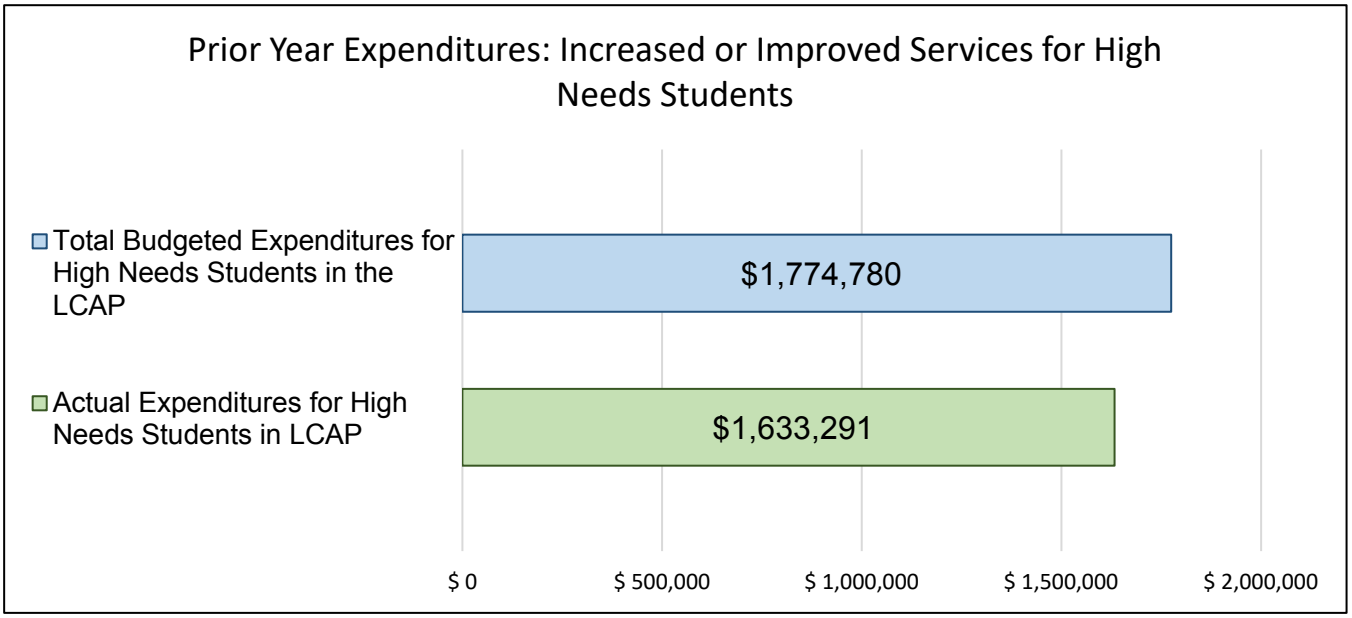
The text description for the above chart is as follows: The total revenue projected for Rocketship Mateo Sheedy Elementary is $9,865,311.69, of which $5,969,891.00 is Local Control Funding Formula (LCFF), $3,140,857.59 is other state funds, $0.00 is local funds, and $754,563.10 is federal funds. Of the $5,969,891.00 in LCFF Funds, $876,393.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Mateo Sheedy Elementary plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Mateo Sheedy Elementary plans to spend $9,851,014.12 for the 2025-26 school year. Of that amount, $2,952,973.19 is tied to actions/services in the LCAP and $6,898,040.93 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Mateo Sheedy Elementary is projecting it will receive $876,393.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Mateo Sheedy Elementary must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Mateo Sheedy Elementary plans to spend $1,653,163.44 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Mateo Sheedy Elementary budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Mateo Sheedy Elementary estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Mateo Sheedy Elementary's LCAP budgeted $1,774,779.68 for planned actions to increase or improve services for high needs students. Rocketship Mateo Sheedy Elementary actually spent $1,633,291.14 for actions to increase or improve services for high needs students in 2024-25. The difference between the budgeted and actual expenditures of $141,488.54 had the following impact on Rocketship Mateo Sheedy Elementary's ability to increase or improve services for high needs students:

We received less than projected in supplemental/concentration funds ($786,754), and we spent $1,633,291. The actions were implemented as planned.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Mateo Sheedy	Courtney English, Principal	mateosheedy@rsed.org; (408) 268-3330

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Mateo Sheedy opened in August 2007 as the first Rocketship campus in San Jose. It opened inside a San Jose church and soon relocated to its permanent campus on Locust Street in downtown San Jose. It currently serves 486 students in grades TK-5. Approximately 78.8% of the students are socioeconomically disadvantaged, 13.2% are Homeless Youth, 61.1% are English learners, 82.5% are Hispanic/Latinx, 10.3% are African American. Additionally, 7.4% of students qualify for special education services.

Rocketship Mateo Sheedy operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Mateo Sheedy's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Mateo Sheedy also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

Rocketship Mateo Sheedy operates with four core values: respect, responsibility, empathy and persistence. These core values are reinforced in all aspects of Rocketeers' school day, whether they're participating in a core value read aloud, earning "rockets" for demonstrating core values or sharing their core value grades with their families during report card season.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Mateo Sheedy which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these

requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data and local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Mateo Sheedy based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RMS has identified a success in Suspension Rate Overall (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RMS has identified a success in Mathematics (Green, -21.3). We will build on this success by implementing action 1.1 Personalized Learning.

2024 Dashboard Reflections

RMS has identified a success in Suspension Rate Overall (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RMS has identified a success in ELPI (Green, 45.9%). We will build on this success by implementing action 1.4 Services to Support Multilingual Students.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Mateo Sheedy is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Mateo Sheedy is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Mateo Sheedy is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RMS based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on October 17th, 2024, January 16th, 2025, May 8th, 2025, & June 4th, 2025. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (August 19th, September 16th, December 2nd, January 15th, February 12th, March 5th, April 15th, May 7th, & June 4th 2025), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Chat and Chew feedback meetings (November 12th, 2024 & March 26th, 2025) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned except our supports for newcomers increased by adding a new role, Multilingual Learner Specialists, that provided additional direct services to newcomer students. Multilingual Learner Specialists used a Newcomer curriculum to not only support with English language acquisition, but to also address the social emotional needs of students entering a new country and learning environment. Upper grade students received foundational skills instruction and practice to increase their reading skills. Specialists were also able to use students' home language (L1) to support learning the English language (L2) by providing instructions in the students home language and explicitly teaching any cross language connections. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. In 1.2 we have moderate/severe special education supports, and we are seeing our students in the program meet their goals. In 1.3 Services to Support Multilingual Students, we had numerous successes. We have ELD happening not just in Humanities but also in STEM. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. In 1.4, we had a successful p.d. on how to administer DIBELS correctly, and we had a new curriculum in CKLA. A challenge was that with new teachers and mid-year hires, it was difficult to get them up to speed quickly on the instructional model and resources.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.3 we spent more than budgeted ($11,653) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we met our target in Math and approached it in Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we approached our targets in Math and ELA. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address.

Action 1.3 Services to Support Multilingual Students was somewhat effective. In 2024, we had 46% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 6.4%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets of some metrics in response to year one data: CAASPP ELA (45% to 49%), Math (48% to 47%), Science (41% to 26%), ELPI (55% to 51%), Reclassification (15% to 8%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RMS's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$595,829 ($155,118 Title I)	Yes

1.2	Special Education Supports	Although RMS runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$330,813	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$58,132	No

1.4	Rocketship Reads	Rocketship Mateo Sheedy will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity, celebrating reading growth on DIBELS reading assessments, and incorporating reading into social emotional learning. We will engage parents in the reading campaign to make sure that students are able to practice at school and at home.	$95,648	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
2.2	Number/% of total and EL teachers credentialed & properly assigned Internal Staffing Data Tracker	100% Data Year: 2022-23 Data Source:	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26 Data Source:	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability. In 2.6 we are continuing the conversations around DEI as it relates to the work we do and have established a partnership with a sister school, RSA around Culturally Relevant Pedagogy this year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted($14,387) because Core curriculum expenses were higher than anticipated. In 2.4 we spent less than budgeted (-$78,836). Instructional coaching is primarily conducted by Assistant Principals. This school had fewer AP's on staff this year vs. budget, resulting in lower instructional coaching expenses. In 2.5 we spent less than budgeted (-$21,015). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RMS curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RMS operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RMS utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$35,000	No

2.2	Professional Development	Professional Development is a critical component of the RMS program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RMS hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund [School] has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RMS will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$209,966	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$65,290	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RMS teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$8,351	No
2.6	Culturally Responsive Pedagogy	RMS is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were successful in fully staffing for Operations roles, but retention is a concern going into the next year. . In 3.2 Facilities Maintenance, a success was that we completely repainted our indoors. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. We are proud of our work to make sure our building is safe and beautiful and providing solid operational systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 78% and % of families feel campus is safe: 92%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 3.2 we spent less than budgeted (-$33,629) because custodial services expenses have been lower than expected. In 3.3 we spent less than budgeted (-$7,373) because the cost of safety materials was lower than expected.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$439,570	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$235,305	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$15,298	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	82% Data Year: 2023-24	83% Data Year: 2024-25 (as of 4/4/25	[Insert outcome here]	75% Data Year: 2026-27	+1 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. Housing was one of the biggest needs we identified among families, and we were able to help with some resources. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address. It is also challenging when long-term illness causes absences for students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted (-$51,755)because we had fewer enrichment center coordinators due to shifts in staffing.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (83%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 86% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–100%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Enrichment	Enrichment is a critical component of a students’ education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$129,560	Yes

4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$53,206	Yes

4.3	Social Emotional Learning	At Rocketship Mateo Sheedy we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Mateo Sheedy core values: respect, responsibility, persistence, and empathy. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$155,512	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$108,196	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. We are proud of how our teachers served as advocacy champions, learning how to represent RMS. We supported our sister schools with the most students attending

renewal hearings of other schools. We feel this shows a strong level of school-family partnership. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools. We have been continuing celebrations for student success in attendance. We also held P.D. around absenteeism and truancy meetings to help families understand the impact of attendance. We worked to make the beginning the of school day more fun so kids want to hurry up and get to school.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$15,153) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were somewhat effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (52%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (83%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (85%). 5.6 Attendance Initiatives was effective Average Daily Attendance (91.9%), by Chronic Absenteeism rate for all students and all significant subgroups (28.2% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We updated targets of some metrics based on year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%), Parent Involvement (90% to 57%), Parent Satisfaction (88% to 90%), Parent Connectedness (85% to 90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$97,851	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$24,247	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

		Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that the English Learner group is at orange level for ELA (-49.3) and the Socioeconomically Disadvantaged group is at yellow (-29.6) In Math both groups are at orange level (EL -42.5, SED -32.6). We had green level performance in 2024 on the English Learner Progress Indicator, with 45.9% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 6.4% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 78% of students feel safe on campus and 83% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 85% of parents were satisfied with their school, 52% of parents were involved in their school, 83% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

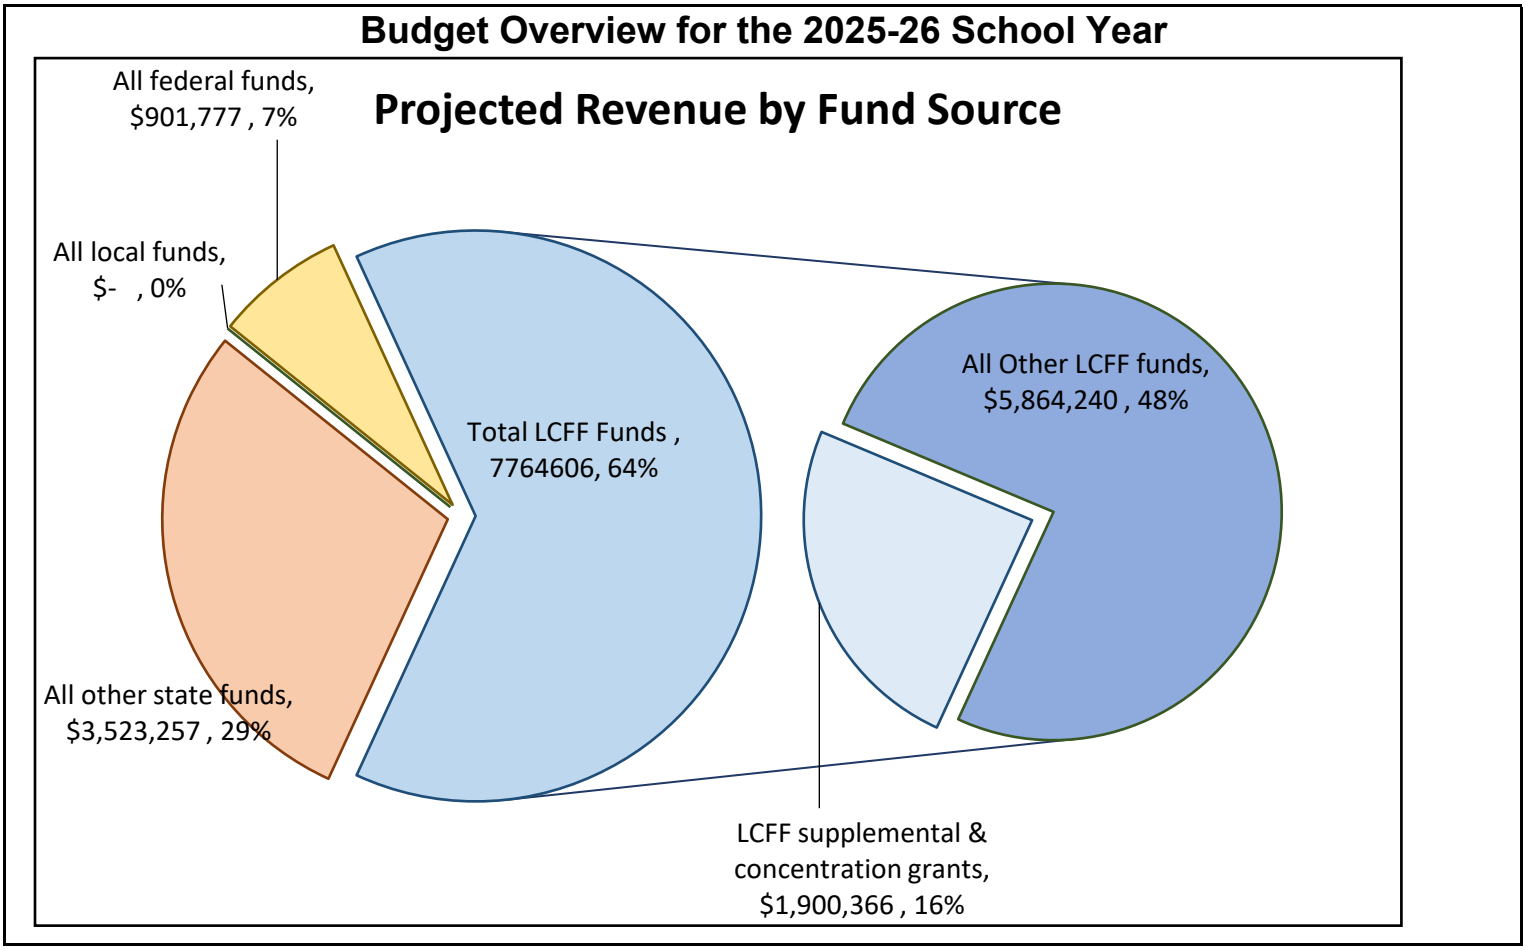
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



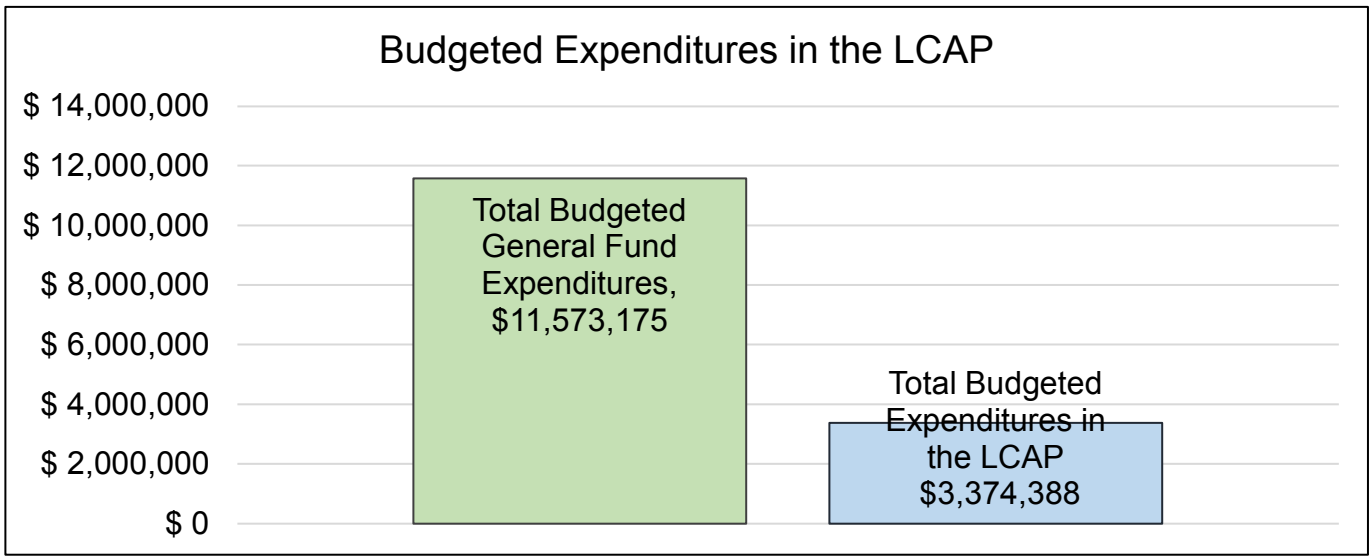
Local Educational Agency (LEA) Name: Rocketship Mosaic Elementary

CDS Code: 43-69450-0123299

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Mosaic Elementary expects to receive in the coming year from all sources.

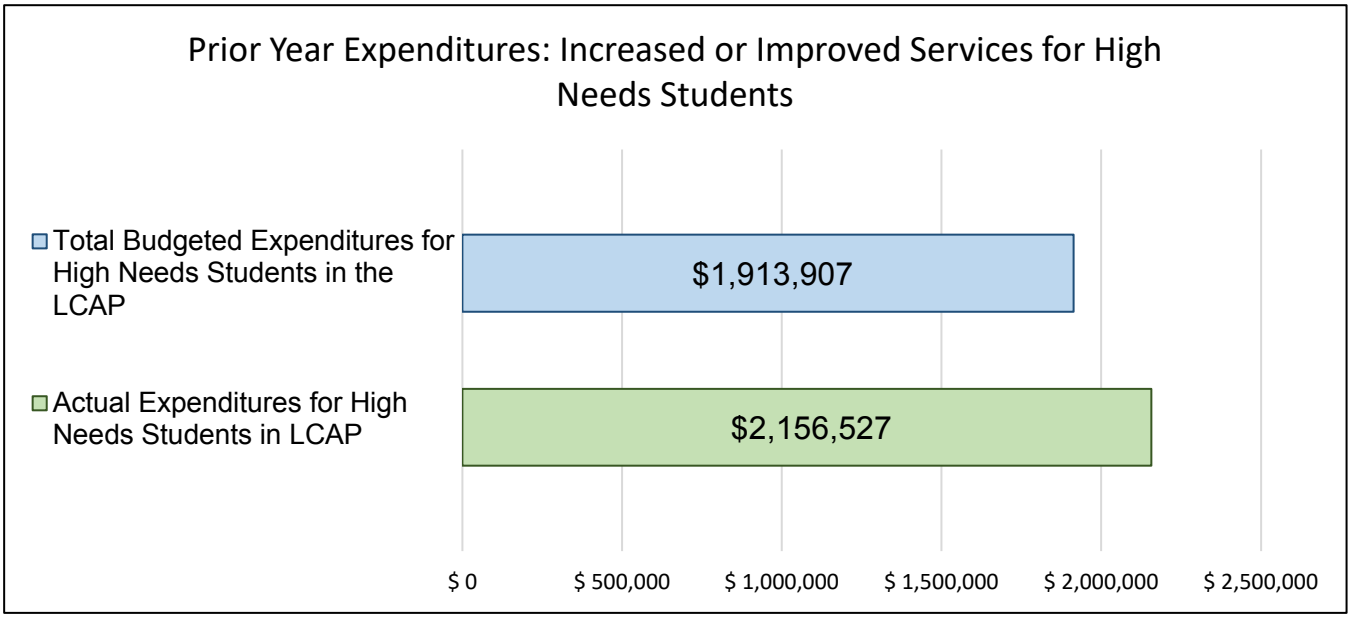
The text description for the above chart is as follows: The total revenue projected for Rocketship Mosaic Elementary is $12,189,640.47, of which $7,764,606.00 is Local Control Funding Formula (LCFF), $3,523,257.43 is other state funds, $0.00 is local funds, and $901,777.04 is federal funds. Of the $7,764,606.00 in LCFF Funds, $1,900,366.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Mosaic Elementary plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Mosaic Elementary plans to spend $11,573,174.70 for the 2025-26 school year. Of that amount, $3,374,388.48 is tied to actions/services in the LCAP and $8,198,786.22 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Mosaic Elementary is projecting it will receive $1,900,366.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Mosaic Elementary must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Mosaic Elementary plans to spend $1,906,615.11 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Mosaic Elementary budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Mosaic Elementary estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Mosaic Elementary's LCAP budgeted $1,913,907.29 for planned actions to increase or improve services for high needs students. Rocketship Mosaic Elementary actually spent $2,156,527.34 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Mosaic Elementary	Taylor Stern, Principal	mosaic@rsed.org; 408-899-2607

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Mosaic Elementary (ROMO) is one of our most diverse Rocketship schools in California. Approximately 71.7% of the students are socioeconomically disadvantaged, 7.5% are Homeless Youth, 56.3% are English learners, 44.4% are Hispanic/Latinx and 47.8% are Asian. Additionally, 11.8% of students qualify for special education services. The school opened its doors in August 2011. It was the fourth school we opened in San Jose and continues to be one of our strongest schools in California. It currently serves 561 students in grades TK-5.

Rocketship Mosaic Elementary operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Mosaic's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Mosaic Elementary also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values -- respect, responsibility, empathy and persistence — and develop a fifth core value as a community. At ROMO this fifth core value is Global Initiative. Students at Rocketship Mosaic understand the interdependency of our world and the importance of their contribution. Our talented team of educators works collaboratively with our dedicated parent community to ensure every Rocketeer on our campus receives an individualized educational experience tailored to his or her learning needs.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Mosaic which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Mosaic based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

ROMO has identified a success in English Language Arts (Green, +12.1). We will build on this success by implementing action 1.1 Personalized Learning.

ROMO has identified a success in Mathematics (Green, +18.4). We will build on this success by implementing action 1.1 Personalized Learning..

ROMO has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

ROMO has identified a need in English Language Arts for the Students with Disabilities group (Red, -96.7). We will address this need by implementing Required Action1.3 Special Education Supports and 1.1 Personalized Learning.

ROMO has identified a need in Chronic Absenteeism for the Homeless student group (Red, 22.7%). We will address this need by implementing Required Action 5.5 Attendance Initiatives and 4.4 Care Corps.

2024 Dashboard Reflections

ROMO has identified a success in English Language Arts (Green, +13.3). We will build on this success by implementing action 1.1 Personalized Learning.

ROMO has identified a success in Mathematics (Green, +18.7. We will build on this success by implementing action 1.1 Personalized Learning..

ROMO has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

ROMO has identified a success in English Learner Progress (Blue, 55.9%). Our focus this year has been on integrated ELD strategies to target the needs of our ML students throughout the day and not solely during designated ELD. For the first time ever, we are seeing similar rates of growth on NWEA for ML as our general population. We will build on this success by implementing action 1.3 Services to Support Multilingual Students.

ROMO has identified a need in English Language Arts for the Students with Disabilities student group (Red, -116.8). We will address this need by implementing 1.2 Special Education Supports and 1.1 Personalized Learning.

ROMO has identified a need in Math for the Students with Disabilities student group (Red, -120.1). We will address this need by implementing 1.2 Special Education Supports and 1.1 Personalized Learning.

ROMO has identified a need in Chronic Absenteeism for the Homeless student group (Red, 31.1%). It's our focus for the whole school to get back to pre-pandemic levels. We will address this need by implementing 5.5 Attendance Initiatives and 4.4 Care Corps.

ROMO is eligible for Targeted Support and Improvement due to the Homeless student group falling into red level in Chronic Absenteeism for two consecutive years (2023 and 2024). This plan was designed to meet the needs of this group through initiatives such as Care Corps (action 4.4) and Attendance Initiatives (5.5).

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Mosaic Elementary is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Mosaic Elementary is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Mosaic Elementary is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for ROMO based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 10/1/24, 11/19/24, 1/28/25, 4/29/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos were offered in Zoom and in person, with an average of 70 families attending per month: 9/4/24, 10/2/24, 11/6/24, 12/4/24, 1/8/25, 2/5/25, 3/5/25, 4/2/25, 5/7/25, 6/2/25, community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (10/22/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs. In Goal 5, feedback shows that families are very happy and supportive. They feel expectations are high and they help us meet them, and they like being involved. This feedback supports the effectiveness and continued implementation of Goal 5 actions.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: CA Dashboard	All Students: 54.6% English Learners: 30.7% Low Income: 47.8% Students with Disabilities: 13.9% Asian: 74.8% Hispanic/Latinx: 34.1% Data Year: 2022-23	All Students: 55.7% English Learners: 33.6% Low Income: 46.9% Students with Disabilities: 5.6% Asian: 73.6% Hispanic/Latinx: 36.5% Data Year: 2023-24	[Insert outcome here]	61% Data Year: 2025-26	All Students: +1.3 English Learners: +2.9 Low Income: 0.9 Students with Disabilities: -8.3 Asian: -0.8 Hispanic/Latinx: +2.4 Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. A success was that we saw strong growth in NWEA Reading correlated to strong intervention practices.We adopted IXL for personalized learning. It was very helpful in that it is so need-based and allows for teacher grouping. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. In terms of intervention for our ML students, we had a strong structure for Tier 2 reading intervention. We utilized either foundational skills lessons or Mclass Amplify for 3-5th who needed it. We employed strong progress monitoring systems, reviewing every 2.5 weeks to see what adjustments needed. A challenge in 1.3 was that this year we piloted an ELA content curriculum, Wit & Wisdom . While we had planned for opportunities to embed integrated supports, the implementation needed to be differentiated for the different curricula which required schools to balance the fidelity of the curricula with the supports needed for multilingual learners to access the content. In 1.4 Rocketship Reads, we successfully ensured every student has a book at their level that they can read independently. We have done more read-alouds at Launch to help model love of reading. Our expectations for reading are high. Most grades have a reading log as part of their hw, and parents are very invested. A challenge is that it's still hard to get kids to read and enjoy it.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.2 we spent more than budgeted ($146,992) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($7,363) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students. In 1.4 we spent more than budgeted ($26,156) to provide Humanities teachers to support with reading. There were a larger number of Humanities teachers hired than initially estimated in the budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been effective overall, as evidenced by assessment results: NWEA K-2, where we exceeded our target in Math and Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we approached our overall target in ELA and met our target in Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24.

Action 1.3 Services to Support Multilingual Students, was effective. In 2024, we had 56% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 9.9%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We updated the targets of some metrics in response to year one data: ELA (60% to 61%), Math (65% to 70%), Science (37% to 32%), ELPI (55% to 61%), Reclassification (15% to 12%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	ROMO's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$666,122 ($168,313 Title I)	Yes

1.2	Special Education Supports	Although ROMO runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology. This action will support ELA growth and achievement of our Students with Disabilities by providing supports personalized to their needs.	$388,043	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and langauge level prompting engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home langaugage supports to accelerate English langauge acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$63,828	No

1.4	Rocketship Reads	Rocketship Mosaic will implement a love of reading campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity and supporting families to engage with students in reading at home.	$111,054	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. Also in 2.1, we found the Wit & Wisdom program we piloted to be very engaging. There was a strong focus on listening adn speaking, and writing has improved, as well as student content knowledge on interesting topics. It was challenging to figure out how to utilize it to meet the needs of all learners. We've worked on what co-teaching looks like with general education and SPED teachers. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.2 we spent more than budgeted ($30,950) because a larger number of staff members than budgeted resulted in slightly higher professional development expenses. In 2.3 we spent less than budgeted (-$9,491) because the school was able to utilize internal staff for testing resulting in fewer expenses for external testing substitutes. In 2.4 we spent more than budgeted (94,360). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses. In 2.5 we spent less than budgeted (-$7,725). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The ROMO curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. ROMO operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. ROMO utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$48,521	No

2.2	Professional Development	Professional Development is a critical component of the ROMO program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, ROMO hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund ROMO has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. ROMO will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$232,310	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$73,717	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. ROMO teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$9,796	No
2.6	Culturally Responsive Pedagogy	ROMO is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were successful in fully staffing for Operations roles. In 3.2 Facilities Maintenance, we successfully completed a new coat on our parking lot. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.1 we spent more than budgeted ($115, 302) due to additional operations support needed, and hourly rates higher than planned. In 3.2 we spent more than budgeted ($33,232) because custodial service expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100%. The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 80% and % of families feel campus is safe: 91%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$468,170	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$297,689	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$16,807	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	78% Data Year: 2023-24	81% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	+3 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. We are pleased to be able to provide PE, art, and science for all grades, including a new prop 28-funded STEAM teacher. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.3 SEL we have a wellness teacher providing Tier 2 SEL behavioral intervention. We have a wellness intern this year as well who provides additional supports for identified students based on our SEL screener used 3x year. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.2 we spent more than budgeted ($33,232) because custodial service expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (81%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 83% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–100%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$194,340	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$62,411	Yes

4.3	Social Emotional Learning	At Rocketship Mosaic we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Mosaic core values: respect, responsibility, persistence, empathy, and global citizenship. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$182,415	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$126,914	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Average Daily Attendance Data Source: SIS Attendance Reports	95% Data Year: 2023-24 (as of 3/29/24)	95.6% Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	94% Data Year: 2026-27	+.6 Data Year: 2024-25

5.2	Chronic Absenteeism rate for all students and all significant subgroups Data Source: SIS Attendance Reports	All Students: 14.0% English Learners: 13.9% Low Income: 15.7% Students with Disabilities: 15.6% Homeless: 20.0% Asian: 5.7% Black: 50.0% Hispanic/Latinx: 21.0% White: 13.3% Data Year: 2023-24 (as of 3/29/24)	All Students: 10.4% English Learners: 11.6% Low Income: 11.9% Students with Disabilities: 18.8% Homeless: 23.7% Asian: 2.8% Black: 60.0% Hispanic/Latinx: 17.1% White: 9.1% Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	All Students: 20% Data Year: 2026-27	-3.6 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. Families indicate they are very happy, and they have been supportive. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. Our families feel we have high expectations and they help us meet them. They like being involved. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to

connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools. We have successfully maintained high attendance so far this year–around 95%.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted ($15,878) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (81%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (100%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (91%). 5.6 Attendance Initiatives was effective Average Daily Attendance (96%), by Chronic Absenteeism rate for all students and all significant subgroups (10% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We updated the targets for some metrics in response to year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%), Parent Connectedness (85% to 90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$108,612	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$28,442	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
32.406%	0%	$0	32.406%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA performance of our English Learners and Socioeconomically Disadvantaged students, we find that our English learner group is at orange level (-49.3) and our Socioeconomically Disadvantaged group is at yellow level (-29.6). In Math, both group are at orange level (EL -42.5, SED -32.6) . We had green level performance in 2024 on the English Learner Progress Indicator, with 45.9% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 9.9% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 80% of students feel safe on campus and 81% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 91% of parents were satisfied with their school, 81% of parents were involved in their school, 100% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Mosaic Elementary is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. ROMO does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

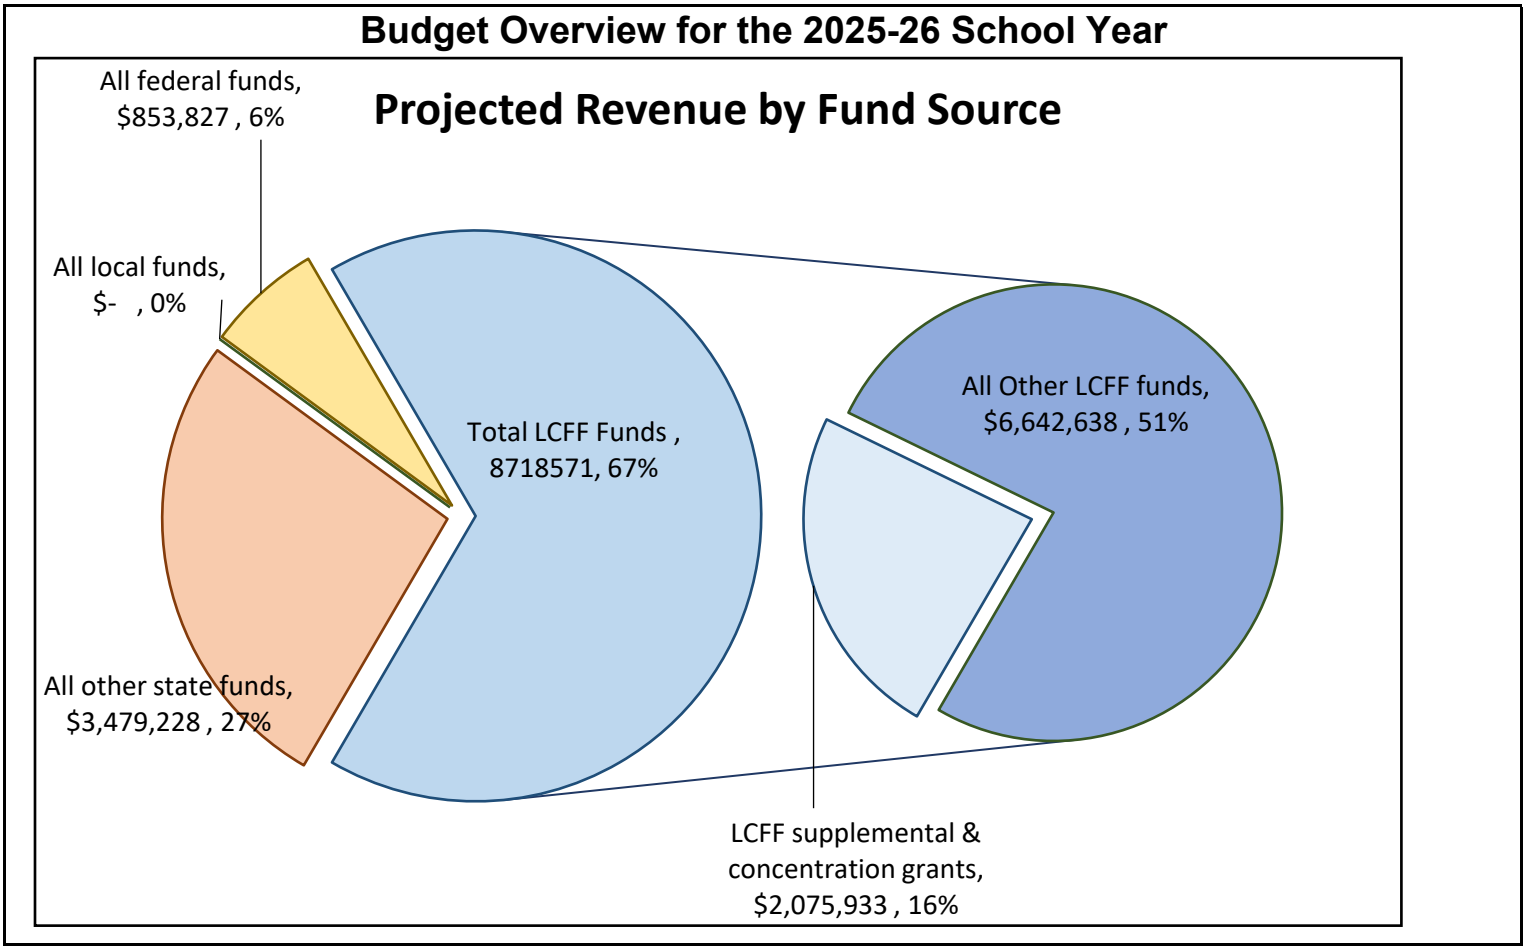
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



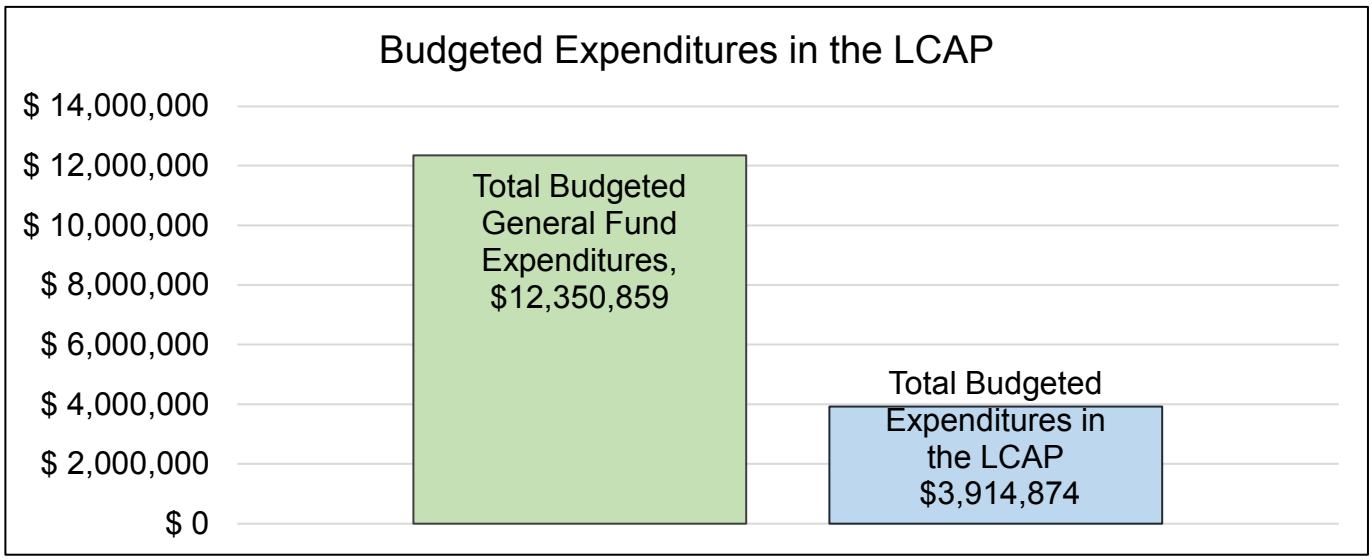
Local Educational Agency (LEA) Name: Rocketship Rising Stars

CDS Code: 43-10439-0133496

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Rising Stars expects to receive in the coming year from all sources.

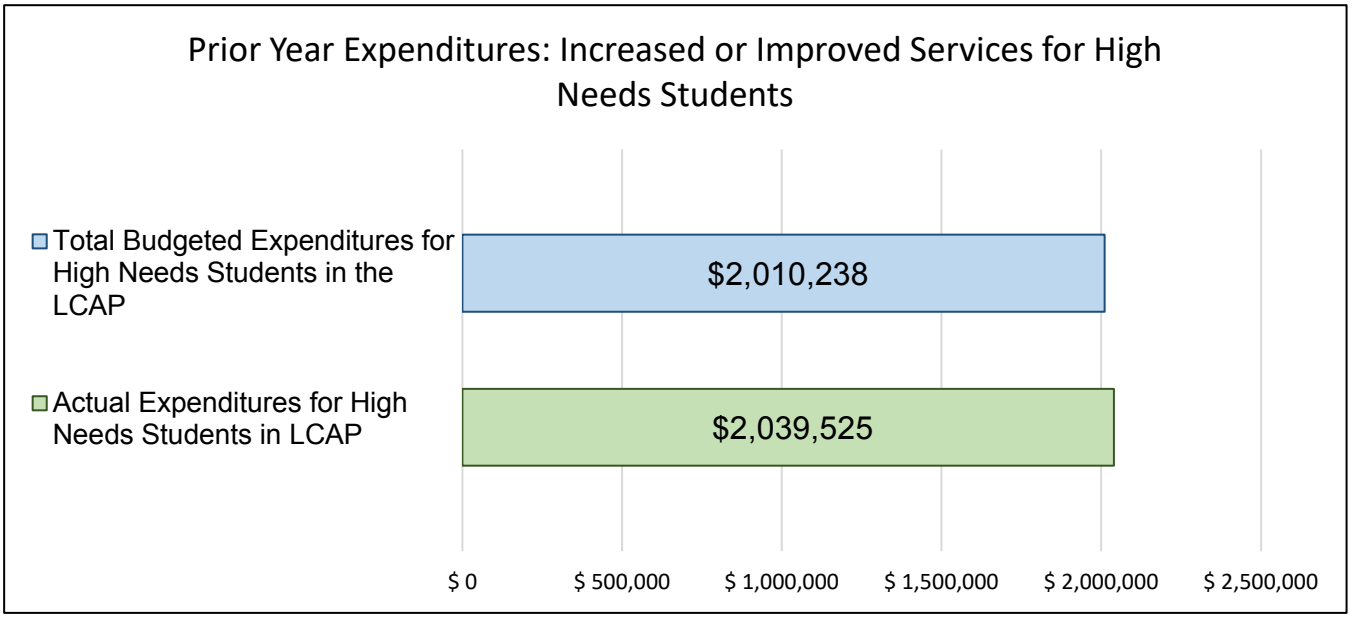
The text description for the above chart is as follows: The total revenue projected for Rocketship Rising Stars is $13,051,626.54, of which $8,718,571.00 is Local Control Funding Formula (LCFF), $3,479,228.14 is other state funds, $0.00 is local funds, and $853,827.40 is federal funds. Of the $8,718,571.00 in LCFF Funds, $2,075,933.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Rising Stars plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Rising Stars plans to spend $12,350,859.22 for the 2025-26 school year. Of that amount, $3,914,873.78 is tied to actions/services in the LCAP and $8,435,985.43 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Rising Stars is projecting it will receive $2,075,933.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Rising Stars must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Rising Stars plans to spend $2,104,764.86 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Rising Stars budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Rising Stars estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Rising Stars's LCAP budgeted $2,010,237.64 for planned actions to increase or improve services for high needs students. Rocketship Rising Stars actually spent $2,039,525.49 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Rising Stars Academy	Alberto Perez, Principal	Info_rrs@rsed.org; (408) 677-4879

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Rising Stars (RRS) opened in August 2016. It's the tenth Rocketship campus to open in San Jose. It serves 614 students. In 2025-26, RRS will serve students in grades TK-5. Approximately 72.5% of the students are socioeconomically disadvantaged, 48.4% are English learners, 64.7% are Hispanic/Latinx and 28% are Asian. Additionally, 8.5% of students qualify for special education services.

Rising Stars operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Rising Stars' instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Rising Stars also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values -- respect, responsibility, empathy and persistence — and develop a fifth core value as a community. At RRS, this fifth core value is Advocacy.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Rising Stars which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key

subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Rising Stars based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RRS has identified a success in English Language Arts (Blue, +30.1). We will build on this success by implementing action 1.1 Personalized Learning.

RRS has identified a success in Mathematics (Green, +43.2). We will build on this success by implementing action 1.1 Personalized Learning.

RRS has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RRS has identified a need in English Learner Progress (Red, 44.2%). We will address this need by implementing Required Action 1.3 Services to Support Multilingual Students.

RRS has identified a need in Chronic Absenteeism for the Students with Disabilities (Red, 31.7%) student group. We will address this need by implementing Required Action 1.2 Special Education Supports. RRS has identified a need in Chronic Absenteeism for the English Learner (Red, 32%) student group. We will address this need by implementing Required Action 5.5 Attendance Initiatives.

2024 Dashboard Reflections

RRS has identified a success in English Language Arts (Green, +19.8). We will build on this success by implementing action 1.1 Personalized Learning. We are working on strengthening differentiated instruction.

RRS has identified a success in Mathematics (Green, +34.4). Math instruction has been a strength, shown also in our growth data. We have benefited from strong teacher leadership. We will build on this success by implementing action 1.1 Personalized Learning.

RRS has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RRS has identified a success in English Learner Progress (Blue, 67.9%). We are continuing to focus on intentional practices for designated ELD. We also use Lexia English within personalized learning, which corresponds to our D-ELD program. We have more consistent walkthroughs for teacher development around ELD. Has been a key component–led by an A.P. of instruction. We will build on this success by implementing action 1.3 Services to Support Multilingual Students.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Rising Stars Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Rising Stars Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Rising Stars Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for [School] based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 11/4/24, 1/28/25, with two more scheduled for spring of 2025. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (9/4/24, 10/9/24 2/5/25, 3/11/25, 4/16/25, 5/14/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (11/15/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML

Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: CA Dashboard	All Students: 64.5% English Learners: 44.9% Low Income: 62.7% Students with Disabilities: 28.6% Asian: 92.3% Hispanic/Latinx: 52.8% Data Year: 2022-23	All Students: 59% English Learners: 28.8% Low Income: 57.4% Students with Disabilities: 10.5% Asian: 86.4% Hispanic/Latinx: 46.9% Data Year: 2023-24	[Insert outcome here]	70% Data Year: 2025-26	All Students: -5.5 English Learners: -16.1 Low Income: -5.3 Students with Disabilities: -18.1 Asian: -5.9 Hispanic/Latinx: -5.9 Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. We saw strong growth in NWEA Reading correlated to strong intervention practices. In 1.2 A challenge was that some increased level of needs led to curriculum shifts. Will continue to strengthen our tier 3 instruction and tools. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. In 1.4 it has been challenging to help students understand the reading levels of books based off of DIBELS (harder to identify reading level compared to F and P, our prior assessment tool). We're partnering with our HUM team across the region to think through which measures are the strongest–lexile, student reading ability, or solely comprehension based. Lexiles are coming in higher than secondary measures of comprehension. We are trying to figure out what to use for grades 3 and 4. So we have been using Fountas and Pinnell to measure comprehension for upper grades and combining Lexile and F and P for lower grades.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.1 we spent more than budgeted ($102,599) because Chromebooks had to be replaced, resulting in an additional purchase of chromebooks this fiscal year. In 1.2 we spent more than budgeted ($153,662) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($14,336) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students. In 1.4 we spent more than budgeted ($21,936) to provide Humanities teachers to support with reading. There were a larger number of Humanities teachers hired than initially estimated in the budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we approached our target in Math and exceeded it in Reading; and CAASPP ELA and Math, where we approached our target in ELA and Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24.

Action 1.3 Services to Support Multilingual Students, was effective. In 2024, we had 73% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 17%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We updated the targets for some metrics in response to year one data: CAASPP ELA (70% to 64%), Math (70% to 69%), ELPI (55% to 73%), Reclassification (15% to 17%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RRS's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$952,916 ($157,353 Title I)	Yes

1.2	Special Education Supports	Although RRS runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology. This action will include supports as needed to ensure regular attendance of our Students with Disabilities .	$424,334	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$68,731	No

1.4	Rocketship Reads	Rocketship Rising Stars will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving assessment scores, nurturing lifelong learning, and engaging families in reading events. This will include working with our teachers and all staff members on modeling reading as an everyday activity, using culturally responsive texts to inform them and allow them to build connections to the different cultures within the Rising Stars community. Students read books and share about them with their peers. We have special readings students can do aligned to monthly themes, such as Hispanic Heritage, Black History, Women's History, Asian American Pacific Islander Month, and more. We also engage students with reading through a bedtime story series, with teachers and parents reading and posting favorite stories online.	$109,904	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1) foundational skills small group instruction, 2) applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability. We had significant teacher turnover 22-23 to 23-24 and 23-24 to 24-25. We are pleased to be returning our entire 3/4th grade teaching team for 25-26. We strengthened our coaching and support for teachers to be equitable in providing differentiated supports for students who need it the most.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.3 we spent more than budgeted ($23,207) due to a larger number of external testing substitutes needed than initially expected. In 2.4 we spent more than budgeted ($90,796). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses. In 2.5 we spent less than budgeted (-$12,764). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress

toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RRS curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. [School] operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RRS utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$53,059	No

2.2	Professional Development	Professional Development is a critical component of the RRS program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RRS hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RRS has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RRS will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$243,773	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$78,506	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RRS teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$10,712	No
2.6	Culturally Responsive Pedagogy	RRS is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.3 Safety Training, we have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. We are in the process of getting a new security system with a 360 view of the school perimeter to avoid any blind spots, along with a team that monitors–Verkada– to make our school visible at all times with team monitoring 24/7. We are also partnering with businesses next door to prevent crimes or mishaps from impacting the school. For example, we helped the next door church to install a gate that opens and closes during certain times of day so we can keep out unwelcome guests from the church parking lot. On the business side, we have built stronger officer/community relations due to increased crime in the area and partnered with San Jose PD to ensure that calls are responded to with greater urgency in that area. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.2 we spent less than budgeted (-$33,405) because custodial services expenses have been lower than expected. In 3.3 we spent less than budgeted (-$3,659) because the cost of safety materials was lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 85% and % of families feel campus is safe: 94%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$639,770	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$274,266	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$17,764	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	86% Data Year: 2023-24	83% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	-3 Data Year: 2024-25
4.2	Suspension rate for all students and all significant subgroups Data Source: SIS Discipline Reports	0% Data Year: 2023-24 (as of 3/29/24)	0% Data Year 2024-25 (as of 4/4/25)		All Students: 0% Data Year: 2026-27	Maintained Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that he majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted (-$127,126) because we had fewer enrichment center coordinators due to shifts in staffing. In 4.2 we spent more than budgeted ($27,287) because Science camp expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (83%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 87% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–100%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$194,340	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$68,248	Yes

4.3	Social Emotional Learning	At Rocketship Rising Stars we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Rising Stars core values: respect, responsibility, persistence, empathy, and advocacy. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$199,475	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$138,784	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal 5

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Average Daily Attendance Data Source: SIS Attendance Reports	93.7% Data Year: 2023-24 (as of 3/29/24)	93.7% Data Year 2024-25 (as of 4/4/25)	[Insert outcome here]	94% Data Year: 2026-27	Maintained Data Year: 2024-25

5.2	Chronic Absenteeism rate for all students and all significant subgroups Data Source: SIS Attendance Reports	All Students: 20.3% English Learners: 20.5% Low Income: 19.1% Students with Disabilities: 18.6% Homeless: 32.6% Asian: 9.2% Black: 30.0% Hispanic/Latinx: 25.5% Data Year: 2023-24 (as of 3/29/24)	All Students: 20.9% English Learners: 16.7% Low Income: 21.2% Students with Disabilities: 19.0% Homeless: 26.2% Asian: 9.5% Black: 26.1% Hispanic/Latinx: 26.5% White: n<10 Data Year: 2024-25 (as of 4/4/25)	[Insert outcome here]	All Students: 20% Data Year: 2026-27	+.6 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, a we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the

appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.1 we spent more than budgeted ($13,048) in order to provide additional communication and touch points with families, including phone calls. In 5.5 we spent less than budgeted (-$14,827) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (75%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (100%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (91%). 5.6 Attendance Initiatives was effective Average Daily Attendance (94%), by Chronic Absenteeism rate for all students and all significant subgroups (21% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We updated the targets for some metrics based on year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%), Parent Satisfaction (89% to 90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$113,992	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$31,102	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$16,758	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that the EL group is at yellow level (+4.4) and SED group is at green level (+17.7). In Math, both groups are at green level (EL +25.4, SED +4.8). We had red level performance in 2024 on the English Learner Progress Indicator, with 67.9% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 15.2% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Inatructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 85% of students feel safe on campus and 83% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 91% of parents were satisfied with their school, 75% of parents were involved in their school, 100% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Rising Stars Academy is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RRS does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

2025-26 Total Planned Expenditures Table

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

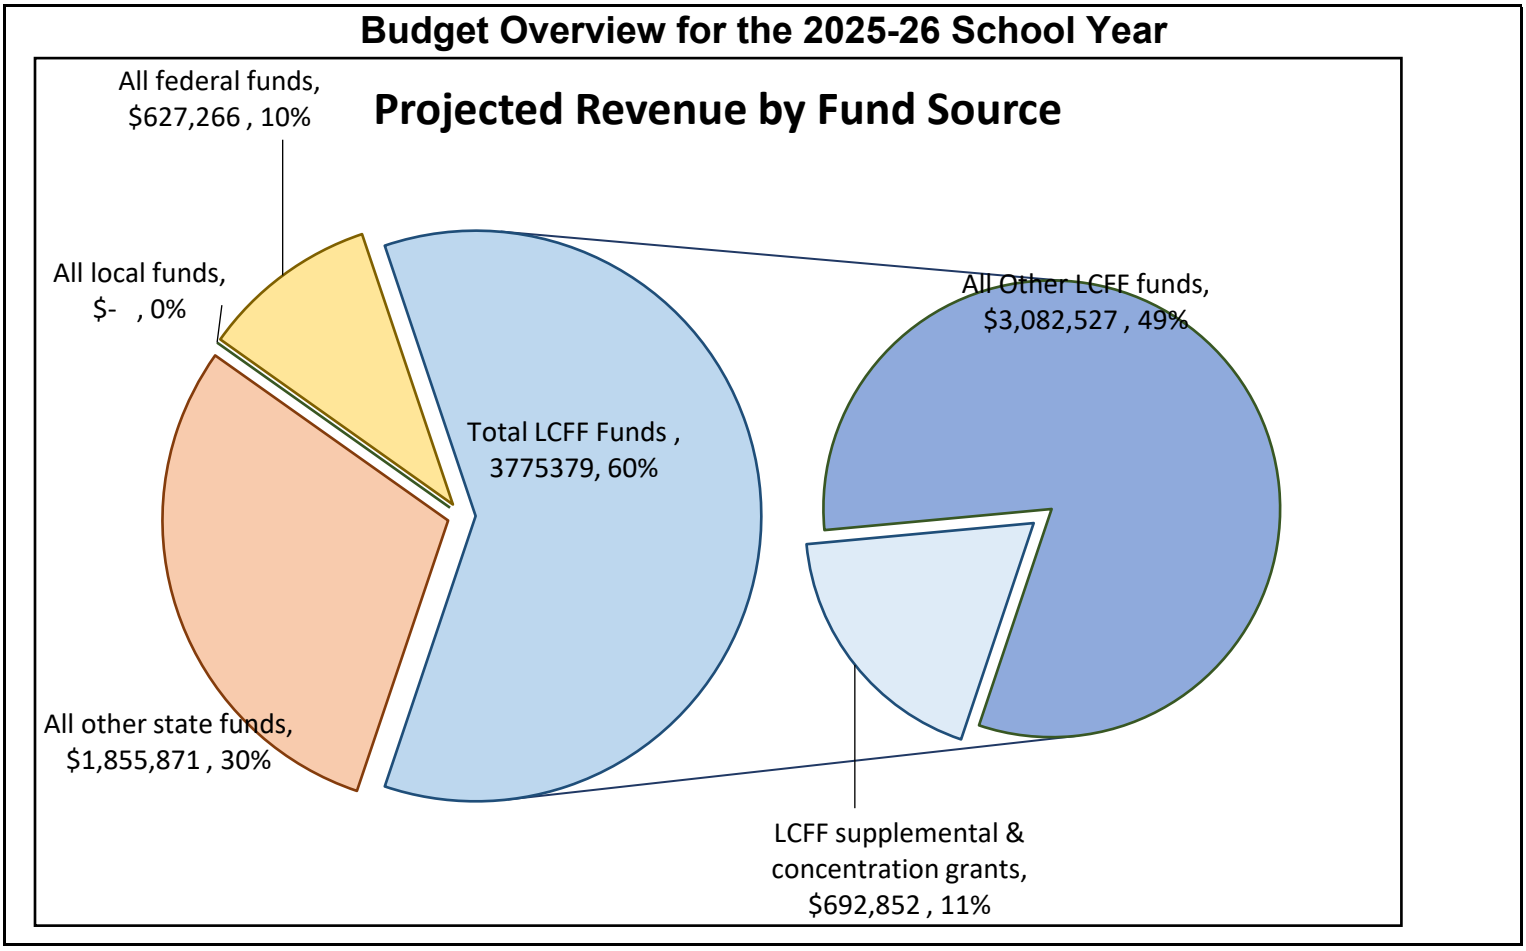
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



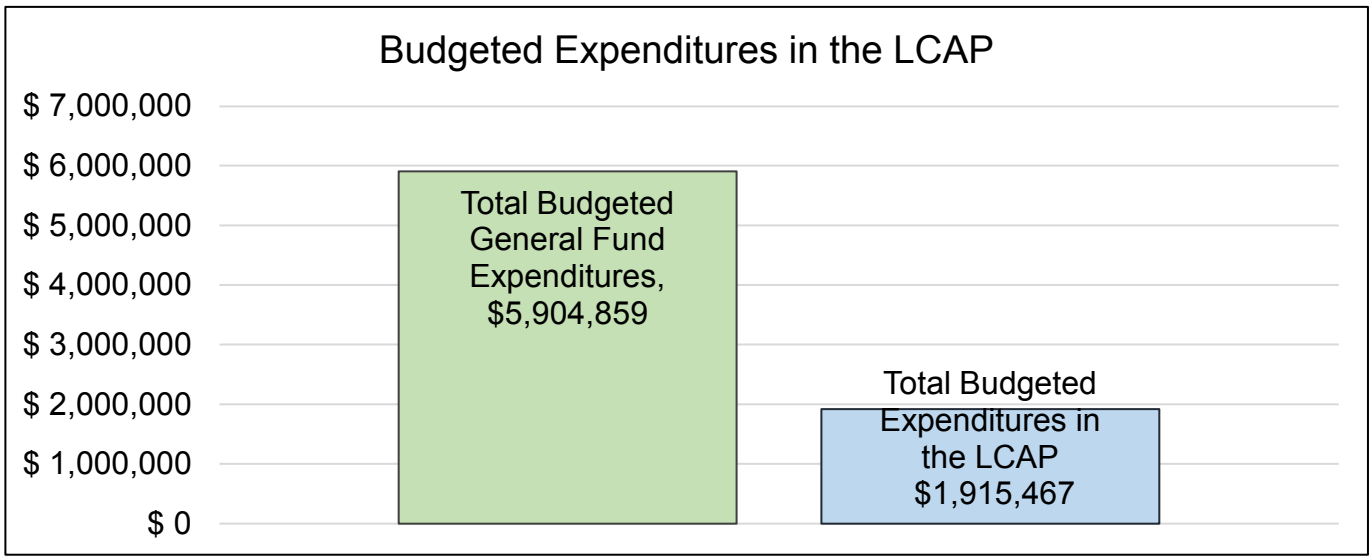
Local Educational Agency (LEA) Name: Rocketship Redwood City

CDS Code: 41-69005-0132076

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Redwood City expects to receive in the coming year from all sources.

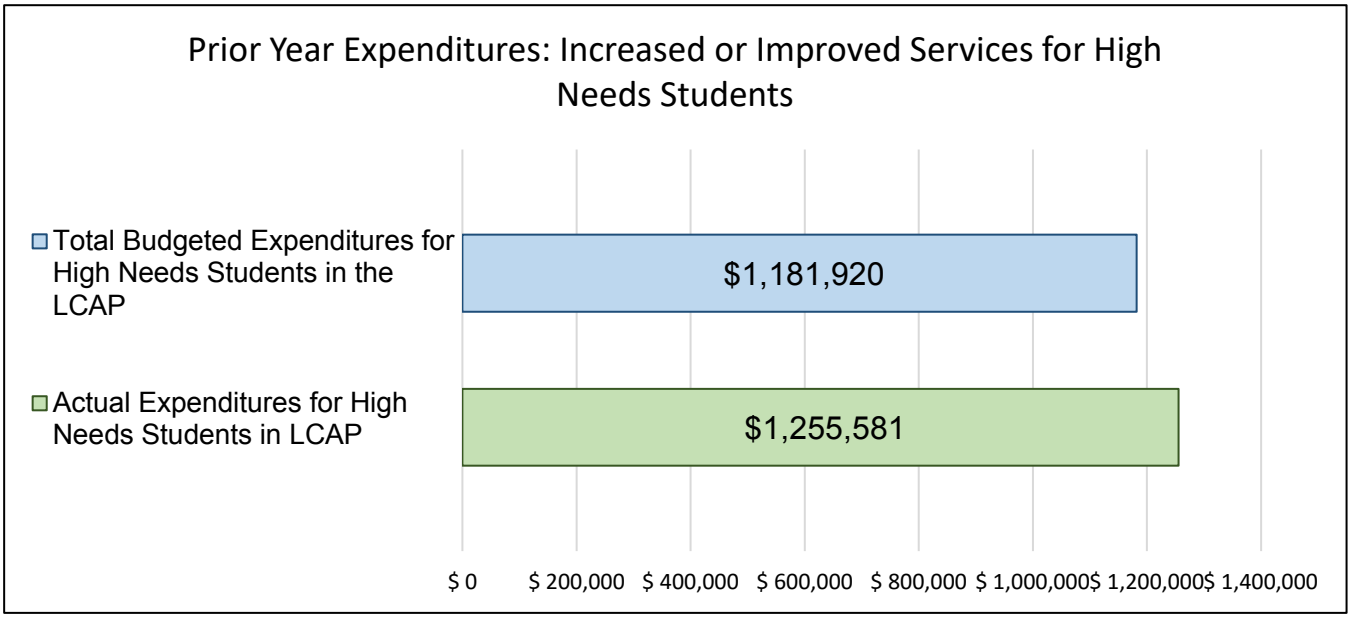
The text description for the above chart is as follows: The total revenue projected for Rocketship Redwood City is $6,258,515.58, of which $3,775,379.00 is Local Control Funding Formula (LCFF), $1,855,870.88 is other state funds, $0.00 is local funds, and $627,265.70 is federal funds. Of the $3,775,379.00 in LCFF Funds, $692,852.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Redwood City plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Redwood City plans to spend $5,904,859.38 for the 2025-26 school year. Of that amount, $1,915,466.51 is tied to actions/services in the LCAP and $3,989,392.87 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Redwood City is projecting it will receive $692,852.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Redwood City must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Redwood City plans to spend $1,061,468.24 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Redwood City budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Redwood City estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Redwood City's LCAP budgeted $1,181,919.81 for planned actions to increase or improve services for high needs students. Rocketship Redwood City actually spent $1,255,581.00 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Redwood City Prep	Genzel Tolentino, Principal	redwoodcity@rsed.org; (650) 238-9970

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Redwood City Prep opened in August 2015 and was the 11th Rocketship campus to open in the Bay Area, but the first Rocketship campus to open outside of San Jose, in Redwood City. It was started in response to overwhelming parent support in the area. The school serves 314 students in grades TK-5. Approximately 86.9% of the students are socioeconomically disadvantaged, 7% are Homeless Youth, 69.4% are English learners, and 96.5% are Hispanic/Latinx. Additionally, 11.5% of students qualify for special education services.

Rocketship Redwood City Prep operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Redwood City Prep's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Redwood City Prep also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values-- respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At Rocketship Redwood City Prep this fifth core value is bravery. Bravery at RRWC means to be confident in your abilities and be able to advocate for yourself.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Redwood City Prep which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the

ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Redwood City based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RRWC has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RRWC has identified a need in English Language Arts for the Hispanic (Red, -72.8) and English Learner (Red, -90.6) student groups. We will address this need by implementing Required Action 1.1 Personalized Learning, and 1.3 Services to Support Multilingual Students. We implemented ML Supports in 23-24 with greater fidelity than ever, and we plan to continue this focus.

RRWC has identified a need in English Learner Progress (Red, 33.8%). We will address this need by implementing Required Action 1.3 Services to Support Multilingual Students.

2024 Dashboard Reflections

RRWC has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RRWC has identified a need in English Language Arts Overall (-97.7) and for the Hispanic (Red, -100.4), Socioeconomically Disadvantaged (-102.7) and English Learner (Red, -116.1) student groups. We will address this need by implementing 1.1 Personalized Learning, and 1.3 Services to Support Multilingual Students.

RRWC has identified a need in English Learner Progress (Red, 9%). We will address this need by implementing 1.3 Services to Support Multilingual Students.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Redwood City Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Redwood City Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Redwood City Prep is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RRWC based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on [DATES]. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (DATES), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Chat and Chew feedback meetings (DATE) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML

Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs. In Goal 5, family survey results show improvements in parent satisfaction and feeling welcome, supporting the effectiveness and continued implementation of Goal 5 actions.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. Also in 1.1, we piloted a reteach for phonics skills gaps–specific instruction addressing student holdbacks. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. We also piloted a newcomer program that supported English acquisition for newcomers through a teacher supporting students with the Hello Benchmark curriculum, helping students with basic sounds, words, speaking, writing. This was done during small group time 4x weekly. In 1.4, a success was that every time students increased a level in reading, they would celebrate by earning a token for the book vending machine.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.2 we spent more than budgeted ($63,128) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($4,458) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we exceeded the target in Math and approached our target in Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we approached our target in ELA and Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address.

Action 1.3 Services to Support Multilingual Students, was somewhat effective. In 2024, we had 9% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 0.5%. We created a strong focus on this action, with additional teacher development, family engagement and daily Designated ELD. Observation data shows progress in implementation. Assessment data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets for some outcomes in response to year one data: CAASPP ELA (33% to 24%), Math (34% to 31%), Science (15% to 9%), ELPI (55% to 14%), Reclassification (15% to 2.5%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RRWC's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$448,272 ($110,831 Title I)	Yes

1.2	Special Education Supports	Although RRWC runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$203,094	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$43,120	No

1.4	Rocketship Reads	Rocketship Redwood City Prep will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity. Students and parents will track progress on DIBELS assessments and growth will be publicly celebrated to promote reading achievement. We will host a staff and family book club to spread and model the love of reading throughout the school community.	$58,666	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
2.2	Number/% of total and EL teachers credentialed & properly assigned Data Source: Internal Staffing Data Tracker	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. Also in 2.2, we successfully provided ongoing development for teachers, appropriately scaffolded throughout the months so teachers get exactly what they need. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability. Another success was that we started and stayed completely staffed.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($21,384) because Core curriculum expenses were higher than anticipated. In 2.4 we spent more than budgeted ($103,376). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses. In 2.5 we spent less than budgeted (-$11,488). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress

toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RRWC curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RRWC operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RRWC utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$25,395	No

2.2	Professional Development	Professional Development is a critical component of the RRWC program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RRWC hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RRWC has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RRWC will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$140,673	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$42,497	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RRWC teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$112,124	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$5,127	No
2.6	Culturally Responsive Pedagogy	RRWC is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	% of facilities meeting the “good repair” standard Data Source: iAuditor Internal Data	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
3.2	% of students feel safe on campus (As measured by student survey) Data Source: Internal Survey	77% Data Year: 2023-24	100% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	+23 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.2 a challenge–with a building leased from the district, there are difficulties in getting permissions to upgrade facilities. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice. Also in 3.4, we solidified a successful system for drop off and pick up – parking and walking in, which eliminates traffic and safety issues of carpool processes.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not applicable

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100%. The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 74% and % of families feel campus is safe: 91%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

N/A

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$353,770	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$125,120	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$11,931	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	84% Data Year: 2023-24	80% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	-4 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.3 SEL, we successfully incorporated SEL components throughout the day for students. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted (-$60,005) because we had fewer enrichment center coordinators due to shifts in staffing. In 4.2 we spent more than budgeted ($ 11,618) because Science camp expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (80%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 85% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–95%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$64,780	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$32,665	Yes

4.3	Social Emotional Learning	At Rocketship Redwood City we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Redwood City core values: respect, responsibility, persistence, empathy, and bravery. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$95,473	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$66,424	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal 5

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all

of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. Another success in 5.5 was our partnership with our local library. We had 70 families participating, which is double our usual amount. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$13,407) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were somewhat effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (56%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (97%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (87%). Parent survey results showed higher satisfaction with feeling welcome this year. 5.6 Attendance Initiatives was effective Average Daily Attendance (91%), by Chronic Absenteeism rate for all students and all significant subgroups (32.3% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We updated the targets for some metrics in response to year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%), Parent Satisfaction (89% to 87%), Parent Connectedness (85% to 90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$70,949	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$0	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$14,886	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$500	No

		Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA performance, we see that our English Learners and Socioeconomically Disadvantaged students are at red level (EL -116.1, SED -102.7). In Math, both groups are at orange level (EL -93 SED -79.2). We had red level performance in 2024 on the English Learner Progress Indicator, with 9% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 0.5% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 74% of students feel safe on campus and 80% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 87% of parents were satisfied with their school, 56% of parents were involved in their school, 97% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Redwood City Prep is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RRWC does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

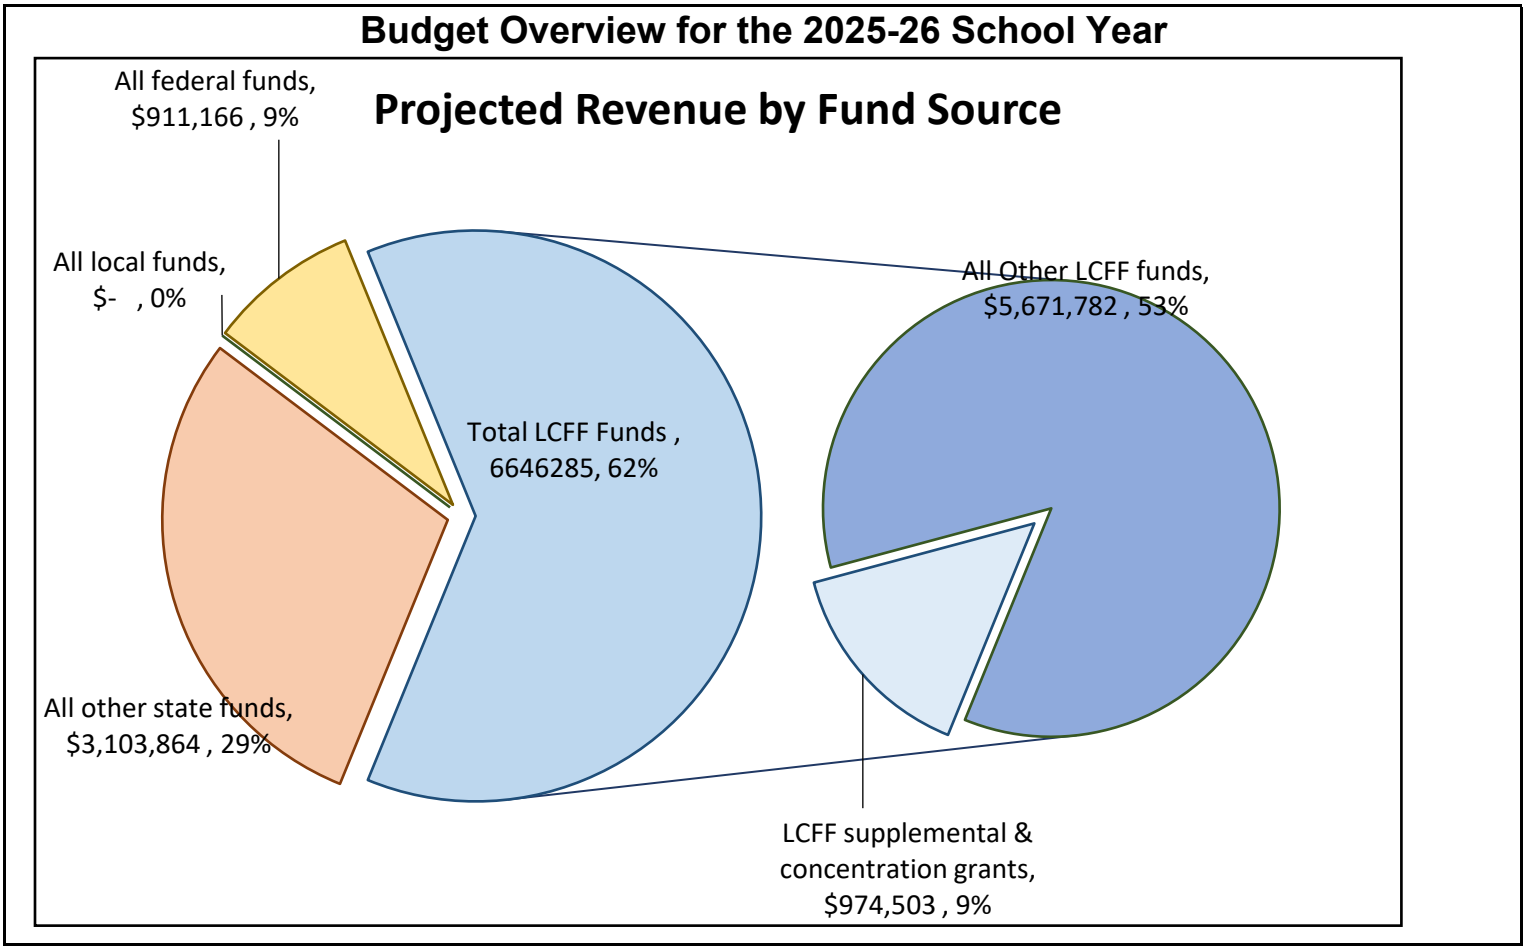
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



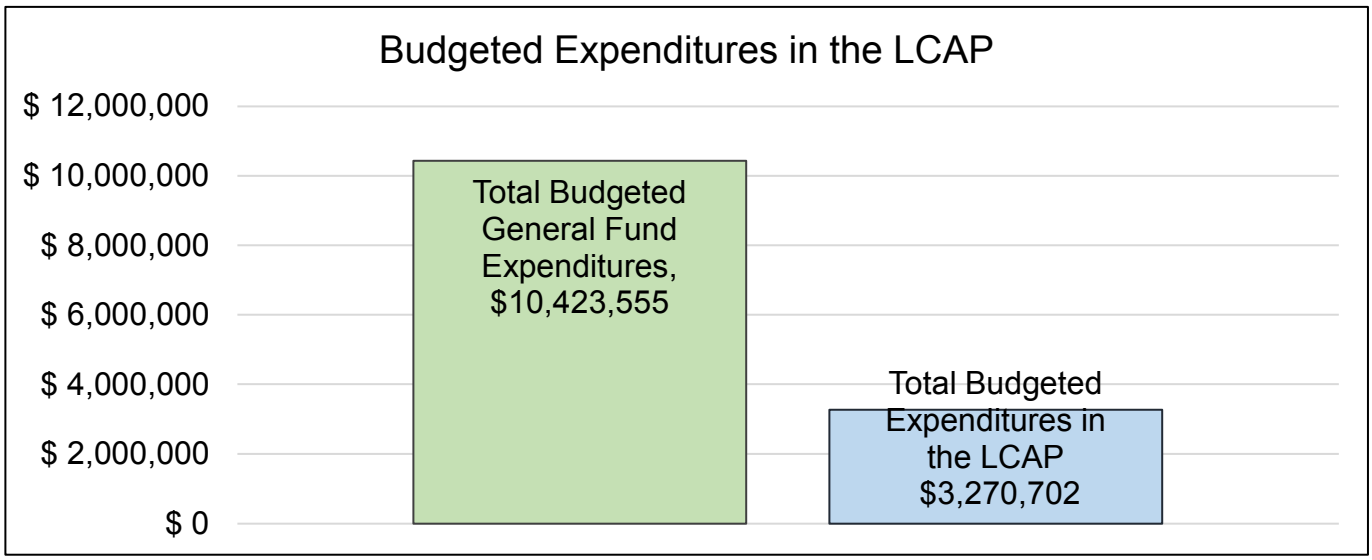
Local Educational Agency (LEA) Name: Rocketship Alma Academy

CDS Code: 43-10439-0125799

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Alma Academy expects to receive in the coming year from all sources.

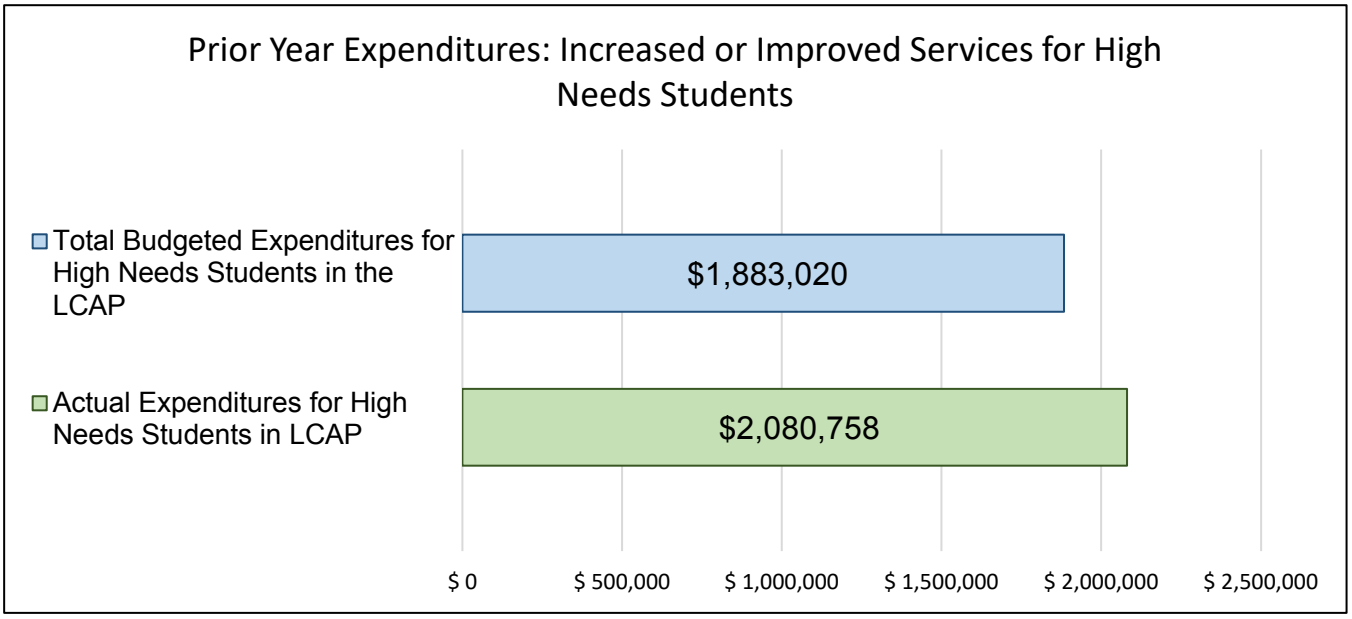
The text description for the above chart is as follows: The total revenue projected for Rocketship Alma Academy is $10,661,314.59, of which $6,646,285.00 is Local Control Funding Formula (LCFF), $3,103,863.55 is other state funds, $0.00 is local funds, and $911,166.04 is federal funds. Of the $6,646,285.00 in LCFF Funds, $974,503.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Alma Academy plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Alma Academy plans to spend $10,423,554.72 for the 2025-26 school year. Of that amount, $3,270,701.77 is tied to actions/services in the LCAP and $7,152,852.94 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Alma Academy is projecting it will receive $974,503.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Alma Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Alma Academy plans to spend $1,892,240.70 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Alma Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Alma Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Alma Academy's LCAP budgeted $1,883,019.55 for planned actions to increase or improve services for high needs students. Rocketship Alma Academy actually spent $2,080,757.85 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Alma Academy	Abel Ibarra, Principal	alma@rsed.org; 408-931-6838

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Alma Academy opened in August 2012, the seventh school in the Rocketship Education network to open in San Jose. The school now serves 526 students in grades TK-5. Approximately 75.7% of the students are socioeconomically disadvantaged, 6.8% are homeless, 61.4% are English learners, 86.1% are Hispanic/Latinx, and 8% are African-American. Additionally, Rocketship Alma has approximately 12.7% of students who qualify for special education services.

Rocketship Alma operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Alma's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Alma also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values-- respect, responsibility, empathy and persistence—and develop a fifth core value as a community. At RSA this fifth core value is service. Alma Rocketeers are active citizens in their classrooms, homes, and communities. Our Rocketeers develop a social awareness of the needs that surround them and dedicate their time, energy, and talent to serve those very

needs. In doing so, our Rocketeers improve upon their own understanding of the world around them and also seek to improve the lives of others -- not just their own.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Alma which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting parents, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Alma Academy based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RSA has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RSA has identified a need in English Learner Progress (Red, 20.2%). We will address this need by implementing Required Action 1.3 Services to Support Multilingual Students.

RSA has identified a need in English Language Arts for the Students with Disabilities student group (Red, -82.8). We will address this need by implementing Required Action 1.2 Special Education Supports and 1.1 Personalized Learning.

2024 Dashboard Reflections

RSA has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

RSA has identified a success in English Learner Progress (Blue, 55.9%). We build on this success by implementing action 1.3 Services to Support Multilingual Students.

RSA has identified a need in English Language Arts for the Students with Disabilities student group (Red, -117.2). We will address this need by implementing 1.2 Special Education Supports and 1.1 Personalized Learning.

RSA has identified a need in Chronic Absenteeism for the English Learner (Red, 17.9%) student group. We will address this need by implementing 5.5 Attendance Initiatives.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Alma Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Alma Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Alma Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RSA based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 11/5/24, 1/30/25, 3/25/25, 5/28/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (8/23/24, 9/13/24, 9/19/24, 10/25/24, 12/13/24, 1/10/25, 1/13/25, 1/18/25, 3/26/25, 3/31/25, 5/30/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Chat and Chew feedback meetings (8/31/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs. Also in Goal 4, parents shared their appreciation for the student field trip opportunities, and we plan to continue these. In Goal 5, families expressed high satisfaction with the level of accessibility and responsiveness to their needs from school leaders, supporting continued implementation of the actions of Goal 5.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All Students: 42.7% English Learners: 25.9% Low Income: 42.5% Students with Disabilities: 20.0% Black or African American: 44.4% Hispanic/Latinx: 39.5% Data Year: 2022-23	All Students: 37.2% English Learners: 20.8% Low Income: 33.1% Students with Disabilities: 20.0% Black or African American: 36.4% Hispanic/Latinx: 35.2% Data Year: 2023-24	[Insert outcome here]	42% Data Year: 2025-26	All Students: -5.5 English Learners: -5.1 Low Income: -9.4 Students with Disabilities: Maintained Black or African American: -8.0 Hispanic/Latinx: -4.3 Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. We are seeing more success this year than last through our model of small group instruction (with the new guided reading model). We note better accuracy when reading to address fluency; in STEM, we leveraged the new Bridges intervention curriculum to fill student gaps (particularly around supporting students behind grade level). It's a challenge to support students on or above grade level. We started to focus on Tier I instruction (which will be a big goal for next year–management and instruction). In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. In 1.4 Rocketship Reads, we have had particular success in upper grades Humanities. Lower grades Humanities have not been showing as much growth. We are addressing this instruction through targeted p.d. and adjusting student academic levels for grouping. We added more modeling of love of reading and the celebrating of students when they achieve milestones.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$22,716) due to fewer expenses identified compared to budget. In 1.3 we spent more than budgeted ($17,974) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we approached our target in Math and Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we approached our target in ELA and Math. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24, and we continue to focus on implementation.

Action 1.3 Services to Support Multilingual Students was somewhat effective. In 2024, we had 56% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 7%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets of some metrics in response to year one data: CAASPP ELA (48% to 42%), Math (50% to 43%), Science (44% to 25%), ELPI (55% to 61%), Reclassification (15% to 14%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RSA's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$543,815 ($150,165 Title I)	Yes

1.2	Special Education Supports	Although RSA runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology. This action will support ELA growth and achievement of our Students with Disabilities by providing supports personalized to their needs.	$368,501	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$61,961	No

1.4	Rocketship Reads	Rocketship Alma will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity. As students are on track toward their end of year goals, they will be celebrated with recognition and incentives. Students will have two books on their level available at all times for reading. We will implement cohort-based incentives for students reading throughout the day and outside of school.	$117,331	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1) foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. We found that the roll out of CKLA Integrated in Humanities increased student engagement/investment. We were pleased that our strong partnership with the regional team helped us with intentional development of this initiative. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($15,053) because Core curriculum expenses were higher than anticipated. In 2.4 we spent more than budgeted ($104,603). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses. In 2.5 we spent less than budgeted (-$19,395). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined

with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress toward our targets. Staff feedback indicates they appreciate the intentional p.d. we have provided them. They loved our theme for this year–What starts here changes the world. Students shared that they loved the new curriculum because it is more engaging. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RSA curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RSA operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RSA utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$46,077	No

2.2	Professional Development	Professional Development is a critical component of the RSA program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RSA hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RSA has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RSA will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$251,747	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$76,392	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RSA teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$9,303	No
2.6	Culturally Responsive Pedagogy	RSA is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	% of facilities meeting the “good repair” standard Data Source: iAuditor Internal Data	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
3.2	% of students feel safe on campus (As measured by student survey) Data Source: Internal Survey	82% Data Year: 2023-24	79% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	-3 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were successful in fully staffing for Operations roles–we achieved a nearly full Operations staff with one opening of Ops Specialists. In 3.2 Facilities Maintenance, we successfully completed a new coat on our parking lot. Another facilities success was that we completely repainted our indoors. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.3 a challenge was that we discovered that our security system was not working properly. We therefore changed out our security system for one that provides 24/7 monitoring. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.1 we spent more than budgeted ($96,023) due to additional operations support needed, and hourly rates higher than planned. In 3.3 we spent less than budgeted ($1,346) because the cost of safety materials was lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100%. The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 79% and % of families feel campus is safe: 89%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$496,770	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$293,575	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$16,292	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	82% Data Year: 2023-24	81% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	-1 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. We were pleased to be able to provide PE for all, developmental play for TK-1, art for grades 2-5, and Hello World, a VR class for grades 4-5. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.3, we brought back the Kimochis curriculum for K-2. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.2 we spent more than budgeted ($28,523) because Science camp expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (81%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. Students shared that they loved our field trips. The Care Corps action was effective as evidenced by 85% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–90%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$194,340	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$59,268	Yes

4.3	Social Emotional Learning	At Rocketship Alma we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Alma core values: respect, responsibility, persistence, empathy, and service. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$173,228	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops	$120,523	No

		Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will

monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of 5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. Another success in family advocacy was the way in which our families successfully partnered to advocate for our new crosswalk. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around

family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools. In 5.6 we have been doing Friday Landings monthly to celebrate perfect attendance, and we have partnered with Care Corps to support families in removing barriers to attendance.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$15,804) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (68%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (100%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (91%). 5.6 Attendance Initiatives was effective Average Daily Attendance (92%), by Chronic Absenteeism rate for all students and all significant subgroups (31% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted the targets for some metrics in response to year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$119,373	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No

5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$27,010	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration	$16,758	No

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students for 2025-26

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant
$974,503	$0

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
17.182%	0%	$0	17.182%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are at Orange level for ELA (-45 SED, -51.6 EL) and Math, (-34.1 SED, -32.7 EL). We had Blue level performance in 2024 on the English Learner Progress Indicator, with 55.9% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 6.8% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	

3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 79% of students feel safe on campus and 81% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 91% of parents were satisfied with their school, 68% of parents were involved in their school, 100% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

N/A

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

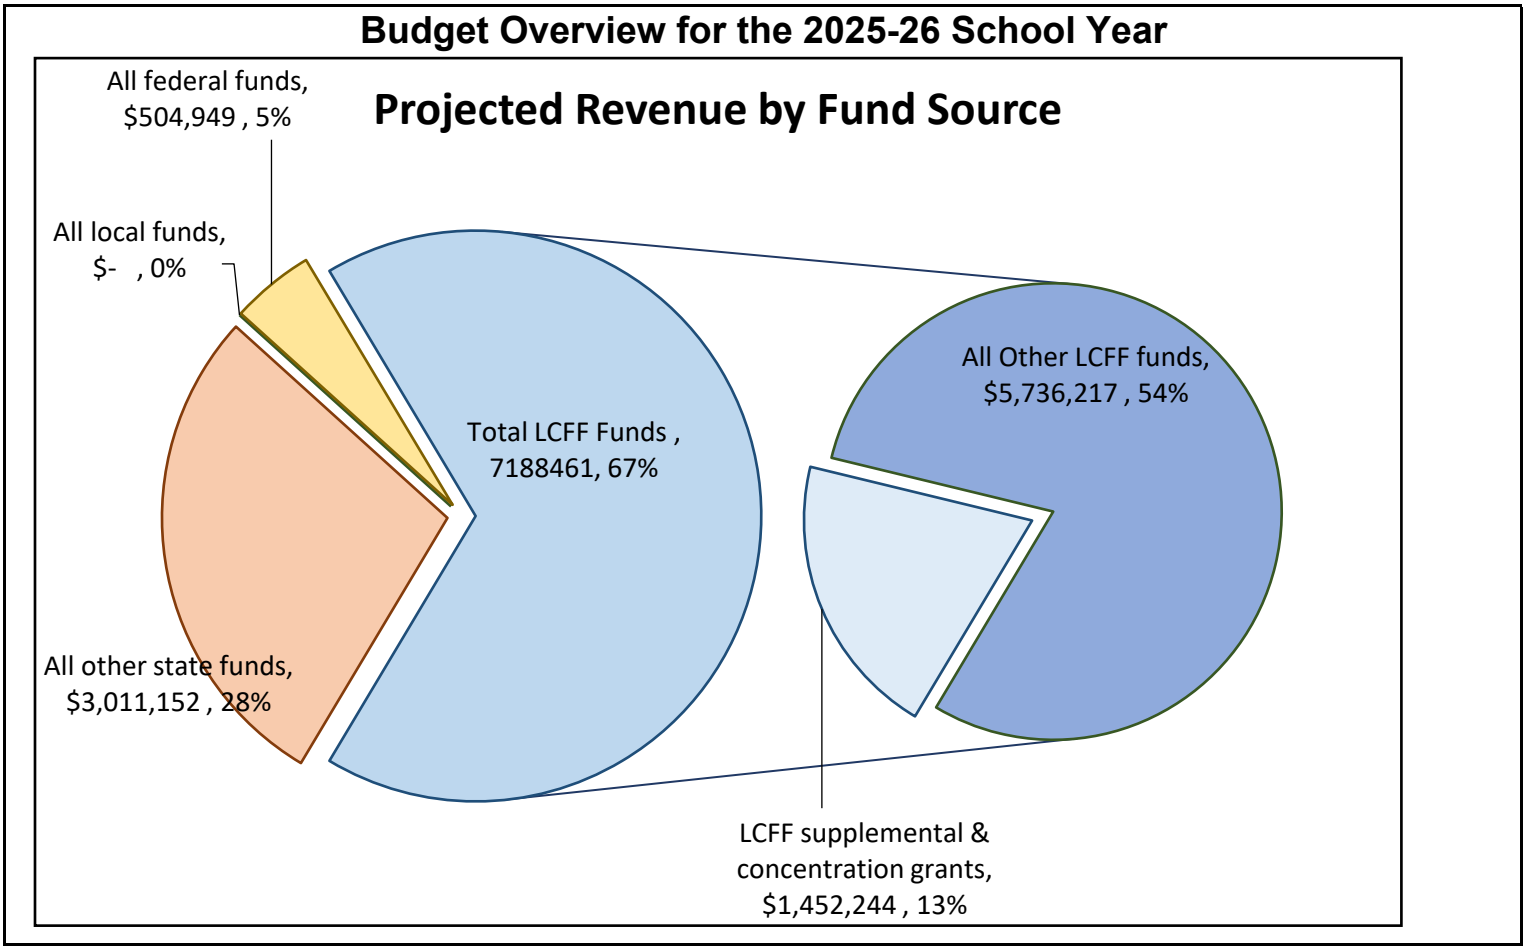
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



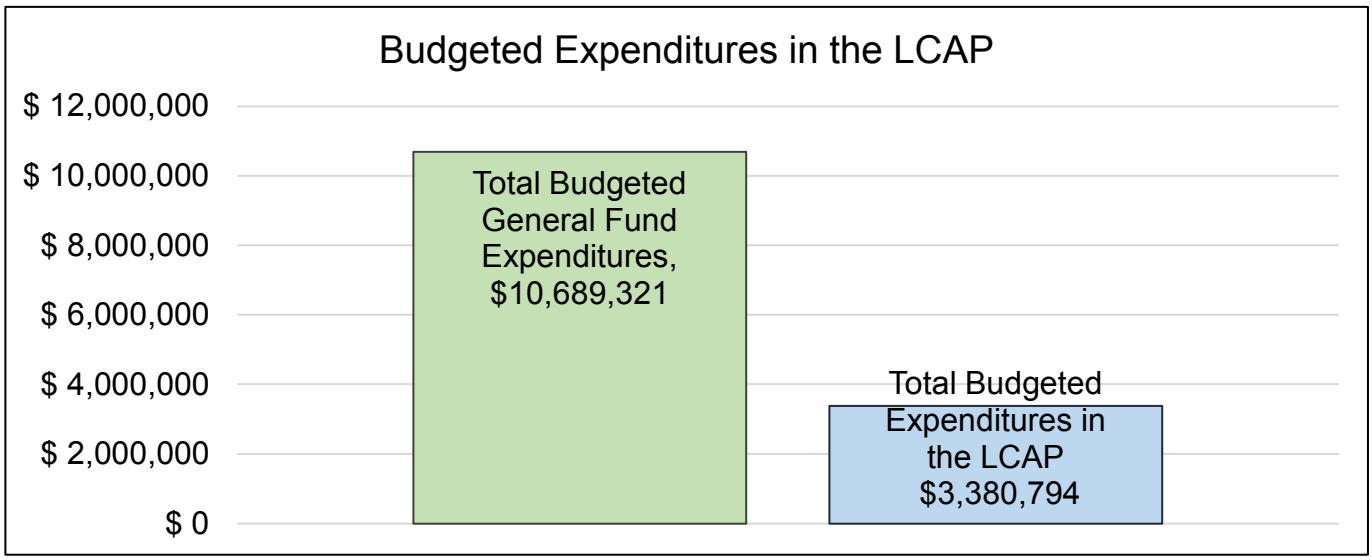
Local Educational Agency (LEA) Name: Rocketship Spark Academy

CDS Code: 43-69450-0128108

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Spark Academy expects to receive in the coming year from all sources.

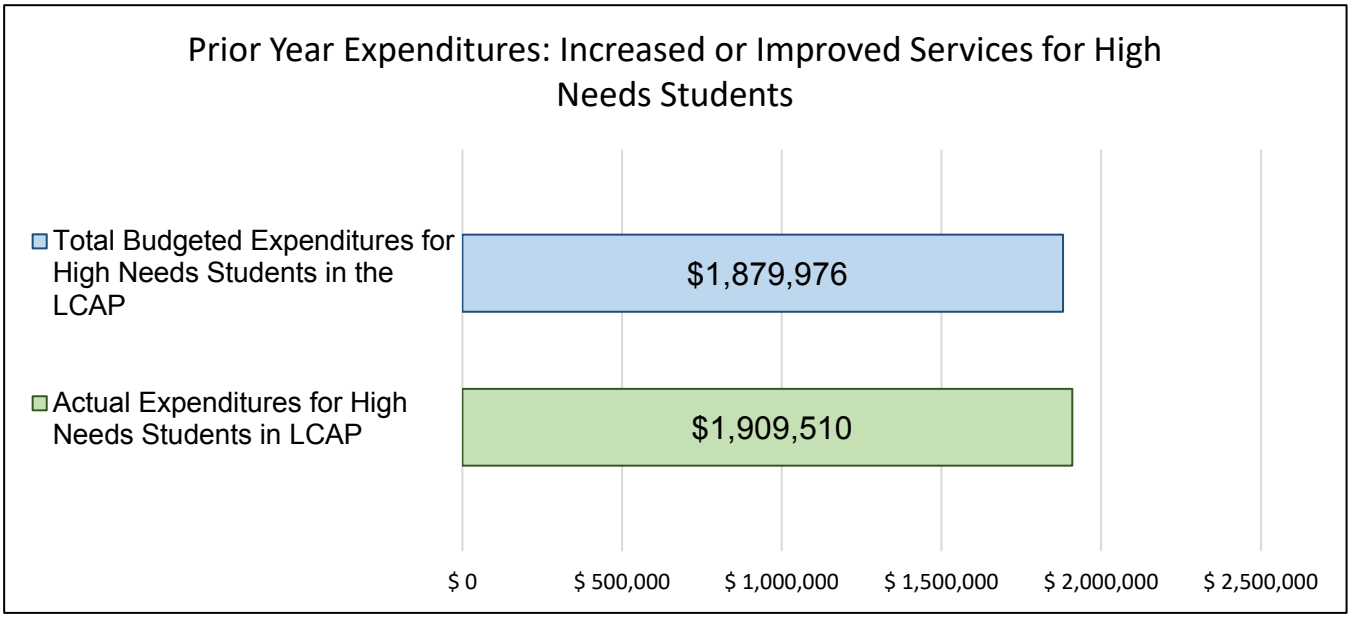
The text description for the above chart is as follows: The total revenue projected for Rocketship Spark Academy is $10,704,561.61, of which $7,188,461.00 is Local Control Funding Formula (LCFF), $3,011,151.84 is other state funds, $0.00 is local funds, and $504,948.77 is federal funds. Of the $7,188,461.00 in LCFF Funds, $1,452,244.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Spark Academy plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Spark Academy plans to spend $10,689,321.13 for the 2025-26 school year. Of that amount, $3,380,793.98 is tied to actions/services in the LCAP and $7,308,527.15 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Spark Academy is projecting it will receive $1,452,244.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Spark Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Spark Academy plans to spend $1,889,060.84 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Spark Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Spark Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Spark Academy's LCAP budgeted $1,879,976.46 for planned actions to increase or improve services for high needs students. Rocketship Spark Academy actually spent $1,909,509.97 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Spark Academy	Zack Turner, Principal	spark@rsed.org; 408-622-6651

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Spark (RSK) opened in August 2013, the eighth Rocketship campus to open in San Jose. The school serves approximately 544 students in grades TK-5. Rocketship Spark is one of our most diverse schools, with large populations of both Asian (35.5%) and Hispanic (53.7%) students. Approximately 59% of the students are socioeconomically disadvantaged, 5.7% are homeless, 46.7% are English learners, and 9.7% are students with disabilities.

Spark operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Spark's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Spark also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values – respect, responsibility, empathy and persistence – and develop a fifth core value as a community. At RSK this fifth core value is curiosity. Students at Rocketship Spark are encouraged to be life-long learners and draw on their curiosity to understand the world around them. Our talented team of educators works collaboratively with our dedicated parent community to ensure every Rocketeer on our campus receives an individualized educational experience tailored to his or her learning needs.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Spark which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. TheThe plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include parents of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Spark based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school has no unexpended Learning Recovery Emergency Block Grant Funds.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RSK has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing 4.3 Social Emotional Learning.

RSK has identified a success in English Language Arts (Blue, 19.4 pts above standard). We will build on this success by implementing 1.1 Personalized Learning.

RSK has identified a success in Mathematics (Blue, 18.1 pts above standard). We will build on this success by implementing 1.1 Personalized Learning.

RSK has identified a need in English Learner Progress (Red, 31%). We will address this need by implementing 1.3 Services to Support Multilingual Students Required Action. RSK has identified a need in Chronic Absenteeism for the Students with Disabilities group (Red, 35.5%). We will address this need by implementing Required Action 1.3 Special Education Supports and 4.4 Care Corps.

2024 Dashboard Reflections

RSK has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing 4.3 Social Emotional Learning.

RSK has identified a success in English Language Arts (Green, 11.7 pts above standard). We will build on this success by implementing 1.1 Personalized Learning.

RSK has identified a success in Mathematics (Green, 21.9 pts above standard). We will build on this success by implementing 1.1 Personalized Learning.

RSK has identified a success in English Learner Progress (Blue 70.1%). We will build on this success by implementing action1.3 Services to Support Multilingual Students.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Spark Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Spark Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Spark Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RSK based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 2/3/25, 3/11/25, 4/30/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (11/4/24, 12/16/24, 1/22/25, 2/12/25, 3/19/25, 4/16/25, 5/14/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (11/13/24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML

Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All Students: 59.2% English Learners: 37.5% Low Income: 54.2% Students with Disabilities: 7.7% Asian: 77.8% Hispanic/Latinx: 42.0% Data Year: 2022-23	All Students: 52.4% English Learners: 28.6% Low Income: 49.6% Students with Disabilities: 9.5% Asian: 69.5% Hispanic/Latinx: 36.2% Data Year: 2023-24	[Insert outcome here]	56% Data Year: 2025-26	All Students: -6.8 English Learners: -8.9 Low Income: -4.6 Students with Disabilities: +1.8 Asian: -8.3 Hispanic/Latinx: -5.8 Data Year: 2023-24
1.2	CAASPP Math: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All Students: 60.0% English Learners: 41.8% Low Income: 50.3% Students with Disabilities: 11.5% Asian: 82.6% Hispanic/Latinx: 40.2% Data Year: 2022-23	All Students: 60.1% English Learners: 39.6% Low Income: 54.9% Students with Disabilities: 14.3% Asian: 87.8% Hispanic/Latinx: 35.5% Data Year: 2023-24	[Insert outcome here]	65% Data Year: 2025-26	All Students: +0.1 English Learners: -2.2 Low Income: +4.6 Students with Disabilities: -2.8 Asian: +5.2 Hispanic/Latinx: -4.7 Data Year: 2023-24

1.3	CAASPP Science: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All Students: 37.8% Low Income: 28.0% Hispanic/Latinx: 32.1% English Learners: 25.0% Data Year: 2022-23	All Students: 29.6% Low Income: 9.1% Hispanic/Latinx: 18.8% English Learners: 18.2% Data Year: 2023-24	[Insert outcome here]	35% Data Year: 2025-26	All Students: -8.2 Low Income: -16.9 Hispanic/Latinx: -13.3 English Learners: -6.8 Data Year: 2023-24
1.4	Avg Growth Years for Reading on NWEA (K-2) Data Source: NWEA MAP	.98 Years Data Year: 2023-24	1.04 Years Data Year: 2024-25		1.2 Years Data Year: 2026-27	
1.5	Avg Growth Years for Math on NWEA (K-2) Data Source: NWEA MAP	1.04 Years Data Year: 2023-24	1.08 Years Data Year: 2024-25		1.2 Years Data Year: 2026-27 Data Source: NWEA MAP

1.7	EL Reclassification Rate Data Source: SIS Demographics Data	1.6% Data Year: 2023-24 (as of 3/29/24)	8.3% Data Year: 2024-2025 (as of 4/4/25)		10% Data Year: 2026-27	

Insert or delete rows, as necessary.

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned except, In 1.2 Services to Support Multilingual Students, where our supports for newcomers increased by adding a new role, Multilingual Learner Specialists, that provided additional direct services to newcomer students. Multilingual Learner Specialists used a Newcomer curriculum to not only support with English language acquisition, but to also address the social emotional needs of students entering a new country and learning environment. Upper grade students received foundational skills instruction and practice to increase their reading skills. Specialists were also able to use students' home language (L1) to support learning the English language (L2) by providing instructions in the students home language and explicitly teaching any cross language connections. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. A challenge in 1.3 was that this year we piloted an ELA content curriculum, Amplify CKLA Integrated. While we had planned for opportunities to embed integrated supports, the implementation needed to be differentiated for the different curricula which required schools to balance the fidelity of the curricula with the supports needed for multilingual learners to access the content. It has gone well at RSK, though, and we look forward to continuing with it. In 1.4 Rocketship Reads, we had a successful partnership with “Reading is Cool” from the San Jose Sharks which provides incentives for reading. A challenge in this is that we tend to see

the same students participating every month. To bring in more students, we have been sharing participation data during parent coffees, and we plan to expand the program to include reading at home with parent participation.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.2 we spent more than budgeted ($71,602) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff. In 1.3 we spent more than budgeted ($11,207) because Rocketship hired additional ELL staff (multilingual support specialists) due to the need for additional support for ELL students. In 1.4 we spent less than budgeted (-$9,787) for Humanities teachers to support with reading. There were slightly fewer Humanities teachers hired than initially estimated in the budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we approached our target in Math and Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we met our overall target in Math and approached our target in ELA. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24.

Action 1.3 Services to Support Multilingual Students was effective. In 2024, we had 70% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 8.3%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets for some metrics in response to year one data: CAASPP ELA (64% to 57%, Science (43% to 35%), ELPI (55% to 70%), and Reclassification (15% to 10%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Personalized Learning	RSK's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$758,738 ($110,072 Title I)	Yes

1.2	Special Education Supports	Although RSK runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology. This action will include supports as needed to ensure regular attendance of our Students with Disabilities .	$362,074	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$59,348	No
1.4	Rocketship Reads	Rocketship Spark will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity.	$106,019	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
2.2	Number/% of total and EL teachers credentialed & properly assigned Data Source: Internal Staffing Data Tracker	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($19,459) because Core curriculum expenses were higher than anticipated. In 2.3 we spent less than budgeted (-$11,070) because the school was able to utilize internal staff for testing resulting in fewer expenses for external testing substitutes. In 2.4 we spent more than budgeted ($104,360). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses.In 2.5 we spent less than budgeted (-$7,161). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress

toward our targets. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RSK curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RSK operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RSK utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$46,339	No

2.2	Professional Development	Professional Development is a critical component of the RSK program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RSK hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RSK has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RSK will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$231,649	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$72,410	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RSK teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$224,248	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$9,356	No
2.6	Culturally Responsive Pedagogy	RSK is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	% of facilities meeting the “good repair” standard Data Source: iAuditor Internal Data	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1 Operations Staffing and Development, we were largely successful in fully staffing for Operations roles. We had a mid-year vacancy in the Business Operations Manager position that was quickly filled. In 3.2 Facilities Maintenance, we successfully completed a new coat on our parking lot. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice. Another success in 3.4 was that during arrival, though data tracking and family communications, we have been able to keep the process under three minutes, which is our goal.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 3.1 we spent less than budgeted (-$59,012) because of fewer Operations Specialists hired due to challenges hiring and retaining staff. In 3.2 we spent less than budgeted (-$42,965) because custodial services expenses have been lower than expected. In 3.3 we spent less than budgeted (-$5,194)because the cost of safety materials was lower than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100% The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 79% and % of families feel campus is safe: 93%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not applicable.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$525,370	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$230,425	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$16,347	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	80% Data Year: 2023-24	80% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	Maintained Data Year: 2024-25
4.2	Suspension rate for all students and all significant subgroups Data Source: SIS Discipline Reports	0% Data Year: 2023-24 (as of 3/29/24)	0% Data Year: 2024-2025 (as of 4/4/25)		All Students: 0% Data Year: 2026-27	Maintained Data Year: 2024-25
4.3	Expulsion rate for all students and all significant subgroups Data Source: SIS Discipline Reports	0% Data Year: 2023-24 (as of 3/29/24)	0% Data Year: 2024-2025 (as of 4/4/25)		All Students: 0% Data Year: 2026-27	Maintained Data Year: 2024-25

4.4	% of students with access to a broad course of study, including unduplicated students and students with exceptional needs Data Source: SIS Schedule Data	100% Data Year: 2022-23	100% Data Year: 2023-24		100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.2 we spent more than budgeted ($20,243) because Science camp expenses were higher than expected.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (80%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 84% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–100%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$194,340	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$59,605	Yes

4.3	Social Emotional Learning	At Rocketship Spark we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Spark core values: respect, responsibility, persistence, empathy, and curiosity. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$164,698	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$114,588	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Average Daily Attendance Data Source: SIS Attendance Reports	93.4% Data Year: 2023-24 (as of 3/29/24)	93.9% Data Year: 2024-2025 (as of 4/4/25)	[Insert outcome here]	94% Data Year: 2026-27	+.5 Data Year: 2024-25

5.2	Chronic Absenteeism rate for all students and all significant subgroups Data Source: SIS Attendance Reports	All Students: 27.9% English Learners: 22.1% Low Income: 24.5% Students with Disabilities: 27.8% Homeless: 35.3% Asian: 13.3% Black: 33.3% Hispanic/Latinx: 24.8% White: 5.6% Data Year: 23-24 (as of 3/29/24)	All Students: 17.9% English Learners: 21.9% Low Income: 22.4% Students with Disabilities: 25.8% Homeless: 26.7% Asian: 11.8% Black: 6.7% Hispanic/Latinx: 21.8% White: 21.4% Data Year: 24-25 (as of 4/4/25)	[Insert outcome here]	All Students: 10% Data Year: 2026-27	-10 Data Year: 2024-25
5.3	% of parents are involved (% parents on track to complete participation hours) Data Source: Internal HelpCounter Data	93% Data Year 2022-23 (as of 5/3/24)	92% Data Year: 2024-2025 (as of 4/4/25)	[Insert outcome here]	90% Data Year 2026-27	-1 Data Year: 2024-25

5.4	% Home visits completed Data Source: Internal Data	99% Data Year 2023-24	97% Data Year: 2024-25		95% Data Year 2026-27	-2 Data Year: 2024-25
5.5	% of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) Data Source: Annual Parent Survey	83% Data Year 2023-24	86% Data Year: 2024-25		90% Data Year 2026-27	+3 Data Year: 2024-25
5.6	% of parents connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”) Data Source: Annual Parent Survey	81% Data Year: 2023-24	84% Data Year: 2024-25		85% Data Year 2026-27	+3 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. We had excellent turnout at our parent coffees–the strongest ever this year. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them

coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. We also exceeded our Los Dichos goal for the number of parent readers involved. In 5.6 Attendance Initiatives, a success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools. We are pleased that we successfully reached 94% attendance monthly.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$19,883) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (92%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (97%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (86%). 5.6 Attendance Initiatives was effective Average Daily Attendance (94%), by Chronic Absenteeism rate for all students and all significant subgroups (18% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted the targets for some metrics based on year one data: ADA (95% to 94%), Chronic Absenteeism (20% to 10%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$108,612	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$54,192	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$25,680	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are at yellow level for ELA (EL -2, SED -4.4) and at green level in Math (EL +11.7, SED +2.7). We had blue level performance in 2023 on the English Learner Progress Indicator, with 70.1% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 8.3% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 79% of students feel safe on campus and 80% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 86% of parents were satisfied with their school, 92% of parents were involved in their school, 97% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Spark Academy is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RSK does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

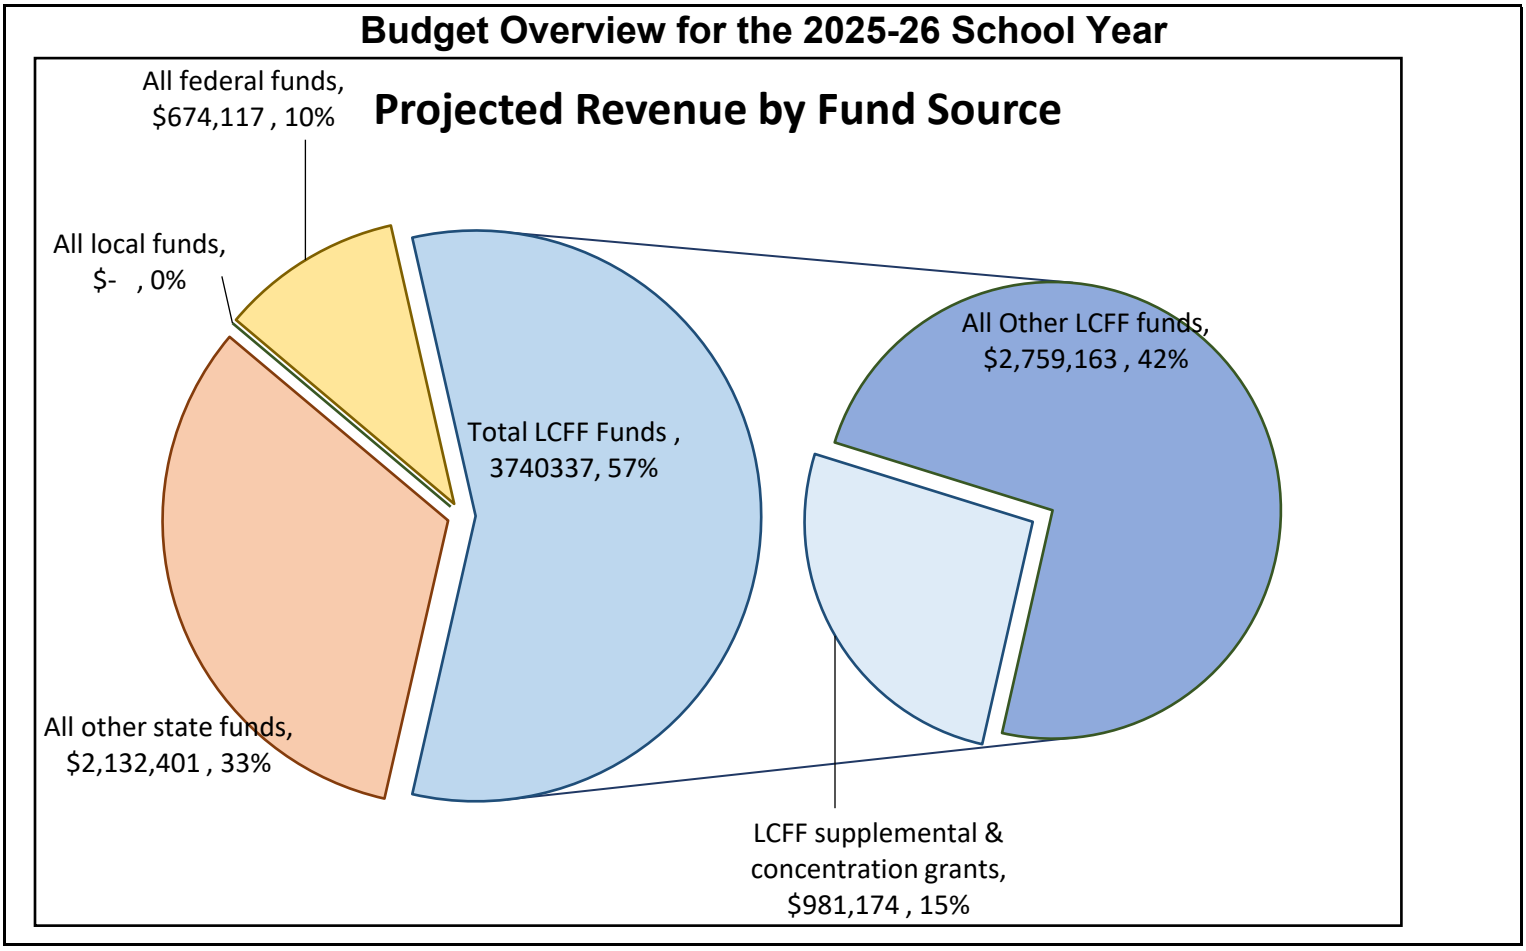
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

LCFF Budget Overview for Parents



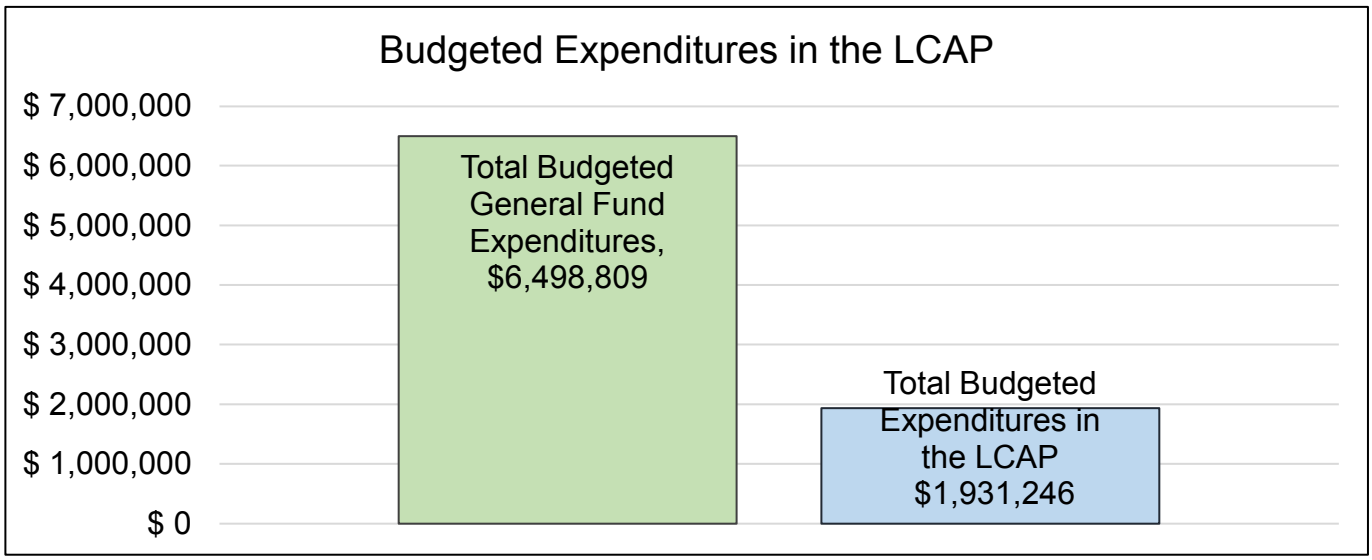
Local Educational Agency (LEA) Name: Rocketship Si Se Puede

CDS Code: 43-10439-0119024

School Year: 2025-26

LEA contact information: Benjamin Carson501-258-7831bcarson@rsed.org

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).



This chart shows the total general purpose revenue Rocketship Si Se Puede expects to receive in the coming year from all sources.

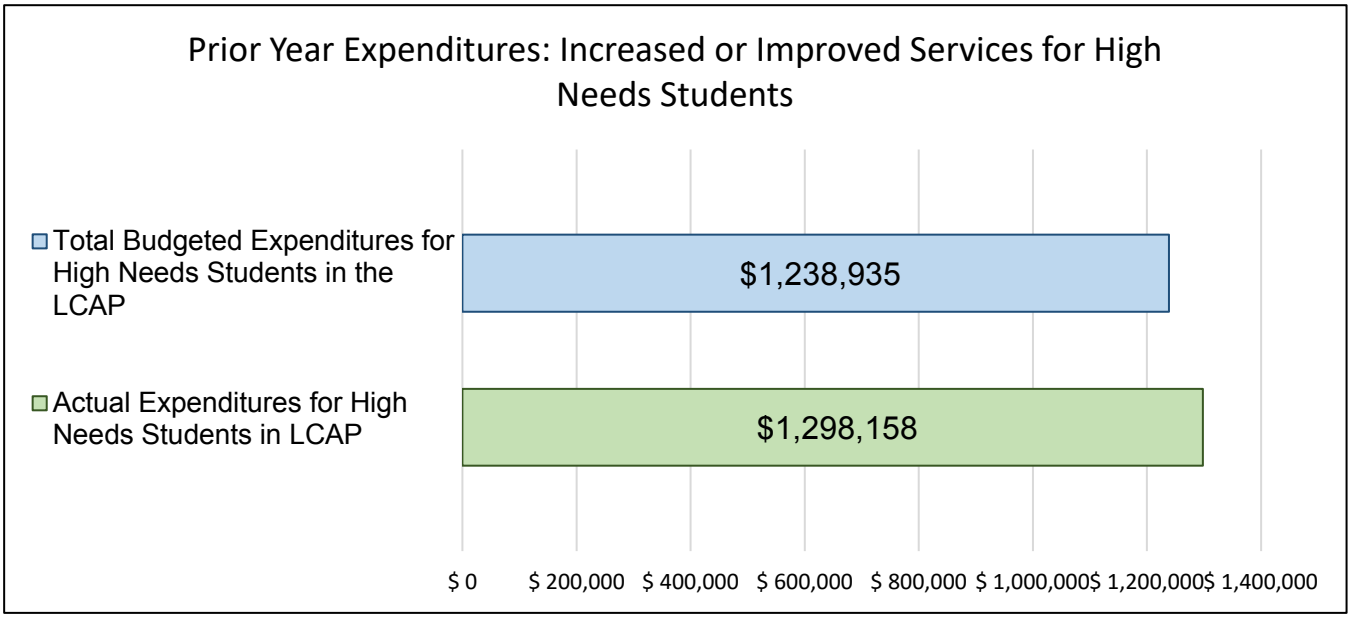
The text description for the above chart is as follows: The total revenue projected for Rocketship Si Se Puede is $6,546,855.38, of which $3,740,337.00 is Local Control Funding Formula (LCFF), $2,132,401.27 is other state funds, $0.00 is local funds, and $674,117.11 is federal funds. Of the $3,740,337.00 in LCFF Funds, $981,174.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Rocketship Si Se Puede plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Rocketship Si Se Puede plans to spend $6,498,808.55 for the 2025-26 school year. Of that amount, $1,931,245.76 is tied to actions/services in the LCAP and $4,567,562.79 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:



Rent, utilities, food service, district admin fees, network service fees, contracts subs, communications,insurance, travel & conferences, dues & memberships

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Rocketship Si Se Puede is projecting it will receive $981,174.00 based on the enrollment of foster youth, English learner, and low-income students. Rocketship Si Se Puede must describe how it intends to increase or improve services for high needs students in the LCAP. Rocketship Si Se Puede plans to spend $1,134,473.34 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Rocketship Si Se Puede budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Rocketship Si Se Puede estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Rocketship Si Se Puede's LCAP budgeted $1,238,935.35 for planned actions to increase or improve services for high needs students. Rocketship Si Se Puede actually spent $1,298,158.48 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Rocketship Sí Se Puede Academy	Danisha West, Principal	sisepuede@rsed.org; (408) 824-5180

Plan Summary 2025-26

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Rocketship Sí Se Puede Academy (RSSP) opened in August 2009, the second Rocketship campus to open in San Jose. The campus serves approximately 304 TK-5 students. Approximately 86.2% of the students are socioeconomically disadvantaged, 12.2% are Homeless Youth, 69.7% are English learners, 86.8% are Hispanic/Latinx and 8.9% are Asian. Additionally, approximately 9.5% of students qualify for special education services.

Rocketship Sí Se Puede operates a highly personalized educational model to serve the unique needs of our students. At Rocketship, personalized learning is about reaching each student with the right content at the right time using the right method of instruction. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. Given the majority FRL and EL population, Rocketship Sí Se Puede's instructional program is built around ELD principles and recognizes incoming students may be several grade levels behind. As a result, all teachers are trained in Guided Language Acquisition Design, small group instruction and differentiation to meet the needs of all students in their classrooms.

Rocketship Sí Se Puede also operates under the principles that excellent teachers and leaders create transformational schools and engaged families are essential in eliminating the achievement gap. To these ends, Rocketship invests deeply in training and development to ensure teachers and leaders have a profound impact on students and communities and Rocketship families are actively engaged in our schools, from reading in the classroom to chaperoning field trips. We also develop parent leaders in our schools and communities to become powerful advocates for their children. More details regarding how we implement personalized learning, teacher development and parent engagement follow.

All Rocketship campuses share four core values – respect, responsibility, empathy and persistence – and develop a fifth core value as a community. At RSSP this fifth core value is healthy choices. At Rocketship Sí Se Puede, our students and their families are committed to making healthy choices for their bodies and minds. We supplement our students' learning by exposing them to concepts of food system sustainability, various forms of physical exercise, growing plants, and visiting the nearby community garden.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Rocketship Sí Se Puede which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA

Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on five goals: Improve Rocketeers' proficiency in key content areas, overall and for key subgroups; Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum; School environment will be safe, welcoming, joyful, and efficient for all students and families; Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members; Rocketship families are engaged in their students' education and advocate for their communities. The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data as well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting families, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the Parent Advisory Council which will include families of English Learners. The Parent Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Rocketship Si Se Puede based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

This school does not qualify for Equity Multiplier Funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

2023 Dashboard Reflections

RSSP has identified a success in English Learner Progress (Green, 47.3%). We will build on this success by implementing action 1.3 Services to Support Multilingual Students.

RSSP has identified a success in Suspension Rate Overall (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning.

2024 Dashboard Reflections

RSSP has identified a success in Suspension Rate (Blue, 0%). We will build on this success by implementing action 4.3 Social Emotional Learning, with a focus on restorative practices.

RSSP has identified a need in Chronic Absenteeism for the Homeless student group (Red, 36.6%). We will address this need by implementing 5.5 Attendance Initiatives and 4.4 Care Corps.

Learning Recovery Emergency Block Grant (LREBG)

RSSP has $26,190 in unexpended LREBG funds for the 2025-26 school year.

The LREBG funded action may be found in Goal 1, Action 2, Special Education Supports.

The RSSP needs assessment substantiated findings from the 2024 Dashboard related to student academic needs in Chronic Absenteeism. RSSP students need tailored supports to remove barriers to success.

Although RSSP runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.

This falls under the allowable uses of the LREBG funding by integrating evidence-based pupil supports to address other barriers to learning, such as chronic absenteeism. The metric that will be used to track the effectiveness of this action is Chronic Absence rate.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Rocketship Sí Se Puede Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Rocketship Sí Se Puede Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Rocketship Sí Se Puede Academy is a single school LEA that is not eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Various	The School Site Council, which fulfills the LCAP Parent Advisory Committee role, is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) met quarterly throughout the year to reflect on data and provide input on plan development. Our School Site Council participated in a needs analysis process and identified the key successes and challenges for RSSP based on the CA School Dashboard for 2024 (See Reflections: Annual Performance) and more recent data aligned to Dashboard indicators. Our SSC and ELAC committees met for LCAP consultation on 10/8/24, 12/2/24, 1/28/25, 4/29/25. Community Members are invited to participate in any and all open community engagement, including Regional Community Advisory Board Meetings (12/17/24, 2/12/25, 5/5/25). Advocates are invited to participate in any and all open community engagement. Tribes are not applicable. We consulted our SELPA for LCAP input on 5/22/25. Our board meets quarterly as a public hearing with the opportunity for public comment. We promoted parent participation in public meetings and public hearings through website and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed. The LCAP Public hearing was held on May 28, 2025. The LCAP was adopted on June 11, 2025.
Parents	Parents provided LCAP feedback throughout the year through various parent engagement opportunities. These opportunities include, but are not limited to, monthly coffee chats with the principal–Cafecitos (9/11/24, 9/12/24, 10/9/24, 10/10/24, 12;4;24, 12/5/24, 1/8/25, 1/9/25, 2/5/25, 3/5/25, 4/2/25, 5/7/25), community meetings, and 1:1 meetings with the school leadership team. They also provided feedback through surveys (network and informal school-specific), including the Annual Parent Survey (3/4-3/21/2025).
Teachers, School Staff, Administrators	Teachers, school staff, and school administrators provided LCAP feedback throughout the year in a variety of ways--during regular staff meetings, 1:1 meetings, Brown Bag feedback meetings (10/1//24) monthly Cafecitos and staff surveys, Data Day and P.D. reflections, plus informal surveys to solicit input on specific aspects of plans.
Students	Teachers held Community Meetings with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans. Students also provided input on the Student Survey (November 18th - December 6th).

Insert or delete rows, as necessary.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

In 1.1 Personalized Learning, our teachers indicated they need more training on the Bridges curriculum. We will add training for the summer of 2025. In 1.3 Services to Support Multilingual Students, staff members observed the need to focus on integrated ELD strategies. We will provide more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students. In 2.1 High Quality Research Based Curriculum, we heard from the feedback from our teachers' Brown Bag sessions that our teachers appreciate the resources and the refinements from 23-24 to 24-25, specifically the guided reading. They wanted to be able to better meet the needs of a broad range of students in their classrooms, and introducing these three approaches is meeting those needs. We therefore plan to continue this model in 25-26. We also utilized leader and teacher feedback from the curriculum pilot to inform the adoption of CK Integrated for grades 3-5, and CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place. In 2.2 Professional Development, we received feedback from teachers and leaders on the need for more differentiated p.d. to address teachers' levels of skill and experience. In response, we expanded our new teacher orientation. In 2.4 Instructional Coaching, across the region, the average teacher rating of coaching received was 8.2 out of 10. We therefore plan to maintain our current model of coaching. In 2.5 Teacher Credentialing, beginning in the 2024-25 school year, we launched a new program partnership with Reach University. Through this partnership, we offer a Preliminary Credential Program that provides staff with both an Early Completion option and a traditional two-year pathway to earning their Preliminary Credential. Additionally, we are collaborating with Reach University to support staff in earning their Bachelor's degree in Liberal Studies, equipping them with the necessary skills and meeting equivalency requirements for Basic Skills and Content Knowledge, further preparing them for a career in teaching. In Goal 4, we expanded our Care Corps (action 4.4) service offerings in response to feedback from families regarding their needs.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Improve Rocketeers' proficiency in key content areas, overall and for key subgroups.	Broad Goal

State Priorities addressed by this goal.

This goal addresses state priorities 2-Implementation of State Standards, 4-Pupil Achievement and 8-Other Pupil Outcomes.

An explanation of why the LEA has developed this goal.

Closing the achievement gap and creating educational equity is of the highest priority for our school. The actions in this goal are designed to develop proficiency in key content areas, combining rigorous grade level instruction with personalization and student supports. The aligned metrics support progress monitoring by capturing growth and proficiency in ELA, Math, Science, and English Language Development. We are proud of the progress of our students and must continue our actions to sustain this progress. We will measure the effectiveness of 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.4 Rocketship Reads actions using the CAASPP ELA, Math, and Science metrics, as well as NWEA Reading and Math results. We will measure the effectiveness of 1.3 Services to Support Multilingual Students through English Learner Progress Indicator and EL Reclassification Rate metrics.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

1.1	CAASPP ELA: % Met or Exceeded Standard for all students and all significant subgroups Data Source: Data Quest	All Students: 59.2% English Learners: 37.5% Low Income: 54.2% Students with Disabilities: 7.7% Asian: 77.8% Hispanic/Latinx: 42.0% Data Year: 2022-23	All Students: 31.0% English Learners: 17.6% Low Income: 28.6% Students with Disabilities: 12.5% Hispanic/Latinx: 29.1% Data Year: 2023-24	[Insert outcome here]	36% Data Year: 2025-26	All Students: -28.2 English Learners: -19.9 Low Income: -25.6 Students with Disabilities: +4.8 Hispanic/Latinx: -12.9 Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 1 actions were implemented as planned. Successes and Challenges: In 1.1 Personalized Learning, we successfully implemented Tier II and utilized MTSS hubs to get the right intervention to all students. The CA team of our network also added a progress monitoring cycle across the entire region to ensure that progress is being captured for all our students. We successfully implemented a new Tier 2 math curriculum called Bridges. It was implemented in small groups within math classrooms. A challenge related to the Bridges curriculum was that although we did initial training, observations showed a need for more teacher training to implement the Bridges curriculum with full fidelity. Also in 1.1, we successfully incorporated the opportunity for students to work on their online learning platform and have exploratory centers for robots, social skills, and more. We partnered with the Bay Area Tutoring Association, so that some students based on data receive additional tutoring support during the Humanities or Learning Lab block. In 1.2, Special Education Supports, our co-teaching model has been very strong. In 1.3 Services to Support Multilingual Students, we had numerous successes. Our students continued to receive daily DELD instruction that focused on developing oral language, building academic vocabulary, and expressing ideas in speaking and writing. Instructional coaches were able to support the teachers through the use of look fors that delineated the teacher actions necessary for strong instruction. We were able to successfully implement the Interim ELPAC IA to inform instruction to better meet the individual or group needs of our students. Teachers were able to analyze domain specific data to identify the skills and knowledge students needed more practice on. Students also became more familiar with the testing platform and test structure that increased their confidence with taking the Summative ELPAC Assessment. Our schools also conducted ELAC Ambassador equity walks with new or returning representatives to continue the partnership with families of multilingual learners. Through this partnership, schools were able to find opportunities for families to support their students at home and increased family voice around the implementation of multilingual learner programs at their campuses. In 1.4 Rocketship Reads, we implemented a reading tracker, where students caught reading get initials from teachers that lead to the incentive of books from our book vending machine. Sometimes we also read as a whole school during Launch.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 1.2 we spent more than budgeted ($63,430) due to increased need for special education contractors, in part due to open roles. Contractors are more expensive than hiring internal staff.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The 1.1 Personalized Learning, 1.2 Special Education Supports, and 1.5 Rocketship Reads actions have been somewhat effective overall, as evidenced by assessment results: NWEA K-2, where we approached our target in Math and Reading; CAASPP Science, where we approached our target, and CAASPP ELA and Math, where we met our overall target in Math and approached our target in ELA. Although we see growth, there is still work to be done to achieve greater growth overall and among student groups that we will continue working to address. We began implementing new curricula for reading and math in 2023-24.

Action 1.3 Services to Support Multilingual Students was somewhat effective. In 2024, we had 41% of students making progress in the English Learner Progress Indicator. In 2024-25, we had a reclassification rate of 7.9%. Data showing the full impact of this year's LCAP goals and initiatives will be available in the summer.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 1.1 Personalized Learning, we updated the action to include additional details on academic intervention curriculum and instruction. We updated 1.3 Services to Support Multilingual Students to include the focus for the coming year. We adjusted the targets for some metrics in response to year one data: CAASPP ELA (64% to 36%), Math (28%-32%), Science (20% to 22%), ELPI (55% to 46%), and reclassification (15% to 10%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

1.1	Personalized Learning	RSSP's key instructional practices include personalization, blended learning, data-driven instruction, Intervention and teacher specialization. The specific investments for intervention include Intervention curriculum and tutors. Our objective every day is to get the right lesson to the right child at the right time. We assume that every child, especially the children in the neighborhoods we serve, will have unique learning needs that must be addressed individually. The Rocketship model combines traditional classroom instruction with blended learning, which enables online learning programs technology, small group instruction and tutoring. All students, including our Special Education students, access and benefit from this instructional model as our school operates an inclusion model. In particular, our students in Special Education benefit from our Intervention model in which they receive additional Tier II and Tier III tutoring from the general education, special education, Learning Lab and paraprofessional staff. This personalized instruction occurs in the learning lab, making investments in Learning Lab materials and classroom libraries important so that each student has the materials to receive instruction at his or her level. In addition, our adaptive Online Learning Programs (OLPs) are able to adapt to each student's level, ensuring that all aspects of our instructional program are appropriately differentiated for our students in Special Education. We invest in Chromebooks and invest budget each year to maintain a minimum of 2:1, student to Chromebook ratio. Additionally, we provide robust technological supports to ensure that our students have consistent access to the full curriculum. In 25-26, we will be in year three of implementing a new Humanities/ELA intervention curriculum and aim to be at full fidelity of implementation by end of the year. We will also be in year two of implementing a Tier 2 Math curriculum. In both subjects, participating students are grouped based on beginning and mid-year benchmark or universal screening scores and receive the intervention either during their core class or during Learning Lab, with support from teachers and tutors in small groups of 3-6 students.	$374,303 ($114,714 Title I)	Yes

1.2	Special Education Supports (LREBG)	Although RSSP runs an inclusion model, we realize that our students with disabilities (SWD) may require additional academic, social-emotional, and adaptive skills support to be successful learners. These additional supports include additional assessments, such as psycho-educational assessments, speech-language assessments and occupational therapy assessments; additional staffing supports, such as adaptive PE instructors, physical therapists, mental health supports and assistive technology specialists; additional materials, including instructional supplies for speech lessons, counseling materials for school psychologists and occupational therapy materials; and adaptive technology.	$177,969	No

1.3	Services to Support Multilingual Students	Our continued goal is that emerging bilingual students make steady progress towards English language proficiency, by growing at least one level on the ELPAC assessment and reach proficiency prior to 5th grade. This will also benefit students in their access to content instruction, as students who have been reclassified have sustained academic achievement each year. Last year 24-25, we continued to focus on EL Roadmap Principle 2 by explicitly teaching ELD during protected time of the day and focusing on higher quality Tier 1 instruction through the use of stronger integrated ELD strategies. We focused on comprehensible input such as vocabulary building, sentence frames for oral language development, and language level prompting to engage students in content. This focus was elevated by GLAD strategies through professional development and coaching support. We invested in formative assessments, by fully administering the ELPAC Interim Assessments in a standardized testing environment for all language domains to inform instruction and student practice. Newcomer supports were amplified through Multilingual Learner Specialists who provided additional direct services to students, where students engage in lessons that addressed not only their English language acquisition needs, but also their social emotional needs. Students also received foundational skills development to improve their reading skills in English. With bilingual Multilingual Learner Specialists, students received home language supports to accelerate English language acquisition. We also continue to elect ELAC Ambassadors to increase family voice in the program implementation and family partnership, and at home supports. In 25-26, we will continue to have strong DELD instruction through coaching, clear look fors, and data analysis of the Interim ELPAC IA. For integrated ELD strategies, we will provided more guidance on the use of comprehensible input so that students move along the language continuum. We will have our ML Specialists continue their support with newcomer interventions as needed and will provide them with more content knowledge development to be able to push into content classes to increase access for students.	$40,105	No

1.4	Rocketship Reads	Rocketship Sí Se Puede will implement a Rocketship Reads campaign to increase student participation in reading, with the hope of improving ELA scores. This will include working with our humanities teachers on modeling reading as an everyday activity, implementing reading intervention, and providing incentives to celebrate students for reading at school and at home.	$41,110	Yes

Insert or delete rows, as necessary.

Goal

Goal #	Description	Type of Goal
2	Rocketeers will be taught by highly qualified teachers and educators with robust training and development on common core standards aligned curriculum	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 2-Implementation of Academic Standards.

An explanation of why the LEA has developed this goal.

Rocketship deeply values our teacher development, and the action items related to this goal are core components of teacher preparedness and development and access to standards-aligned curriculum and instruction. We will monitor progress toward this goal through implementation of adopted standards, provision of credentialed and properly assigned teachers, and access to standards aligned instructional materials. We will measure the effectiveness of 2.1 High quality, research-based curriculum, 2.2 Professional Development, 2.3 Data Driven Instructional Practices, and 2.4 Instructional Coaching through % of students with access to their own copies of standards aligned instructional materials for use at school and at home and % of adopted standards including ELD standards implemented. We will measure the effectiveness of 2.5 Teacher Credentialing through the Number/% of total and EL teachers credentialed & properly assigned.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	% of students with access to their own copies of standards aligned instructional materials for use at school and at home Data Source: Williams' Textbook Sufficiency Report	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
2.2	Number/% of total and EL teachers credentialed & properly assigned Data Source: Internal Staffing Data Tracker	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 2 actions were implemented as planned. In 2.1, we also rolled out three approaches to reading small group instruction for TK-5:1)foundational skills small group instruction, 2)applied decoding guided reading, and 3)novel studies guided reading. In 2.2, we also had a series of regional p.d. sessions where folks from multiple campuses came together and engaged in p.d. tailored to their content areas. Successes and Challenges: In 2.1 High Quality, Research Based Curriculum, we saw success in the mid-year NWEA Reading results, where across the network we had a 4% increase over the prior year of students moving into the upper third level (67th percentile and above). We saw the most growth in K and 3-5. A related challenge in 2.1 is that we are working on increasing growth for grades 1-2. We may refine our approaches to foundational skills and applied decoding guided reading. In 2.2 Professional Development, a success was that we expanded teacher orientation this year to two days from one day previously, based on teacher input. In 2.2, it has been a challenge to design network wide p.d. to meet the needs of the different schools, given the different curriculum we piloted. We are excited to move everyone to CKLA for next year. Differentiating across a range of teacher experience was also challenging. To address that, we are expanding new teacher orientation from two days to three. Overall, though, the direct instruction was successful for teachers in that they were better able to internalize the curriculum, and we noted a positive teacher perception of the p.d. In 2.4 Instructional Coaching, a success was that we elevated the resources we have for in the moment coaching around the vision for the different parts of the block and our approaches to in the moment coaching. We refined the "Core Block Look Fors" We launched regional module launches where teachers get together with others from their grade level to plan upcoming units. In 2.5 Teacher Credentialing, a success is that offering staff additional study resources and PTO specifically for credentialing has enabled the region to prioritize testing requirements while ensuring dedicated time for staff to complete their program enrollment requirements. A challenge in 2.5 is that the state has recently introduced CSET exemptions, though only some of our staff qualify. These exemptions help alleviate testing pressures but are limited in availability. Another challenge is passing the tests. In 2.6 Culturally Responsive Pedagogy, we had impactful DEI professional development four times this year. We also hosted a staff culturally responsive book club, which was appreciated.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 2.1 we spent more than budgeted ($12,175) because Core curriculum expenses were higher than anticipated. In 2.4 we spent more than budgeted ($103,750). Instructional coaching is primarily conducted by Assistant Principals. This school had more AP's on staff this year vs. budget, resulting in higher instructional coaching expenses. In 2.5 we spent less than budgeted (-$12,688). A larger number of credentialed teachers were hired, resulting in lower teacher credentialing costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The High Quality, Research Based Curriculum, Professional Development, Assessments, Data Days, Coaching, and Culturally Responsive Pedagogy actions were highly effective as evidenced by our strong implementation of adopted standards including ELD standards, combined with excellent instructional materials provided to all students, and by our assessment results (see Goal 1) which show growth and progress

toward our targets. Teacher feedback also indicates that teachers feel they are receiving strong coaching and professional development ant that they are growing in their practice. The Teacher Credentialing action was highly effective as evidenced by the Number/% of total and EL teachers credentialed & properly assigned: 100%. Teachers appreciate the supports from the network toward their credentialing.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2.1, we added information about curriculum adoptions for 25-26. In 2.2, we added information about our expanded new teacher orientation. In 2.3 Data Driven Instructional Practices, we updated the list of assessments to reflect current plans and expanded the description of our cycle of data analysis to provide more detail. In 2.5 Teacher Credentialing, we updated the action description to provide additional details on our efforts to support our teachers with credentialing.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

2.1	High Quality, Research-based Curriculum	The RSSP curriculum follows the California adoption of the Common Core State Standards (“CCSS”) for the subject areas of: English/Language Arts (includes Writing), and Mathematics, as well as the state standards for Social Studies, Art and Music and the Next Generation Science Standards. Rocketship has established ELA and Math focus standards – the most rigorous CCSS at each grade level – as the most important markers of success in order to prioritize the focus of instruction while also ensuring that all grade-level standards are addressed in every course. RSSP operates an inclusion model and therefore this core curriculum will benefit all students including students in Special Education. Rocketship teachers will use the ELD Standards and Framework to embed analytical tasks, receptive tasks and productive language functions into the curriculum to aid language acquisition. RSSP utilizes a Balanced Literacy approach for ELA instruction with a significant focus on Guided Reading. Expanding the breadth and depth of our classroom libraries will ensure that all students have access to a wide variety of texts to meet the different genre requirements in Common Core, as well as ensuring that all students have access to books at their appropriate reading level. For EL students, this can be particularly motivating and a useful strategy to engage reluctant or struggling readers. These expanded libraries will also enable us to loan out books for students to take home, so that families can support reading and language acquisition efforts at home. The continued use of online learning programs (OLPs) ensures that students receive personalized instruction and appropriate supports. For 25-26, we will be adopting CK Integrated for grades 3-5, CKLA Knowledge for K-2 to pair with CKLA Skills which is already in place.	$22,253	No

2.2	Professional Development	Professional Development is a critical component of the RSSP program. We will continue to implement a comprehensive program of professional development informed by data and best practices in order to continually improve and progress toward our goals. We will continue to build on the increased differentiation of professional development for teachers and leaders to better meet the adults where they are at. We will adapt the content of professional development as needed, based on the needs of our students, and we will adjust summer professional development for each subsequent year to better prepare teachers and leaders to meet the needs. Summer PD Each summer, RSSP hosts an intensive three week summer training for all teachers that emphasizes foundational knowledge in culture and classroom. We provide training in classroom management and effective planning, including daily lessons, units, and yearlong plans. We also introduce foundational components of the Rocketship program, including the use of data, instructional techniques, and the scope and sequence of curricula, and family engagement. Sessions are differentiated by subject and grade and focus on skill-building to maximize teacher time. New teachers attend an additional three days of orientation. Thursday PD Rocketship schools dedicate at least 200 hours throughout the school year for staff PD. We dismiss students two and a half hours early one day a week to allow for an afternoon of purposeful and customized PD and culture building for staff. The Principals and Assistant Principals at each school facilitate and organize sessions at each school, targeting the areas of development they see as most beneficial to the staff, personalizing supports for teachers. Professional Development Fund RSSP has a number of veteran Rocketship teachers who express a strong desire to continue honing their craft and developing as professionals. RSSP will establish a professional development fund to reward high-performing teachers with additional learning opportunities and to incentivize experienced teachers to continue working at Rocketship where their development is made a priority.	$129,633	Yes

2.3	Data Driven Instructional Practices	Students will take a variety of internal and external assessments to determine progress and areas of weakness. Assessments include: • At least one round of STEM state test primer assessment and Science • At least one round of Humanities state test primer assessment • NWEA three times per year for K-2, NWEA three times per year for 3-5. • DIBELS at least three times per year (beginning, middle, and end) • State-mandated CAASPP • State-mandated EL Testing (ELPAC) • Alternative state assessments SANDI and CAA for students identified in their IEP as needing an alternate assessment • Initial and summative Alternative ELPAC for English Learners identified in their IEP as needing an alternate assessment Following administration of each round of end-of-unit assessments, the teachers and their school leader coach engage in a data analysis meeting to 1) identify key trends in student performance, 2) analyze root causes of student learning gaps, 3) develop targeted action steps to address areas of need and improve student outcomes. We also engage in a full-day professional development and data analysis ("Data Days") after our Fall and Winter NWEA windows 3-4 times per year, with two in September, one in January, and sometimes one in March. As a key component of these data days, a teacher identifies overall positive trends of the entire class and challenges as well. Learning how to better utilize data enables teachers to improve instructional practices and better serve all students.	$38,545	Yes
2.4	Instructional Coaching	The foundational piece of our ongoing staff development is customized, targeted one-on-one coaching provided by Assistant Principals or Principals to teachers. RSSP teachers receive ongoing coaching and support from the Assistant Principal or Principal responsible for their grade level. Teachers also engage in content-focused coaching in like content groups. This typically includes about three hours per week of support for our newest teachers or others who need extra support. This helps teachers better instruct all students, including ELs and students in Special Education.	$112,124	Yes

2.5	Teacher Credentialing	Our team will continue to ensure 100% of our teachers are in compliance. We are working diligently to communicate requirements and work with school teams to support teachers with studying and passing necessary tests.We will be providing staff with additional study resources and PTO designated for Credentialing related items. We hope this will help them feel supported in the process and will enable them to pass exams on their first attempt. We have initiated a new Program Partnership with Reach University that provides staff with an Early Completion option and a Traditional Two year route to earning their Preliminary Credential. Rocketship will continue exploring additional credential program partnerships to better support our Education Specialist and PK3 Eligible staff. Our goal is to establish similar partnerships to the one we have with Reach, expanding access to quality training through various institutions. We continue to strengthen our internal career pathway by also partnering with Reach University to allow staff to earn their Bachelor's degree in Liberal studies. The Liberal Studies BA further prepares them for the teaching profession by earning equivalency for the Basic Skills and Content knowledge requirements. We are excited to see teachers continue to pass their tests and enroll and pursue their Preliminary Credential in the 25-26 school year.	$4,493	No
2.6	Culturally Responsive Pedagogy	RSSP is committed to cultural competence in honoring and welcoming our students' community and elevating our curricula to be more and more representative and culturally competent, providing windows and mirrors for Rocketeers through our classroom libraries and text selection. This includes refining our curriculum with socio-political consciousness, where we are building culturally responsive and inclusive lesson objectives and resources embedded within Humanities and SEL lessons.	$0	No

Goal

Goal #	Description	Type of Goal
3	School environment will be safe, welcoming, joyful, and efficient for all students and families	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 1-Basic Services and 6-School Climate.

An explanation of why the LEA has developed this goal.

Safety is a top priority, and we believe that a safe, welcoming, joyful and efficient environment forms a strong foundation for learning. The actions in this goal are key components of strong operations and positive school climate. We will monitor progress toward this goal through key indicators of a safe and positive environment-- facilities inspections and perceptions of safety. We will measure the effectiveness of 3.1 Operations Staffing & Development, 3.3 Safety Training, and 3.4 School-wide Operational Systems & Routines through student and family survey results on perceptions of campus safety. We will measure the effectiveness of 3.2 Facilities Maintenance through Facilities Inspections meeting the "good repair" standard.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	% of facilities meeting the “good repair” standard Data Source: iAuditor Internal Data	100% Data Year: 2022-23	100% Data Year: 2023-24	[Insert outcome here]	100% Data Year: 2025-26	Maintained Data Year: 2023-24
3.2	% of students feel safe on campus (As measured by student survey) Data Source: Internal Survey	79% Data Year: 2023-24	75% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	-4 Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 3 actions were implemented as planned. Successes and Challenges: In 3.1, we had to reduce hours for some operations roles, which was challenging, but we have innovated to make it work. In 3.3 Safety Training, We have implemented additional controlled access on the front door of our campus. All entrants must be buzzed into the front entrance and then check in. We implemented a weekly safety walkthrough where BOM checks all security systems on campus to ensure they are working. We added an emergency survey which acts as a log for all safety incidents on campus.The additional cameras and Verkada system have been very helpful. In 3.4 Schoolwide Operational Systems and Routines, Based on our mid-year walkthroughs, we have successfully met expectations for operations systems. Our network successfully tracked check-ins to ensure regular development of Operations Specialists. We conducted training for Operations Specialists on Excel, giving student directions, safety scenarios practice.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The Facilities Maintenance and Safety Training actions were effective as evidenced by the facilities meet the “good repair” standard: 100%. The Operations Staffing & Development and School-wide Operational Systems & Routines actions were effective overall as evidenced by family and student survey results: % of students feel safe on campus: 75% and % of families feel campus is safe: 83%. We placed a heavy emphasis on campus safety and improving our systems for operations, and we will continue this work. Overall, our family survey results were very strong in operations.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not applicable.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Operations Staffing & Development	Our school employs a Business Operations Manager to manage support staff and oversee the daily operations of the school including the school breakfast and lunch program, arrival and dismissal, and the safety and cleanliness of all common spaces. Our BOM serves as safety lead for campus, planning and leading safety training for all school-based staff at the site. Our BOM is responsible for knowing the safety plan, communicating it to the team, holding the safety meetings with the school leadership team, and ensuring compliance with required safety drills. Our BOM acts as liaison to ensure safety protocols are followed with afterschool programs as well. Our BOM ensures all safety equipment and supplies are complete, current, and functioning well. Operations Specialists fulfill essential functions as planned in supporting meal programs, daily transitions on campus, and all aspects of operations. Operations Specialists staff arrival and dismissal and lead recess and lunch for all students. They also support daily operations tasks like copies for teachers, doing physical space walkthroughs, delivering packages to classrooms, and other functions. Operations Specialists serve as our families' daily touchpoint with the school, and are a key aspect of school safety and parent satisfaction.	$410,970	Yes

3.2	Facilities Maintenance	We ensure that school facilities are in good repair through preventative maintenance. This includes annual inspections aligned with the state Office of Public School Construction Facilities Inspection tool. As a result, we invest in necessary repairs and upgrades to ensure the school is a safe and welcoming environment for students, families and staff. Our school will invest in new furniture to replace aging furniture items. This contributes to a feeling of safety in the classroom. We will continue to update and upgrade technology that is used for instruction in the classrooms. This may include projector replacements, phasing out older models with better ones, and introducing different technology according to the needs of the site Teachers will be given a budget for purchases related to decorating their room, and/or outfitting their classroom with additional materials not covered under the instructional supply budget. In order to provide a safe and clean environment in which teachers can focus on teaching, students can focus on learning, and school leaders can focus on leading, we utilize a custodial service to ensure the daily upkeep of the campus and to identify any safety concerns or necessary repairs of the building.	$189,306	No
3.3	Safety Training	We annually update our school safety plan, including feedback from the police and fire departments. In alignment with these plans, we provide a full program of safety training and information to be shared with staff, students and parents. We conduct three annual safety audits to ensure that all safety procedures are being followed, and this feedback is provided to the BOM so they can act on it to ensure all protocols are being followed on campus, including streamlined sign-in procedures for all staff and visitors that provide for a timely understanding of who is entering our school. In our safety plans, we have requested that everyone in the community report any suspicious activities around or on campus to the principal for further investigation. We are training our staff members to use the technology and facilities around them to keep students safe during school and during our extended day programs.	$11,269	No

3.4	School-wide Operational Systems & Routines	Our operations team receives feedback on their operations systems and routines three times per year. After each cycle of feedback, they create an action plan to address the feedback. They engage in progress monitoring with their staff to improve the systems in between the cycles of feedback. In order to support our BOM in their critical functions, we provide extensive training and coaching opportunities. Professional development for BOMs includes training in the skills that make them strong and effective leaders, such as influence, collaboration, and effective communication, in addition to the concrete operations systems and tasks critical to their role.We continue to invest in the development and p.d. of our Ops Specialists, with opportunities such as network PD monthly, 2x monthly one-on-ones with BOMs, and joining whole-school p.d.s depending on the topic. We develop areas of technical expertise among our Operations Specialists, such as IT, Compliance, and Behavior Management.	$0	No

Goal

Goal #	Description	Type of Goal
4	Rocketship students will have access to opportunities that support them to become well-rounded, self motivated, engaged community members.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 6-School Climate; and 7-Course Access.

An explanation of why the LEA has developed this goal.

Delivering a well-rounded education builds the critical thinking, team work, character skills and values that our Rocketeers need to thrive in school and life. Actions in this goal support student development and engagement. We will monitor progress toward this goal through key indicators of climate, course access, and student engagement--suspension/expulsion rates, access to a broad course of study, and student perceptions of connectedness. Specifically, we will measure the effectiveness of 4.1 Enrichment and 4.2 Outdoor Education and Community Experiences through the % of students with access to a broad course of study, including unduplicated students and students with exceptional needs. We will use the student perceptions of connectedness, Suspension rate, and Expulsion rate metrics to measure the effectiveness of 4.3 Social Emotional Learning and 4.4 Care Corps actions.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	% of students feel connected to at least one staff member (As measured by student survey) Data Source: Internal Survey	82% Data Year: 2023-24	82% Data Year: 2024-25	[Insert outcome here]	75% Data Year: 2026-27	Maintained Data Year: 2024-25

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 4 actions were implemented as planned. Successes and Challenges: In 4.1 Enrichment, a success was that the majority of campuses have an Enrichment Center Coordinator (ECC) to support students' exposure and learning of science. Our Science ECCs have access and support in using high quality resources and facilitate student engagement in the work of scientists anchored in activities aligned to the 5 Es (engage, explore, explain, elaborate, and evaluate). A related challenge is both the total number of students our enrichment coordinators are working with each week (at least 200 across 2+ grades) and the limited number of minutes they have to support students. We are pleased to offer art and p.e. for all students, with a virtual reality coding program for grades 4 and 5. In 4.2 Outdoor Education and Community Experiences,we held successful science camp trips for grades 4 and 5, as measured by early planning and completion with minimal needs to reschedule and network wide average attendance of over 80% of students. A challenge in 4.2 is the scheduling of the trips in the effort to balance availability and competing calendar events. In 4.4 Care Corps, we saw success in having Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. Across our thirteen CA schools, over 550 Tier III families have been served thanks to their strong partnership. 5,500 Rocketeers have been screened for Vision, Hearing and/or Dental. Rocketship Parent University (RPU) has conducted over 70 parent workshops. Care Closet has served 470 families. A challenge experienced in 4.4 is that implementing SART / RARB requires more additional staff training and support so it is implemented with fidelity and consistency. That is something we are working to address. We are planning for next year to be a Care Corps resource hub for the Care Corps Coordinators in our network, an initiative we are very excited about.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 4.1 we spent less than budgeted (-$20,373)because we had fewer enrichment center coordinators due to shifts in staffing.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Social Emotional Learning action was effective, as evidenced by % of student feel connected to at least one staff member (As measured by student survey) (82%), by Suspension rate for all students and all significant subgroups (0%), and by Expulsion rate for all students and all significant subgroups (0%). While we are pleased with the progress made, we plan to continue to grow our practices in SEL and school mental health, in order to address the increased needs of our students. The Enrichment and Outdoor Education and Community Experiences actions were effective as evidenced by 100% of students with access to a broad course of study. The Care Corps action was effective as evidenced by 83% of parents who report feeling connected (As measured by parent survey question, “My Rocketship school has a strong and committed community that actively encourages family participation”), and the portion of parents with input into decision making (Parent survey participation rate–91%).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 4.4 Care Corps, we updated the action description with additional details on our Care Corps support.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

4.1	Enrichment	Enrichment is a critical component of a students' education at Rocketship. In addition to aligning with CCSS standards, time spent in the Enrichment Center provides students with fun and engaging activities that increase their focus and commitment during core instruction. The Enrichment Center Coordinators provide students with the opportunity to engage in physical education, art, science, and various other enrichment activities, so that our students, including English learners, low income students, foster youth, and students with exceptional needs, have access to a broad course of study. The Coordinators play a critical role in strengthening school culture. Importantly, enrichment also provides an opportunity for students to excel and show off talents that may not be immediately apparent in a general education setting. For our students in Special Education, this can be an especially motivating and engaging portion of their day.	$129,560	Yes
4.2	Outdoor Education and Community Experiences	Field Trips provide an important opportunity to both deepen students' learning and increase engagement. Many of the field trips taken are science and/or social studies related, enabling teachers to integrate the learning into their thematic units back in the classroom. In addition, parents often attend field trips with their students, thereby increasing parental engagement as well. The cornerstones of our field trip experience are Fourth and Fifth Grade Camp from Santa Cruz to Sebastopol. Each year, Rocketship 4th graders attend a three-day overnight Outdoor Education program, and Rocketship 5th graders go for one week of hiking, science lessons, outdoor exploration and fun. For many Rocketeers, this is one of their first experiences leaving home. Field trips and overnight trips will be held to the extent possible in consideration of public health guidelines, availability, and stakeholder input.	$28,624	Yes

4.3	Social Emotional Learning	At Rocketship Sí Se Puede we look to the Collaborative for Academic, Social, and Emotional Learning (CASEL) to define and describe our intentions when developing programs and measuring students' social-emotional development, the CASEL Framework identifies 5 competencies: self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. Our daily schedule reflects our value of SEL as every student begins their day with a Community Meeting that blends relationship-building elements with an SEL lesson that includes prosocial skills instruction and highlights our Rocketship Sí Se Puede core values: respect, responsibility, persistence, empathy, and community. Our Tier 1 SEL Curriculum (The Shortest Distance) is designed with consideration for the CASEL framework, our Rocketship core values, and culturally responsive pedagogy. The Shortest Distance provides daily lessons which include children's literature as a platform for discussion, reflection, and social skills practice. Our SEL approach also draws upon resources from RULER, Zones of Regulation, and the Kimochis curriculum. Along with our SEL lessons, we have developed a community meeting framework for teachers to ensure there are relationship building opportunities for students to connect, disengage stress, make commitments, and unite as a community. In addition to the classroom level community meeting, each Rocketship campus begins the school day with Launch, which is a period of time for the whole school to come together as a community. This usually includes one of the core values being emphasized and celebrated (i.e., a "core value of the month"). During Launch, the school may also promote a particular successful student habit, such as preparedness, going above and beyond, or kindness/bullying prevention. Schools may also teach a new feature of an incentive or behavior management system. Launch is also a time to promote school-wide academic progress. School leaders may teach everyone a word or idiom of the day or celebrate progress toward achievement goals. Finally, schools may use Launch time to foster school culture and pride, and student engagement. The whole school, including the staff, may learn a song or a dance together or celebrate a particular student or classroom's recent accomplishment.	$83,661	No

		Positive Behavioral Interventions and Supports (PBIS) is a framework for creating learning environments that are consistent, predictable, positive, and safe. Our school has a PBIS Team comprised of a cross-section of staff members, including teachers, school leaders, and operational and support staff members, who work to support positive behavior and behavior interventions at the school. We screen students for behavioral and social concerns using a universal screener and provide Tier 2 and Tier 3 social and behavioral support, as needed. We also utilize Wellness Counselors for individual student support and providing small group support working with the SEL curriculum and other evidenced-based and trauma-informed curriculum. This year we will be increasing our tiers of support. We are adding a Wellness Counselor intern program to our already existing Wellness Counseling team. We will be leveraging this program to increase our tier 2 and tier 3 support (i.e. social skills groups, counseling, check-in check-out, etc.) in order to meet the expected increased needs of our students.		

4.4	Care Corps	In order for our students to have the capacity to learn and grow--and the space to become life-long learners--they need to have their basic needs (e.g., food, shelter, safety) met. Our Care Corps staff regularly check in with families and teachers throughout the school year to identify families who may benefit from community support in making sure that their students' needs are all met. Care Corps staff are familiar with community resources, including those available to Rocketship families due to partnerships with community organizations, and can refer families to resources that will meet their needs. Care Corps staff follow up with families to make sure that they are successful in accessing those resources and that their students are able to come to school ready to learn. We have expanded our Care Corps program to be an internal wrap-around Community Schools program supporting families with accessing medical, dental, mental, financial, immigration, and other various services at each of our 13 Bay Area school sites. This program is an integrated student support program working to address out-of-school barriers to learning through partnerships with social and health service agencies and providers. We have four main initiatives: **Food Distribution:** We service 800 families every month across San Jose and East Bay. **Care Closet:** Free clothing families can access either at food distribution sites or on campus. Rocketship Parent University: Parent workshops in evenings throughout week on topics such as parenting, digital literacy, and Know Your Rights workshops (immigration, college access, housing, for example). **Health Screenings:** We conduct health screenings for all students, including vision, hearing, and dental through the Healthy Kids Foundation. We partner with Bay Area Community Health Clinics to provide Rocketeers with the CA required school immunizations. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program	$58,207	No

		Tier II: Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3) Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

Goal

Goal #	Description	Type of Goal
5	Rocketship families are engaged in their students' education and advocate for their communities.	Broad Goal

State Priorities addressed by this goal.

This broad goal addresses state priorities 3-Parent Engagement and 5-Student Engagement.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. Family involvement is a cornerstone of our school model. Actions in this goal are key components of student and family engagement. We will monitor progress toward this goal through key indicators of engagement--attendance and absenteeism rates and measures of family outreach, parent involvement, and parent perceptions of satisfaction and connectedness. Specifically, we will measure the effectiveness of

5.1 Family Engagement, 5.2 Family Advocacy and Leadership, 5.3 School-Family Partnership, and 5.4 Los Dichos through % of parents who are involved, % of home visits completed, parent satisfaction and connectedness survey results, and parent input into decision making metrics. We plan to measure the effectiveness of 5.5 Attendance Initiatives through Attendance rate and Chronic Absenteeism rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis for 2024-25

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All Goal 5 actions were implemented as planned. Successes and Challenges: In 5.1 Family Engagement, as part of the summer and beginning of the year, we execute the Day 0-30 plan which outlines key events and specific goals around home visits, orientation, attendance to name a few. The goal as a region for Homevisits was 50% before the first day of school and 90% by December. We were able to achieve 52% by day one of school and 94% by December. Our orientation goal was 90% of all families participating which was also exceeded by all

of our schools. We firmly believe that implementing these core practices sets the foundation for a strong partnership and relationship building for families and staff. Families engaging at in person events is a challenge given the variety of families and households that we serve. Another challenge in 5.1 is in getting more families and not the same families to engage. A challenge in 5.2 is for our school leaders and staff to continue to diversify opportunities that can be tailored to families who may not have the flexibility to participate in person during the day or after school due to work or personal situations. In 5.2 Family Advocacy and Leadership, we were pleased to have our network SSC presidents come together in Regional Advisory Boards--a blend of the SSC leaders and CLOC leaders to share testimony, leadership journey and path to advocacy with the national board of directors. This is an annual opportunity to meet the board, to share and ask questions. It also serves as a yearly pulse check for how we are doing in family advocacy. Our CLOC focused this year on advocating for renewal, engaging trustees on the renewal process, meeting with representatives, organizing at hearings, and leading voter registration drives. Our families in January this year engaged in immigration related topics. We also held an immigration forum on Zoom that featured local advocacy organizations to share resources and information on the topic of immigration. We had over 400 participants. After that event, many families expressed interest in doing more on this topic. We are now launching a Civic Engagement Advocacy Fellowship initiative, honing the skills of civic leadership for families, addressing the question of what does it take to become an influence in the community, a force for change. Then our participants can choose what direction to go with those new skills. In 5.3 School-Family Partnership, a we were pleased to have all new to Rocketship Staff engage in professional development sessions around family engagement vision, home visit purpose and best practices, family teacher conferences, etc. This year we met our network goals around family engagement metrics such as Homevisits by December 90%+ and Family -Teacher conferences. In 5.3 one challenge we have is around the amount of families who experience hardships that prevent them coming to school and being able to connect them with the appropriate resources. Our Care Corps coordinators do an incredible job already but the needs of our families continue to increase. To solve for this, our Care Corps teams focus on identifying new outside agencies to diversify supports for our families. In 5.5 Los Dichos, a success was how the Los Dichos training equips families with public speaking skills and reading skills to better support their child at home and in the classroom (eg. Hold the book to the side so the children can see the pictures, pause when reading and make eye contact with the students, bring the book to life when reading, ask the students questions for comprehension and to make life connections). One challenge in 5.5 that we have is reaching a spread of 7 grade levels with just two lesson plans per month. The current breakdown is TK-G1 and G2-G5. Next year, we plan to move G2 down with the lower grades to support their understanding. In 5.6 Attendance Initiatives, we successfully used data to design incentives to promote attendance. Another success is how our Coordinators and Office Managers work closely to identify chronically absent students with the highest needs. Those students are then screened and become part of the Care Corps Coordinator caseload for 9 weeks. 550 Tier III families have been served thanks to their strong partnership. A challenge in 5.6 is that connecting chronically absent families to long term housing and transportation options has been challenging. Some families do not want to take public transportation. At the network level, we need more training for staff so everyone implements best practices consistently across all schools.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 5.5 we spent less than budgeted (-$12,546) due to fewer expenses identified compared to budget.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Parent engagement, Parent Advocacy and Leadership, and Los Dichos were effective as evidenced by % of parents are involved (% parents on track to complete participation hours) (84%). Parent Advocacy and Leadership was effective as evidenced by % Home visits completed (100%) School Family Partnership was effective as evidenced by % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey) (89%). 5.6 Attendance Initiatives was effective Average Daily Attendance (93%), by Chronic Absenteeism rate for all students and all significant subgroups (27% overall).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

We updated the action description to provide more detail on our program to address chronic absenteeism. We adjusted the targets for some metrics in response to year one data: ADA (95% to 94%), Chronic Absenteeism (10% to 20%). Parent involvement (89% to 90%), Parent Satisfaction (84% to 90%), Parent Connectedness (85% to 90%).

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing

5.1	Family Engagement	We believe that families are their student's first teachers and are critical partners in student and school success. It is our responsibility to ensure all families have access to engage meaningfully with our schools, including those who speak a language other than English. Therefore, we must build and cultivate a strong sense of community where families build strong relationships with each other and with our teams to ensure families' basic needs are met. We have designed our family engagement model with particular attention to encouraging participation of parents and guardians of our low income students, English learners, foster youth, and students with exceptional needs. To accomplish this, we leverage key communication structures and core family engagement opportunities for all families, including: Communication: We keep our families informed through monthly calendars, messaging from school to families, an active social media presence, Google calendar. We seek family input through many channels, including twice annual family surveys. We conduct a smaller survey after the first 30 days of school in order to get actionable feedback which is then analyzed and addressed. We conduct a more comprehensive survey in spring to assess the impact of adjustments made and inform plans for the coming year. Relationship Building: We engage in home visits, challenging the traditional school-family power dynamic by going to our families' homes and building relationships with them. We also hold Family Conferences three times per year, and we host an annual New Family Spring Welcome Party. Cafecitos: An open forum to build relationships, share feedback, brainstorm opportunities, celebrate community/school wins, and learn about important school priorities/updates with the Principal and other school leaders. Community Meetings/Family Workshops: We hold Community Meetings/Family Workshops to increase awareness and provide skill-building opportunities for families to partner with teachers to positively impact academic student outcomes.	$65,568	Yes

		Family Events: Family events strengthen relationships between the school and at home by fostering joyful and engaging experiences for all. We also want our students to feel seen and know their whole identity is celebrated. These are meaningful experiences for the entire community to celebrate diverse cultures and build relationships in fun and engaging ways. Examples include: Día del Niño, Tet, Día de los Muertos, Lunar New Year, Black History Cultural Events, Holi, Diwali, Winter Showcase/Wonderland, Talent Show, Enrichment Fair, Art Expo, Movie Nights, Middle School Expo, or Family Reading Night. We hold summer events, such as Family Orientation and Back to School BBQ. We also hold Rocketeer Recognition Ceremonies to celebrate student growth and achievement. College Visits: We hold an annual college trip to foster a college-going culture by allowing families and Rocketeers to see themselves on a college campus. Family Partnership: We provide our families with opportunities to foster meaningful academic engagement and partnership both in and out of school, including, in addition to the above options, chaperoning camp/field trips, volunteering in class or on campus, engaging in out-of-school projects with students, and posting/sharing photos of engaging with students in extracurricular events.		

5.2	Family Advocacy and Leadership	In engaging families, we believe it is critical to partner and co-create pathways for self-advocacy and critical consciousness that families can use to navigate the educational and political systems in and outside of Rocketship. We want our families to challenge the inequities they see and seek opportunities to elevate their voices as they advocate for their student/s within Rocketship and beyond. Advocacy opportunities for all families include: School Site Council (SSC) and English Learner Advisory Committee (ELAC): SSC and ELAC Committees provide a space where parents can provide feedback on various school-related issues and provide the opportunity for our school team and parents to work collaboratively for the betterment of students and the school community. ELAC has a special focus on meeting the needs of our Multilingual Learners. Regional Advisory Board: We will continue working through our Regional Advisory Board parent group, which consists of the parent leaders of each school site council. The Regional Advisory Board meetings regularly to offer feedback to our board and regional leadership. California Leadership Organizing Committee (CLOC): The CLOC is a collective of organizing leaders, comprised of families and staff, that unite to do collaborative work advocating for educational justice and beyond in our community.	$0	No

5.3	School-Family Partnership	Rocketship's school leadership team, consisting of the principal, assistant principal, and the business operations manager (BOM) and the office manager (OM), serves as the leaders of the school community. They are responsible for ensuring that a culture where parents are partners in student achievement is realized. To this end, they train and develop staff members in the practices that ensure successful parent engagement. It is their collective responsibility to ensure that home visits are completed, parent teacher conference goals are met, and that the school is on track with all parent engagement goals and responsive to parent input. In addition to the events and volunteer opportunities, the school leadership team will provide frequent communication to parents through written, social media, and other forums. Through the Care Corps program, schools will be equipped to continue to connect families to community resources and ensure that families have access to community resources on an ongoing basis.	$0	No
5.4	Los Dichos	Los Dichos is a parent, family, and community engagement activity where family members read stories that represent cultural and linguistic diversity of students. The books read are multilingual and teach students about various cultures and values. Each book has a dicho, or saying, that teaches a lesson to the students and reflects the story. After reading the book, parents and program facilitators lead activities and discussion on various topics such as family pride, peaceful conflict resolution, and other values. The Los Dichos program includes outreach to families, inviting them to be a part of what is happening in their students' learning. The program helps families, especially those families who speak Spanish or Vietnamese as their primary language, find pathways to help their children to improve their academic achievement and become active participants in the education of their children. The family members begin by taking an introductory course on developmental assets by a Rocketship's Los Dichos staff. We recruit 1 family member from each school site to serve as the Los Dichos lead parent to work in collaboration with school leaders, parents, and Rocketship Coordinator to ensure the program's implementation at each school. Families, Los Dichos lead parents, and Rocketship Coordinators meet monthly as a group to review and discuss lesson plans and activities before going into the classroom.	$13,044	No

5.5	Attendance Initiatives	We work to ensure that our campuses are warm, welcoming, joyful environments that cultivate communities of deeply engaged families so that Rocketeers truly enjoy and look forward to attending school. We understand that regular student attendance is crucial to a student's academic and social progress and is an indicator of family engagement. We have learned that student attendance is impacted by many factors including unmet basic needs, transportation, etc. For this reason, we prioritize wrap-around services and resources for our families, primarily provided through our Care Corps action. In addition to providing a positive school environment and services to support basic needs of families, we have established tiered attendance systems and protocols to support regular school attendance. The Community Schools program also includes a program to address chronic absenteeism. **Tier I:** Sharing community resources to RPS families Promoting the Care Corps Promoting Rocketship Parent University workshops Flyering arrival and/or dismissal to promote program **Tier II:** Train staff & families how to use the self referral ICARE Form Proactive outreach to families in need Partner organization referrals (HMIS- VI-SPDAT/ BACH/ Seneca) Supporting school with community attendance meetings (SART- School Attendance Review Team) Truancy support and attendance calls Support with school wide attendance and cultural celebrations **Tier III:** Chronic absenteeism 9 weeks of case management & wrap around services (weekly 1:1 parent check ins, home visits, etc) Wellness ERHMS collaboration Celebrations (attendance for T3)	$500	No

		Student Group / Individual Check-ins RARB (Rocketship Attendance Review Board) supports and referrals

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #(s)	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness

1.1 Personalized Learning 1.4 Rocketship Reads 2.1 Professional Development 2.3 Data Driven Instructional Practices 2.4 Instructional Coaching	In reviewing the 2024 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that the SED group is at orange level for ELA (-53.4) and yellow level for math (-43.2) and the EL group is at yellow level for ELA (-52.8) and math (-48.7). We had orange level performance in 2024 on the English Learner Progress Indicator, with 40.6% of students making progress towards English language proficiency. In 2024-25, our EL Reclassification rate was 7.9% as of 4/4/25. Our English learners and socioeconomically disadvantaged students need teachers who can provide differentiated instruction to meet their varied needs.	Based on a review of data, we have designed the 2025-27 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Every Rocketship Alma student is provided personalized learning. Personalized learning is about reaching each student with the right content at the right time using the right method of instruction. This process is guided by assessment data. Implementing a regular cycle of assessments ensures that our teachers have accurate data for instruction. Data Driven Instructional Practices provide high quality assessments and professional development time set aside for teachers to analyze data and plan differentiated lessons and supports. Our teachers lead the learning process for every single student we serve in both whole group grade level instruction and differentiated instruction that meets students at their individual level. We use tutors and adaptive online learning programs to augment teacher-led instruction and provide valuable time for students to practice new concepts and develop the mastery they need to advance. This is especially helpful for our unduplicated students who may have very different needs from their peer students. Every week, all teachers receive at least four hours of support outside the classroom, are observed by Assistant Principals at least twice, receive at least two hours of professional development, and have a one-on-one meeting with their coaches. This instructional coaching helps our teachers better understand how to meet the needs of their students, particularly EL, Foster Youth and low-income students. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above).	1.1 CAASPP ELA, 1.1 CAASPP Math, 1.6 English Learner Progress Indicator, 1.7 Reclassification Rate

		However, because we expect that all students struggling with ELA and/or Math will benefit, they are LEA-wide actions.	
3.1 Business Operations Manager 3.4 Operations Specialists 4.1 Enrichment 4.2 Field Trips 4.3 Social Emotional Learning	In 2024, our Socioeconomically disadvantaged students and English Learners had a 0% suspension rate. 2025 survey results showed that 75% of students feel safe on campus and 82% of students feel a sense of connectedness at school. Our English learners and socioeconomically disadvantaged students need a positive school culture and climate that is responsive to their specific needs, nurtures their social emotional well being, and provides enriching opportunities for growth.	Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically, and progress yet to be made. Operations Staffing & Development School-wide Operational Systems & Routines are actions designed to foster that positive culture and climate. Critical components of these additional efforts are operations staff positions--our Business Operations Manager who ensures a safe, clean school campus in order to ensure the best environment for learning and our Operations Specialists who ensure students can safely and efficiently transition during different times of the day. Supporting their efforts is the School-wide Operational Systems & Routines, which provides a structure for the work of operations that is informed by data and enhanced by a continuous improvement cycle and frequent professional development and coaching. We provide Enrichment opportunities and field trips to support the development of the whole child. Outdoor Education and Community Experiences provide opportunities to engage outside of the traditional classroom. Our Social Emotional Learning program provides additional support to remove any barriers to engagement and achievement. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all students struggling with engagement will benefit, they are LEA-wide actions.	3.2 % of students feel safe on campus 4.1 % of student feel connected to at least one staff member 4.2 Suspension Rate

5.1 Family Engagement	Our 2025 survey and internal data showed that 89% of parents were satisfied with their school, 84% of parents were involved in their school, 100% of families received home visits. In order to achieve our academic growth and achievement goals, we know that families are critical partners in the endeavor. We know that families of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Families of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.	A robust Family Engagement program provides families additional avenues for communication, input, and engagement that are tailored to their needs and responsive to their feedback. These actions are designed to meet the needs most associated with our low income students, foster youth and English learners (see above). However, because we expect that all families will benefit, they are LEA-wide actions.	5.3 % of parents are involved (% parents on track to complete participation hours) 5.4 % Home visits completed 5.5 % of parents who are satisfied with their school (reporting as agree or strongly agree on the parent survey)

Insert or delete rows, as necessary.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of the metric(s) being used to monitor effectiveness]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]
[Goal and Action #]	[A description of the unique identified need(s) of the unduplicated student group(s) being served]	[A description of how the action is designed to address those identified need(s)]	[A description of how the action's effectiveness will be measured]

Insert or delete rows, as necessary.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

[Provide description here]

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Rocketship Sí Se Puede Academy is a single-school LEA with greater than 55% unduplicated pupils and is therefore eligible to receive the 15% concentration grant add-on. RSSP does not receive enough additional concentration grant funding to hire additional staff, but instead we are using it to retain staff that provide direct services to students, specifically Operations Specialists, in alignment with Goal 3, Action 1, Operations Staffing and Development. The direct increased/improved services that this will provide to students include supporting arrival and dismissal, meal programs, daily transitions on campus, and recess and lunch for all students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC* Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA

engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

- The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
        - The reasons for the ineffectiveness, and
        - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each

student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

  - School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

  - As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).

  - LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

    - Identify the action as an LREBG action;

    - Include an explanation of how research supports the selected action;

    - Identify the metric(s) being used to monitor the impact of the action; and

    - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to

replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
    - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
    - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

ROCKETSHIP
PUBLIC SCHOOLS

Q4 Rocketship Public Schools Board of Directors Meeting

June 11, 2025

ROCKETSHIP
PUBLIC SCHOOLS

Agenda

1. Opening Items

A. Call to Order

B. Public comment on off-agenda items

2. Consent Items

A. Approve minutes from the May 28, 2025 meeting of the Board of Directors

B. Approve minutes from the May 28, 2025 special meeting of the Board of Directors

C. Reappoint Mike Fox, Julie Miller, Joey Sloter, Raymond Raven and April Taylor to the Rocketship Board of Directors for a term of two years through June 2027

D. Reappoint Julie Miller (as committee chair) to the Rocketship Audit Committee for the remainder of their term on the Rocketship Board of Directors

E. Reappoint Joey Sloter to the Rocketship Executive Committee for the remainder of their term on the Rocketship Board of Directors

F. Reappoint Mike Fox to the Rocketship Business Committee for the remainder of their term on the Rocketship Board of Directors

G. Appoint Raymond Raven to the Rocketship CA Board Committee for a term of two years through June 2027

H. Approve the 2025-26 Rocketship Education Board of Directors Meeting Calendar

3. Information Items

A. Mission Moment

B. Board Updates

4. Action Items: CA Agreements - Review and Approval

A. Approve the Memorandum of Understanding between Rocketship Public Schools and Boys & Girls Clubs of Silicon Valley 2025 Summer Enrichment Program

B. Approve the Agreement with YMCA - Amendment & Renewal Year 2 of 5 Agreement 2025-2026 After School Education and Safety (ASES) Program Grant Expanded Learning Opportunities Program (ELOP) Grant

C. Approve Third Amendment to Memorandum of Understanding (MOU) 2023-2028 between Rocketship Public Schools and Boys & Girls Clubs of Silicon Valley Expanded Learning Opportunity Program

D. Approve Facilities Use Agreement for Rocketship Redwood City Prep

E. Approve the Contract Extension Agreement with Nob Hill Catering, Inc., DBA The LunchMaster

F. Approve the Contract Extension Agreement with Bigbreak, LLC, DBA Chefables

G. Approve the Services Agreement with BrightBee Inc.

5. Action Items: TN Agreements - Review and Approval

A. Approve Amendment 3 of the Food Service Management Contract with SLA Management Inc.

B. Approve the Asset Transfer Agreement (TN)

6. Action Items: CA Operations - Review and Approval

A. Approve the 2025-26 Attendance Calendar for Rocketship Mateo Sheedy, Rocketship Si Se Puede, Rocketship Los Suenos, Rocketship Discovery Prep, Rocketship Alma, Rocketship Fuerza, Rocketship Brilliant Minds and Rocketship Rising Stars

B. Approve Resolution #2025-04 Adopting Literacy Screening Tool for Reading Difficulties

C. Approve Instructional Continuity Plan Addition to School Safety Plan

D. Approve the 2025-26 Rocketship Education Student and Parent Handbook for California

E. Approve the 2025-26 Rocketship Education Employee Handbook for California

7. Action Items: TN Operations - Review and Approval

A. Approve the 2025-26 Rocketship Education Employee Handbook for Tennessee

B. Approve the 2025-26 Rocketship Education Student and Parent Handbook for Tennessee

C. Approve amended leases for Rocketship United Academy, Rocketship Nashville Northeast Elementary and Rocketship Dream Community Prep

8. Action Items: Finance - Review and Approval

A. Approve the Prop 28 Annual Report for Fiscal Year 2024-25 for all thirteen California Rocketship schools

B. Approve 2025-26 Education Protection Account Fund Budget Spending Plans for Rocketship Mateo Sheedy, Rocketship Si Se Puede, Rocketship Los Suenos, Rocketship Mosaic, Rocketship Discovery Prep, Rocketship Brilliant Minds, Rocketship Alma, Rocketship Spark, Rocketship Fuerza, Rocketship Rising Stars, Rocketship Redwood City Prep, Rocketship Futuro, and Rocketship Delta Prep

C. Approve Amended Fiscal Policies

D. Approve the 2025-05 Resolutions of the Board of Directors of Rocketship Education to Establish Authority to Reallocate State and Federal Special Education Funding and to Reallocate Income for Fiscal Year 2024-25

9. Action Items: National CMO Decisions - Review and Approval

A. Approve Lease Agreement for Rocketship Stellar Elementary (WI)

B. Review and Approve the Network Support Fee Deferral and Forgiveness

ROCKETSHIP
PUBLIC SCHOOLS

Agenda

10. Action Items: LCAP Items - Review and Approval
A. Approve Local Control Accountability Plan (LCAP) Federal Addenda
B. Approve the 2024-25 California School Dashboard Local Indicator data
C. Approve the Local Control Accountability Plans (LCAPs) for all California Rocketship schools: Rocketship Mateo Sheedy, Rocketship Si Se Puede, Rocketship Los Suenos, Rocketship Mosaic, Rocketship Discovery Prep, Rocketship Brilliant Minds, Rocketship Alma, Rocketship Spark, Rocketship Fuerza, Rocketship Rising Stars, Rocketship Redwood City Prep, Rocketship Futuro, and Rocketship Delta Prep
11. Break
12. Action Items: Budget - Review and Approval
A. 2025-26 Annual Planning Review and Approval of 2025-26 Budget and all School Level Budgets
13. Closed Session
A. Conference with Legal Counsel – Existing Litigation 2 Cases - Knox vs RSED and V.R. et. al. vs RSED - Code § 54956.9.
14. Action Items: Report Out
A. Public report on actions taken in closed session
15. Adjournment

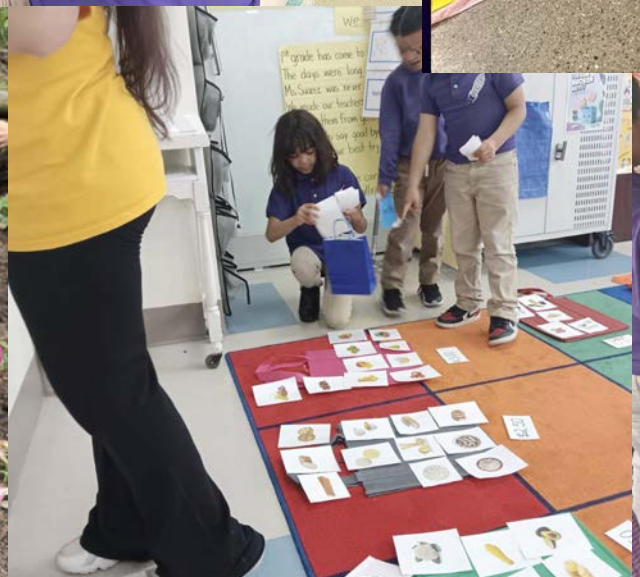
Public Comment

Consent Items

Mission Moment

Rocketship Cares Day

Rocketship Cares Day brings learning to life as all students across the Milwaukee Region **live out our core virtues** through community service.



Each grade level engaged in a focused exploration of a **social issue** impacting our city. Students learned about the root causes of the issue, how it affects individuals and communities, and participated in a real-life simulation to gain a deeper, more personal understanding of its impact.

In the afternoon, students took their learning into the community. Each group participated in a service project directly related to the issue they studied with a community partner, allowing them to give back in a meaningful, hands-on way.

The Bank

s 4 Cans

Community Impact

K4: Created on-campus community gardens, planting fruits and vegetables to promote food sustainability and healthy eating.

K5: Assembled and donated 100 care packages to the VA Medical Center, supporting the needs of local veterans.

1st: Collected and donated over 1,000 pounds of food to Feeding America, addressing local food insecurity.

2nd: Participated in a neighborhood beautification project by cleaning up two local community parks.

3rd: Made 50 handmade blankets for teens receiving care at Children's Wisconsin Hospital, providing comfort and support.

4th: Volunteered at Villa St. Francis and Lutheran Manor nursing homes, engaging with residents and supporting elder care.

5th: Created dog treat goodie bags for the Wisconsin Humane Society, supporting the wellbeing of dogs in local shelters.

Looking Ahead: Expanding Our Community Impact

Building on the success of this year's Cares Day, we are excited to expand our efforts in the coming school year. Our goal is to move beyond a single day of service and establish monthly service projects that provide ongoing opportunities for students to engage with and support our community.

We plan to continue our partnerships with the incredible organizations we've already worked with and are actively seeking to build new connections with additional community partners. Through this expanded model, we aim to deepen student learning, foster consistent civic engagement, and make a sustained, meaningful impact throughout the year.

Board Updates

Action Items: CA Agreements - Review and Approval

4. Action Items: CA Agreements - Review and Approval

A. Approve the Memorandum of Understanding between Rocketship Public Schools and Boys & Girls Clubs of Silicon Valley 2025 Summer Enrichment Program

B. Approve the Agreement with YMCA - Amendment & Renewal Year 2 of 5 Agreement 2025-2026 After School Education and Safety (ASES) Program Grant Expanded Learning Opportunities Program (ELOP) Grant

C. Approve Third Amendment to Memorandum of Understanding (MOU) 2023-2028 between Rocketship Public Schools and Boys & Girls Clubs of Silicon Valley Expanded Learning Opportunity Program

D. Approve Facilities Use Agreement for Rocketship Redwood City Prep

E. Approve the Contract Extension Agreement with Nob Hill Catering, Inc., DBA The LunchMaster

F. Approve the Contract Extension Agreement with Bigbreak, LLC, DBA Chefables

G. Approve the Services Agreement with BrightBee Inc.

Action Items: TN Agreements - Review and Approval

5. Action Items: TN Agreements - Review and Approval

A. Approve Amendment 3 of the Food Service Management Contract with SLA Management Inc.

B. Approve the Asset Transfer Agreement (TN)

Action Items: CA Operations - Review and Approval

6. Action Items: CA Operations - Review and Approval

A. Approve the 2025-26 Attendance Calendar for Rocketship Mateo Sheedy, Rocketship Si Se Puede, Rocketship Los Suenos, Rocketship Discovery Prep, Rocketship Alma, Rocketship Fuerza, Rocketship Brilliant Minds and Rocketship Rising Stars

B. Approve Resolution #2025-04 Adopting Literacy Screening Tool for Reading Difficulties

C. Approve Instructional Continuity Plan Addition to School Safety Plan

D. Approve the 2025-26 Rocketship Education Student and Parent Handbook for California

E. Approve the 2025-26 Rocketship Education Employee Handbook for California

Action Items: TN Operations - Review and Approval

7. Action Items: TN Operations - Review and Approval

A. Approve the 2025-26 Rocketship Education Employee Handbook for Tennessee

B. Approve the 2025-26 Rocketship Education Student and Parent Handbook for Tennessee

C. Approve amended leases for Rocketship United Academy, Rocketship Nashville Northeast Elementary and Rocketship Dream Community Prep

Action Items: Finance - Review and Approval

8. Action Items: Finance - Review and Approval

A. Approve the Prop 28 Annual Report for Fiscal Year 2024-25 for all thirteen California Rocketship schools

B. Approve 2025-26 Education Protection Account Fund Budget Spending Plans for Rocketship Mateo Sheedy, Rocketship Si Se Puede, Rocketship Los Suenos, Rocketship Mosaic, Rocketship Discovery Prep, Rocketship Brilliant Minds, Rocketship Alma, Rocketship Spark, Rocketship Fuerza, Rocketship Rising Stars, Rocketship Redwood City Prep, Rocketship Futuro, and Rocketship Delta Prep

C. Approve Amended Fiscal Policies

D. Approve the 2025-05 Resolutions of the Board of Directors of Rocketship Education to Establish Authority to Reallocate State and Federal Special Education Funding and to Reallocate Income for Fiscal Year 2024-25

Fiscal Policy Updates

As part of our annual cycle of policy revisions, the staff is recommending several substantive changes to the Rocketship Fiscal Policy manual:

1. Clarifying the included and excluded revenue for management fee calculations: This was previously approved (in 2015) as a separate policy and is incorporated here for clarity and simplicity
2. Clarifying that “contracting authority” levels extend to purchase orders and other pre-approvals to facilitate the new RAMP procurement platform
3. Adding language around “Title 1 comparability” - this is done at the request of the Wisconsin authorizer following a compliance review.

Action Items: CMO Decisions - Review and Approval

9. Action Items: National CMO Decisions - Review and Approval
A. Approve Lease Agreement for Rocketship Stellar Elementary (WI)
B. Review and Approve the Network Support Fee Deferral and Forgiveness

2024-25 Network Fee Deferrals/Waivers

- **Wisconsin:**
  - Background -
    - RPS Wisconsin is on track for a $300-400k negative CINA.
    - However, due to a large AR balance, we currently project positive cash at the end of the year.
  - Recommendation -
    - At present, we should take no action on Wisconsin fee.
    - If AR collections are later than expected, we may defer fee to the amount required for positive cash.
- **Rocketship DC:**
  - Background:
    - In its first year of operation, RSED lent RPS DC $2.875mm. RPS DC has paid down $500k of that, but $2.375mm is outstanding.
    - Owing to under enrollment and expenses out of budget, the DC region is tracking towards a $1.44m CINA deficit for the year.
    - Heading into charter review next year, we believe it is critical that RPS DC have a positive CINA for the last year before review.
  - **Recommendation:**
    - RSED should forgive the outstanding intercompany liability from RPS DC.
    - This will enable RPS DC to earn positive CINA for the year.

Action Items: LCAP Items - Review and Approval

10. Action Items: LCAP Items - Review and Approval

A. Approve Local Control Accountability Plan (LCAP) Federal Addenda

B. Approve the 2024-25 California School Dashboard Local Indicator data

C. Approve the Local Control Accountability Plans (LCAPs) for all California Rocketship schools: Rocketship Mateo Sheedy, Rocketship Si Se Puede, Rocketship Los Suenos, Rocketship Mosaic, Rocketship Discovery Prep, Rocketship Brilliant Minds, Rocketship Alma, Rocketship Spark, Rocketship Fuerza, Rocketship Rising Stars, Rocketship Redwood City Prep, Rocketship Futuro, and Rocketship Delta Prep

LCAP Federal Addendum

- The LCAP Federal Addendum is a supplement to the LCAP meant to ensure that eligible LEAs have the opportunity to meet the LEA Plan provisions of the ESSA.
- Describes in narrative form how Rocketship schools will address the ESSA provisions for federal funding (Title I, Title II, Title III, Title IV) not included in the LCAP and provides information on where ESSA provisions addressed in the LCAP can be found
- In the Federal Addendum, we document how we will maximize the use of federal funds to support underserved students
- The Federal Addendum has received past approval from the board, and this update aligns the federal addendum with the 25-26 LCAP and current Rocketship practices

Local Indicators

- California's accountability system is based on a multiple measures system that assesses how local educational agencies and schools are meeting the needs of their students. Performance on these measures is reported through the California School Dashboard.
- Local Control Funding Formula (LCFF) priorities for which there is no state level data collected are referred to as local indicators.

Progress is publicly reported and helps to inform the LCAP process and planning.

Local Indicators We Report On

Priority 1: Basic Services and Conditions (Facilities, Instructional Materials and Teacher Mis-assignments/Vacancies)

Priority 2: Implementation of State Academic Standards

Priority 3: Parent and Family Engagement

Priority 6: School Climate

Priority 7: Access to a Broad Course of Study

Indicators Report for 24-25

	Priority 1	*Priority 2*	*Priority 3*	*Priority 6*	*Priority 7*

LCAP Approval

- The Board has received final versions of the 25-26 LCAP for all thirteen CA schools.
- LCAP Public Hearing was conducted at the Rocketship Education Board of Directors meeting on May 28, 2025.
- Additional input has been incorporated, including feedback from the Charter SELPA, CA Board Committee and the most up to date budget numbers
- At this stage, we seek final board approval of the LCAPs for all thirteen CA schools.

Break

Review 2025-26 Annual Plan and Recommend 2025-26 Budget to the Rocketship Board of Directors

Objectives of this session

- Revisit annual planning process and priorities tied to Rocketship' 5-year plan and goals
- Review enrollment progress to date
- Understand current regional and school budgets and next steps for approval and revisions
- Review One NeST budget model and team targets

SY25-26 Annual Plan

- Revisit annual planning process tied to Rocketship’ 5-year plan and goals
- Revisit proposed SY25-26 priorities

Objectives of Annual Planning process

Align on priorities for the upcoming year that track towards our 5-year Strategic Plan objectives

Allocate time and resources to drive on business-as-usual and annual priorities, while ensuring we track towards National NeST sustainability

Include stakeholders (Board, NET, NeST and school leaders) in the process in a genuine yet efficient way

Ultimately, receive Board budget approval at the May board meeting

Reminder: Our Year 2 goals are set to stay on track toward our 5-year goals

	Metric	Network-wide	CA	WI	TN	DC
Quality Schools	▪ Rocketeers are on track* for success to/thru college	44%	48%	30%	41%	29%
	▪ Rocketeers enrolled 3+ years on track in reading for success to/thru college	47%	54%	35%	43%	40%
Community Power	▪ Community Power composite score	85%	*To be determined*			
Scaled Impact	▪ Lifetime Rocketeers served	36,500	24,800	2,450	5,300	3,100
Culture of excellence & belonging	▪ Net Promoter Score	15	15	15	15	15

** 67th %ile on NWEA MAP*

We are in the last phase of annual planning and budgeting for SY25-26

= where we are

	Priority setting *Jan*	Team planning *Feb-Mar*	Reconcile and finalize *Mar-Apr*
Objectives	Set national and regional priorities to inform team plans	Determine team focus areas and build team budgets	Compile single plan and budget for Board approval
Activities and Milestones	▪ Review 25-26 revenue and financials ▪ Assess status against strategic plan; propose refined 25-26 priorities ▪ **Jan 14-15 NET:** Align on National and Regional priorities ▪ **Jan 23:** Sub-group check-in #1	▪ **Feb 4-5 NLC:** Share out priorities and financial overview ▪ Implement training on team planning ▪ **Feb 24-Mar 7:** Team priority setting ▪ Provide feedback to teams; refine as needed ▪ **Mar 14:** Sub-group check-in #2 (update via email)	▪ Set team budget targets ▪ **Apr 21-30:** Team budgeting ▪ **May 5**: Roll-up all plans and budgets; lock school budgets ▪ **May 6-7 NET:** Finalize annual plan and budget ▪ **May 9:** Sub-group check-in #3 ▪ **May 20+:** Regional and National board meetings

Our SY25-26 top priorities

	Quality Schools	Community Power	Scaled Impact	Culture of excellence & belonging
National	▪ Curriculum adoption and best practices ▪ Instructional talent development and retention ▪ Family engagement ▪ Stay the course on information systems	▪ Roll out resources for all regions ▪ Pause national investment in function until more reg. capacity	▪ Full enrollment ▪ Regional growth and new region exploration	▪ Finalize, implement and refine core model ▪ Knowledge management ▪ Top 3 action plan in response to surveys/eNPS
CA	▪ Strengthen personalized learning ▪ Elevate family academic partnership and attendance	▪ Strengthen parent leadership / community partnerships ▪ Codify core advocacy systems and practices	▪ Sustain healthy enrollment ▪ Explore new region growth and consolidation strategy	▪ Set school and NeST eNPS goals ▪ Use feedback tool regularly ▪ Embed teacher choice in PD
WI	▪ Elevate literacy achievement ▪ Elevate family academic partnership and attendance	▪ Define strategy and reporting structure ▪ Codify core advocacy systems and practices	▪ Sustain and scale enrollment ▪ Successfully open WI3 opening	▪ Set school and NeST eNPS goals ▪ Elevate teacher voice ▪ Elevate recognition
DC	▪ Achieving programmatic excellence ▪ Conduct regular PD, real-time coaching, feedback	▪ Develop parent leadership approach to maximize community impact ▪ Hire Family Organizer	▪ Drive full enrollment ▪ Renegotiate Apple Tree ▪ Successful charter review	▪ Cultivate positive adult culture (staff recognition, regular coaching, gather more input)
TN	▪ Build literacy instructional coherence ▪ Provide targeted focus school support	▪ Increase friendships, parent capacity, and resources	▪ Drive full enrollment ▪ Increase regional footprint: TN4 (26-27) & TN5 (27-28)	▪ Cultivate TN pride to drive retention (staff recognition, ED staff advisory group, regional traditions)

SY25-26 Annual Plan:

Resourcing towards the Annual Plan

National and Regional Investments in Regions

Region	Supports from across National Teams	Other Supports
CA	• Kennycia Hairston still balancing national and regional role (ISE) • Sam continue support in CA	• Continue suite of supports form this year (1:1 tutoring, external coaching)
DC	• Eric Neumann supporting DC • Kristy Ochs allocated to DC at 80% (from CSGF ABC grant) • Vanessa Barry supporting enrollment	• Strategy team project managing DC key action items • Investing in 1:1 reading tutoring program
MKE	• Sam Turner continuing support in MKE • Carlos Melendez supporting enrollment	• Exploring DoS coaching
TN	• Hired former CA DoS • Eric Neumann supporting TN	• Secured grant for additional coaching/ development • Exploring DoS coaching
National	• Kristy Ochs hired (CSGF ABC grant) • Eric Neumann as VP, East Coast	• Dedicated funds to transition SZ data • Hired +1 for data analyst • Improved visualizations in JetPackED; adding IXL • Exploring Schoolytics

Defining Success for 2025 Budgets

Our goal is for each Rocketship school to break even on public dollars in 2025-26.

Why: Our vision to be sustainable on public revenue makes us more resilient, more scalable, and proves what's possible.

Our goal for the budgeting process is for school leadership teams, regional leaders, and board members to understand the inputs that lead to our budgets, understand the levers available to us, and **collectively** make the best decisions we can, with the information we have.

We will judge success by the completion of high-quality school budgets on time, by receiving approval from our boards, and by the feedback we receive from school and regional leaders.

Background and Context: 2024-25

- In the current year, many of our school budgets were built *backwards*:
  - "What is the enrollment we need to afford the spending we have?"
- As a result, many of our enrollment goals retroactively seem out of reach
- Additionally - in our desire to maximize overall enrollment, we sometimes created challenging cohort sizes
  - eg enrolling *just enough* students to trigger a 3R, rather than pause at a more efficient fully-enrolled 2R cohort.
- This year, we want to take a different approach:
  - "What is the spending I can afford with the enrollment I can realistically expect?"
  - "What is the right number of students in each grade level to optimize the staffing I have?"

First Step: Modeling Enrollment

Our analytics and recruitment teams reviewed potential enrollment school-by-school and grade-by-grade at each campus using a number of factors:

1. Trends in application data
2. Trends in re-enrollment and attrition
3. Neighborhood population trends

Combining that data, we settled on a predicted enrollment for each school.

Working with the program team, we then reviewed that predicted enrollment and made small adjustments up or down to reflect efficient cohorts that optimize our resources for our Rocketeers.

How We Modeled Enrollment: One example.

	actual enrollment 2021-2022	actual enrollment 2022-2023	actual enrollment 2023-2024	**24-25 BSP**	actual enrollment 2024-2025	**25-26 analytics model projection**	**Initial Enrollment Target**
Grade	2021	2022	2023		2024		
Pre-K	23	27	40	93	67	45	80
K	110	105	93	100	76	120	95
1st	111	103	101	100	84	78	72
2nd	112	92	91	84	72	72	78
3rd	99	97	96	75	70	67	78
4th	81	86	90	84	77	63	60
5th	44	66	80	84	81	69	67
Total	580	576	591	**620**	527	**514**	**530**

This school, “Rocketship X” has seen a recent decline in its enrollment overall after a steady recent past.

While we hope enrollment bounces back, because RSX has shown consistent declines in cohort size year-over-year, we don’t want to bet on huge backfill numbers.

As a result, our initial budget will be built around 530 students at RSX with opportunity to outperform.

Budgeted Enrollment Target for 2025-26

Region	21-22 Actual	22-23 Actual	23-24 Actual	24-25 Budget	24-25 Actual	25-26 Budget
CA	6,558	6,495	6,375	6,560	6,143	6,163
DC	1,534	1,479	1,358	1,430	1,189	1,333
TN	1,032	1,345	1,421	1,440	1,408	1,545
WI	718	702	635	783	718	995
Total	9,842	10,021	9,789	10,213	9,458	10,036

Enrollment Highlights:

- CA: Projecting small increase overall
- DC: Projecting recovery in K/1st grade, other grades flat
- TN: Growth from addition of 5th grade at RDCP and RUA
- WI: Projecting minor growth at RTP/RSCP plus addition of WI-3

SY25-26 Annual Plan:

Enrollment Progress Update

Enrollment terms & definitions

Budget Target: This is the minimum number of students needed to be enrolled throughout the school year to afford the staffing model.

Enrollment Target: The number of students that should be registered the day before the first day of school. This target is ~108% of our budget target to account for beginning of year attrition.

Application Target: We need 2 applications for every 1 open seat. The 2:1 ratio for is based on historical performance as well as a nationwide enrollment study by Charter School Growth Fund.

2025-26 Enrollment as of June 4, 2025

	25-26 Budgeted Enrollment	25-26 Enrollment Targets	Enrollment Status (as of June 4, 2025)	Progress to Budget Target (as of June 4 2025)
CA	6,163	6,692	5,512	89%
WI	995	1,095	793	79%
TN	1,545	1,685	1,374	89%
DC	1,333	1,464	991	74%
RPS	**10,036**	**10,936**	**8,670**	**86%**

Projected enrollment by August 30 (as of June 4, 2025)

This projection model incorporates both new student projections and returning student projections. Both the new student and returning student models use 3 years of historical data to calculate conversion rate (student retained or new student enrolled) by August 30th of the enrollment year at the school-grade level (to account for school and grade variability).

* WI 3 projection does not have any historical reference. This projection assumes 80% of students who indicated they will return actually do return (~126) plus 65 new enrollments (34 new enrollments as of June 4).

Application generation

Regional assessment and key summer interventions.

Region	Assessment	Key interventions (additions to standard recruitment and marketing activity)
CA	• Santa Clara county enrollment continues to decline, right-sizing our sustainable share is a multi-year strategy. • Region needs more leads and applications to reach goals (currently 42% to app goal).	• Kinder and First grade are priorities for app generation at 5 schools (ROMO, RSA, RMS, RRWC, RDL) • Opening TK at ROMO to offset anticipated Kinder shortfall. • Hosting and promoting virtual Kinder Readiness event to support lead generation. • Increased outreach to families at 5 district schools closing. • Increased digital ad spend across region (strong ROI at ~ $150 per app).
WI	• If current 2 schools maintain historical avg, they will hit goal. • Late start to Stellar acquisition and launch of app generation (April) and system dependencies at Carmen are major impediments to progress.	• Region has high-volume of leads (over 700). Deploying school staff and National NeST resources to support high-intensity call campaign. • Pushing to fully enroll K4 and K at RSCP early to leverage waitlist for Stellar K4 and K.
TN	• Expansion to 5th grade across all schools has region poised for growth over last year. • Region is on track overall, but lower grades at RNNE are projected to fall short.	• Deploying Kinder Readiness Kit campaign in northeast Nashville (integrating field outreach, digital campaign, and incentive for enrollment completion). • Implementing place based marketing across all 25-26 school bus stops.
DC	• Highest risk region, enrollment shortfall last year is persisting into this year. • Averaging 10 apps per week in May, need 4x improvement.	• National is providing dedicated support of CSGF's top enrollment consultant to provide weekly guidance. • Increasing investment in digital lead gen ads and deploying school team task force for high-intensity lead calls campaign.

Enrollment conversion

Regional assessment and key summer interventions.

Region	Assessment	Key interventions (additions to standard enrollment conversion practice over summer)
CA	• Paper enrollment packet processing remains a bottleneck (~ 45 min. per packet to upload to PowerSchool). Exploring system improvements for next season is a key priority.	• Expanding off-campus enrollment work time - uninterrupted time to focus on funnel movement • Deploying NeST volunteer support to expedite enrollment processing at priority schools. • Implementing weekly 1:1 coaching for RMS and RRWC office managers.
WI	• RSCP is well positioned to reach goal (converting 70% of apps to enrollments). • RTP is converting enrollments below historical average, needs attention. • We do not manage enrollment system for Stellar, dependencies on Carmen remain a barrier to accelerating progress.	• Region reassigned enrollment conversion ownership at RTP. • Carmen and RPS synced enrollment dashboards as of May 15.
TN	• Dream and RUA are well positioned to reach goals. • RNNE is converting enrollments below regional average, especially Kinder.	• Deploying Kinder Readiness Kit as incentive for enrollment completion. • National Director School Communities providing 1:1 coaching with RNNE and new RUA office manager to support on enrollment conversion.
DC	• Region completed strong re-enrollment push to position for stronger retention YOY. • Strong funnel management is a priority across region, especially at RISE.	• Region reassigned enrollment management to Senior Director, Student Services. Managing in partnership with school leadership teams. • Extending enrollment hours to families and implementing enrollment events to drive funnel movement.

FY26 Budget at a glance….

- Enrollment budget is up 53 Students
- Revenues are budgeted to decrease $3.3m primarily due to lower restricted grants.
- Expenses are down $3.2m due to lower budgeted spend services and other operating expenses and books and supplies.

- FY26 Budget at a glance….
  - Enrollment budget is up 60 students across RSCP & RTP.
  - Revenues are budgeted to subsequently increase $1.5m primarily due to enrollment increases.
  - Expenses are $1.1m higher due to full staffing. RSCP is balance but starting the year off tight.

NeST Budget Summary

- After several years of enrollment misses, NeST expenses are out of alignment with our revenue sources - now and projected for the next several years.
- The big shift in how we'll talk about budget and reporting this year is that we are one NeST:
  - Regional and National is an org chart distinction, not a financial one.
  - 10% and 5% is a cage.
  - As we think more fluidly about regional vs national roles (e.g. recruitment) and needs, we need to be more fluid about finances.
- We need to manage to a single, sustainable bottom line for all of NeST.
- Our national executive team met several times throughout the spring to set spending targets for all of our national and regional teams which, taken as a whole, allow us to operate within our fee and philanthropic revenues.
- We will continue to report to regional boards on regional NeST spending separately from regional performance.

Revenue	Amount
Network Support Fee	$29,784,385
National Fundraising	$3,250,000
Regional Fundraising	$1,650,000
Other Revenue	$1,000,000
Revenue Contingency (5% of Fee)	-$1,489,219
Total Revenue	$34,195,166
Team Expenses	Expense Target
Executive	$2,915,833
Business	$4,842,225
Legal, Governance, Compliance	$1,928,453
Marketing, Communications, Development	$1,476,729
Program	$4,465,389
Strategy, Analytics, SIS, IT	$3,131,639
Talent	$4,599,445
CA Regional Team	$5,174,372
DC Regional Team	$1,425,000
TN Regional Team	$1,933,167
WI Regional Team	$1,510,593
Miscellaneous (Contingency and Depreciation)	$750,000
Total Expenses	$34,152,844
NeST Surplus/Deficit to Revenue	$42,322

Budget Next Steps

1. All regional business committees, achievement committees, and full boards are being briefed on budget plans
2. These "June budgets" once adopted create an anchor for bottom line performance.
3. We have already started working on our "August budgets", making several changes
    a. Updates to government funding inputs (eg final DC budget has slightly higher per pupil, etc)
    b. Updates to expense inputs - final contract amounts, staff benefits elections, salary actuals from filled roles and turnover
    c. Updated enrollment projections and expense adjustments based on enrollment
4. August budgets will go to business committees and full boards in the August/September meeting cycle and will be what we report against throughout the year.

Approval

Motion to:

Approve the 2025-26 Budget and all School Level Budgets

Closed Session

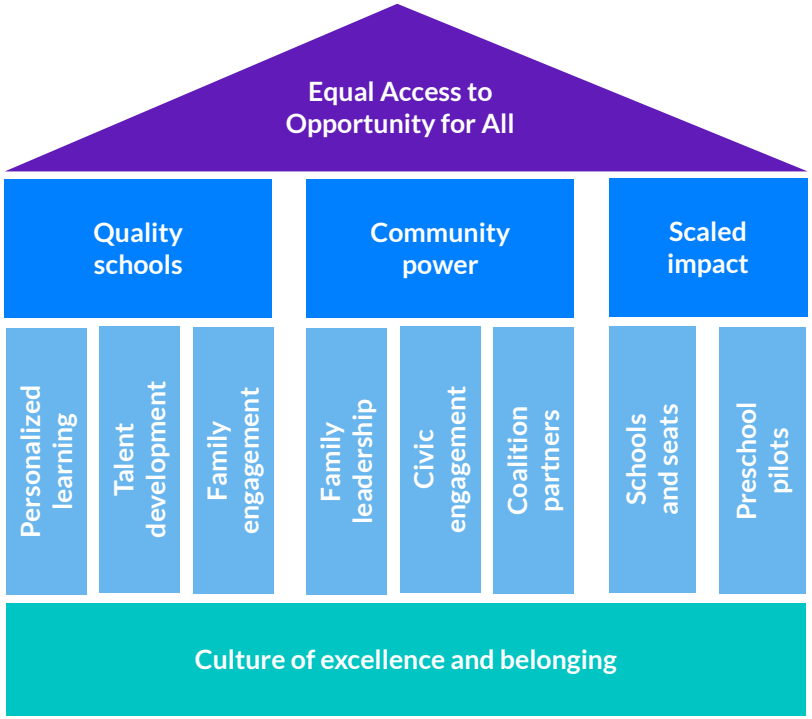
The Board is in Closed Session.

Rocketship Board of Directors Meeting

June 11, 2025

Closed Session: Report Out

Adjourn



Appendix

Review 2025-26 Annual Plan and Recommend 2025-26 Budget to the Rocketship Board of Directors

Reminder: Our 5-year strategic plan identifies multi-year priorities that drive towards our levers and enablers while annual planning is focused on one-year

Aspiration – the north star, the impact we are aiming to have

Levers – the objectives we will focus on in the next 5-years to reach our aspiration

Activities – focus areas that we believe drive the above Levers

Enablers – foundational components that make the Activities, Levers, and Aspiration possible

Priorities – the specific actions (annual or multi-year) that we are driving on to operationalize the above Activities

Reminder: Everything we do is rooted in our 5-year strategic plan goals

	Metric	Network-wide	CA	WI	TN	DC
Quality Schools	▪ Rocketeers are on track* for success to/thru college	55%	60%	35%	50%	40%
	▪ Rocketeers enrolled 3+ years on track in reading for success to/thru college	60%	65%	42%	55%	48%
Community Power	▪ Community Power composite score	95%	*To be determined*			
Scaled Impact	▪ Lifetime Rocketeers served	44,000	27,500	3,000	7,000	4,000
Culture of excellence & belonging	▪ Net Promoter Score	30	30	30	30	30

Since our last update, we have engaged in rigorous problem-solving and syndication to build confidence and trust in the annual plan

Org-wide feedback

We solicited feedback from at the NLC (60+ leaders), and conducted huddles with key school stakeholder groups (School Leaders, Business Operations Managers, Office Managers)

Team plan development

Once National and Regional org priorities were set, each team developed team plans that were aligned to the org-wide priorities

NET alignment

There has been dedicated NET time at NLT meetings, RLT meetings, and NET offsites, to review, stress test, and stack-hands as OneNeST on org-wide and team priorities
